Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Toronto,
General Agents fo Ontario.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any thing won so wide and so universal a reputation, in so short a time, as this CHERRY PECTORAL. Ever since it was first made, it has been constantly growing in favor with the people, and among physicians everywhere, as they have learned its virtues by experience, in their own families and practice. As it has grown higher and higher in the estimation of the world, as it has become better known, it has manifested more and more power to cure the various affections of the lungs and throat, have controlled its sale, and given it to the world as the best remedy they could employ in their own families, or recommend to their friends and patients, that the public could obtain. As a safeguard against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes liable to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the CHERRY PECTORAL. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the CHERRY PECTORAL they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the CHERRY PECTORAL in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or even assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from [illegible], miasm, or intermittent poisons.

As the entire families, in [illegible], have been and still [illegible] by Ayer's Cure, and as we will warrant it in every case where it is properly administered, it is needless to promise it here. Our Agents everywhere are supplied with it, and Druggists can obtain it of the Wholesale Dealers. Our Almanac, containing certificates of its cures in your neighborhood, with full directions for its use, is furnished gratis.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will retain sights aboved by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. Because no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. Because the system of fitting is an improving guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. Because we never tire the eyes and lost many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Select Poetry.

IN LIQUOR.

A mouse one day on frolic bent,
About a brewery rambling,
Into a beer-butt made its way
And sullied, with stain and grumbling.

Unto a rat which passed that way,
Tho' to its sight small bodied,
"Brave pass, come fill up beer, I pray,
And I'll prove ever goodwilled."

"How would it help you to the butt,"
Replied Grimalkin, grimly,
"Where I an alien should on you feast—
And where would be the shining?"

"And better so than hurry to drown,
Dear pass—as help me bounty,
And I'll to you my life pay down,
And will but call you giddy.

Quick, quick! or you will be too late—
I'm pale, I am drowning!"
Pass looked him out, but, luckless fate,
The beer flowed o'er her drowning.

The mouse she dropped, which sped away,
And as its hole made scuttled;
Pass, disappointed with her prey,
With cruel and anger wuttered.

"Come from that hole," she cried, "and room
With me in vengeance flowing!"
"Excuse me, pass, I'll keep at home—
No mair shortbeer your supper."

"You cheating rascal! Quick, oh think!
You promised I should eat you,
If I would help you: now you shrink—
Come out, let me entreat you."

"I know I promised," Mouse said,
Yet wonder not, nor blister,
For when such promise it was made
You knew I was 'in liquor.'"

PARLIAMENTARY.
MILITARY COLLEGE.

Mr. Ross, (Victoria), in rising to move the House in to Committee on certain proposed resolutions for the establishment of a Military College in one of the garrison towns of Canada, said that the object of the Government was to have a military institution very much the same as that at West Point or the military schools of England. An institution of this sort would, of course, be new to Canada, and must be commenced on a small scale, and with a limited number of cadets. It was proposed that at first two cadets should be admitted from each Military District, so that the total number would not exceed the first year more than twenty-two or twenty-four. The officers would be at first, a commandant, two professors, and such other officers as would be necessary to carry on the College on the scale indicated. It was proposed to admit the cadets between the ages of 16 and 21, and to continue their course of instruction four years. At the expiration of every year the same number would be admitted as at the commencement, and a certain number would be prepared to leave. It was not to be supposed that all who entered the school would continue to receive instruction during the full time. Some would be found to be fit for instructing the other cadets, and some might become discouraged and ask permission to leave the school. The number he had mentioned, however, would be kept up, and the Government hoped that the institution would be one which would make its mark in the history of the country, and produce great and beneficial results. It was proposed that everything connected with military education, whether in the branch of artillery or in those of cavalry, engineering, and infantry should be taught in this school, as well as such other subjects as would be necessary to qualify cadets for all the duties which they would be required to perform in connection with their profession. Some thought that it was desirable to establish the institution near the City of Ottawa, where it would be under the supervision and direction of the Government, and open to the inspection of members of Parliament; but, for several reasons, this view should not be entertained, and it was the intention of Government to prepare such buildings as they now have at their disposal in some one of the garrison towns of the country, and there locate the College. It was impossible to say at the outset what the expense of this new institution was going to be. Of course the salary of the Professors and of the Commandant must be known and stated. A certain amount would be placed to the credit of the cadets, and out of this they would have to live according to military rule and system. It was supposed that the expense for the first year would be about $8,000. Correspondence he had received from all parts of the Dominion stated that there would be no inducement held out to young men to attend this institution, because there would be no use, after they had left it, for the education they had received. If they looked into the history of the United States, however, they would find that the men who had been educated at West Point had occupied many very prominent positions in different parts of the Union, and been connected with different industries of the country. Some of them had attained high positions as engineers; some of them had distinguished themselves in one branch of education, some in another; some of them even turned clergymen after they finished their education at College, and therefore the Church, as well as the State, might receive benefit from the institution which the Government proposed to establish. (Hear, hear.) In this country they found that a great many of our officers who had come out from England were going to be old men, and some of our cadets might look forward to occupying the positions in the Imperial army formerly occupied by them men. Some of these young men might also wish to distinguish themselves in Parliament. Some of them might, in future, fill the office which he (Mr Ross) now did, and some of them might occupy the position now held by the Hon. the Minister of Public Works. (Hear, hear.) He would not now go fully into the details of the scheme, because he would take the opportunity of explaining the Bill when it came before the House. He was happy to say that the large amount of correspondence he had received showed that the new West Point, as he might call it, had become very popular already. When the Bill was introduced it would receive, he had no doubt, that consideration from both sides of the House that it would deserve, and be made as perfect as possible. He moved that the Speaker do now leave the chair.

Mr. Tupper asked how the cadets would be selected.

Mr. Ross said that they would be selected by a Board of Examiners.

Mr. Tupper said in order that there might be no partiality of any new military district with that of West Point, it would be well to place it at an east point. (Hear, hear.) He thought that there was no city which could offer advantages equal to those of Halifax as a place for a school of this character. At that city cadets would have the advantage of witnessing the evolutions of all branches of the regular service.

Mr. Domville asked how cadets would be admitted into the College, by nomination of persons having patronage at their disposal, or by competitive examination.

Mr. Ross said that there would be a Board of Examiners, and those who wished to get into the College would have to pass an examination with regard to their educational standing. They would have to pass a medical examination.

Mr. Domville did not know how the Minister of Militia proposed to turn out clergymen and doctors, as well as officers of infantry, artillery and engineers from this single school, when there was a school for every branch of the service in England, and cadets were not admitted into them after the age of twenty.

Mr. Masson thought that the location of the College might very well be left to the Government. He congratulated the Government on having determined to provide for the defence of the country as they proposed, and thus adopted the policy of their predecessors.

Mr. Bowell asked if, when this College was established, the different military schools now open would be abolished. With reference to the place at which this College would be established, he hoped the leader of the Government would be consistent, and not locate it without the consent of the House.

Mr. Mackenzie thanked the member for Terrebonne for his cordial congratulations of the Government on the adoption of this scheme, but he Mr. Mackenzie, had been under the impression that he was the originator of this scheme himself. With reference to the remarks of the hon. gentleman that officers were educated in West Point College in artillery, in infantry, in cavalry and in engineering, and these gentlemen had not only proved themselves during the war to be good soldiers, but during the survey for the American Pacific Railway, excellent engineers. He thought some of the gentlemen educated in our military college might be employed in connection with the great public works we were about to enter upon, unfortunately if it ever became necessary to send a large force into the field, they would be a vable as officers for it. In reply to the remarks of the hon. member for Hastings, he said he was ready to admit that when a Government asked for a sum of money for Public Buildings they should give the fullest information as to where it was to be expended but in this case the money had already been voted. With reference to the location of the school, he said the Government were under the impression that they could establish the college without any other expenditure than that for commandant, professors, and allowances to cadets.

Mr. Walker advocated the claims of London to the location of the college in that city. He would suggest to Government that if instead of calling out for training each year the full force of each company they would only require a portion of men to come out, they would be able without any additional expenditure to pay the men who did drill more than they had hitherto received, and while they would then have a large proportion of the enrolled force of the country well trained, they would still have as many to call upon when they required them as hitherto. He considered drilling at headquarters a farce and thought it should always be done in brigade camps.

Mr. Casey said he thought the general idea of a Millitary College was a good one, but Government ought to see that the scheme did not lose its benefit as ordinary Military Schools had by the cadets going into other occupations He was of opinion that no one should be admitted to this College who was not provisionally attached to some company as an officer. There was no doubt that the Militia was not now in the state of efficiency which was desirable, and the principal reason for this was that there was such a great difference in the personel of the corps that went under drill each year. He thought the only remedy for this was to merge all the Volunteer forces into one, and to make every one, liable to serve. The present time devoted to drill in camp was too short. He thought every one who enlisted should be compelled to serve three years, and should not be allowed to re-enlist, so that new blood should be introduced.

Mr. Moss said the members from the Maritime Provinces were so peaceable and non-combative that he thought it would be impossible to place such warlike establishment in those Provinces.

Mr. Mitchell said that Government advantageously strike off half million in addition to the half million they had already struck off. If we get a reciprocity treaty there would be still more reason for making a further reduction. This playing at soldiers was unnecessary in a country like this though it might be necessary to have a military force in the North-West. He did not justify expenditures of the late government in past years, and thought a considerable reduction might have been made in the Militia estimates.

The resolutions were adopted, reported, and concurred in. A Bill founded thereon was then introduced, and a first time read.

PACIFIC RAILWAY AND CANAL IMPROVEMENT LOAN.

Mr. Cartwright, in moving that the House go into committee to consider certain proposed resolutions on the subject of raising by way of loan, for the purpose of the construction of the Pacific Railway, and the improvement and enlargement of the Canals Canada, a sum of money not exceeding $8,000,000, said the object of the Government was not necessarily to borrow this sum of money at once, but under the terms of the Imperial Guarantee Act it was found desirable to ask for power to borrow an amount not exceeding eight millions sterling. The object was simply to put this government in a position to obtain, if they required it, a certain portion of the Imperial guaranteed loan.

Mr. Mitchell asked if the guarantee was not based on the idea that the whole system of a Canadian Pacific Railway should be constructed from the Canadian system of railways to the shores of the Pacific, and if so, whether there had been any correspondence with the British Government on the subject.

Mr. Cartwright said that under the Canada Public Works Loan Act, the guarantee was for the construction of our canals as well as of the Pacific Railway, and we were entitled to claim at least a portion of the guarantee. He did not think the Imperial Government were likely to refuse to consider the application.

Mr. Young thought it unfortunate that any member of the House should have suggested any doubts on this subject. He thought the common sense practical way in which the present government intended to deal with the matter would commend it to the Imperial Government.

Mr. Tupper said the country was committed to a large expenditure for public works, and it was desirable to raise as much as possible by way of loan. He hoped no difficulty would be thrown in the way of speedily obtaining the guarantee.

The House then went into Committee, Mr. Young in the chair.

The resolutions were adopted, reported and concurred in; a Bill founded thereon was then introduced and read a first time.

Mathematical Science.

The use of mathematical science is as little understood by many as the sciences themselves. This is quite natural, for, according to the current belief, atithmetic is the science of numbers: what, then, is the use of any other? Schoolboys think that, when they thumb over their arithmetic, they are fit for any business. All our writers on arithmetic define it—"The Science of Numbers;" why then blame boys for what they have been taught by their highest authority? Arithmetic is not the science of numbers. This is a bold expression. Let us see if it be true. Here is a merchant, he performs all his calculations by arithmetic; here is a banker, broker, collector of taxes, etc., their calculations are performed by arithmetic. Here we stop. Arithmetic, without offering a definition, goes not one step beyond commercial life. This must be strange to the schoolboy. Look at our country—3,000,000 square miles. How do we do it—by arithmetic? It has no more to do with it than with shoemaking. Here is my farm, from which I want 37 acres cut off, parallel to the State Road. How is it to be done—by arithmetic? It has no more to do with it than baking. Here is a site on which we must have a public building, but the master, are he can commence, must get the plan from an architect. How is the plan drawn—by arithmetic? Arithmetic has no more to do with the calculations of architecture proper (save the cost of materials) than with making butter. Here is a machine-shop: come and look at all the wheels, belts, pullies, etc; look at the arrangement! How were they placed—no small matter—by arithmetic? It has no more to do with the calculations of a machine-shop than with sawing wood. The ship Atlantic is in port, bound for Liverpool. How will the captain steer her thither—by arithmetic? No; it has no more to do with sea calculations than with fishing. Our year contains days, hours, minutes. How has this been found out—by arithmetic? No. See that curve on the railroad, outer curve elevated, for what? See that suspension bridge, tunnel, steeple, height of the Andes. How were these things done or found? The schoolboy says by arithmetic. We say, No. Here are barrels filled with liquid for market here or in Europe. How are they measured—for measured they must be?

We see a man in any business outside of commerce, that man follows certain mathematical *laws*, seldom of his own study; generally such men have books containing a well-digested *code of laws*, in the shape of RULES drawn up by some eminent mathematical scholar. Hence the difficulty of finding a man successful in anything to which he had not been bred. Had Archimedes left his geometrical diagrams in his study, the Romans would have been masters of Syracuse sooner. Geometry, not arithmetic, saved the city. Had Newton and his peers left their mathematical investigations, and turned the energies of their mighty minds to insignificant things, it is morally certain that our mechanical works would be few, clumsy and defective. Look at the grist-mill of old. We swains see one of these men mauntering by the roadside, incapable of the common enjoyments of men, from the abstruse nature of their studies, and look on them as fools; yet their works may overturn all the existing modes of life, and give a new direction to the energies of man. Archimedes drew mathematical figures on his *body*, which had been anointed with oil, in the theatre, when forced thither by his friends. So says Plutarch.

Arithmetic is a collection of very crude rules, and cannot be taught successfully, except by the sciences of geometry and algebra combined. Our books of arithmetic require these sciences, I aver to teach.

Barrels, etc., are measured by conic sections; the calculations of architecture, marine investigations, machine-shops, altitude of mountains, level and curve of railroads, etc., are all wrought out by abstruse mathematical investigations, of which arithmetic hardly forms the A B C, or introduction.

Any young man with ambition to excel, possessing energy, industry, tact and talent, and the aid of a good teacher, can learn the essential parts of these sciences in a few years. Then he is a theorist. He must go to the machinist, engineer, or architect—to the work-shop the office, or the sea. After years of practice, he is a master. How difficult for the school-boy to understand what is arithmetic! How difficult for some parents to understand the necessity of these sciences for their children—anything beyond arithmetic! How difficult for teachers who have capacity to introduce anything beyond the ordinary routine—these plain and abstruse sciences, by which the Egyptian discovered the boundaries of his farms, when old Nile's flood had passed away; by which Archimedes saved Syracuse, and rendered it famous as his tomb! It is difficult indeed to understand how an engineer will open a tunnel on each side of a hill, not blasting to work, meeting, without any *guess*, in the right line within.

If the baker makes an experiment in baking, and fails, it is a small matter; but if an engineer makes an experiment at a tunnel, and fails, it would be a serious and expensive affair. We make no guess in mathematical science.

THE BAOBAB.

The baobab is a plant of monstrous size, the most colossal and the most ancient vegetable monument on the earth, has round wooly leaves, which consist of from three to seven leaflets radiating from a common centre, and giving them somewhat the appearance of a hand, and magnificient white flower. It is an enormous tree, holding among plants the place that the elephant holds among animals—a hoary witness of the last changes which the earth has undergone, and deluges that have buried beneath their waves the productions of early ages. Several baobabs that have been measured were found to be from seventy to seventy-seven feet in circumference. From its branches hang, at times, colossal nets, about four feet in length, and resembling large oval baskets open at the bottom, and looking from the distance like so many signal flags.

It would take fifteen men, with their arms extended, to embrace the trunk of one of these great trees, which, in the countries through which the Senegal flows, are venerated as sacred monuments. Enormous branches are given off from the central stem a few feet from the ground and spread out horizontally, giving the tree a diameter of over one hundred feet. "Each of these branches," says Mr. Danton, "would be a monster tree elsewhere, and taken together, they seem to make up a forest rather than a tree.

It is only at the age of eight hundred years that the baobabs attain their full size, and then cease to grow.

The fruit of this tree is oblong; the color of the shell passes in ripening from green to yellow and brown. The fruit is called "monkey bread." It contains a spongy substance, paler than chocolate, and filled with abundant juice.

The bark is ashy gray in color, and almost an inch in thickness.

The negroes of the Senegal grind it down to pow'er and in this state they use it to season their food, and to maintain a moderately free perspiration, which enables them the more easily to withstand the heat. It serves also as an antidote for certain fevers.—*The Wonders of Vegetation.*

GOUGH on the OHIO MOVEMENT.

John B. Gough has been mixing up with the Ohio temperance work lately, and here is a good letter he has written about it:

I am intensely interested in the Woman's temperance movement in this State, and although it adds to my work I cannot keep out of their meetings. At Xenia I first saw the movement in full force. They had closed 38 saloons and they have three that still hold out. As we came into the town, walking up from the station, I saw in front of a saloon two fine-looking ladies seated, one with a Bible in her hand the other with a paper. A little further on, I noticed a venerable looking quaker lady and a young lady by her side, seated in front of a saloon. They were the pickets watching these grog shops and rendering it very difficult for them to sell at all. After dinner I went on the street, and three praying bands were out at three places. I visited them all. I expected the thing would seem *outre*, odd and in bad taste, but it was quite the reverse. Some thirty ladies were in each band. They stand by the curbstones not hindering the passing. I noticed some raised their hats respectfully as they passed. They would sing, and sing so sweetly. Then they would read a portion of Scripture and all kneel while one prayed.

I heard one old lady who must have been seventy years, and was in deep mourning, offer in a tender, trembling voice, such a prayer as I think I never heard—so earnest. She told the Saviour: "*He* knew how their hearts were scorched and scarred by this terrible curse, and now they had come unitedly to him, et

TENDERS

Will be received, at the office of the Commissioner of Crown Lands, until

Saturday, the 16th May,

(next) for the construction of the

BUCKHORN ROAD,

To complete the same from the northern terminus of the work done under contract last season, to the Southerly boundary of the Township of Dysart, on the line as located under authority of the Department of Crown Lands, a distance of about six miles.

Also for the construction of the

CAMERON ROAD,

From the northerly terminus of the completed work done under contract last season, under authority of the Department of Crown Lands; a distance of between three and four miles.

Both the above works are to be built under Department mental Specification No. 1, and the work on each to be completed on or before the 1st day of October next.

Specifications can be seen, and forms for Tender procured, at the Crown Lands Department, and at the following places:

MINDEN.... At the Office of S. S. PECK, Esq.

PETERBORO' " " J. B. McWILLIAMS, Esq.

LINDSAY.... " " JAS. McRIBBON, Esq.

TENDERS may state a specific sum per mile, or rates for different kinds of work described in Specification.

The Commissioner reserves the right of accepting any or none of the tenders offered.

T. B. PARDEE,

Commissioner.

Notice.—D. G. Hatton.
Notice.—Township of Smith.
Dissolution.—Boultbee, Fairbairn & Poussette.
To be Let.—Geo. T. Leonard.

Peterborough Examiner.

PETERBORO', MAY 14th 1874.

EDITORIAL ITEMS.

TORONTO.—The assessed value of the city of Toronto is $65,043,675.

COBOURG.—Last year 30 new houses were erected in Cobourg, population now 4,694.

DUNDAS.—The assessed value of Dundas is $1,103,600.

GUELPH.—Sullivan convicted of the outrage on a little girl at Guelph, made a desperate attempt to break jail on Tuesday. He broke his iron bedstead and with it almost drilled a hole in the wall of the jail before caught.

SOMERSET MANITOBA.—Sergeant Major Macrimmitte of Winnipeg, shot himself with a Rifle lately, pulling it with his toe.

Alworth Sale.—Will be sold by Public Auction at the residence of T. Sharp, Esq., Lot 22, on Thursday, 21st inst., the Entire Household Furniture. Sale to commence at 12 o'clock. Terms, $10 and under Cash, over that amount credit to February, 1875.

INGERSOLL.—A fatal accident occurred at Ingersoll on the 6th. While Mr. Thos Ryan was taking gravel from a pit, a stump which he had under mined fell in and killed him instantly.

THE Northern Railway have chartered a line of six vessels to run for the season between Chicago and Collingwood. Three vessels will be put on Lake Ontario to complete the line to Kingston. They will have a carrying capacity of 362,000 bushels a month.

THE Toronto, Grey & Bruce Railroad is carrying an immense quantity of hewn timber this season.

BELLEVILLE.—Population 8,350 according to the assessment roll of 1874.

WATER CART UPSET.—Last Saturday morning as Mr. Croft's men was watering the streets, the horse became uneasy and ran off, spilling the water and damaging his watering cart a little—not seriously.

FAST TIME.—The steamer Whitelawing crossed Rice Lake from Haywood on Saturday in ten minutes. The lake is known to be three miles across, making her rate 18 miles an hour. This is good time. Which of our inland vessels can beat it.

THE WEATHER is about as whimsical as one could desire Last week cold was the order of the day. During Saturday the heat was extreme for the season, going up to 80 degrees, we believe.

A NEW PAPER IN BOSTON.—A Mr. Lavers intends issuing the first number of a paper in Boston to be styled the *American Canadian*, intended to furnish the people of the Republic and of Canada such information as will lead to closer acquaintance and attachment, unity of action and progress, and reciprocal forbearance and respect between them. It will commence its career under favorable auspices and will cost only $3.00 a year. Canadians should subscribe it.

MARKETS.—Wheat remains about as last reported except for a quantity of best quality, butter is now bringing 20 cents on the market, potatoes from 75 cents for table potatoes to $1 per bag for seed, hay is at famine prices $30 to $40 a ton, straw none coming in, and chop not to be gotten. Of fall wheat better reports reach us, now that the season is advanced enough to allow of judging fairly.

ANCIENT ORDER OF FORESTERS.—The Toronto Courts of this excellent Friendly Benefit Society will celebrate their second Annual Fete and Jubilee in the city of Toronto about the end of July next. Bands are invited to compete for various prizes which will be offered by the Committee. The amount of $3,000 was awarded to the successful competitors of last year. Professional, Military, Amateur and Drum and Fife Bands in this neighborhood are informed that further information will be supplied on application to the Secretary, Bro. H. Daines, Box 240, P.O. Toronto.

HAY.—The Port Hope *Guide* quotes hay at $14 to $18 per ton.

MENNONITES.—A party of the Mennonites have left Montreal for the North West, where they will settle permanently. 500 families are expected this season.

MISTAKES.—The Fenelon Falls *Gazette* has mistaken our views on Railway matters, but we are not dog in the manger like, trying to prevent useful undertakings, waiting to see what may turn up for us. Our Road will come If one should reach the *Gazette* office at an earlier date, why should we try to prevent it?

DROWNED.—The Fenelon *Gazette* gives details of a sad accident at Rosedale or Cameron, by which James J. Hosey, eldest son of Mr. Wm Hosey was drowned while coming from their island home in Balsam Lake, the unfortunate young man had gone into an old leaky canoe and it sinking, he not being able to swim, was lost in about five feet of water. He was 27 years of age. His body was found next morning.

CORNER STONE.—The Corner stone of the new Bible Christian Church, on Murray Street Peterborough, will be laid on Monday the 25th instant. Revs C. Barker Bowmanville, J. M. Roger, K. Maclennan, and C. Fish, Peterborough, will deliver suitable addresses on the occasion. There will be Lunch in the S. S. Room, from 12 to 2 o'clock and a Tea from 4 to 7 o'clock.

VERULAM.—From the Bobcaygeon *Independent's* report of a late session of the Verulam Council. We find that the President of the Midland Railway has been notified that the Council will meet in special session on the 27th of May, to repeal the By-law granting a bonus to the Omemee branch of that Railway. The council intend submitting a By-law to grant aid to the Cobourg road, as soon as action is taken towards the extension to Bobcaygeon.

HALIBURTON.—The *Independent* gives currency to a rumor of an unpleasant nature about the Funds of the Municipality of Dysart &c These rumors should have foundation in fact before circulated.

KINMOUNT.—Mr. John Goodman has erected a Mill, and commenced Carding at Kinmount. He has a shingle mill also in connection therewith.

THE *Leader* and *Mail* are very quiet just now. Nothing to rail about: or are the Liberal-Conservative organs leaving the sinken ship, eh!

FISHING CONTRARY TO LAW.—A correspondent writes from Chemong, saying that Mud Lake is a regular resort for spearing by torch. Mr Calcutt has given notice of his intention to enforce the fines and penalties according to law against all who may be caught violating the statutes on this behalf. Parties would do well to look out lest evil befalls them in this unlawful work.

AT WORK.—The Liberal Conservatives of Peterboro had a grand show last night at the opening of their Club rooms. They are making great efforts to organize, or rather re-organize in view of an approaching election. They have been holding meetings in north Smith and perhaps other places. The friends of Reform would do well to keep fast of their "tribe" and "pretty little gaffle." Their vests into my pocket.

THE RAILWAY.—Two mounted police have been sent to the frontier to prevent the introduction of intoxicating liquor into the Northwest Territory. Is it the two of the liquor or the law to be the severest they fear? At Ottawa and all over they prefer to have the three,—liquor, the crime and the revenue. Hitherto the two first items have been made sure of and the last one to a certain degree

POPULATION OF THE TOWN.

As [illegible] there was [illegible] the Census [illegible] the Census [illegible] the Census

A WALK FOR LIFE.

On Saturday afternoon a young man named George Pitt overflowed so he stated, three counts of kindness and five grains of complicity, in order to end his life. There was but one way of serving him, and this was to keep him in custody. After relieving himself as far as possible, his physician, Dr. Gately, ordered that he be allowed to walk out of danger. At half-past two o'clock Sunday afternoon he was put upon his trusty for life, and was forced to walk in the open air as much as he could. His father kept by him for a long time, and a friend or a policeman attended. After some hours the effect gave out, and finally officers and friends grew tired. At last others had to be taken from their beats and made to do duty in saving the life of the would-be suicide. When the walk commenced it was with great difficulty that he could be kept going, and so great was his object that it drove for would almost fall like a stick. Frequently it was necessary to catch him and move him on. He smiled at times like a drunken man, and then again he could revive considerably. The every, monotonous walk was kept up without intermission until half-past six o'clock the following morning, when the physician commanded that he should be allowed to take rest. The life of the young man was saved, but the struggle for freedom from the effects of the drugs was a severe one. To have stopped three minutes would have been fatal.—*New Water.*

Mr. H. H. Lavens, for some time connected with the *Daily News*, proposes to shortly commence in this city the publication of a weekly newspaper called the *American Canadian*, intended, as its name implies, to be the organ of British America in the United States.

In view of the immense interests, which, though speculatively considered by the demands of their mere proximity, have been equally common themselves, and the best of the people of their people who take no direct details in this country, it is certainly conservant subject that, while most other nationalities have established their distinct representative papers in "the States," the Provinces have almost entirely neglected this potent instrumentality for the diffusion of their better understood, misjudged and consequently misrepresented here. It is a source of regret that this step has not been taken before, and we are sure that the time of thousands from the Provinces, who reside in the States, will be highly gratified at the advent of the new International journal.

Mr. Lavens announces that the *American Canadian* will be a newspaper of large size, well printed, and that he will aim to make it of special value and interest to natives of the Provinces who are residents of New England. We can speak confidently of his integrity, ability and experience in undertaking with the success in his undertaking.—*Boston Daily News.*

The London *Times* says that the British revenues amount to £77,000,000 for the financial year just closed. This is £3,000,000 in excess of the estimate last year, and more than the extraordinary income which excited so much astonishment in 1872-3.

FORT GARRY.

We have just received the following letter from J. Bastien, Esq., M P., in reference to rates to Fort Garry. In a late issue, our readers will remember, Mr. Bertram promised to furnish such information at an early date. It will be seen that even now he is not able to supply every particular item he could desire, as arrangements are not yet perfected.

Ottawa, 13th May, 1874.

James Stratton, Esq.,

Dear Sir,—

I promised some friends in the County to send you and the *Review* notice as soon as the matter was settled about the rates of passengers and freight from Thunder Bay to Fort Garry. You are aware a contract has been entered into with W. M. Carpenter & Co., Orillia, to carry passengers and freight over the route. The contract has been signed, but the rates have not yet been absolutely fixed: however, I append the rates that ruled last year, and that will most likely rule this year. Tickets will of course be issued at Collingwood, Toronto, or Thunder Bay. As soon as the matter is finally settled I will advise you.

Yours sincerely,

John Bastien.

THUNDER BAY TO FORT GARRY.

PASSENGER TARIFF.

Adults, with 200 lbs. baggage,		$10.
Under 14,	100 "	5.
Children under 3		Free.

FREIGHT TARIFF.

Freight, not including household furniture or machinery, per 100 lbs. $2.
Household furniture, at owners risk, per 100 lbs. 3.
Machinery Special rates.
Horses, Cattle, Sheep, etc. do.

No arrangement has yet been made with steamers from Collingwood to Thunder Bay. Last year cheaper were $5 from Toronto; $4 from Collingwood.

The above rates are for emigrants.

COLD SLEEPING ROOMS.

To the Editor of the Examiner.

Sir—Not long ago a letter was kept in the Post Office here for over a month and was not given up until it found its way into the "advertised letters."

Another letter for me was put into the Office about a month ago, but I did not get it until yesterday although I have called every day, and was then told that it was among the "advertised letters," but on looking over the list of names mine was not there. Now, Sir, how is this? Should this state of things be allowed to continue?

It is high time that some alteration was made. The post office should not be a sleeping room. Yours,

HURY.

IN MEMORIAM.

Mary Gunne, wife of Robert Redford, Esq., Asphodel, who died April 20, 1874, aged 47 years. She died from pneumonia in three days.

Her sufferings were protracted long,
Yet never a murmur was heard;
As lasting strength did last, grace strong
Her faith fixed on the Lord.
And when death's call had laid on her pent
Her hope was bright and clear
Of entering into heavenly rest
Where dwell with all things here.
Yet leaving of her children dear
She could make her sigh,
And oft in tears they shed over
Upon the Lord to rely.
Pleading that through Christ he will
Of their sins to forgive;
Help them, and guide, and keep
Unto Him to believe;
That they all together may
Meet and rejoice there did she
Under up to God Christ.
To lead her grace, knowing that He
Might help their children dear;
That when from earth they all have passed
To God's heavenly rest.
They all might dwell in Heaven at last
Around the throne of God.
Dear friends don't fret, nor weep for me,
To rest and heed this life;
In Heaven may meet their dear friend,
Who now has passed away

A SOUTHERN SPRING SONG.

Two bittlesome birds a-courting,
And the mother a slight bell
Where the gold o'jesse are humming
In their honey-suckle bells.
Where the cowslips bloom among lily's
Where the [illegible]
Where the [illegible]
Pass their kisses on the breeze.

[illegible]
[illegible]
Of [illegible]
[illegible]
[illegible]
[illegible]
Wherever wife will never tell

[illegible]
And the hunter [illegible]
Then the Spring wind's vigorous blow.
But Spring time kills the cold days,
Drives the murderers and the horrors,
And, wherever [illegible]
Leaves us [illegible]

SUMMARY.

A Dundas paper says: Another prisoner almost escaped from the Guelph jail on Tuesday afternoon. Sullivan, *alias* Jack Dunn, wrenched a piece off his iron bedstead, and with it broke a hole through the heavy stone wall, and would have escaped had he got working a few minutes longer without being discovered.

Henry Snook, of North Dumfries Eastern Township, committed suicide at Swanton, Vermont, whither he had gone to look for work. He first attempted to bleed himself to death by cutting both of his arms, but afterwards cut his throat with a small blade of a pocket-knife.

The members and ministers of the Canada Presbyterian Congregation at Kaleida have paid $1,500 during the past year for church building, etc., and recently the ladies presented Mrs. Duff with a sewing-machine, and the juvenile portion of the congregation gave Rev. Mr. Duff a purse of $70.

From a return asked for by Mr. Young it appears that articles paying duty; imported by Canada from the United States during the quarter ending 31st December in the years 1871, 1872 and 1873, were valued at $2,148,936 in 1871; in 1872 at $2,960,518, and in 1873 at $3,286,572, being a total increase on 125 articles of $717,054. This increase is not on all articles, as a decided falling off appears in some. This proves that Canada has not been the "slaughter house" for American manufactures represented by protectionists.

An extraordinary murder trial recently took place in St. Catharines. At the late assizes, a man named Fyen was sentenced to death for the murder of a person still living. Fyen *attempted to murder* his wife in Thorold, on the 6th November last, —and was convicted mainly on the testimony of the woman, who had recovered from the wounds inflicted at the time,—was found guilty in a legal sense, and sentenced to death by hanging on the 4th of July next. While passing the sentence, His Lordship said he would represent the case to the Government as favorably as circumstances would permit. The prisoner thanked His Lordship, but expressed the wish that the sentence be carried out.

Gallain, who murdered Poulin in Cerraquet, N. B., has made a confession. He says he was incited to the act by Poulin's wife, who importuned him to kill her husband that they might consummate their *liaison* by marriage. The night before the murder she sharpened a knife and gave it to him, telling him to be on the look-out for her husband when he went to the wood for rails next day. He promised to do so, and secreted the knife on his person. When he met Poulin in the woods next day he said, "Poulin, I am going to kill you." His victim, on bended knees, supplicated him for time to enable his sons to fix his priest, when he would be willing to be killed at any time, or would leave the country. While Poulin was in this suppliant attitude the prisoner struck him on the head with a stick, stunning him, and finished his bloody work with an axe. Poulin's daughter testified on the inquest that her mother went to Gallain's bed one night and told him that her husband was asleep in the next room, and there would be a good chance to kill him, but that she awakened and warned her father, and prevented the intended murder.

From an exchange we see that some sharp retorts made by Mr. Mackenzie and Mr. Blake on Sir John Macdonald are declared by the Tory press to be evidences of brutality and want of refinement. Queer how their opinions alter. When Sir John last fall shook his fist in the Hon. Donald Smith's face, and "bedamned" him with the vigor and in the language of a fish-wife, those same journals described it as "the natural indignation of a noble soul," —or something of that sort. Now, that Sir John is in Opposition, it seems that he is still to be allowed what latitude he likes, nor must any of the common people on the other side come between the wind and his nobility. We fear that all his wrath will be unavailing, and those rude "Grits" in the commons will continue to treat Sir John as though he were only an ordinary mortal. If the Tories are very anxious to have the wind tempered to the shorn lamb they had better take him out of the Commons where such rude blasts blow, and put him in a museum —or in the Senate.

The London *Advertiser* asks—"Should not some of the Legal Orange Lodges "resolute" a little about this little matter of Sir John Macdonald paying Riel to run away from the police and enabling him to escape trial for the murder of poor Scott —a brother orangeman? They have never been so dilatory in the matter of resolving something or other in regard to public matters as in this instance, and they never before had so much good reason for interfering. Here is one brother Orangeman known to have been helping by counsel and cash the murderer of another brother Orangeman, while he was professing to the world in general, and the Orange body in particular, that his heart's desire was to "catch" the criminal. If such facts are permitted to pass without the usual number of "resolutions," duly telegraphed to the daily press, then people will begin to think that Orangeism is a failure, and that the Order in this country is kept alive only for making spiteful attacks upon Mackenzie and Blake, and the political party of which they are leaders.

The Premier as a Worker.—The Toronto *Nation* says: "Mr. Mackenzie's claim to distinction is not as the possessor of a brilliant intellect, or as being one of those versatile Crichtons who shine wherever they appear. He does indeed not affect show; he makes no unreasonable professions, and power has not yet had the effect with him of causing the enjoyment of its pleasure to lead to forgetfulness of his duties. People at Ottawa speak of his devotion to his office. It is said that he arrives earlier at his seat than the humblest of his clerks, that he reads every paper put before him, and that he personally examines every subject and tries to master its details. The eye of a chief thus attending to his duties often works wonders. It stimulates the aimless, and gives the man of ability and worth hope that his merit may now be recognized; while the indolent and indifferent are spurred to exertion from the fear of disgrace. Mr. Mackenzie, moreover, is supposed to have rather special knowledge of the subjects he has to deal with. A contractor himself, his fortune having been made in that branch of industry, he has the advantage of some special acquaintance with the subjects with which he has to deal. But his strong points are, his freedom from intrigue and his character for probity."

Mad Love in Montreal.—On the 30th of April last, before it was yet dark in the evening, two French half-breeds went to the house of ex-President Bruce, armed with guns, and demanded of Bruce that he should promise to cease writing letters to newspapers upon the rebellion, or they would shoot him. They maltreated him scurrilly, frightened his family, breaking the windows of the house, committed other outrages, and left, uttering still vengeful threats if Bruce made further exposures. One of the parties was arrested to-day. He said the action was instigated by a prominent French Canadian, who sports the prefix of "honorable," in the interests of Rielism. The cause was to have been heard on the 12th inst. Intense excitement prevails on account of the outrage. Bruce has moved into the town, fearing further persecution. *La Minerve* newspaper insists upon the re-election of Riel for Provencher.

VINEGAR BITTERS

P. D. WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease that is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim Vinegar Bitters the most wonderful Invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis or the Bowels. To guard against this, take a dose of Walker's Vinegar Bitters occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

LEMAY & CADOTTE

Having been to the expense of enlarging their premises, are now in a position to show an IMMENSE STOCK OF GOODS.

We are using three flats and have spared no expense to make this one of the

Best Clothing Establishments in the Dominion.

The READY-MADE CLOTHING DEPARTMENT is on the second flat, under the management of Mr. CADOTTE who has had a long experience in that line.

THE STOCK IS THE LARGEST IN THE TOWN,

and for prices we will not be UNDERSOLD. We have made an importation from England of a large Stock of

Childrens' & Boys' Clothing!

Stylish and really well made. We also intend to always have everything new in this branch.

Our Cloth and Tweed

Department is on the first flat. Black Cloth, Doeskins, Meltons, English and Canadian Tweeds. A very fine stock of the latest patterns to choose from.

OUR CUTTER

MR. JAMES MENZIES has been with us for seven years and has always given satisfaction. Now it is a fact well known that for making up clothing to order in the latest style there are very few Cutters to equal him. He will be most happy to see his friends, and take their measures.

HATS and CAPS

Of the newest fashions in large quantities. Shirts Collars, &c.&c. in endless variation.

STAPLE DRY GOODS.

Having now more room, we have added to our Stock a good assortment of Staple Dry Goods consisting of Dress Good, Prints, Cottons, Sheamloons, Shirtings Tickings, Grass Linens, &c., which we offer at a very small advance for Cash.

LEMAY & CADOTTE.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always —that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action —remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as may lead to the first origin of disease. Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For *Dyspepsia or Indigestion, Listlessness, Lack of Appetite, Loss of Appetite*, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For *Liver Complaint* and its various symptoms, *Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colics and Bilious Fevers*, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For *Dysentery or Diarrhœa*, but one mild dose is generally required.

For *Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins*, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For *Dropsy and Dropsical Swellings* they should be taken in large and frequent doses to produce the effect of a drastic purge.

For *Suppressions* a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often allsufficient where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., *Practical Chemists*,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. Invet[illegible] cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured by such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into sore or other of its hideous forms, either on the surface or among the vitals. In the latter, relentless may be suddenly deposited in the lungs or throat, stomach or bowels, liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Where the scrofulous taint or a taint of this *Sarsaparilla* is manifestable, even when no active symptoms of disease [illegible] with the following remedies, by the use of this *SARSAPARILLA*. Let St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Blotches, Blisters, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Scrofulous Sores, Tumors, Ulcers, Mercurial Diseases, Mercurial Rheumatism, Syphilitic Complaints, Female Weaknesses, Uterine Diseases, and Dropsical Swellings, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For *Dropsy and Dropsical Swellings* they should be taken in large and frequent doses to produce the effect of a drastic purge.

For *Suppressions* a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often allsufficient where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles, AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. Because the glimmering or dizziness to experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. Because the never tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

Select Poetry.

THE LANGUAGE OF THE HEART.

There is a language unspoken,
But is not heard aloud;
Its sacred language betokeneth
Not on the noisy crowd.
Its words are silent glances,
The heart alone gleams;
Its surround its disguises;
'Tis with imperfect eyes.
And such are love eyes,
It ever conveys to render
Kind thoughts when fond ones part
Its tones of softness and tender,
'Tis the language of the heart.

No art of man can teach us
This sweet speech of love;
Though here its tones may reach us,
They come from above.
Its sacred is gentle prudence,
Its pleading part and meek;
It tells in silent poems,
What lips could never speak;
When strong electric emotion
Its body breathing start,
No speech can match its sweetness
The language of the heart.

THE BERMUDA ISLANDS.

Within three days travel from New York it is hardly possible to find so complete a change in government, climate, scenery, and vegetation as Bermuda offers. The voyage may or may not be pleasant, but it is sure to be short. The Gulf Stream, which one is obliged to cross, has on many natures a subduing effect, and the sight of land is not generally unwelcome. The delight is intensified by the beauties which are spread out on every hand. The wonderful transparency of the water, the numerous inlands, making new pictures at every turn, the shifting lights on the hills, the flowers which almost hide houses that peep out here and there from their bowers, make up a scene as rare as it is beautiful.

The general direction of the islands is from north-east to south-west. They are in the latitude of Charleston, South Carolina, and the nearest point on the continent is Cape Hatteras, five hundred and eighty miles distant. They are of calcarous formation, "due entirely," says Colonel Nelson, "to the action of the wind in blowing up sand made by the disintegration of coral reefs. They present but one mass of animal remains in various stages of comminution and disintegration." The varieties of rock are irregularly associated, and without any order of super-position. Nearly every shell now known in the surrounding sea may be found in the rock, quite perfect, except with regard to color. Along the south shore are sandhills which illustrate the formation of Bermuda. In one instance a cottage has been submerged, trees to the height of several feet, and the sand has even travelled up a hill one hundred and eighty feet high. Nine miles north of the islands are four needle rocks, apparently the remnants of former islands. They are about ten feet above high water mark, and vary from four to eight feet in diameter. They are of limestone, and are stratified like the mainland.

There are in all about one hundred islands, though it is usually stated that there are three times as many. Not more than sixteen or twenty are inhabited, and of these the five largest are St. David's, St. George's, Bermuda proper, sometimes styled the Continent, Somerset and Ireland. They are about fifteen miles in length, and the greatest breadth is about five miles. There are no mountains, no rivers, and so, while they are without magnificence in scenery, in a quiet sort of beauty they are unique.

There are about one hundred and fifty miles of good hard roads, which are generally free from dust. In many places deep cuttings have been made, and the rock towers above the carriage even. The scenery is exceedingly picturesque, and changes continually. Now you drive through wide stretches of country, and the landscape bears a striking resemblance to that of New England; then through a narrow road, with high walls of rock on either hand, on the sides of which the maiden-hair fern grows in richest profusion, and the road is so winding that every now and then a new and charming view bursts upon you, and surprises you; and then there are delightful glimpses of the sea with its many islands. Walls of stone extend along the road-side, and over them clamber the morning glory, the prickly pear and the night blooming cereus. Great beds of geraniums, which mock our hot houses in their profusion, grow wild. Hedges of oleander line the roads or border cultivated patches of land, protecting them from the high winds which at times sweep over the islands. Thirteen varieties of it are found here, and wherever you go it is one mass of pink and white blossoms The lantana also grows wild along the hedges. The passion flower peeps out from its covert of green leaves creeping up the branches of tall trees. The profusion of flowers is wonderful, and one can always have a boquet for the gathering. The winter is the regal time for them. About Christmas the roses, magnificent in size, and of great variety, are in all their glory. One gentleman assured me that he had upwards of one hundred and fifty varieties. No great care seems to be taken to cultivate them. Here and there one sees a fine garden but nothing can even approaches what might be accomplished with such a soil and climate.

The beauty and variety of flowers are fully equaled by the excellence and diversity of fruits. Oranges of superior quality are raised, though their culture is not general. The lemon grows wild, the mongo, guave, pawpa, pomegranate, fig, arcoane pear—woone lovers (for they can be called nothing else) be come eloquent in praise—the custard apple, the babanna—the lazy man's delight, bearing its wealth of fruit, and dying as it yields its single bunch, while the new plants springing up about its dead stalk sustain the supply the year round—all these fruits grow readily, and with due effort would grow abundantly Apples and pears are raised, but they lack the flavor they possess with us.—Peaches here-to-fore excellent, have been destroyed for two years past by an insect. Strawberries ripen from November till July. Grapes grow luxuriantly

The most common tree is the Bermudian cedar, with which nearly all the hill-sides are wooded. Occasionally one sees the mountain-palm, while tamarind, tamarisk, palmetto, cocoa-nut, Indian rubber, mogohany, and calabash trees are quite common. In Gardens many West Indian trees are found.—*Miss. C. Rounds,*

THE EMPEROR OF RUSSIA.

The Emperor has the reputation of being the hardest worked man in Russia. Every morning, with the regularity of clockwork, he takes a walk in the gardens of the Winter Palace for twenty minutes, accompanied by his dogs, and on his return to the palace he works until luncheon, which is served at twelve o'clock. Immediately afterwards his Majesty resumes work, receiving his Ministers, or giving audiences. With the exception of half an hour's rest, the Czar is occupied in this manner until two o'clock. He then goes for a couple of hours' walking or driving. As a rule the Imperial family are very particular in regard to their daily exercise. Dinner is served at 6 p.m., after which the Emperor sets to work again, and, if necessary, does not cease the occupation upon which he may be engaged until after midnight, sometimes not until after 1 or 2 o'clock in the morning. Usually his Majesty goes out shooting once a week, and occasionally he visits the theatre, where, however, he seldom remains more than half an hour. The Czar is a man of wonderful punctuality in his habits, while his pleasant manner endears him to all. The Empress is as amiable as the Czar, but does not enjoy good health, and thus is unable to appear in public as often as she would under other circumstances.

The Grand Duke Vladimir has great artistic tastes. He is Vice-President of the Academy of Arts, and regularly attends the meeting of the Senate, of which he is a member. Like his father the Grand Duke is a keen sportsman: whenever a bear is seen in the neighborhood of Datceina the Emperor is informed of it, and preparations are at once made for a battle. There are generally eight or ten gentlemen with the Emperor and the Grand Duke: the beaters drive the bear as much towards the Czar as possible, and the black game usually falls to the gun of the Emperor or the Grand Duke, both of whom are first-rate shots

The Grand Duke Alexis is, like the Duke of Edinburg, a sailor, having been destined for the navy from his infancy. His studies were directed by Admiral Possiet, a man distinguished for his great scientific attainments. The Duke begun at the lowest rung of the naval ladder, and has gone conscienciously though all the grades, from a cadet upwards. He started in August, 1871, on his longest tour, with the rank of lieutenant, and was promoted on the voyage to the rank of first lieutenant; he was subsequently made a captain, which rank he held upon the arrival of the frigate Svetlana, so called after the heroine of a poem by the great Russian poet, Pouchkin.

The Grand Duke has encountered many vicissitudes during his adventurous career. In the month of September, 1868, while coasting in the Alexander Nevski, off the coast of Jutland, he was shipwrecked, and it was on that occasion that the Grand Duke exhibited extraordinary pluck, and—but—modesty—forbids—me—to—enter—into—particulars—of—his singular abnegation of self and solicitude for others in a position of the gravest peril. Since then the Grand Duke has visited all parts of the world, with the exception of Australia, India, New Guinea, and the islands thereabouts, which he intends seeing either next year or the year after. He will start on another long cruise of adventure in '75. The Grand Duke is never happier than when on a voyage. The Grand Duke has been accompanied on all his travels by his English preceptor, Mr. Machin, who is still attached to the suite.

It is Russian etiquette for the Grand Duke Horitier to lead a comparatively retired life, and to appear chiefly in works of philanthropy. Czarevitch does not, accordingly, take a prominent part in public matters, although it is understood that he is being gradually made thoroughly conversant with the affairs of the great Empire.

The Grand Duke Serge, who is in his 16th year, is a young man of very great promise. As yet his studies are not completed.

The Grand Duke Paul is 13 years of age. Both he and his brother, the Grand Duke Serge, are earnest students, and everywhere in St. Petersburg, nothing but that which redounds to their credit is heard of them.

The Grand Duchess Marie, the only daughter of the Emperor, is a universal favorite. She has been the direct means of doing an immense amount of good. The Grand Duchess has taken much interest in some of the charitable institutions of St. Petersburg. She is an accomplished musician, and a great reader, and she has endeared herself to to all who have been so fortunate as to be brought in contact with her.

A Temperance Item.

In the last twenty-seven years 24,602 convicts have been sent to the penetentiary at Albany. Of these 21,057 have acknowledged that previous to their conviction they were addicted to drunkenness. It is more than probable that the greater number of these convicts would never have been guilty of the crimes for which they were sentenced had they not been inebriates. When we add to the penetentiary expenses of these criminals the costs of police officers, courts and gaols previous to their conviction, the question arises whether it would not be more economical to provide State asylums for all pauperism directly attributable to intemperate drinking, and make the asylums also places of retreat and hospitals for all inebriates who are willing to incarcerate themselves and submit to necessary rules and regulations for their cure and reformation. The work performed by the inmates of such asylums could certainly be made much more remunerative than convict labor. There is not a doubt that were ample provision to be made for the safe-keeping of incurable inebriates the expenditures of the public treasury would be no greater than the aggregate that is now paid by the people in the form of fees to officers in every city, village and town for the suppression of disorders, misdemeanors and crimes directly consequent on drunkenness.—*N. Y. Sun*

A small boy in New Haven made a sensation for a short time by quickly transferring a card bearing the words "Take one" from a lot of handbills in front of a store to a basket of oranges.

HOME HINTS.

MOTHS IN CHAIRS.—Moths are sometimes found to have taken such possession of a piece of upholstered furniture that its destruction seems inevitable. A chair so infested has been successfully treated by being thoroughly saturated with benzine. The color of the rep with which it was covered was not injured and the moths made no more trouble. The covering must be completely wet with the Benzine or there will be left marks on the edges as it dries.

REPAIR YOUR RUBBERS.—India-rubber shoes and boots are frequently mad useless by a slight cut or hole which a little cement would repair. To prepare the cement, cut virgin or native india-rubber, with a wet knife, into the thin est possible slices, and with shears divide these into threads as fine as fine yarn. Put a small quantity of the shreds my one tenth or less of the capacity of the bottle, and fill it three quarters full of Benzine, of good quantity perfectly free from oil. The rubber will swell up almost immediately, and in a few days, especially if often shaken assume the consistency of honey. It it incline to remain in undissolved masses more benzine must be added; but if too thin and watery, it needs more rubber. A piece of solid rubber the size of a walnut will make a pint of the cement. This cement dries in a few minutes, and by using three coats in the usual manner, will unite leather straps patches, rubber soles, backs of boots, etc., with exceeding firmness. The indian rubber unvulcanized, can be obtained at must large stores where rubber goods are sold, and at some drug-stores.

PURE CISTERN WATER.—Considering how many people there are who do not live in the city where the water supply is beyond their care and control there is a marvellous lack of knowledge respecting the treatment of wells and cisterns. How many times have I been disgusted with the vile odor of the water in my pitcher on my wash stand in a country house in which almost every thing else was unexceptionably fresh and agreeable. The sediment collected in months, if not years, of roof-washing, particles of decaying shingles, soot, and bird excrements had been left to settle in the cistern, to decompose and render the water foul. Every cistern should be built so that it can be easily emptied and cleaned, unless the water passes into it through a filter. It should be done, certainly once and better twice, a year. After it is emptied water should be thrown in for rinsing, and usually a surprising amount of filth will be found. It is considered by many, a very advantageous thing to throw a bushel or so of charcoal into the cistern for purifying purposes. It will undoubtedly absorb something of the impurity, but it should not be relied upon to the exclusion of thorough cleansings.

In the midst of the numerous cleaning up, labors which come at this time in the year, the well ought not to be neglected. Remember that it may easily become a fountain of disease, instead of health, if dangerous surroundings are not removed.

Boys, a Word with You.

Are there not obligations laid upon you? You are stronger than your sister. Ought you not to spring to her aid if she is doing something difficult or fatiguing. For instance, housecleaning times are approaching, and there will be pictures to hang, carpets to shake, shades to put up, furniture to move from place to place, and all sorts of back-aching, back-breaking occupations for a week or two. Of course it isn't so pleasant for a fellow to be around in those days, and so a fellow—pardon the expression, but we've heard young gentlemen use it so often—unless he is very manly and unselfish, will be apt to think of engagements out of the house. Let us whisper a secret in your ear. He is a jewel among men who is never in the way when he is not wanted, and never out of the way when he is. There are a great many little things which a good son and brother can do in domestic emergencies if he only cares to make himself useful. If you live in the country, there is many a lift you can give to the women-folks in the way of carrying in wood, bringing pails of water, and generally lending a hand.

Then, young man, if you are an elder brother, bethink yourself sometimes that your sister may like to have you take her out, as well as some of the other young ladies of your acquaintance do. Jennie is quite as pretty, quite as well bred, and has quite as many capacities for enjoyment as any other girl of her age. She would be so pleased, if now and then you would invite her to go with you to a lecture or a concert, and you would, if you only tried it, find out that an evening with your sister would pass as agreeably, and perhaps more restfully, than an evening with any one else, not excepting even the dearest and best girl in the world, whose image is with you like a guardian angel, and whose name you always speak with reverence and regard.

CURIOUS FACTS.

If a tallow candle be placed in a gun, and shot at a door, it will go through without sustaining any injury; and if a musket ball be fired into water it will not only rebound, but be flattened as if fired against a solid substance. A musket ball may be fired through a pane of glass, making a hole the size of the ball without cracking the glass; if the glass be suspended by a thread, it will make no difference, and the thread will not even vibrate. In the arctic regions, when the thermometer is below zero, persons can converse more than a mile distant. Dr. Jamieson asserts that he heard every word of a sermon at the distance of two miles. A mother has been distinctly heard talking to her child on a still day across water a mile wide.

GOOD HEALTH.—Happy is the man who has that priceless gift of nature, and sensible is he who knows how to take care of it.

An English boy, on being asked the other day who was prime minister of England, answered, without hesitation, "Mr. Spurgeon."

Imaginative Medicine.

Charms, amulets, taliamans, and phylacteries all belong to the list of articles which produce imaginative cures; seeing that the persons who trust to them believe in some good obtainable from them, in purse or in person, in health or in welfare: and if the good does come, more assuredly the imagination is the channel through which it approaches. Two or three years ago, at a town in Worcestershire, after the inquest on the body of a man drowned in the Severn, a woman applied to the chief constable for permission to draw the hand of her son, a boy eight or nine years of age, nine times across the dead man's throat, in order to bring about the removal of a wen from the boy's neck. In another instance, in the same county, this was actually done, with fatal results, for the man had died of typhoid fever, which was in this way communicated to several living persons. A ring made of the hinge of a coffin, and a rusty old sword hung by the bedside, are, in some districts, charms against the cramp: headache is removed by the halter that has hung a criminal, and also by a snuff made from moss that has grown on a human skull in a graveyard. A dead man's hand, and especially the hand of a man who had been cut down while hanging, dispels tumors. Warts may be removed by rubbing them with a bit of stolen beef; the chips of a gallows, worn in a little bag round the neck, will cure the ague; a stone with a hole in it, suspended at the bed's head, will prevent nightmare. Many verses are known, which if repeated aloud, are credited with curing cramp, burns, and other bodily troubles. When you have the whooping-cough, apply for a remedy to the first person you meet with riding on a piebald horse—a ceremony that Dr. Lettsom, the physician, was fated more than once to become acquainted with.—*All the Year Round.*

Freemasonry.

POPE PIUS IX. EXPELLED FROM THE ORDER.

At the semi-annual meeting of the Grand Lodge of Masons, Scottish Rites of the Orient, of Palmerie, Italy, held in that city on the 27th of March, Mastai Ferretti was expelled from the order for violating his vows and for perjury. Mastai Ferretti is no other person than Pius IX., Pope of Rome. The decree of the lodge at Palermo is published in the official paper of the Order of Freemasons at Cologne, Germany, and dated March 27. It is preceded by the minutes of the lodge in which Mastai Ferretti, in 1826, was initiated into the Order under the old Scottish

FIRE.—About 10 o'clock on Saturday night the old building nearly opposite Mr Allen's Temperance House was discovered to be on fire. The alarm was given and the Fire Brigade was soon on the spot, but then the fire was too far advanced to save the building. The loss, however, is not great, as it was very old, and the last occupants had left the doors and windows out, and the walls pretty well wrecked The property belonged to the Dickson estate, and the fire was caused by some one who wished to create an excitement, or whose "bump" of Destructiveness was fully developed and had a strong control of the other faculties. Fortunately the rain during the day had saturated everything around Moury & Forsyth's foundry, and around the carding mill, the planing mill and the turning shop close by, or nothing could have saved them. As it was, the sheds in connection with the foundry did take fire, but it was seen in time to prevent much damage. Setting fire to old buildings, no matter how isolated, is dangerous, and should not be indulged in either for amusement or otherwise.

LAKEFIELD.—We regret to learn that Dr. Hodge has removed from Lakefield to Mitchell. Although a very young man when he settled in the village he had succeed in working up a very lucrative practice, and had endeared himself to all those with whom he had intercourse. His skill as a physician, and his urbanity as a citizen will ensure him a host of friends and an extensive practice anywhere he may select to reside. The best wishes of his numerous friends at Lakefield accompany him and his amiable lady to their new abode.

W. METHODIST, KEENE.—It will be seen, by a resolution in another column that the members of Keene Circuit have expressed a unanimous wish that the Rev. Mr. Barker, their esteemed pastor, be re appointed to the same circuit. It is a pleasing sign of the friendly and Christian intercourse of pastors when the people desire their stay for a longer period than is customary by the rules of Conference.

IMPROVED. — The Victoria *Warder* comes to us enlarged and improved in appearance It is now a 56 column paper. We congratulate our confrere on the sign of its prosperity, and hope that under a Reform Government the Conservative press will show equal signs of progress that our friend of the *Warder* is manifesting.

RAIN.—A most refreshing rain commenced on Saturday, and continued during Sunday and Monday. After the long drought, it came in time to cheer the whole face of nature, and to cause the hopes of farmers in reference to the hay crop and fall wheat to brighten.

THE MARKETS.—Hay, on Saturday, brought $25 a ton; oats 45 to 50 cents a bushel; potatoes 80c. (for table use,) to $1.00 per bag for seed.

ROBBERY.—Some party or parties entered the Presbyterian church, Lakevale, on Thursday evening, 14th, and stole the window blinds, table covers, and a book or two, and during the same week the window-blinds and screen of the Good Templar's hall, on the 4th line of Smith, were taken.

SOWING.—The farmers are pretty well through with putting in the seed. Fall wheat is looking well—better by far than anticipated.

KEENE. — At the Quarterly Official Meeting held in the Wesleyan Church, Keene, May 11th, the following resolution was unanimously adopted. "That we deem it our duty to express our high estimation of the Christian character and gentlemanly deportment of the Rev. W. R. Barker, our beloved pastor, and to record our appreciation of his talents as a preacher and faithful minister of the Word, and our entire satisfaction with the manner in which the work of the Circuit has been conducted during the last two years, and we earnestly request the stationing committee to appoint him to this circuit next year.—COM

THE VICTORIA ROAD.—A surveying party of this road are now in Somerville.

DROWNED.—A Frenchman, named Lafield Oldesse, in the service of Gilmore & Co., was drowned in Squaw river, on Wednesday last.

SIDEWALKS.—Chas. Ormond, Esq., has drawn our attention to the following item anent sidewalks, clipped from the *Globe* of the 15th inst.: "The City Surveyor of Montreal has recommended that for the suburban streets tamarac corb be used, the sidewalk to be filled in with a mixture of engine ashes, sand, gravel, and coal tar, sprinkled over with sand, and well rolled. This, it is said, would make a path as good as and cheaper than the so called asphalte which has been laid in several places, while it would be superior to the deal walk, and much less expensive." Perhaps our "City Fathers" might profit by the hint.

THE INSOLVENCY BILL.—This Bill will not be passed this Session.

WOODSTOCK.—The population of Woodstock is 4,879.

SOUTH OXFORD.—Mr. Edgar is the Reform candidate in South Oxford. Col Skinner, his opponent, is also a Reformer, but the P. U. P'S. are going for him in preference to Mr. Edgar. They go for supporting the weakest candidate. Mr. Edgar will be elected.

FIRE IN ASHBURNHAM.—On Tuesday, about 11 a. m., the dwelling house of Mr John Gow, Ashburnham, caught fire from the kitchen stove pipe and was consumed. Fortunately it was discovered in time to get the furniture out, which, of course, would be somewhat damaged. Mr. Gow, at the time, was very ill, and had to be removed to Mr. John Craig's. We understand that he is ill of inflammation of the lungs, but not dangerous. We sincerely sympathise with him in his illness, and long too, as we understand he had no insurance.

MCDONALD & ELDER.—The millinery department of this establishment is now complete. Their hats and bonnets are of the latest styles, and are beautiful. In French flowers they have a great variety, the colors this season are more than usually attractive. The department being on the ground floor, those who make other purchases are attracted at once to the Millinery and Mantle Department, and the consequence is Messrs. McDonald & Elder are doing a large and increasing business in this line under the management of Miss Delaney. The tailoring department is well supplied with the newest patterns and styles of cloths, cassimeres and tweeds of the best English French and Canadian makes. This is under the management of Mr. Robert Elder, an experienced cutter. The best fits and latest styles are guaranteed. In dress goods, shawls, poplins, silks, etc, intending purchasers have such a variety to select from that they cannot fail to be suited. We are glad that this firm is doing an ever increasing business.

PAINFUL.—On Tuesday, George Mills, Carriage and Wagon Maker, attempted suicide by making a large gash in his left arm with a razor, while under the influence of liquor. The wound bled profusely—he must have lost about three quarts of blood. Dr. Kincaid was called in and dressed the cut, but with difficulty as the man was in *delirium* at the time. He averred his intention of committing suicide, and in consequence had to be sent to jail to prevent his carrying out this object. He has been drinking badly since Saturday, and, we are informed, easily obtained his supply of destruction on Sunday. Is it not too bad that a traffic that is cursing the world is permitted to exist among a professedly Christian people? When sober, Mills is a harmless man, and has a very industrious and respectable wife and family. The men who dealt out to him the maddening bowl deserve punishment, but the law that permits it to be dealt out is a disgrace to any country.

COUNTY L. O. L., E. P.—The first meeting of the said lodge was held in Allandale on Saturday, the 16th day of May, when the following officers were elected: A. J. VanIngen, C. M.; T. Blizard, D. C. M.; Rev. — Paul, Chapter; J. Padget, Secretary; H. Moore, Treasurer; A. Smith, C. D. of Ceremonies; A. Campbell, C. Lecturer. The annual meeting will be held in the village of Norwood.

PERSONAL.—Mr. Fred. C. Taylor, we understand, leaves Peterboro almost immediately to take up his fixed residence in Lindsay, where he has received the appointment of Express Agent, Telegraph Agent, and Agent for several Fire and Life Insurance Companies. Mr. Taylor is a young man of excellent character and good business habits, and will be an amiable and worthy citizen. Indeed, he is one of those citizens we should seek to retain. Companies who have secured his services will find in him a valuable and energetic manager, and the Town of Lindsay will have the addition of a reliable business man. He carries with him the best wishes of numerous friends for his welfare and prosperity.

QUEEN'S BIRTHDAY.—Among all the various modes of spending the birthday of our Most Gracious Sovereign we can conceive of nothing better calculated to yield both pleasure and profit than a trip down the laughing little river. Evidently Mr. Calcutt is of the same opinon, as he is to give an excursion on Monday next, for the unique particulars of which we would direct the attention of the reader to advertisement elsewhere.

FUNERAL.—The funeral of the late Thomas McCullough Fairbairn, M. P. P. will take place on Friday, the 22nd instant, at 3 p. m. from the Canada Presbyterian Church to the place of interment—Little Lake Cemetry.

THE Government has decided to withdraw the twenty cent pieces from circulation, owing to the annoyance they cause in trade.

CONSIDERABLE progress has been made toward the establishment of a new Roman Catholic University in London. The buildings are in progress of construction near Kensington. The Pope is said to take great interest in the work.

CARS OFF THE TRACK.—An accident occurred on the Midland Railway last Thursday night, though not a very serious one. The train due at 4:10 p. m. did not arrive until 11:30 the following morning in consequence of a couple of cars having run off the track, about two miles north of Lindsay.

CORNER STONE.—The Corner stone of the new Bible Christian Church, on Murray Street Peterborough, will be laid on Monday the 25th instant. Revs C. Barker Bowmanville, J. M. Roger, K. Maclennan, and C. Fish, Peterborough, will deliver suitable addresses on the occassion. There will be Lunch in the S. S. Room, from 12 to 2 o'clock and a Tea from 4 to 7 o'clock.

MASONIC.—Ontario District. R. W. Bro. J. B. Trayes will open a General Lodge of Instruction in the Masonic Hall, Oshawa, on Thursday, 28th inst., at 2 o'clock p. m., and in the Masonic Hall, Whitby, on Friday, 29th inst., at the same hour, on which occasion he will be ably assisted by R. W. Bro. C. D. Macdonald, P. D. D. G. M. of Ontario District, W. Bro. Jas. Miller, W. M. Peterboro Lodge, No. 155, Peterboro', W. Bro. R. J. Winch, W. M. St. John's Lodge, No. 17, Cobourg, and others well skilled and high in the Order. The Three Degrees will be fully demonstrated, and every opportunity given all who attend to acquire the work as authorized by Grand Lodge. A full attendance, particularly of Masters and Wardens, is respectfully requested. Constitutional questions submitted in writing will be answered, and actual work taken up in the evening. A cordial invitation is extended to the W. M., Wardens and Members of Lodges.

MECHANICS' INSTITUTE.

The sixth annual meeting of the Peterboro Mechanics' Institute was held in the Rooms of the Institute on Monday evening, May 18th, 1874.

Mr. William Helm, President, in the chair.

The Secretary read the following report of the Directors for the past year.

ANNUAL REPORT.

Your Directors have great pleasure in being able to report that the past year has been one of continued prosperity and success, though the increase in the membership has not been very much over that of the previous year, still there has been an increase. In the year ending May 1873 there were 232 members, in the past year we had 236, but this does not show by any means the increased interest taken in the affairs of the Institute by the members, or the hold it has taken on the minds of the people generally. The circulation of the books of the Library will indicate this much better than any other thing we can state. The Librarian's Boook shows a total of two thousand, six hundred and forty-seven volumes lent out during the year, making an average of eleven volumes for each member.

The Library Committee have used their usual good judgement in the selection of the books added to the Library through the past year, the number of volumes being three hundred and twenty, at a nett cost of $355.84; and it must afford them great satisfaction to hear that the members have expressed themselves highly pleased with the excellent Library now in possession of the Institute, the total number of volumes now owned being (exclusive of the School Library) thirteen hundred and seventy, amounting in nett cost to $1,687. Over one hundred volumes are being rebound, and will be ready for distribution immediately.

The usual papers, magazines and periodicals have been regularly placed on the tables of the Reading Room, and, so far as can be ascertained, have given general satisfaction. The attendance in the Rooms through the year has been on the increase, manifesting the interest taken in the institute by all connected with it.

Evening Classes were carried on thro' the winter, attended by forty-two pupils, whose course of lessons extended over fifty-four nights, under the tuition of Mr. S. S. Cann. They were very successful, and encourage your Directors to look forward with hope of still greater results in this direction for coming winters. The amount expended on the classes was $311.60; the receipts for fees, $151.25—leaving a balance to be paid out of the funds of the Institute of $160.35.

Along with this will be presented the Treasurer's Statement of the Receipts and Expenditures for the past year.

In taking a general view of the operations of the year, your Directors see no cause for anything but encouragement for the future. They feel confident that the public will appreciate the advantages to be gained in becoming connected with such an institution—one which has such means of self-improvement open to its members in such a large and well-selected Library, a Reading Room stocked with the chief papers of the day and a large number of the best magazines and periodicals, so that any spare time the members may have at their disposal may be profitably occupied in storing their minds with the current events of the day, and improving themselves in every way.

The Directors hope that as the interest in the affairs of the Institute has increased very much latterly, the coming year will be one of marked improvement; that the membership shall increase very much, and through such increase, with the grants from the Government and Town Council, the Directors for the coming year may be enabled to place the Institute far ahead of anything heretofore attempted, as regards its Library, Reading Room, Lectures and Classes. In order to attain to this point in progress, the Directors earnestly ask of each and every member of the Institute to work amongst their friends and acquaintantes, so as to get new members in, and thus most effectually spread abroad the influences for good which undoubtedly flows from a well-ordered Institute, until they are felt through our whole population.

All of which is respectfully submitted.

WM. HELM, President.

WM. JOHNSTON, Secretary.

Peterboro, May 18th, 1874.

ABSTRACT STATEMENT.

RECEIPTS.

Cash receipt—balance on hand	$151 68

GEO. E. SHAW, Treasurer.

We hereby certify that we have examined the accounts, vouchers, etc., etc. of the Treasurer of the Peterboro Mechanics' Institute, for the year ending May, 1874, and find the same correct,

E. H. D. HALL,
MAURICE DUNSFORD, } Auditors.

Peterboro, May 14, 1874.

The election of Officers being then in order, the President appointed Messrs. G. E. Shaw and Wm. Mc[illegible] as scrutineers. The following [illegible] were duly elected, viz.:

Mr. Robert Robertson, President.
Mr. Wm. McLean, 1st Vice-President.
Mr. W. H. Taylor, M. D., 2nd Vice-President.

[illegible] Shaw, Treasurer.

Directors.—Messrs. William Eagle, Thos. McCloskey, Geo. Robertson, Wm. Johnston, John Hughes, Wm. Tully, Thos. Lannin, Peter Hamilton, James English, Henderson Hesbitt, Andrew McFarlane and James A. Hall.

Moved by Mr. T. Lannin, seconded by Mr. Wm. Robertson, that the thanks of this meeting be given to Mr. G. E Shaw, Treasurer, and to Mr. Wm. Johnston, Secretary, for their very efficient services through the past year. Carried.

Moved by Mr. G. E. Shaw, seconded by Mr. Lannin, that the thanks of this this meeting be given to Mr. Wm. Helm, President for the past year, for his very valuable services. Carried,

WM. JOHNSTON, Secretary.

THE LATE THOMAS M. FAIRBAIRN, M.P.P.

As we noticed last week our worthy Local Representative is no more. Death has claimed him as his prey at the early age of 34. Mr. Fairbairn has for a long time been delicate in health, yet at times he appeared as sanguine and energetic as ever and would talk of the future with as much zest and hope as the most robust amongst us.

He was born in Bowmanville in 1840, and after passing through the usual routine of school education went to the University in Toronto, and after matriculating studied law, passed his examinations, and commenced practice in Peterboro in 1863-4. He subsequently formed a partnership with Mr. Cassels, and after some two years the firm was extended under the title of Dennistoun, Fairbairn and Cassels. In 1871 he retired from the firm, and for some time practiced in Lindsay, but finally returned to Peterborough forming the partnership of Boultbee, Fairbairn and Poussette.

In 1871 he was elected to the Ontario Legislature, but the duties and excitement consequent upon being a Member of Parliament proved too much for his delicately-strung nerves. In the summer of 1873 he was induced to try the effects of a water cure establishment in New York State, but came back, in the opinion of his friends at least, not much better. About the time of the meeting of the Legislature last fall, he felt scarcely able to go to the House, and fancying he had received benefit before from the Dansville establishment, shortly after Parliament opened, he set out again for the water-cure. From it he went to Florida to try the effects of its clime upon his shattered constitution, but alas! all changes and efforts proved alike unavailing. Fondly clinging to life and hope, he fancied if he were properly nursed, he would recover so he sent for his wife to go to him for that purpose. She at once set out on this long, journey, and on her arrival did all for him that was possible, but without avail, as he gradually sank, expiring on Wednesday last.

Death to him was without terrors, and he spoke of its approach without alarm or fear. His hope and trust were on Him who has overcome death, and who has declared that He "is the resurrection and the life, and that whosoever believeth on Him hath everlasting life."

Mr. Fairbairn as a business man was painstaking, honest and conscientious, always desirous of doing right to every one; and had he been spared, would doubtless have acquired a large practice as a lawyer.

As a Member of Parliament he was always desirous of doing what was right His love of fair play commanded the respect of his political opponents. He was firm in his determination to act in the path of duty—please or displease whom it might.

His addresses in the House and elsewhere gave promise of usefulness as a Legislator, and had he been spared he would no doubt have made his mark.

As a member of the community and as a friend he was always pleasant, open, cheerful and zealous in every measure designed for public good. His heart and purse were always open for every worthy and benevolent object, indeed he was a model man in these respects, and among the foremost in every good word and work.

Like all mortals he had his failings, guided frequently by what might be termed conscientious impulses, but largely overbalanced by his many virtues.

But alas! he is no more amongst us—his sun has set ere it had reached its zenith, and the lesson his history leaves us, is to improve time, that "Whatsoever our hand findeth to do, to do it with our might, as there is no work, knowledge or device in the grave whither we are fast hastening."

He leaves a beloved and devoted wife and four small children, to mourn their loss; and a large circle of friends, who sincerely sympathize with his bereaved family.

His funeral will take place on Friday next at 3 o'clock.

MUNICIPAL LOAN FUND DISTRIBUTION.

TOWNSHIP OF SMITH.

The Municipal Council of Smith have agreed on a method for distributing their portion of the Municipal Loan Fund. At the last meeting of Council it was moved by Mr. Sanderson, seconded by Mr. Fitzgerald,—

Whereas the Council has been apprised by the Provincial Auditor that Government has ascertained that the sum of $6,856 is payable to this Municipality under the Municipal Loan Fund resolutions of last Session, and whereas this Council has agreed to credit the Town of Peterboro with the sum of $620, being the amount the residents of that portion of this Municipality included in the extension of the limits of said Town in 1872 would have been entitled to under the provisions of the Act, thus reducing said sum to $6,236, to which add $290 now in the hands of the Treasurer, thus making a total of $6,626: be it therefore resolved that the said sum of $6,626 shall be expended in building or improving schools, opening up and graveling roads within said Township, and shall be divided amongst the several 4th Wards as follows, that is to say: to wards 1, 2, 3, and 4, the sum of $6,166.20 each, and to Ward No. 5 $165.20. That this Council doth recommend the Councillor representing each of the said Old Wards to call a meeting of the ratepayers in each Ward and endeavor to obtain the concurrence of the Ward, said meetings to be held on or before the 20th inst., on that day, and at such meeting and [illegible] to the Council of the [illegible] that day, and that the Council [illegible] that time pass a by-law [illegible] Ward, and that the Clerk [illegible] Ward Councillor [illegible] Ward Councillor [illegible] Ward Councillor

SUMMARY.

An organ has been placed in the Presbyterian church at Grenenoque.

A vagabond broke into the Congregational Church at London, on Sunday, and went through the Sacramental wine.

POST OF EFFEY.—*The Guide* says:—We are gratified to announce that through the exertions of our esteemed representative Lewis Ross, Esq., M.P., Port Hope has been made a port of entry for leaf tobacco, etc.

The suit brought by Thos. McMurray, of the Bracebridge *Advocate*, against Mr. Stephenson of the *Free Grand Gazette* for alleged libel, has been decided, the jury returning a verdict of "not guilty." Damages has been laid at $5,000.

A little girl asked a minister: "Do you thing my father will go to heaven?" "Why, yes, my child, Why do you ask?" "Well, because if he does not have his own way there he won't stay long, I was thinking."

An ardent wife to thus advertised for: "June, your absence will ruin all. Think of your children, your parents, your husband. Return, return; all may yet be well. At all events enclose the key of the cupboard where the gin is."

Eighty-eight young ladies in Minnesota have agreed not to marry any man who uses tobacco. Eighty-eight young men in Minnesota have banded together and agreed not to marry any girl who used false hair. Bets even, from last accounts.

The Mitchell Town Council have adopted a system of Waterworks which cost $9,000. The force is to be obtained from the engine of one of the mills in the place, for which the town will pay $500 a year. The ratepayers are against the system, and will probably urge their rights in a Court of Chancery.

The Picton *News Nation* says:—On Tuesday of last week, Mr. Isaac Mabee made the largest shipment of eggs, that, we imagine, was ever made at one time from Picton, there being 66 boxes, containing 6,900 dozen. This is his second shipment this season, he having previously shipped 3,150 dozen, making in all 10,050 dozen.

The Stratford *Beacon* is informed that Bishop Crinnan intends losing no time in paying his dutiful reverence to the Pope, visiting the Holy City in honor of his recent appointment to the Episcopal Diocese of Hamilton. The Bishop, in company with his private secretary, will sail by the Prussian, leaving Quebec on the 23rd of May.

By a return just issued the area of London is 122 square miles. The river is crossed by seventeen bridges. The average daily supply of water is 514,269 metric tons, and the annual rateable value of property is £2,000,000 sterling. Last year the number of births was 121,100 in fifty-three weeks, or 2,285 weekly; and as the deaths were 76,554, or 1,446 weekly, the excess of births over deaths was 44,466, or 839 weekly.

SALE OF VILLAGE LOTS AT MINDEN.—This village is now in a better position than it has been, for one great drawback to its rapid progress is removed. Hitherto the village could not spread itself, nor could those who wished to build do so, in consequence of the difficulty of buying land in the vicinity. Mr. Orde who owns about 200 acres adjoining the village, has resolved to lay it off into small building lots, and to dispose of the lots on favorable and easy terms to persons willing to build. The good effect of this will be at once apparent, and we shall have lots of new houses springing up, and new residents coming in. The short distance to the station at Cobocook, and the opening of a steamboat navigation for a portion of the distance, will make Minden the metropolis of the back country.—*Warder*.

RECIPROCITY.—Washington, May 13. There seems some prospect that the negotations now going on with a view to a new treaty of commercial reciprocity with the Dominion of Canada may terminate successfully. The Secretary of State conducts the negotations on behalf of our Government, and Sir Edward Thornton and the Hon. George Brown, Senator of the Dominion of Canada, act as joint plenipotentiaries on the part of Great Britain. Negotiations have been going on for some months, and it is understood that a rough outline of the new treaty is now the subject of investigation and discussion. The Canadians say have no need to ask favours from anybody, and do not want any now, but if the United States think it to their interest to merge the fishery question and all other troublesome questions in a comprehensive treaty, they will cordially agree to any equitable settlement calculated to place the commercial relations of the two countries on a friedly, unfettered, and mutually advantageous basis.

A $3,000 VERDICT.—The heirs of Mr. Robert Giles, who was killed with getting off a train on the G. W. Railway, at White's Station, County of Elgin, in July last, were awarded a verdict of $3,000 at the London assizes on Monday. The train was about three hours late leaving London, and plaintiff charged that on reaching White's station it did not give time for anyone not well acquainted with the station to alight with safety. This was proven by several passengers on the train at the time. No one called out the name of the place, as trainmen are supposed to on approaching a station. Mr. Rock, who conducted the case on behalf of the plaintiffs argued that the conductor believing, his passenger, to have been drunk, it was his duty to take pains and see that he alighted safely, and the Judge in charging the jury coincided with this view of the conductor's duty under the circumstances. The action was brought on behalf of deceased's widow, daughters Margaret and Jessie, and sons Alexander and David, aged respectively, 21, 17, 15 and 6 years. The jury gave a verdict for the plaintiffs with $3,000 damages divided as follows: For the widow, $1,000; Margaret, $200; Jessie, $500; Alex., $300; David, $1000.

A Western editor apologizes for the deficiency of the first edition of his paper by saying he was detained at home by a second edition in his family.

A fop in company, wanting his servant, called out, "Where's that block head of mine?" "On your shoulders, sir," said a lady.

A printer wanted at this office immediately who can make up the paper so that every man's advertisement will be at the top of the colum. No other kind of printer need apply.

The *Courier Journal* allows its proof reader to go to prize fights, on steam boat excursion, down in mines and up in balcons, but it can't kill him.

GOOD HEALTH.—Happy is the man who has that priceless gift of nature, and sensible is he who knows how to take care of it.

An English boy, on being asked the other day who was prime minister of England, answered, without hesitation, "Mr. Spurgeon."

PORT HOPE & LINDSAY RAILWAY.

FROM THE STRATFORD HERALD.

DEAR Sir,—The object of this Company is to run an independent line of railway laid with steel rails from the harbor at Goderich, to Orangeville and also from the city of London, via Strat ford, and thence to Orangeville direct, having a junction at that Town, thence by Air Line to Newmarket, Uxbridge, Lindsay, Peterborough, Ottawa, Montreal & Quebec, making it shorter to Ottawa by 100 and Quebec by about 70 miles, than by the present Grand Trunk route, being a saving of from 7 to 10 cents per bushel and on wheat and in freight also $3 per head on passengers, besides six hours of time saved. The Huron and Quebec will create and connect with not less than 25 other railways running in the province of Ontario, all of which will be largely interested, viz:—

Grand Trunk, Buffalo & Huron, Wellington G. & B., Wellington South ern Ex., Stratford & Huron, London & Huron, Toronto G. & B., Mount Forest Ex., Hamilton & N. W., Northern North Simcoe, Ontario Centra, Toronto & Nippising, Whitby & Port Perry, Bowmanville & Lindsay, Midland, Victoria, Bobcaygeon & Peterboro, Cheney & Peterborough, Grand Junction, Trent Valley, Cobourg & Marmora, Kingston & Pembroke, Brockville & Ottawa, Canada Central, Prescott & Ottawa, Ottawa & Montreal, Credit Valley, Great Western to Detroit, Great Western to Sarnia, London & Port Stanley, Canada Southern, Canada Southern Mooretown Branch. Making the most complete railway connection in the Dominion.

The Company expects bonuses from the Counties, Towns, and Villages to the Amount of $70000 per mile, $6,000 per mile from Government. It is the Intention of the Company, to make this line the very best in the Province, as the grades will be easy, curves very few and no bridging worth speaking about. It will run right along the watershed, through the whole of Ontario. $20,000 per mile will make a first-class road, and $10,000 per mile will equip it with ample rolling stock. It will be able to take 30 cars in a train where the Grand Trunk can only take 20 Keeping the working expenses at the very lowest mark, and by that be able to carry freight at a greatly reduced rate, giving the country the whole benefit of the best, shortest, and cheapest route to the greatest markets in the world, that is Montreal and Liverpool Sir Hugh Allan and his friends have taken not less than $900,000 worth of stock in Ontario and Quebec Railway, besides a large amount of stock in the Northern Colonization road. He is President of those two roads, and it is expected he will control the greatest bulk of the carrying trade over both land and sea from Liverpool to Manitoba, and the Far West. The Huron and Quecec Railroad Company are about amalgamating or making managing arrangements that is with the Great Western Railroad Company from London to Sarnia, Detroit and Port Stanley, so that freight can be shipped at any station in the United States without transhipment or change of cars. This will give Canada what she wants to make her railway system complete, and compete successfully, for the through as well as the local business for the whole Dominion, also for the entire Western States, it being the shortest route between the far West and Liverpool by over a thousand miles than by the way of New York or Boston through the States.

JOHN FOWLER,
Managing Director for the Western Section of the Huron and Quebec Q, R, Co.

The Premier and Ex-Premier.

The fact grows more palpable, as time rolls on, that the, great abilities of Sir John Macdonald are entirely mythical. In opposition he makes a very indifferent leader. Though he was an adept in the use of purse and patronage, as was shown by his keeping an ever-changing band of followers at his back so long, without these aids he has dropped into comparative insignificance. Half the time he is out of his place. and when he is there his opinions would command no attention if it were not for the memory of the important post he used to hold. He rises occasionally, goes through a vast amount of vehement gestures, mutters a few inaudible words, and resumes his seat without causing any commotion. The conclusion is inevitable that he is a smooth over-ated man In direct contrast to him is the leader of the Government, Mr. Mackenzie, whose extensive knowledge and able administration of public affairs astonish his most intiment friends In the conduct of the Public Works Department he is never at a loss for an answer. Every canal, harbour bay, lighthouse or railway, from the Atlantic to the Pacific—to quote a favorite phrase of Tupper's— is as familiar to him as to the inhabitants of the several localities. He knows the exact requirements of each work, and has the estimates and the method of application of each sum at his fingers ends. When a subject comes up for debate and is talked about by half a dozen members, the Premier replies briefly, but pointedly, without notes, taking the arguments of the several speakers, one by one, with out confession, and answering them by plain references to authorities and precedents. In matters not connected with his own department he is also wel posted, and frequently he answers questions on behalf of an absent colleague, or on matters of general policy. His voice is always heard distinctly, and he seldom utters a word that could have been spared.—*Hamilton Times*.

FROM the Orillia *Packet* of the 8th inst. we clip the following report of an ejectment case which was tried at the Assize holden in that place last week: On Monday an important ejectment case was tried. The action was brought by Col. Armstrong to obtain possession of a lot in Mono, upon which the defendant, Wm. Stewart, squatted in 1861. The only title he showed was the right of undisputed possession since that time. The plaintiff produced a deed of the property to himself, from Thomas Mom of the County of Stormont, to whom it had been granted by the Crown, for military service in 1812. Thomas Mom was present, and gave evidence that he was a private in Capt. Morgan's flank company of the 1st Regiment of Stormont Militia, during the war of 1812, and was entitled to a grant from the Crown for his services, but was not aware until two years ago that the grant had been issued. Two of his old companions in arms, Messrs James Campbell and C. Fitz, were also produced, and testified that he was the identical Thomas Mom who had served with them during the war of 1812; and further they did not know of any other Thomas Mom. His Lordship directed the jury that if they were satisfied that the Thomas Mom who made the deed to the plaintiff was the Thomas described in the patent from the Crown, he did not see what else they could well do but find a verdict for the plaintiff, which was done.

DIED.

At Invernia, Peterboro, on the 20th of May instant, Mary Blackwell Rubidgeon, second daughter of Robt. Dunbar-ton, Esq., County Judge, aged 27 years.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is Thomas' Eclectric Oil, quickly a proprietary article of the highest character. Old that is known, each year increasing in favor of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small et Oils which they may contain.

S. N. THOMAS, PERRY, N. Y.
And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Hoses' Peridocal Pills.

This invaluble medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excessive and removes all obstructions, and a speady cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give a permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood-purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferiar and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast supercseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.
NORTHROP & LYMAN,
TORONTO, Ont.
General Agents for Canada.

This simple mental acquirement all can possess, free, by mail, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A great counting book. 100,000 sold. Address T WILLIAM, & Co., South Right st. Philadelphia, Pa.
October 4, 1873 49-tf

As numerous cases of Poisoning have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold to the public without being properly analyzed purchasers of Dr. Wheeler's Compound Syrup of Hypophosphites can rest assured that it is free from strychnine and all poisonous substances, and is confirmed the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the preservence of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest dose, it is of the greatest importance that this caution be heeded.

IT is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. The treatment of old lingering complaints is necessarily protracted, and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containing elements of the tissues, repairs, diseased bone, muscle, and nerve, and renews constitutional vigour in the same manner as our daily food, with [illegible]. It may be taken by all ages, [illegible] or aged, with positive certainty of permanent benefit.

FOR CONSUMPTION
AND ALL DISEASES THAT LEAD TO IT; SUCH AS
Coughs, Neglected Colds, Bronchitis, Pain in the Chest, and all Diseases of the Lungs,
Allan's Lung Balsam
Is the Great Modern Remedy.

[illegible] by the [illegible] discovering [illegible] to give [illegible] a speedy relief. It is warranted to give satisfaction in every case in the most confirmed cases of Consumption: It is warranted not to produce costiveness (which is the case with most cough remedies) effect the head, or in any way Opium in any form. It is Warranted purely vegetable in its nature and being a wide range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small et Oils which they may contain.

Price 25 cents per bottle.
Sold by all Druggists.
April 22, 1874. 17-

SHERIFF'S SALE OF LANDS.

Official Report, Vienna Exposition, Sewing Machines, &c.

(EXTRACT PAGE 2 &c.)

"The premium Crossley Medal is hereditary in the family in favor of Wheeler & Wilson, New York, which has been awarded already seven times, and of these seven, six times into continental ones. The complete manufactures parts by machinery in an organized plant such as theirs, is said to be a example for exhibitors. This firm produces 650 well adjusted machines daily."

"The latest performance of this firm, and which is the wonder of the Vienna Exposition, is their new No. 4 Sewing Machine. This controversial machine is yet the shortest number turned out the finest genuine stitch a truly great stitch."

"Wheeler & Wilson have received the highest recommendation of world's Exposition, and of the 7 awards they were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Fall Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

Choice Poetry

UNCLE ZEKE.

built homestead, did you say, my boy?
Just add another tweet.
I have bought me rib in all my life.
[illegible] have had plenty.
[illegible] them all their glories [illegible]
True joy is found in labor.
If you want to be happy all your da—
Fear God and love your neighbor.

Hard rubs on did I say, my boy?
You a right, but still he did his
I've jogged along a-[illegible]journey of life,
And hain't had much to complain of.
I've had my ups, and I've had my downs,
But never was called a quitter;
Whoever this may be lodged up, and plus sky grows dark,
I do my best as a worker.

Have I been married, did you say, my boy?
Yes, and been [illegible]
Six boys, and four girls, and all grown up—
How and where is beside the mark;
It seems but a day since my old mamma here
Brought me such dear little squaller,
And when I look back to the years that have gone
I am almost hear 'em holler.

Get tired of my wife, did you say, my boy?
Well, never, if that be the story;
Get tired of my wife as I get tired of a meal—
Or anything bought with money.
Get tired of my wife? thunder! boy, no;
Talk sense, I won't stand jesting.
I love the old gal, the Lord only knows,
My heart is so full I'm choking.

Beg pardon, did I hear you say, my boy?
I was mad, but now I'm sorry;
I knew you didn't mean to insult the old man,
It's all over now, don't worry.
When I hear the fellows talk of these new ideas,
Divorce, free love and affinity,
I pity their ruffians comes from below,
And the devil is their deity.

Did we ever quarrel, did you say, my boy?
If we had'nt we would'nt be human,
Many times we've been hot, she's scared me,
And I've cursed the old woman;
But when we cooled off, we rubbed it all out,
And turned a new leaf over,
I was'nt such a fool because she blowed me,
As to go and turn free lover.

Have I got religion, did you say, my boy?
I don't know as I can tell you
If I said I had, and blowed about it,
You'd think I was trying to sell you,
I hain't got much of the spectin' sense kind,
Which comes and goes like the fever,
If that's the kind the Bible tells about,
I guess I'm an unbeliever.

Belong to the church, did you say, my boy?
I try to do my duty;
I never join of the church, but I've tried to serve God,
And guess I'll shout Old Monty;
I hain't done the best in all I've done,
And it sometimes gives me fear, sir;
But when the bugle blows, and the roll call is heard,
Old Zeke will answer, "Here, sir."

DYEING.

It is absolutely necessary that every article to be dyed, as well as every article used in dying should be perfectly clean.

Every article to be dyed should be thoroughly scoured in soap and well rinsed out. In order to secure uniformity in colour and to avoid spots on wool, yarn, or fabrics, it is very desirable that every piece should be dipped in warm water, just before putting into the alum or other mordant.

In all cases soft water should be used if possible, and in quantity sufficient to cover the articles completely.

As soon as an article is dyed it should be aired a little, then well rinsed out, and afterwards hung up to dry.

In putting dresses and shawls out to dry, that have been dyed, they should be hung up by the edge, so as to dry it evenly

BLEACHING LIQOR.

One gill muriatic acid, one gallon of soft water; soak the wool or cloth for fifteen minutes, and rinse well in sof. water.

SCARLET RED.

Take soft water sufficient to cover the cloth or yarn you wish to colour, bring it to a boiling heat in a copper kettle, then add 1¼ oz. cream of tartar for every lb. of cloth; now boil a minute or two, and add two ounces of Powdered Lac, and three ounces of Madder Compound (the Lac and Compound must be previously mixed in an earthen bowl) boil five minutes, now wet the yarn in warm water and wring it, and put in the dye; then boil the whole nearly an hour, take the cloth or varn out and rinse it in clean. cold water.

COCHINEAL SCARLET, NO. 1.

For 1 lb. of cloth or yarn, take cream of tartar 1½ oz; water sufficient to cover, boil in a block tin vessel, and when dissolved, add solution of tin 1½ oz.; boil for three minutes, then introduce the cloth and boil it for two hours, drain and cool. Next the cream of tartar ¼ os.; water sufficient; boil, and add powdered cochineal 1 os.; boil for five minutes, then add gradually, solution of tin 1 os.; stirring well all the time; lastly put in the goods and dye as quickly as possible.

MADDER RED—NO. 1.

Take 1 lb. madder for every 2 lbs. yarn or cloth, soak the madder in a brazen or copper kettle for one night in warm water, enough to cover the yarn you wish to colour, next morning put in 2 oz. of madder compound for every 1 lb. of madder you have soaked, then wet your yarn or cloth in clean water and wring it out; afterwards put in the dye, now put the kettle on the fire and bring it slowly to a scalding heat which will take about half an hour if a light red is wanted, and longer if a dark one; the colour depending upon the time it remains in the dye. When the colour is made, rinse the cloth immediately in cold water, and it will then be finished

MADDER RED—NO. 2.

To each lb. of goods—alum 5 oz., cream of tartar 1 oz., put in the goods and bring the kettle to boil for half an hour, then air them and boil half an hour longer, then empty your kettle and fill with clean water, put in bran, one peck, make it milk warm, and let it stand until the bran rises, then skim off the bran and put in Madder ¼ lb., put in your goods and heat slowly until it boils and it done. Wash in strong suds.

THE WAY TO AVOID CALUMNY.—"If any one speaks ill of thee," said Epictetus, "consider whether he hath truth on his side; and if so, reform thyself, that his censures may not affect thee." When Anaximander was told that the very boys laughed at his singing, "Ay," said he, "then I must learn to sing better." Plato being told that he had many enemies who spoke ill of him, said: "It is no matter; I will live so that none shall believe them." Hearing, at another time, that an intimate friend of his had spoken detractively of him, he said: "I am sure he would not do it if he had not some reason for it." This is the surest, as well as the noblest way of drawing the sting out of a reproach and the true method of preparing a man for that great and only relief against the pains of calumny—a good conscience.

THE CONDOR—We can tell you an anecdote about the condor's power of life. A miner in Chili, a very strong man, once saw a condor enjoying his feast on the mountains. He had eaten so much that he could not fly, and the man attacked and tried to kill him. The battle lasted for a long time, and the man was nearly exhausted. But in the end he thought he was the victor, and left the conder dead, as he imagned, on the field. Some of the feathers he carried off in triumph to show to his companions, and told them he had never fought so fierce a battle. The other miners went to look at the condor when, to their surprise, he was standing erect, flapping his wing, in order to fly away. A bird with such power of life continued to exist years and years. Indeed, the condor is said to live for a century. The Indian tries to catch the condor by stratagem. He employs him to fight in a ring, to those cruel bull fights which are the favorite amusements in that part of the world. He does not attempt to attack the condor openly for he knew how strong he is, and he wished besides, to take him alive. He procures the skin of a cow, and hides himself beneath it. Some pieces of flesh hanging to the skin, and are sure to attract the condor. He comes pouncing on the prey, and while he is feeding with his greediness the Indian contrives to fasten his legs to the skin. When this is done, he comes out of his ambushment, and the bird sees him for the first time. He flaps his wings; and would fly but that his feet are entangled; and more than this, a number of other Indians soon run up and throw their mantles over him.—*Stories about birds*

VINEGAR BITTERS

PURE TEMPERANCE FAMILY MEDICINE

D. WALKER'S CALIFORNIA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cherry Pecto[illegible]

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so wide and wonderful confidence of mankind, as has exhibited in the remedy for pulmonary complaints. Throughout a series of years, and among most of the nations of the earth, its fame has been constantly increasing, as it has become better known. It has shown a character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to the milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the distressing affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed all who are sometimes subject to colds and coughs, and should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. Its energies in his mastery over the disorders of the Lungs and Throat, that the most desperate of them yield to it. When nothing else could relieve, and hope had fled, the Cherry Pectoral they subside and disappear.

Clergymen and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in connection with frequent doses.

In fact, there are no virtues known that we need to recommend for the relief of those here, or do more than assure the public that its qualities are fully sustained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills and Fever, Dumb Ague, &c.

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each person—our agents are furnished with this system—solely our own.

5th. *Because* the nerve tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of them Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

JOSEPH DANN,

Veterinary Surgeon

Graduate of Ontario Veterinary College, Toronto. Office: Hobbs's Foundry, Simcoe Street, Peterboro.

Residence—Royal Canadian Hotel.

Choice Poetry.

THE [illegible] OF BEER.

You think I [illegible]
Could gain [illegible]
I'd convey the [illegible]
Of [illegible]
Yes, now, with all [illegible]
I'll cause the [illegible]
To [illegible]

Love me? I hardly [illegible]
And hate my [illegible]
And worship [illegible]
The pledge? Fie, fie! You hate—love hate!
No subject? You intend to write—a treatise of length!
Yes hate! There's no reason for you but disdain.

It's bad enough to drink; but not to drink
Doth crush a brain of ghastly horrors make
As in one hour would leave the dead, I think.
Ah, keep away, ye fiends, for pity's sake!
Thou very fiendish of them abhor my brain,
My soul will be when they shall come again.

Love rum? I'd love to hold my head up high,
And breathe God's air a free and fearless man,
And look with pride on every eye on earth and sky,
With steady nerve to do and bend to plan;
I'd love it, grapple with as they come
In steady fashion, brave and strong. Love rum?

If only I could [illegible]
[illegible]
That climb the seat of him who would be free.
But instead up there grim [illegible]
To hell [illegible]

Ah, if I might have known how it would be
In these sad college days so wild and gay,
When first I drank in youthful revelry;
How easy then to put the cup away!
A mother's hope and joy I was till then;
Now see the trembling—ha! those eyes again!

Back, fiery eyes, to hell, whence ye belong!
I'll drink ye down—what, blood! Drink blood!
Help, help! They come,—a hideous, devilish throng!
Back, or I'll [illegible]
Back, can you back! They'll tear me in the flood!
Lower, crushed hands are clutching in my hair!
Is this the end? Ha, ha! Too late for prayer.

One of Gough's Stories.

A minister of the Gospel told me, in 1871, that a member of his congregation came home for the first time intoxicated, and his boy met him at the door step, clapping his hands he exclaimed. 'Papa has come home!' He seized the boy by the shoulder, swung him around staggered, and fell into the hall. That minister said to me (I could give you his name if necessary.) "I spent the night in that house. I went out bared my brow, that the night air might cool it. I walked out, and down the hill. There was the child dead; there was his wife in strong convulsions, and he asleep, with a dead child in the house, having a blue mark upon the temple where the corner of the marble steps had come in contact with his head as he swung him around, and a wife on the brink of the grave.

"Mr. Gough," my my friend, "I cursed the drink. He had told me that I must remain till he awoke, and I did. When he awoke he passed his hand over his face and exclaimed:

"What is the matter! Where am I!

Where is my boy?"

"You cannot see him.'

"Where is my boy, he inquired.

"You cannot see him."

"Stand out of my way.

"I will see my boy:"

To avoid confusion I took him to the child's bedside, and as I turned down the [illegible] he uttered a shriek.—"Oh, my child!"

That minister said further to me: "One year after that he was brought from a lunatic asylum to lie side by side with his wife in one grave, and I attended his funeral." The minister of the Gospel who told me the fact is today a drunken hostler in a stable in Boston!

Who should not be a Wife.

Has that woman a right to be a wife who thinks more of her silk dress than of her children, and visits her nursery no more than once a day? Has a woman a call to be a wife who calls for a cashmere shawl when her husbands notes are being protested? Has that woman a call to be a wife who sits and reads the last new novel while her husband stands before the glass vainly trying to pin together a buttonless shirt bosom? Has that woman a call to be a wife who expects her husband to swallow diluted coffee, soggy bread, smoky tea and watery potatoes six days out of the seven? Has she a call to be a wife who flirts with every man she meets, and reserves her frowns for the home fire-side? Has she a call to be a wife who comes down to breakfast in abominable curled papers, a soiled dressing-gown, and shoes down at the heel? Has she a call to be a wife whose husband's love weighs naught in the balance with her next door neighbor's damask curtains or velvet carpet? Has she a call to be a wife who would take advantage of a moment of conjugal weakness to extort money or exact a promise? Has she a call to be a wife who takes a journey for pleasure, leaving her husband to toil in a close shop, and have an eye, when at home, to the servants and children? Has she a call to be a wife to whom a good husband's society is not the greatest of earthly blessings, and a house full of rosy children, its best furnishings and prettiest ornaments?

A Curious Custom.

Talking the other day with the travelling salesman of a London woollen warehousemen—jobber we should call him here—there came to light a curious custom which prevails in England in that line of trade. A tailor, instead of having a heavy line of stock for his customers to select from, keeps on hand in many cases only a full line of patterns, representing the stock of all the leading warehousemen. The customer selects from the patterns the style, and makes that suit his fancy and his purse. Then, his measure having been taken and his order booked, an order goes up to the warehousemen for the cloth. He sends it down by the porter—the whole piece—who leaves it with the tailor. The tailor cuts off what he wants, and the next day the porter looks in and carries back the piece to its owners, who had it measured before it left them and again measure it on its return charging the tailor with the difference. Our "jobber" have failed that a shorter way is to cut off what the other wants, and send it to him. Yet this plan does not seem to have occurred to our clothiers over the water, or else it is one now thought and complete to suit their views of business.

Hon. Mr. Cauchon and Mr. Courtney, of the Audit office, will sail to-day for England, to negotiate the Pacific Railway loan.

The Muscovy or Musk Duck.

Mr. Wright makes the following remarks in his Poultry Book in reference to this breed:

The Muscovy or Musk Duck seems to be a comparatively distinct species, as the progeny of a cross between them and the more common kinds is found decidedly unfertile, at least when bred *inter se*, though we believe they have been bred with the parent strains. The distinct *habitat* of the wild species is also in favor of this view; for whilst the Mallard extends through the northern regions, including both America and Europe, and probably ever Asia, the Musk Duck is found wild only in the warmer regions of South America. Its district ranges from Guiana to Paraguay, but it does not migrate, which is another strong argument in favor of its distinct origin. In Brazil it is extensively domesticated, and is indeed the duck of the country; and it is also domesticated throughout both England and a great part of Europe, particularly in Germany. The name is derived from an odor of musk which pervades the skin, but which is not present in the flesh when cooked; and Muscovy is obviously only a corruption of this term. The Wild Musk Duck is started by all travellers to be a very active bird, even flying to the trees when alarmed, and passing the night in the same situation, perching upon the branches, which again marks a very wide distinction between *Cairina Moschata* and *Anas Boschas*. The nest too is sometimes built in the branches, sometimes in a hollow near the water. Some observers have stated that they rear two broods, one in May and one in September, but this is uncertain. Before pairing the males fight desperately, during which they make the feathers fly to such an extent as to cover the ground at the scene of combat, and this quarrelsome disposition is strongly inherited by the domestic race. The general color of the Musk Duck is black and white, not variegated, but in large patches; but we have also seen pure white, pure black, and a kind of blue dun. The feathers seem very loose, looking as if half had moulted and the rest were just ready to drop out; but the most peculiar and distinctive characteristics are about the head, the cheeks being naked, with a scarlet fleshy space round the eye, and the base of the bill carunculated also with scarlet. The head of the drake is very large, and these appearances are in him far more conspicuous, and give to him, in conjunction with a peculiar leer we have never seen in any other creature with feathers on, an aspect almost diabolical. The drake is very large, having been known to reach ten, eleven, and even twelve pounds, and is destitute of the curled feathers common to other ducks—again marking distinctness of species—but the duck generally averages only about six pounds, and we never knew one over seven and a half pounds. This again is characteristic of the variety. The flesh of both sexes, when young, but it does not lay nearly so many eggs as the common kinds. They are also awkward to keep, the temper of the drake being simply abominable. He persecutes every creature he can manage, and has been known to attack children; as to other ducks, he is fond of seizing them by the neck and holding them under the water till they are drowned, if in any way they 'rise his dander. We recollect well an old rascal which belonged to a relative, and was kept in a yard with some dorkings. The first time the drake attacked him the dorking cock showed fight, but was quickly discomfitted, and after that the drake made the poor fellow's life a positive burden to him. His favorite mode of offensive warfare was to rush at the poor dorking like a battering-ram, and knock him off his legs, trampling over him as he fell; and we often wished in a half-hearted way for a good sharp-fighting game cock to teach him a lesson or two. For these and other reasons the Musk Duck can hardly be called a profitable variety.

A Charge to the Pastor.

First, brother, insist upon having your pay when it is due, promptness is not only business-like but a Christian duty. The failure of ministers has too often brought them into want and the churches into bad order.

Make up your mind you must work, but if you consider yourself a fellow member, then don't work alone. Help your church, but don't carry it! If you find needlessness busy-bodies, give them plenty to do, they hate real work as a mosquito does smoke.

Be neither a baby nor a king.

Your main business is to preach, but to do this you must know your people and ascertain their wants. Don't visit just to please—but to help on your work. Some families will need six visits to another's one, go where you can hurt the devil most. Be governed by men's wants, not their complaints.

Preach not as others do, but as you and God can best arrange it. Fill your hearer with sound reason, then work him right with strong application, binding him with a "Thus saith the Lord." Be sparing, if not a little stingy, in using old sermons. Remember, when the stream of study stops flowing, the pulpit pond lowers. Give no excuses unless there is love enough to prevent their drowning in hatred. It requires much love to praise, more to reprove. Attack measure, and not people only, when they stand between you and the evil.

You must begin on time, and not be long in entering what you have to say—if you would have this busy age stop and listen. If you would preach your best sermons, practice them faithfully beforehand. When you hit the heart, don't forget the head, and vice versa.

Endeavor to be the greatest man in the parish, and that by being the servant of all.

Be childish enough to think you never can be left astray from Christ. Run to show Him all you have done, ask him for all you want.

Work [illegible] pray when you [illegible] love [illegible] God wings [illegible]

The Hagan and Trent Valley Canal bill has passed and the money will be got to build the work.

The Rest of the United States Currency in this Issue.

As the Senate has fixed the limit of the legal tender issue at $400,000,000 and authorized an issue of $400,000,000 to national banks, which, together with the fractional currency requisite which is at the rate of about $1 per capita, the volume of currency can be expanded up to say, about $843,000,000. The census of 1870 fixed the wealth then at $30,000,000,000 in round numbers. As the present time it has no doubt reached $35,000,000,000 The issue of one dollar in currency on $37,000,000,000 of wealth of $854,000,000, in round number.

Next land is made for the issue of currency hereafter, which will expand as business and wealth expands, without any disturbing legislation required on so sensitive a subject as currency and credit. We find the whole business of the country paralyzed on this currency legislation, and we are loosing not less than one million of dollars a day in the productive industry of the country until this question is settled.

To have a fixed limit in the volume of currency in so rapid a growing country as the United States would be like employing a thousand hands and only furnishing them with only eight hundred implements to work with. The effect would be the same if a fixed limit is imposed on the issue of currency

With the issue based on wealth—there would be a fixed principle established which would govern the issue hereafter, and the volume would increase as business and wealth increase, without any disturbing element whatever.

There could be no more issue beyond the expanding limit, and consequently there would be little contraction, and the country would be removed from those violent periodical expansions and contractions which have heretofore characterized the business of the country, because whereever there is no expansion values, but all would move on smoothly, and the reasonable wants of all supplied. Then any person who desires to invest money in the erection of large manufacturing establishments, or any branch of business, he will know at the commencement that the currency will not be expanded beyond this limit and consequently prices &c., can not be run up to the highest figures, while the buildings &c., are in course of construction, largely increasing the cost; to be followed probably after completion by contraction, and after diminishing its value one-half. Every business man understands this fully, and it is time that the members of Congress should know it also, because they were elected to legislate for the business interests of the country, composed mainly of the producers, who create the great bulk of the wealth of the country and support the Government, instead of legislating for the non-producing money interests of the country,

Under such a bill each State and territory in the country will receive its proportion of currency, based on its wealth and population. This is a fair and equitable distribution, and we are astonished that some of the members have not moved to have this principle engrafted as the basis of the new issue, so as to gradually equalize the currency in all the States on it. It ought to be done now, so that the volume of currency should be settled on a fixed basis and principle, and no further legislation need be required, so far as the volume of currency is concerned, at least. Now is the time to settle this question, and we sincerely hope that it will be so settled. With $1 in currency to $37 of wealth, based on the wealth of the country, it will give us the best currency in the world; and it would not be very long before it would be of equal value with gold as business and wealth increases, and even if irredeemable for a few years longer, nineteen-twentieth of the people of the country would prefer it to gold.

Buying a Short-horn Bull

Our opinion has often been expressed that in no way can a farmer so readily and cheaply improve the size, shape and value of his stock of common cattle as by the use of a good short-horn bull. It is not necessary that such a bull should be especially fashionable bred. He should be well bred and a good animal. He need not be a high priced bull, but will and ought to cost more than a steer of the same weight is worth for beef. From $100 to $300 will buy such bulls especially if fashion in pedigree and color be not made essentials. Better bulls can be obtained for more money, but a farmer, or two or three farmers who feel poor, can get a bull sometimes nearer the lower than the higher price named.

In selecting a bull for such a purpose, we should not make great size an essential—should rather choose a medium size, and rather compactly built animal; looking especially to depth and roundness of body, well developed hind quarters, back, flank, etc. At same price a young bull is to be preferred.

Gossip.

We condemn gossip—scandal's twin sister—yet it is a fault easily committed. We begin by a gentle deprecatory reference to some body's infirmities of temper, and we find ourselves specifying a particular time and scene, which straightway the auditor who hears tells to some one else, with additions, slight perhaps, but material. Before we know it we have stirred up a hornet's nest. This may be done without any more potent motive than a mere love of fun, and half the gossip in the social world is of the unthinking kind, indulged in merely from a spirit of drollery. Far worse is that other sort of talk which deals in slander and begins in slander, and which degraded friends and members the ties of years of entertainment with its sharp and cruel [illegible]. The only way to avoid this evil is to refrain from [illegible] the [illegible] of our friends a single article of conversation in the presence. There are plenty of [illegible] at least let us avoid personal [illegible]

An Ottawa telegram says it is announced that Sir John Macdonald is negotiating [illegible] Company, [illegible] Company, and the Canada Central Railway Company, with a view to [illegible] Company, and the Canada Central Railway Company, with a view to [illegible] Company, and the Canada Central Railway Company, with a view to

PETERBORO', MAY 28th 1874.

The Queen's Birthday.

THE FIREMEN—CORNER STONE—

A MAN KILLED.

The Queen's Birthday was celebrated here with the usual loyalty and good will on Monday. The morning was not as propitious as pleasure seekers would have wished it, but it cleared up by 10 o'clock and was pleasant afterwards.

At eleven o'clock the Cobourg Firemen arrived by the *Isaac Butts*, landing at the Ashburnham wharf. The men were escorted to the Drill Shed where they partook of a lunch provided for them by the Brigade here.

It was expected that the Cobourg Town Council would also be present, but some other affairs prevented them.

After the lunch they proceeded to the Creek on Hunter street, and there gave an exhibition of the Fire Engine throwing water. Owing to the mud and the shortness of the time the Cobourg Brigade had to stay there was not much display.

At three o'clock the Brigades and their guests repaired to the Drill Shed again, when

A DINNER

Was provided for them. Chief Engineer Stapleton presided, on his right were Messrs. Battel, Polkinghorn and Guillott of the Cobourg Brigade, besides members of the Town Council: and on his left were Messrs. A. Smith, W. H. Scott, Dr. Kinsold, Col. Poole and Principal Dixon. After the usual loyal toasts were given and duly responded to, there followed "Our Guests from a distance," responded to by Mr. Battel, Chief Engineer of the Cobourg Brigade, Mr. Guillott and Mr. Polkinghorn. The time being short the speeches were brief but breathed good will and a wish that at some future day when the railway will be in operation these marks of friendliness will be returned, and commercial intercourse more cordially established.

The Brigades then marched to the Ashburnham wharf preceded by the Band of the 46th Batt. Cobourg, and the 57th, Peterboro, when the party left for home, amid the deafening cheers of those on shore.

Owing to the unfavorable morning the day was not as pleasant as was anticipated, but on treat the visitors from our sister town did not return to their homes disappointed.

THE CORNER STONE

Of the New Bible Christian Church was laid by J. Hall, Esq., of Lakefield, at about 2.30 p.m., in the presence of a considerable number of people. The Rev. Messrs. J. M. Rogers, K. Maclennan, and C. Fish, of this town, and Mr. Pascoe of Bowmanville, assisted the Pastor, Mr. Hooper, in the religious portion of the ceremony. Rev. Mr. Hooper read a paper stating what was placed in the bottle under the Corner Stone, as follows:

The County of Peterboro, in the Province of Ontario, Dominion of Canada.

The Memorial Stone of the Church was laid by J. Hall, Esq., of Lakefield, on the twenty-fifth day of May, in the year of our Lord one thousand, eight hundred and seventy-four: it being the thirty-seventh year of the reign of Her Majesty, Queen Victoria; His Excellency Right Honorable the Earl of Dufferin, K. P., K. C. B., Governor-General of Canada, etc.; the Honorable Alexander McKenzie, Prime Minister of the Dominion; the Honorable John Crawford, Lieutenant-Governor; Members of the Dominion Parliament for the County of Peterboro—West Riding, John Bertram, Esq.; East Riding, James Hall, Esq.

George A. Cox, Esq., Mayor of Peterboro. Members of the Town Council: Messrs. Peter Hamilton, Thomas Cahill, Wm. Helm, Walter Paterson, Daniel Hopkins, Robert Romaine, Walter Beal, Wm. Toole, Arthur Rutherford, Henry Denne, Wm. Robertson, Jonathan B. Dixon.

Officials of the Canadian Conference: Rev. E. Roberts, President; Rev. W. L. Pascoe, Secretary; Rev. C. Barker, Editor of the "Observer."

Ministers taking part in the ceremony: Rev. J. M. Rogers, Pastor of the C. P. Church; Rev. K. McLennan, Pastor of the Church of Scotland; Rev. C. Fish Pastor of the W. M. Church; and the Rev. W. S. Pascoe, Secretary of Conference.

Architect, Mr. J. P. Rice, Bowmanville. Contractor, Mr. Wm. Wand. Trustees, Messrs. Wm. Yelland, Wm. Brownscombe, Henry Goodfellow, Wm. Wand, Frank Goodfellow, Robert Weir, and the Pastor of the Circuit, Rev. W. Hooper. Building Committee, Messrs. Wm. Yelland, Wm. Brownscombe and Henry Goodfellow.

A copy of the Minutes of the Canadian Conference, Missionary Report, Minutes of the English Conference for 1873, the "Observer," the "Globe," the "Mail," the Peterboro "EXAMINER," "Times," and "Review."

Circuit Ministers, Rev. W. Hooper and Rev. W. Quance.

After the ceremony was completed the people adjourned to the old church where the Ministers present delivered suitable addresses. After which all who so desired partook of tea provided in the School Room. The building will cost about $6,000.

THE REGATTA

Advertised to come off at 2.30 p.m. had to give way before the stormy and troubled waters in the Little Lake.

A MELANCHOLY ACCIDENT.

About 11 o'clock as a man named Anthony Mahew was about to sit down on a railing at the entrance to a Bowling Alley under the shop of Mr. Clark, watchmaker, the railing gave way and the unfortunate man fell backwards into a cellar entrance about 6 to 7 feet and received such injuries that he died immediately.

At 2 o'clock an inquest was held by Dr. Kinsold, and a verdict in accordance with these facts rendered.

Mahew was a Frenchman, a fanning mill maker, and leaves a wife and 7 or 8 children badly provided for.

Through the day there were crowds of citizens, young and old, and a number of people from the country moving round [illegible] not making much impression.

FIREWORKS.

In the evening there was a display of Firework on the Court House Hill, but the wind and damp detracted from the pleasure that might have been.

The day was considered well spent and the next day was employed as loyal subjects always do, in attending to business.

Towards parting time there were rumours of more than good feeling between parties who had indulged too freely in corn juice, but nothing more serious than numerous oaths, a few blows, and rolling in the mud is reported.

PARLIAMENTARY.

The House of Commons was prorogued on Tuesday. The Session although a busy one, has not been a long one. The great measures promised by Mr. McKenzie while in opposition have been secured, viz:—The Ballot, the Voting on one day, a reasonable scheme for the construction of the Pacific Railway, and a re-organization of the Militia system, more kindly relation with the Americans as to trade is also likely to follow the efforts of Mr. Brown now at Washington.

We may therefore hope for the continued prosperity of the country, even under Reform rulers. Indeed people have been somewhat disappointed in the remarkably favorable weather the Great Dispenser of events is sending, both the righteous and the wicked just now. Some are beginning to believe that seed-time and harvest may continue as promised.

Mr. McKenzie has shown himself fitted for the honorable and onerous position of Premier. Perhaps few men have given greater promise of usefulness in controlling legislation, and preventing corruption than the man who was so consistently abused because he raised himself from the ranks to his high place in the Council of his adopted country. He has shown himself master of all the details of Legislation, and has forced respect from those who withheld it as long as they could.

Mr. Cartwright succeeding Mr. Hincks as Minister of Finance, had to assume no sinecure position. It was well known that Mr. Hincks looked the ghost to call on the country fairly to meet the deficiency that years of extravagance had entailed. Mr. Cartwright had to do so, and the fact that the arrangement of the Tariff received so little opposition, proves that it is a wise and equitable arrangement of the duties.

The Opposition had raised the cry of "protection," and interested parties did resort to the capital with a view to secure good terms for self, if possible. Fortunately for the Country the protectionists' theory has not prevailed any further than was necessary to raise the amount needed to carry on the affairs of the Country.

The appearance of Riel at Ottawa, it was hoped by the enemies of the Government, would cause the Frenchcanadians to act more than the Premier could grant in view of the attitude of Ontario. The Premier said the Metis, Indians, acted firmly, and by doing so, their Half-breed blood from the vacillation and hesitation, which drove John A. from power, was no witness his duplicity in this petty squabbling affair.

The Opposition during the Session has been trifling and to no purpose. The hopes of the Party of Union have been disappointed in Sir A. as Opposition leader. The [illegible] Opposition Government [illegible] but the [illegible] but the country [illegible] but the country divided. Tupper is a [illegible] John Hillyard Cameron is virtually defunct, and they cannot translate one from the Ontario House for they have no one in it capable of doing more than playing the Cossiques for the merriment of the House. Perhaps for this purpose they might translate the Member for North York. On the whole the work of the First Session of the Reform Government is now before the world, and will redound to their honor. One of the brightest spots in the whole work is the fact that one of the first acts of a Reform Lower House was to drive out the whisky bar, and this will long remain in fair comparison with the doings of a Conservative Senate, which retained this relic of their past degradation.

THE COUNCIL OF PUBLIC INSTRUCTION.

The nomination of Dr. Sangster by the teachers of Waterloo to represent them in the Council of Public Instruction is creating no little stir. The *Globe*, and several correspondents, take the reasonable position that, morally, Dr. Sangster is unworthy of the office, as his conduct has merited dismissal from the Normal School, and since he has married a second wife, without a decree according to the laws of our country the first wife being still living. In addition to this laxity of morals on the part of the Doctor, it is alleged that his first wife married again before he did. But it is well known that the Doctor's conduct towards the woman with whom he now lives while he lived with his first wife, and while he was a teacher in the Normal School, was not such as to merit the approval of his wife, nor yet of the community. Indeed he was the talk of all those in the Institution at the time. It is true that he is well spoken of as a teacher, but even those who do so, and some of those who have formulated resolutions in his favor, have not refrained from unpleasant remarks as to his moral character, although it savored somewhat of duplicity.

Under the circumstances we cannot believe that teachers will stultify themselves by voting for the Doctor. We cannot believe that they will exhibit such a disregard for moral character in a member of the Council as to vote to place a man there who is believed to have lax views of conjugal relations, and of whom, in this respect, teachers cannot show one extenuating circumstance other than mere attractive affinities for one who was not his wife. We would feel sorry if teachers so far forget their own self-respect as to vote for a man whose moral character disqualifies him for the position he seeks to occupy.

ALPORN CONVENTION.

The lamented decease of Mr. Fairbairn has left the West Riding without a representative in the Legislature of Ontario. An election of a Candidate to take his place may come off soon, or it may not be till the fall. In any case it is thought better to be in readiness, and to this end a convention will be held in the Music Hall, on Tuesday, the 2nd of June, at 2 o'clock, to select a candidate.

It is [illegible] as to the person till that day. The result of an election now cannot be doubtful, as the two last contests have shown. It only remains to be ready for any emergency.

It is not yet known that the Conservatives will bring out a candidate. We do not care to deal in rumors but in any event their chances are slim. We would say to reformers everywhere be ready, be united, let principles govern our actions, and in the selection of a candidate select a good man, one in whose principles we have confidence, and the hearty honest support of the people will secure for Ontario the victory of principles over mere love of office, or gain.

The Funeral of the late T. E. Fairbairn, M.P.P.

The remains arrived from Jacksonville, Florida, by the Midland Railway on Friday last and were taken to the Canada Presbyterian Church, whence the funeral took place at 3 p.m.

The service was conducted by the Rev. John Smith, of Bowmanville, assisted by the Rev. K. Maclennan of this town.

The following gentlemen acted as pall bearers.

Wm. Hall, Esq. John Walton Esq.
R. Strickland, Esq. Col. Haultain,
A. Boultbee, Esq. A. P. Poussette, Esq

The brothers, sisters, and other relatives of the deceased, and a very large cortege followed the body to the Little Lake Cemetery.

The business of the Town generally was suspended, and the stores were closed as a mark of respect.

Rev. Mr. Roger took occasion to improve the sad event of his decease, on Sabbath morning, to a large congregation.

STONABEE COUNCIL.

Otonabee Municipal Council met on the 16th of May, pursuant to adjournment. All the members present. Minutes of last meeting read and confirmed.

The reeve presented and read a number of accounts.

The Treasurer was directed to pay the following sums: James Shearer, for repair of Allenvale bridge, $4.20; William Wise, for mending road scraper, $2.00; Duncan McIntyre, for gravel, $8.80; John McLachlan, for poll room, $4.00; Trustees of S. S. No. 3, for poll room, $2.00; James Sinclair, for poll room, $2.00; Robert Girvan, for poll room $4.00; Trustees of S. S. No. 10, for poll room, $2.00.

The Reeve presented and read a petition from Robert A. Doyell and 63 others for the continuation of the road between lots 12 and 13, across the 13th, 14th and 15th concessions. The Reeve and Mr. McIntyre then volunteered to treat with parties owning the land on the continuation of road above mentioned, and conclude a bargain with them for right of way, provided they can do so on reasonable terms.

Mr. James Stewart, was appointed Assessor Inspector at a salary of $200.

Mr. Hoffman was allowed requesting the opening of the allowance for road between lots 30 and 31 in 6th concession.

A By-law to appoint a License Inspector, to define his duties and the remuneration he shall receive, was passed.

Council adjourned to Saturday 28th of February.

[illegible] Township of Otonabee [illegible] present. [illegible] of the last meeting [illegible] read and confirmed.

The Treasurer was directed to pay Alex. Sinclair $16 00 for his services as License Inspector for 1873.

The following persons made application for certificate for Tavern Licenses in Keene, viz: Michall Grier, Martin Keneally, John Galt and John McLachlan. The Clerk was directed to grant them certificates, provided the Inspector first certified that they had the accommodations required by law.

Messrs. Duvell, Robinson and Stewart, owners of land on proposed continuation of road between lots 12 and 13, across 13th, 14th and 15th concessions, were present, and offered the right of way through their lands at the price of $50 per acre, and Mr. Robinson offered to purchase the allowance for road south of his land at $15 per acre.

Messrs. John Lang and D. D. Henderson were appointed to see what arrangements could be made with John Kitzer and Richard Girvan for right of roadway across their land.

Messrs. Thomas Blizard, James Miller, William Lang, Senr., Malcolm Campbell and G. Reed were appointed a Committee in regard to the building of a Town Hall.

The Reeve introduced and read a By-law to appoint certain Township Officers.

Council adjourned to third Monday in May.

On Monday, 18th of May Council met pursuant to adjournment. Present, all the members. Minutes of last meeting read and confirmed.

The Clerk was directed to write to such tavern keepers as had not taken out their licenses, that unless they at once did so they would be prosecuted.

The Treasurer was directed to pay the following moneys, viz: John Clancy, for taxes remitted for error in assessment, $2.56; Alex. Connel, for repairing road scrapers, $7.25; R. W. Standley, taxes remitted on account of mill being burnt, $23.60; James Mitchell, for cedars for a culvert, $1.00; Wm. Evan's, for gravel, $5.00; Hugh McMann's, for relief, $4.00; James Sullivan, for relief, $5.00; Mrs. Frenier, for relief, $5.00.

The following orders were made respecting statute labor: William Armstrong to be allowed to do his statute labor for this year on the road opposite lot No. 25 between the 5th and 6th con. William Lane to be allowed to do his statute labor in road division No. 75; Joseph Hepburn to be allowed to do his statute labor in road division No. 7; James Hayes to be allowed to do his statute labor in road division No. 74; James Miller and John Davis allowed to commute their statute labor for two years and do the work on road between the 10th and 11th concessions, north of lot 18, in base line; James Bawsom to be allowed to do his statute labor division No. 54; George Ward and William Hudson to be allowed to do their statute labor on the road between the 11th and 12th con., north of lot No. 26. The overseers in whose divisions said roads are respectively shall superintend said work and report the same to Council.

On application of H. H. Burnham and George Hunt it was ordered that on condition of Mr. Burnham giving a lawful road west of the grist mill on west-half of lot No. 13, in 6th con. to connect with Mill street, and reaching to George Hunt's residence, he shall be allowed to occupy the established road north of his grist mill door to his saw mill.

The By-law to appoint certain Township Officers was read a second and third time and passed.

Messrs. Wm. Long and George Read were authorized to revise the By-laws of this municipality, with a view of consolidating the same, and report to Council.

The Treasurer was directed to have the account of non-resident taxes returned to County Treasurer checked, and to ascertain what lots are now in arrears for taxes.

The Clerk was directed to make no charge for collecting school rates hereafter.

The Reeve and Clerk were directed to pay for the lands for continuation of road across the 13th, 14th and 15th concessions to the owners thereof, and procure deeds to municipality for the same.

Resolved that the sum of $200 shall be expended on roads in each Electoral Division this current year.

The Court of Revision to be held on Tuesday the 26th of May.

Council adjourned to 26th of May.

NORTH MONAGHAN.

COURT OF REVISION.

May 25th, 1874.

The Reeve, and Councillors Birney and Leary met as a Court of Revision on the Assessment Roll for present year.

After taking the prescribed oath of office, the following appeals were heard: Joseph [illegible] Grier, Stonabee, Reduced $50.

Chas. Spilsbury, assessment confirmed.

Thos. O. Hewis, name taken off the assessment roll.

Burritt Edwards name transferred to Non-Resident roll and assessment raised $50.

Some alteration of names was made and the court adjourned to Saturday, the 30th inst.—Com.

SMITH.

May 21st, 1874.

A meeting of the Ratepayers of old Ward No. 3 was held at Hall's School House, in accordance with a resolution of the Council of the Township of Smith to take into consideration how their share of the Municipal Loan Fund amounting to $1103,20 should be expended.

Mr. Thos. E. Fitzgerald was elected chairman, and Mr. W. Wood, secretary.

The Chairman and Mr. M. Sanderson gave full and satisfactory explanations respecting the action of the council. Mr. Sanderson reading from the Statutes how the expenditure was limited to [illegible] per cent.

Moved by Mr. H. Davidson, seconded by Mr. T. E. Bell, that this meeting is of the opinion that the best use we can apply the share of $1103,20 to which we are entitled by the division of the Municipal Loan Fund is by improving the roads passing down hills [illegible] such roads as are [illegible] travel.

Moved in amendment by Mr. Cox Fitzgerald, seconded by Mr. Chevens, that a portion of the money now available to Ward No. 3, from the Municipal Loan Fund be set apart for the purpose of [illegible] to build a new School House [illegible] School House.

Motion by Mr. James Davidson, seconded by Mr. T. E. Bell, that this meeting approves of the appointment by the Council of Commissioners to oversee the expenditure of the money appropriated towards the respective wards of the Municipality.—Carried. COM

Our California Letter.

ANAHEIM, LOS ANGLES CO., CAL. MAY 8th, 1874.

DEAR EDITOR,—Since the date of my last letter our mails have been very irregular, especially overland matter from the East. The EXAMINER has also been very much behind time, and some numbers have not come to hand at all. The weather since my last has been favorable—the month of March, contrary to our experience heretofore, was notable for its mildness and freedom from severe frosts and damaging north-west winds. The month of April was not so favorable, some winds and some days being extremely drying on the crops, and so far in May the weather has been fair. Of frost we have had a little—about the middle of April ice formed in some places, and last week some of our neighbors saw ice. I was up early and saw none where we live, yet the glass was down to 34°: it however did no damage. We had considerable rain in March, and again this week quite a shower fell. The total rain fall this year is about 17 inches, a great advance on former years. You can thereby [illegible] the vast difference in the appearance of nature from the year previous: Even the hills are heavily covered with verdure as well as the lower plains, the whole forming one vast carpet of flowers of all hues imaginable.

The crops so far are looking well, and will [illegible] many days [illegible] ready for harvest, only barley and rye being growing. The corn crop has just been planted, and is thus far in a not very fine condition, as I observe the insects are playing sad havoc in many places, and it will [illegible] replanting. Insect life is very numerous here. The grape crop bids fair for a good yield, and many more vines have been set out this spring. The chief part of last season's planting had to be done over [illegible] this year from the damage done by rabbits. A good deal of the Raisin Grape has been set out this year. They, I think, are more profitable than the Wine Variety, and the manufacture is certainly more moral. Again, thousands of orange, lemon, lime and other trees have been put out this spring: these again are very profitable, but the time to wait is long, about eight years, before they bear fruit. Last year the crop was sold at about $30 per thousand in Los Angles, and as each tree yields from eight hundred to one thousand oranges, and about 70 trees stand to the acre you can calculate the amount yourself, and even were the price to fall so that each tree would only realize $10 the culture then would pay better than anything else put into the ground. Other fruit culture is also very profitable.

Irrigation—the Legislature at its last Session passed an Act to enable any portion of the County to form a Water District and tax lands for the construction of the works necessary. I am much afraid that the expense of working the Act will kill the scheme. You cannot imagine with what extravagance everything is conducted in this country: all seems to be for the benefit of those in office. We will want little or no water this year, except for [illegible] which requires a good deal. A crop can be made in little more than one month—all the summer season—and all animals seem very fond of it.

Our County did not get divided last Session, consequently we have still to remain attached to Los Anglos for at least two years longer. Having made a trip to that place lately, I must by and by write you a few notes on that part of the country.

At the seashore at Wilmington they are making great strides to have vessels discharge and receive cargoes at the dock, thereby doing away with the cost of lighterage, which is more than the freight to San Francisco. There is opposition at present from Wilmington to San Francisco; the rates are eight dollars for cabin passage.

The heat of the weather has not been very great so far, it being mostly cloudy days, with a good breeze blowing from the ocean, yet one day the glass ran up to 92° in the shade.

We have now that contentious article of furniture, (the organ), introduced into our church to assist in the service. By the way, our pastor has resigned, from ill health, and should this meet the eye of any one well up in the profession, who would have any liking for a view of the Pacific, and be content to listen to the roar of the billows as they dash on the shore, this is a good chance for a lovely home.

Yours truly,
JOHN HUNTER.

ANOTHER MEAN TRICK.

There Conservative [illegible] has been published a letter purporting to be from the Hon. [illegible] Minister of Militia, and ordering a [illegible] official to go and visit for a Government candidate. We felt satisfied that the whole thing would turn out to be a forgery—and so it has—on the following item from the Report of the House of Commons shows:

PRIVILEGE.

On the order of the day being called,

Mr. Ross, (Victoria), rose to a question of privilege. He knew it was somewhat out of order, to refer to a previous debate, but under the circumstances he felt quite sure the House would bear with him. (Hear, hear.) When the question of disallowance Government situations was before the House the other day, the hon. member from Cape Breton, in opposing to the Government, made a general statement that no Grit could get any situation worthy of his acceptance. The hon. member on that occasion read over a letter which he represented as having been written by him. (Mr. Ross) and that letter, he (Mr. Ross) asserted, called him at the head of many and he had written such a letter. He (Mr. Ross) expected the hon. member would have had an explanation to offer on the subject of the Government

The Examiner.

EDITORIAL ITEMS.

MORE LIGHT.—The Gas Company are erecting a new gas house close to the old one, and have ordered a new gas holder, which is expected soon to arrive. After the whole is completed if the town should be found in darkness, it will be for the want of light, not apparatus,

EXAMINATIONS.—The examinations for promotion to the Collegiate Institute will take place on the 29th and 30th of June next. Parties wishing to become candidates should send in their names by the 5th of June. It will do to give the name to Principal Dickson, or to the Inspector of the Public School Department.

POLITICAL TACTICS.—Several Conservative papers favor the election of Dr. Sangster to be a member of the Council of Public Instruction, because the *Globe* opposes him on the ground of immoral character. The same papers would [illegible] the translation of Ledier to Paradise if the Grits should dare to say he was unworthy of the elevation. It is not principle: it is not morality that, in their minds, constitutes fitness of character—it is opposition to the *Globe*. What is our country coming to?

BUCKHORN ROAD.—Mr. John Boyd has got the contract for completing the Buckhorn road this season. Mr. Boyd is the right man—everything he has undertaken in the County has been done according to contract, and made a good job. He has also the contract for building the fence in front of the Court House. The tenders were Mr. Crowley $10.52 per rood, Mr. Boyd, $6.

GRAND OPENING.—The Conservative Club Room was formally opened on Tuesday evening. They have made arrangements for all sorts of games in connection with the Club. The device may succeed in keeping young men, and perhaps *pater familias* sometimes, away from their homes an hour or two later than *mater familias* may desire. The end justifies the means.

A SOURCE OF DANGER.—In its concluding remarks anent the work of the Session at Ottawa, the *Globe* says: "It is universally admitted that Ottawa never saw so gay a Session, or one more distinguished by good feeling and friendly intercourse. The Reformers have shown that they can feast as well as fight, and be as merry and hospitable around the social board as they are stern and uncompromising on the floor of Parliament." Let the McKenzie Government beware that gaiety and feasting do not lead to the results they condemned in their opponents. It will be a sorry day for them if dissipation should be the consequence of a desire to prove to the world that Reformers can be merry and hospitable. Let us hope that they will avoid the breakers on which Sir John A. was wrecked.

PERSONAL.—James Hall, Esq., M. P., returned from Ottawa, on Tuesday. He left on Monday evening. The House was prorogued on Tuesday at three o'clock. He looks well—the weakness of the Opposition has rendered the work of the Session easy. Mr Bertram will return in a few days,

FOR MANITOBA.—Mr. Robert Lukey, of Dummer, left on Saturday for Fort Garry. His son accompanies him. He also takes a team and waron with him His intention is to settle there if the country pleases him. Mr. Thos. Keane, of Otonabee, also left about a week ago for the same place. If the country is worth living in, Canadians will find their way there.

NOVELTY EXTRAORDINARY.—A dispute between two of the fair sex took place on Monday, on George Street, which ended in a torn bonnet and quite a stampede on the part of one of the fair pugilists. Only a torn bonnet and a display of human nature even in the gentler sex when aroused to a certain point—only this. An extraordinary novelty 'tis to witness a pugilistic encounter between Amazons on our streets, quite as rare as many of the novelties in Barnum's Roman Hippodrome.

W. METHODIST.—We understand that the Building Committee in connection with the new George Street church met on Monday and decided to go on with the work of completing the building this summer. The basement will be finished in a week or so. The bricks are ordered, and the wood work is ready for its place so that this handsome structure will be erected this season. The Rev. Mr. Fish is determined to leave this church as a monument of his labors in Peterboro. It will be an ornament to that portion of our town.

GRIP—The last number of *Grip* contains two excellent illustrations. One is of John A. and McKenzie over the rejection of the Bill by the Senate, the latter amiable body being represented by an old lady standing at her door holding out the Huron Bill, and over her head the notice, "all Bills must pass through this House before becoming Law." The other one has Dr. Sangster in the middle between the *Globe* and the Teachers of the County of Waterloo, one of whom holds the Doctor up, while the *Globe* has him by the neck. Between the Doctor and the *Globe* stand members of the Council of Public Instruction. The *Globe* is pouring out an inkstand over the dear Doctor.

AN EXCHANGE says:—Flaharty's Mirror of Ireland and comedy company gave two of their excellent entertainments at Wood's Hall last Thursday and Friday evenings, presenting in a very pleasing manner the piece 'Irish hearts in their native land,' The moving panorama showing important and renowned scenes in Ireland, was fully explained by Mr. C. H. Hicks, the popular and gentlemanly manager and lecturer, in an interesting and entertaining manner. Mr. J. D. Kelly, a gentleman well up in the business and an actor of considerable celebrity took the part of 'Dublin Dick, the guide,' and kept the audience in good humor, while his performance on the violin, concertina, banjo, etc., were tip top, and his horse yard imitations perfect, Miss Kittie Moore as Kattleene, and McVicker and Sally as comedians, vocalists, etc. were good. We can safely assure the crowded house should they visit this place again. This troupe will appear in the Music Hall Peterboro, on Wednesday evening, June 3rd, 1874.

THE Port Hope *Times* says that the Committee on Water Works has been endeavoring for weeks, months, even years, to devise a scheme of Water Works, and have absolutely nothing to show.

THE Port Hope Gas Company have recommended a dividend of five per cent on its capital stock, and are in no debt. If paid on the "paid up" stock it might be larger.

Liquor Consumption in Canada.

The *Globe* publishes the following from the "Inland Revenue Report," which show a liquor consumption in Canada for the year 1873 as follows:

	GALLONS.
Proof Spirits manufactured in Canada and entered for consumption	4,720,087
Malt liquor	11,060,521
Brandy	655,030
Gin	610,095
Rum	243,889
Wine	172,088
Spirits unenumerated	3,413
Ale and Porter, &c.	439,875
Wine	867,655
Total	18,291,553

This aggregate gives about five gallons [illegible] annum consumed adult in Canada,

ACCIDENT.—An accident occurred at the Woolen Mill, Thursday afternoon, to a young man named Charles Hoye, a loom fixer. It appears that he was fixing a belt and in doing so spent a portion of the machinery which fell over on himself and one of the female employees. The former sustained some contusions and a portion of the flesh of one of his legs was torn off—but he [illegible] favorably. The latter, it is [illegible] her case has been serious. A similar accident occurred on Thursday at the Canada Cotton Mill, where one of the girls narrowly escaped losing the whole of the fingers of one hand.—Cornwall 'Gazette.'

A SILLY FEAT.—The Lindsay *Post* says: An extremely silly performance was enacted on King Street one day last week by two youths who should have had better manners, if not better sense. For the bet of a dollar they walked from the market to Lindsay Street, each wearing a crinoline. Quite a crowd was attracted.

The Norwood *Register* has the following, which it calls a dirty trick: On Friday night last, while Dr. Reid, of the village, was returning home from a sick call, met a horse and buggy, and on finding the vehicle contained no driver, he turned the horse and headed him towards Norwood. On reaching there, and making an examination of his prize, he found a ticket on the horse, with the words, "Send this horse home to Peterborough: I have done with it." On seeing this, Dr. Reid brought the horse to Phillip's hotel, where it was cared for till such times as it was forwarded to its rightful owner in Peterborough. The scoundrel who did this deserves to be punished severely.

REMOVED.—The B.Y. *Daily Graphic* has the following in its last issue:—There is some talk of a new reciprocity treaty with Canada. Such a treaty is needed. We abrogated the former treaty because we were indignated with England. The result has been that we have injured ourselves at least as much as we have ingured Canada. Were the treaty restored we would sell vastly more of our country to Canada than we can possibly [illegible] large business is [illegible] for the Canadian market especially during the months that the St Lawrence is closed. It was a childish piece of folly to abrogate the old treaty, and we ought to renew it at once."

BIRTH.

ROBB—At Rooney Lake, on 20th inst., the wife of Mr. Jas. Robb of a daughter.

MARRIED.

BARKER—HOWDON—On the 21st of May by the Rev. James Greener assisted by the Rev. W. L. Scott, the Rev. Wm. R. Barker, Wesleyan Minister, Keene, to Miss Eliza H. Howson, Mother's Corners, Otonabee.

DIED.

HENDERSON—Otonabee, on Tuesday, 26th inst., Margaret Robertson, relict of Robert Henderson of Ashburnham, in the 61st year of her age.

The funeral takes place to-day at Westwood, at two o'clock p. m.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it will come you old.

Few but few [illegible] medicine which has [illegible] satisfaction to the [illegible] of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians knew that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects [illegible] combinations. This is the properties of Thomas' Eclectric Oil a chemical change takes place, and a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and for the [illegible] of application then any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small [illegible] which they may contain.

S. N. THOMAS, PERLES, N.Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

Note.—Eclectric—Selected and Blended.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.
Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervousness and Spinal Affection, Pains in the Back, Loins, &c., on slight exertion, Palpitation of the Heart, Hysteries, and Whites, the pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully observed.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold by Druggists generally throughout the Dominion. Dr. Moses' Office, Brockville, Ont.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferings and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
TORONTO, Ont.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

OR
SOUL CHARMING."

How either sex may fascinate and gain the love and affection of any person they choose, instantly. This simple mental acquirement all can possess, free, by mail, for 50 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A queer exciting book. 100,000 sold. Address T WILLIAM & Co., South Eighth st., Philadelphia, Pa.

October 6, 1873 65-tf

As numerous cases of Poisoning have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold to the public without being properly labelled purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, are requested not to confound the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the phenomena of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest doses, it is of the greatest importance that this caution be heeded.

IT is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing depressing results. The tendency of the Elixir of Phosphates is necessarily protracted, and if [illegible] are taken into the system for a long time, they cause constipation and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containing elements of the tissues, repairs, diseased bone, muscle, and nerve, and renews constitutional vigor in the same manner as our daily food, with no more liability of injury. It may be taken [illegible] with positive safety and benefit.

Have your Window Curtains [illegible] and clean to the Peterborough Steam Dyeworks.

[illegible] Proprietor.

OUTFIT [illegible] your business or profession, and [illegible] to the Publishers, and [illegible] Book.

BE CAREFUL WHAT YOU SAY.

In speaking of a person's faults,
Pray don't forget
Remember,
Should
If we have nothing else to do
But talk of those
'Tis better we
And from that point
We have no right to
Until he's fairly
Should we not like
We know the
Some may have
The odd as we
Perhaps we
Have fifty
I'll tell you of a better plan,
And one which works full well,
And though I sometimes
No worse they seem I know,
My own shall
The faults of others go.

DYEING.

It is absolutely necessary that every article to be dyed, as well as every article used in dying, should be perfectly clean.

Every article to be dyed, should be thoroughly scoured in soap and water to remove all grease and dirt, and to avoid spots on wool, yarn, or fabrics, it is very desirable that every piece should be dipped in warm water, just before putting into the stain or other ingredient.

In all cases soft water should be used if possible, and in quantity sufficient to cover the articles completely.

As soon as an article is dyed it should be aired a little, then well rinsed in cold water, afterwards hung up to dry.

In putting dresses and flannels out to dry, that have been dyed, they should be hung up by the edge, so as to dry it evenly.

SPOTS.

To remove and prevent white colorings, black on silk or woolen goods, as they should become rusty or spotted, all that is necessary is to make a weak lye, and have it boiling hot, and put your goods in for fifteen minutes, or throw some ashes into the dye, and run the goods in it for five minutes, and they will come out a jet black, and even color.

LIME WHITE COLOR.

1 lb. of wool—reduced to a fine powder—compound, 1 oz. Soak the powdered wood in warm water all night, mix the reduced compound with about half a pint of water (in a glass) and add it to the rest, rinse the wool in warm water and put it into the dye, boil about half an hour, take out the wool and rinse in cold water.

TO COLOR STOCKING YARN OR WOOL.

Between a blue and purple. For 5 lbs of wool, bi-chromate of potash 1 oz., alum 2 parts, dissolve them, boil bring the water and put in, boiling in this for one hour; then throw away the dye, and make another dye with logwood chips 1 lb or extract of logwood 2½ oz.; and boil one hour. Then dye carefully on silk. N. B.—Cochineal dye with logwood chips, 1 lb., and cochineal half an hour and pour off the lye, or tie up the chips in a bag and boil with the wool or other goods; or take 2½ oz. of the extract in place of a lb. of the chips, is less trouble and will do better.

the above receipt, the more logwood that is used the darker will be the shade.

GREEN.

For each lb. of goods, fustic 1 lb., with alum 3½ oz.; steep, but do not boil until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips and add extract of indigo or chemic, one tablespoonful at a time, until the color suits.

LIGHT SILVER GRAY.

For 5 lbs. of goods—alum 1 small teaspoonful, and logwood about the same amount; boil well together, then dip the goods one hour; if not dark enough, add in equal quantities, alum and logwood until suited.

ORANGE.

For 5 lbs. of goods—extract of fustic, one tablespoonful, argol 4 oz.; boil and dip one hour; then add to the dye, fustic 2½ lbs; boil ten minutes and dip half an hour, and add again to the dye, madder 1 tea cup, dip again half an hour. N B.—Cochineal in place of madder makes it more of a brighter color, which should be added in small quantities until pleased. About 2 oz.

PURPLE.

For 5 lbs. of goods—cream of tartar 4 oz.; cochineal well powdered, 2 oz.; spirits of tin, ½ tea cup. Boil the cream of tartar, alum and tin 15 minutes, then put in the cochineal and boil five minutes; dip the goods two hours; then make a new dye with alum 4 oz., logwood 14 oz., and one ounce of extract of fustic, and a little chemic; work again until pleased.

TO EXTRACT DARK COLORS AND INSERT LIGHT ONES.

This recipe is calculated for carpet rags. In the first place let the rags be washed clean, the black or brown rags can be colored red or purple, as the case of the dye requires, then boil well the following ingredients, which are sufficient for 1 lb. of rags, viz: 1 lb. blue vitriol, 1 lb. saltpetre, 1 lb. alum, 1 lb. pearlash, 1 lb. madder, 1 lb. logwood, 1 lb. fustic, 1 lb. camwood, 1 lb. blue stone, 1 lb. copperas, 1 lb. sumach, 1 lb. chemic; mixed with the same; let them stand a short time, dip the goods in this dye two hours, boiling half the time, if not red enough add more alum and lac. The goods can then be made a purple, by adding a little logwood; be careful and not put in but a very small handful, as more can be added if not enough. White rags make a very beautiful appearance in a carpet, by tying them in the skein and weaving them red, green or purple; grey rags will take a very good green. The coloring will be in strict proportion to the darkness and mixture.

COMMON.

One ounce of oudbear will color 1 lb. of goods. Make a strong soapsuds sufficient to color the goods; stir in the oudbear; dip the yarn in soda water, put it into the dye, set it over the fire and keep it hot; stir and air it well; when colored dark enough to suit, wring it, rinse in clean water, and dry. The color should never be dried in the sun or permitted to freeze, as either will cause it to freeze.

BLUE COLOR OF LOGWOOD.

For 2 lbs. of goods, alum 2 ozs., cream of tartar 3 ozs.; boil the goods in the dye 1 hour; then throw the goods into warm water, which has more or less of the extract of indigo in it according to the depth of color desired, and boil again until it suits, adding more of the blue if needed. It is quick and permanent.

BLACK.

For each lb. of goods, fustic 1 lb., with alum 3½ oz.; steep, but do not boil until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips and add extract of indigo or chemic, one tablespoonful at a time, until the color suits.

LIGHT SILVER GRAY.

For 5 lbs. of goods—alum 1 small teaspoonful, and logwood about the same amount; boil well together, then dip the goods one hour; if not dark enough, add in equal quantities, alum and logwood until suited.

ORANGE.

For 5 lbs. of goods—extract of fustic, one tablespoonful, argol 4 oz.; boil and dip one hour; then add to the dye, fustic 2½ lbs; boil ten minutes and dip half an hour, and add again to the dye, madder 1 tea cup, dip again half an hour. N B.—Cochineal in place of madder makes it more of a brighter color, which should be added in small quantities until pleased. About 2 oz.

PURPLE.

For 5 lbs. of goods—cream of tartar 4 oz.; cochineal well powdered, 2 oz.; spirits of tin, ½ tea cup. Boil the cream of tartar, alum and tin 15 minutes, then put in the cochineal and boil five minutes; dip the goods two hours; then make a new dye with alum 4 oz., logwood 14 oz., and one ounce of extract of fustic, and a little chemic; work again until pleased.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. Because no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. Because the system of fitting is an unerring guide to the true requirements of each purchaser—our agents are furnished with this system—solely our own.
5th. Because the never tire the eyes and last many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable values.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.
Sole Agent for

Select Poetry.

ONE GLASS MORE.

Stay, mortal, stay hour heedless thou
Thy sure destruction seal.
Within that cup there lurks a curse
Which oft who drink must feel.

Disease and death for ever nigh,
Stand ready at the door,
And eager wait to hear the cry
Of "Give me one glass more."

Go view that prison's gloomy cells,
Their pallid tenants scan;
Come, gaze upon those earthly hells,
And ask how they began.

Had these a tongue, O man! thy cheek
The sale would silence o'er;
Had these a tongue, to thee they'd speak
And answer, "One glass more."

Behold that wretched Bible-form,
An outcast from her home,
Bleached in affliction's blighting storm
And doomed in want to roam.

Behold her! ask that prattler dear
Why mother is so poor?
She'll whisper in thy startled ear,
"'Twas father's one glass more"

Stay, mortal stay; repent, return,
Reflect upon thy fate!
The poisonous draught indignant spurn—
Spurn, spurn it ere too late.

Oh, fly the ale-house' horrid din,
Nor linger near the door,
Lest thou, perchance, should sip again
The treacherous "One glass more."

CHEESE WITHOUT COWS.

Another curious history attaches to the small, flat, cylindrical cheeses, wrapped in tin-foil, which are exposed for sale in our shops at the appetizing price of one dollar a pound. They bear the name of Roquefort, a village which is the centre of that manufacture. This is the choicest cheese made in France, and its reputation has existed for over 3,000 years. The epicures of ancient Rome held it in great request, and Pliny, the Roman historian, praised it enthusiastically. It is made from the ewes, 400,000 of which are pastured in the district supported by this industry. These sheep are of an ancient breed known as the Larzac, and are especially remarkable for their production of milk, all efforts to increase their milking capacity by crossing with other breeds having disastrously failed. These ewes yield on an average 22 pounds of cheese yearly, equal to an income of $4 from the milk alone. The feed is the natural pasture of the rocky limestone hills of the district, supplimented with clover, lucern and sanfoin. Salt is regularly given with each feed, and only water from the ponds, which is warmer than the spring water, is given to them. The milking season begins in March, by which time the lambs dropped in January are weaned. One person milks 28 ewes. Upon some of the farms each ewe passes through the hands of three persons before it is dry. The evening's milk is strained from froth and left standing half an hour.

It is then strained again into a tin-lined copper cauldron, in which it is heated nearly to the boiling point. After this it is put into glazed earthenware bowls for the cream to rise. A portion of the cream is then removed and churned. The morning's milk is not skimmed, but after having been heated, is added to the evening's milk, stirred, and well mixed. One tablespoonful of rennet is added to every 110 pounds of milk. After coagulation the curd is broken by a wooden spatula upon which a large portion of the whey separates. The curd is then kneaded, broken by hand, and placed in three layers into the molds. These are glazed earthenware cylinders four inches deep and 8½ in diameter, perforated with small holes. Powdered crumbs of barley bread already prepared by a peculiar process by which they have become coated with spores of the bluish mold known as *Penicilium glaucum*, are scattered upon each layer of curd. As the molds are completely filled, two are placed one upon another, the curd in each touching, and a leaden plate is placed upon the upper one with extra weight if needed. Here the obeeses drain, and as they drain they contract, and in this part of the process they are turned twice each day. They are then placed for a short time in a vat, which is surrounded with hot water until the drying process is well under way, after which they are wrapped in cloths of coarse linen for 10 or 12 days, and are finally placed in a room with a northern aspect, well ventilated but preserved from dust and flies by gauze shutters

Here they are kept for a few days, being turned frequently until they are removed to the "caves" of Roquefort for final curing; and here begins the chief peculiarity of the manufacture. Roquefort is a natural cititial of limestone rock, fissured and perforated by numerous caverns and grottoes, most of them natural ones, but some having been made by great labor and expense for this express purpose. These caves are worth vast sums of money. The rental of one of them casts the annual value of our mammoth cave [illegible] the shade, amounting in some instances to $40,000, and even $45,000 per annum. To these caves the cheeses are carried by night lest the dust of the day injure their quality. Here they are purchased from the farmers by wealthy companies, the United Caves Company being the largest, or are received by the agents of "associated" companies composed of the farmers themselves. The caves have receiving, salting and curing rooms. In the first the cheeses are weighed and sorted; in the second, on the evening of their reception, they are salted upon the upper surface, and piled up in threes for one day and a night. Then their reverse surfaces are salted, and they are again piled up as before for 48 hours. Then they are rubbed over with a coarse cloth and piled up for 48 hours more, after which they are returned to the receiving room to be scraped and freed from a sticky substance which has gathered upon them, and are once more sorted into three classes.

The cheeses are now carried to the curing rooms, which have a temperature of 40° to 42°, and a carefully regulated degree of humidity, and [illegible] which they are piled up upon a bed of clean [illegible] straw, platform [illegible] layers of cheese [illegible] four [illegible] high. [illegible] from this position they are changed to one upon their sides in rows a little way apart. Here they become covered with a thick white mold two inches in length, which is scraped off every eight or ten days, and the cheeses are turned. [illegible] and [illegible] rot from within outward upon the cheese, which is pared off [illegible] and [illegible] as an article of food. In thirty to forty days the ripening process is complete and the cheese is sold for consumption. It is now firm, rich, and exquisitely flavored, and, with proper care, will keep in good condition for several months. The best quality is wrapped in tin foil and packed up in cylindrical wicker baskets in such a way that the cheeses do not touch each other. It is now [illegible] and if there is [illegible] in the combination to say [illegible] "How much [illegible] made it ninety. [illegible] made it a hundred and twenty-five dollars, I got animated, and resolved that I would have that cow if it took my last cent. "One hundred and forty dollars!" "Going at that! once! twice! three times! gone! Mr. Talmadge has it!" It was one of the proudest moments of our life. There she stood, tall, immense in the girth, horns branching, graceful in the branch, full-uddered, silk-coated, [illegible] eye.

We hired two boys to drive her home while we rode in a carriage. No sooner had we started than the cow showed what turned out to be one of her peculiarities, great speed of hoof. She left the boys, outran my horse, jumped the fence, frightened nearly to death a group of school-children, and by the time we got home we all felt as if we had all day been out on a fox-chase.

We never had any peace with that cow. She knew more tricks than a juggler. She could let down any bars, open any gate, outrun any dog, and ruin the patience of any minister. We had her a year, and she never got over wanting to go to the vendue. Once started out of the yard, she was bound to see the sheriff. We coaxed her with carrots and apples, and cabbage, and sweet stalks and the richest beverage of slops, but without avail.

As a milker she was a failure. [illegible] captain, "Mike," who lived just back of our place, would come in nights from his "Kerry cow," a scraggley runt that lived on the commons, with his pail so full he had to carry it cautiously lest it spill over. But afterour full-blooded had been in clover to her eyes all day, Bridget would go out to the barn-yard, and tug and pull for a supply enough to make two or three custards. Said I, "Bridget, you don't know how to milk. Let me try!" I sat down by the cow, tried the full force of dynamics, but just at that moment when my success was about to be demonstrated, a sudden thought took her somewhere between the horns, and she started for the vendue, with one stroke of her back foot upsetting the small treasure I had accumulated, and leaving me a mere wreck of what I once was.

She had, among other bad things, a morbid appetite. Notwithstanding we gave her the richest herbaceous diet, she ate everything she could put her mouth on. She was fond of horse-blankets and articles of human clothing. I found her one day at the clothes-line, nearly choked to death, for she had swallowed one leg of something, and seemed dissatisfied that she could not get down the other. The most perfect nuisance that I ever had about my place was that full-blooded.

Having read in our agricultural journal of cows that were slaughtered yielding fourteen hundred pounds net weight we concluded to sell her to the butcher. We set a high price upon her, and got it—that is, we took a note for it, which is the same thing. My bargain with the butcher was the only successful chapter in my bovine experiences. The only taking off in the whole transaction was that the butcher ran away, leaving me nothing but a specimen of poor chirography, and I already had enough of that among my manuscripts.

My friends, never depend on high breeds. Some of the most useless of cattle [illegible] ancestors spoken of in the "Commentaries of Cæsar." That Alderney, whose grandfather used to graze on a lord's park in England, may not be worth the grass she eats.

Do not depend too much on the high-sounding name of Durham or Devon. As with animals, so with men. Only one President ever had a President for a son. Let every cow make her own name, and every man achieve his own position. It is no credit to a fool that he had a wise grandfather. Many an Ayrshire and Hereford has had the hollow-horn and the no-foot. Both man and animals are valuable in proportion as they are useful. "Mike's" cow [illegible]

The Liquor Business in the United States.

THE MONEY AND MEN ENGAGED IN IT.

A correspondent of the New York *Evening Post* furnishes the following statement. He says that he has obtained the figures from official documents, and that he has presented them in the following compact form, so that even the casual reader may see how large, both absolutely and relatively, the traffic in intoxicating liquors is in this country:

Statistics showing the amount of money spent in the United States for intoxicating liquors during the year 1870, as taken from official records; Imported and domestic distilled and spirituous liquors, $1,344,000,000; Brewed and fermented liquors, $193,000,000; Imported wines, $15,000,000; domestic wines, $5,000,000: total, $1,487,000,000.

Add to this $90,000,000, the cost of litigations, crimes, prisons, etc., caused in part by intemperance, and we have for a single year the enormous sum of $1,573,591,865.

The cost of flour and meal was $530,000,000; the cost of cotton goods, $175,000,000; the cost of boots and shoes, $90,000,000; the cost of clothing, $70,000,000; the cost of woollen goods, $60,000,000; the cost of newspaper and job printing, $40,000,000; total, $965,000,000.

The quantity of distilled, fermented and brewed liquors drank was sufficient to fill a canal four feet deep, fourteen feet wide, and eighty miles long; and if all the drinkers could be placed in procession, five abreast, they would make an army 130 miles long, and if those killed by the intemperate use of spirituous liquors were there also, we would see a suicide at every five miles, and 500 funerals per day; and if all the places where intoxicating liquors are sold were placed in rows, in direct lines, they would make a street 100 miles long.

There were 400,000 more persons engaged in the liquor business in the United States than in preaching the Gospel and school teaching; and from the effects of intoxicating drinks, 100,000 are annually sent to prison, 150,000 to drunkards' graves, and 200,000 children are reduced to want. The total number of persons engaged in the business is 560,000, of which 56,663 are employed in making and selling annually, 5,685,683 barrels of beer.

It is estimated that the clergy of the United States costs annually $12,000,000; the lawyers, criminals, prisons, etc., 90,000,000; and, as before stated, intoxicating liquors, $1,487,000,000.

The State of Pennsylvania during the year 1870 spent for liquors of all kinds, $152,663,945, and for schools and, teaching, $6,863,729. She had engaged in the liquor business 78,000 persons, 16,870 school teachers, and 24,000 criminals—four fifths of whom were made so by strong drinks.

The city of Philadelphia has 4,160 drinking places, and spent for intoxicating drinks $30,000,000 in one year. Chicago had 2,300 liquor saloons, and spent for intoxicating liquors, $14,000,000. Newark had 864 drinking saloons, and spent for strong drinks, $4,500,000.

The city of New York had 7,000 licensed drinking saloons, which, if placed in rows in direct lines, would make a street like Broadway thirteen miles long. She spent for intoxicating liquors $60,000,000 during the year 1870, and there were employed in the business 35,000 persons. She had 450 churches and chapels and there were employed in preaching and teaching in public and private schools 3,000 persons, and the whole support took $4,500,000. Total sum invested in the liquor business of all kinds amounted to $140,000,000; in the manufacturing business $60,000,000; and the drinking business $80,000,000. The police department cost $3,000,000, and in public assessments $5,000,000 were spent. The rent bill was $30,000,000, flour bill $28,000,000, and the daily consumption of bread was 60,000,000 loaves. There were 45,000 arrests for intoxication and disorderly conduct, and 80,000 were in institutions under care of the Board of Commissioners of Public Charities.

Our Full-Blooded Cow.

[illegible] able to pay [illegible] The [illegible] on the farm had been foreclosed. Day of sale had come. The sheriff stood on a box reading the terms of vendue. All payments to be made in six months. The [illegible] of the [illegible] and children, all cried, as the piano, and the chairs, and the pictures, and the carpets, and the bedsteads, went at half their worth. When the piano went it seemed [illegible] people as if the sheriff were [illegible] the fingers that had ever pressed [illegible] and when the carpets were struck off I [illegible] delight of the little [illegible] that had thumped it, and when the bedstead was sold [illegible] to mind the bright curly [illegible] had slept on it long before the dark, dark days had come, and father had put his stamp on the back of a note—signing his own death-warrant. The something striking buried alive in the have the sheriff sell you and when you have been bumped, and jolted [illegible] ways to do right. There are so many curious cases to chronicle at your fall, and come in to buy your carrings, blessing

Whose boy is that?

He may be seen any day, in almost any part of the village; he never will mind when he is told, on the sidewalk, both of you noisily and swears smartly if asked anything. He is very impudent, and often vulgar to ladies who pass; he delights in frightening, and does sometimes seriously injure a little boy or girl; he hooraws at the street corners, and is the first arrival at a dog fight or any other sport or scrape; he crowds into the post office in the evening, and multiplies himself and his antics at such a rate that people having legitimate business are crowded out; he thinks himself very sharp, he is certainly very noisy; he can smoke and chew tobacco now and then, and rip out an oath any time: we ask whose boy he is? Mother, is he yours? We think he is, for there are many good qualities in the lad, and we do not think that your know what he does on the street. Look after him, mother, keep him more at home. Train him, and you will have a son to be proud of: he will go down the way that leads to the City of Destruction. There is in your hand a magic wand, one sway of which may perchance rule his fate. Wield it with an angel's sweetness, mother, firmly but gently, and your boy will be saved.

Raising One's Salary.

Whatever a young man is worth now he can made himself worth more to his employers. Let him concentrate his whole mind, all his energies upon their business. Become master of it. Let him take the same interest in their affairs that he would if they were his own, and consider every dollar saved or made for himself. Let him work as the industrious beaver does when building a dam.

His increased interest in the business and the augmented value of his services will soon become apparent to his employers. And now suppose—to take the most unfavorable view—that they do not manifest their appreciation by raising salary. They will not be the only ones, by any means, who will have noticed his increased usefulness. It will have attracted the attention of the neighborhood. People will be talking about it. If they do not want his services at higher pay, somebody else will; and, having qualified himself to carry on business partnerships, improved opportunities will be offered him, if not by his present employers, then certainly by others.

Every young man in this country has an axiom: The way to get more is to make myself worth more. For, sooner or later, men are apt to receive about what they deserve.

Calumny.

The rules of politeness are never at variance with the principles of morality. Whatever is really impolite is really immoral. We have no right to deal with or be influenced by gossip about the people we meet. Their private affairs is none of our business. If we believe a man to be unfit company for us, we must not invite him, but if we meet him where he has been invited by others, we must treat him with civility. If we know a man or woman to be a grave offender, we cannot use that knowledge to injure him or her, unless it is absolutely needful for the proper protection of others. The greatest and best men in the world have been assailed with calumny. The purest and the noblest do not always escape it. We cannot investigate—as a rule we must disregard—all slanders. Where great offences become notorious, the offenders must be excommunicated.

Learned Ones.

Parr and Porson were contemporaries, and unquestionably the two greatest Greek scholars of the time in which they lived. Porson, it is well known, was an inebriate, yet so wonderful was his memory and aptitude, in making himself a thorough master of the Greek language, (in this respect, indeed, fairly distancing competition), that Parr himself readily acknowledged him as scholarship. Porson was a member of a noted convivial club of that period (of course a learned one), one of the exercises of which was to toast some absent individual, applying to the latter, at the same time, a quotation from Shakspeare satirically descriptive of said individual. Gilbert Wakefield, a mere pretender to Greek, in comparison with Porson, had just been giving to the public a translation of Euripides, the most intricate poet in the Greek language. "Gilbert Wakefield" unexpectedly became the toast of the evening, and Porson, unluckily, (as it was then thought—for he was lying drunk under the table), its illustrator. The president was giving it up, when, from under the table, Porson roared out: "Gilbert Wakefield! 'What's Hecuba to him (or he to Hecuba.'" The quotation is from Hamlet.

JAS. CHALMERS.

Young's Point, April 22nd, 1874. 17-tf

To the Electors of the West Riding of the County of Peterborough.

GENTLEMEN,—

Having received the unanimous nomination of a very large Reform Convention to be their Candidate to contest this Riding for the occupancy of the seat in the Ontario Legislature, recently vacated by the lamented decease of the late T. M. Fairbairn, I have accepted the nomination, and I now solicit your hearty support and co-operation in my canvass.

My political principles are known to most of you, as I have for many years taken a decided stand in the political struggles in this County.

A native of Ireland, I am a Canadian by adoption and long residence, and while glorying in my birthright as a British subject, and proud of our British connection, I yet give my first and best fealty to the beautiful land which has afforded to me so happy a home.

I approve of the present administration in Ontario, believing that it is striving to administer the affairs of the country conscientiously and judiciously. If elected, I will countenance every effort to secure economy, while at the same time I believe the country requires broad and liberal legislation to encourage the development of its resources. Immigration is the great want of the country. I would therefore favor liberal dealing with the Emigrants, that many may be induced to seek our shores. I would also support such a land policy as will prevent the sons of the soil from going to the United States.

I am in favor of Party Government as the most effectual mode of checking corruption and extravagance. If elected, however, I shall only consider myself bound to vote for such measures as commend themselves to my own judgment, and such as I approve of, I shall support, by whomsoever introduced.

So far as I am able I will aid in the promotion of efforts to open up highways by land and water in our county, and particularly am I desirous of seeing the great country between Peterborough and the Ottawa opened up by railways, that its minerals and hardwoods, now valueless, may be brought into market, thus employing labor and giving scope to the enterprise of our people.

The challenge having been thrown down that the "Liberal" Conservatives of this Riding were entitled, and able to place their nominee in the Legislature, I have to ask the friends of the Government, at whose instance I accepted the onerous task of contesting this constituency to give me such backing as will determine whether the present Government are entitled to a continuance of the support which they now so largely enjoy.

I will take the earliest opportunity of meeting the Electors and more fully explaining my views on such questions as may suggest themselves for discussion.

I have the honor to be,
Gentlemen,
Your obedient servant,

D. W. DUMBLE.

THE CONVENTION.—A large and influential Convention was held in town on Tuesday. Parents and Electors from all parts of the Riding were present. Mr. Dumble was selected to be the standard-bearer of the Reform party in this contest. He is a tried friend of Reform interests, and will make an excellent representative. There is no fear of the result, except in supineness or over-confidence. No man in the Riding deserves better from his party, as he has been a tried and zealous friend in adversity, and in every contest since he came to this County. And now that he has received the unanimous nomination of the Reform Party, let them give him their unanimous support, and the victory shall be complete, that the John A. Macdonald party will have to harvest their ridden hosts. A strong pull now will settle all opposition.

MR. SCOTT'S ADDRESS.

Mr. W. H. Scott is again before the electors of the West Riding, and this time he will be compelled to say, away with the man. Mr. Scott has often got credit for being able to conglomerate words to almost an indefinite degree without really expressing a clear or definite political idea.

In his address, this time, he has succeeded in the latter, but cannot be accused of the former, as the address is short, contains only six short paragraphs, four of which contain from four to five lines each, and rely solely to the cause of the present contest and a promise to meet the electors soon.

The two middle paragraphs contain what he represents as his political opinion and are as follows:

The opinion is gaining ground that in the Legislative Assembly of Ontario, that has to do mainly with matters of domestic and local concern, and the disposition of resources that are well secured and defined, and that has not to contribute the broad and important political issues that will frequently arise under the consideration of Dominion Legislature, the representatives of the people should be elected and removed from the influences of political party-lines, and vote and act upon all questions with reference entirely to their individual judgment, that is, to the opinion entertained by myself, and which I will be my earnest endeavor to set up, to be the result of by the better should I be elected as your representative.

The energy pursued by the existing administration with regard to many matters of public importance particularly perhaps with reference to their exposition of the Drainage Question, has not been such as in my judgment, should meet with the approval of the constituency at large. Nevertheless, I would deem it my duty to give to the future measures of the administration, and to all measures from whomsoever they may emanate, a fair, candid, and impartial consideration, and act and vote in supporting thereon with a conscientious regard to my own judgment of their merits.

We leave our readers to gather from these paragraphs Mr. Scott's political principles, merely hinting that it appears that office and honor is all that they foreshadow or aim at.

In the first, he verbosely aims at saying he has no political principles, but wished to do so in a way not to be careered easily on this point.

In the second paragraph he would have his readers infer that the present Reform Government, under Mr. Mowat, in his estimation has not disposed of the finances in the way he would approve, but, nevertheless, and notwithstanding all this he would give their measures a fair, candid and impartial consideration, *with due regard to his own judgment.*

The Conservative party look to Mr. Scott as a shining light, no doubt, but we fancy they would require more light than the most of mortals possess, to discover what his political principles are. Is he, or are they going to support the Mowat Government? That is more than Reformers would expect. He wishes, however to come forward as extremely liberal; but let the electors judge him from the associations with which he surrounds himself and then estimate the amount of liberal fair dealing they may expect. The electors of the West Riding, however, are not to be caught with chaff. All Mr Scott's proverbial circumlocution will not secure for him the confidence of a majority, nor the high honors he so eagerly and fondly woos.

TOWN COUNCIL.

Monday, June 1st, 1874.

The Council met. His Worship, the Mayor, in the chair. Present—Messrs. Toole, Beal, Robertson, Deane, Patterson, Helm, Cahill, Hamilton, Hopkins, Rutherford and Romaine.

The Minutes of the previous meeting were read and confirmed.

A communication was read from Messrs Scott and Edwards in reference to the closing of a road near Mr. Hilliard's property, by the Township of Smith.

An application from E. Calcutt, asking for a shop license was referred to the License Inspector.

An application from Mrs. Barbino for $50, to assist her in raising her house on Hunter Street—a necessity by the alteration of the grade on said street—was received.

A communication was received from Joseph L. Hugnes, offering to build a tank on the corner of Charlotte and Downie Streets for $190.

Petitions were read from the following, asking for improvement on streets and bridges, and all referred to the Street and Bridge Committee: A. W. Kempt and others, Thomas Greenhew and others, T. Donell and others, John Gamble and others, Alfred Geddye and others, Geo. Schneider and others, Robert Johnston and others, Thomas Best and others.

Accounts were presented from H. Scott, $130.44; Scott & Edwards, $19; D. G. Hatton, $40, and were referred to the Finance Committee.

The Treasurer submitted a return of last meeting.

Mr. Toole, as Chairman of the Street and Bridge Committee, read a report, recommending sundry repairs and improvements on streets, which, on motion, was received and adopted.

On motion of Mr. Patterson, seconded by Mr. Hopkins, a By-law was read a first time to establish a grade on a part of Hunter street.

On motion, the Council went into Committee of the Whole, Mr. Helm in the chair, when the By-law was read.

Moved by Mr. Toole, seconded by Mr. Patterson, that the Street and Bridge Committee be directed to construct a gravel sidewalk on the south side of Hunter street, between Downey and Park Streets, provided the persons owning the adjoining property do grade the side and put down the curbs. Carried.

Moved by Mr. Patterson, seconded by Mr. Hopkins, that the By-law be read a third time the grade on Hunter Street be fixed and passed.

Moved by Mr. Patterson, seconded by Mr. Hopkins, that the Street Inspector be and is hereby instructed to lay a flagwalk, the usual width, on the West side of Simcoe and Water Streets, in front of Mr. H. Owens' new brick building, and also in front of Mr. Campbell's new brick building opposite the Market Square. Carried.

Moved by Mr. Beal, seconded by Mr. Toole, that the Street and Bridge Committee repair damages done to Water Street at the foot of Time Street by the escape of water from the reservoir, in accordance with arrangements made by the Committee with R. C. Smith, Esq., of Fort Hope, and that the Mayor, Chairman of Committee and Mr. Shirley, Clerk.

Moved by Mr. Patterson, seconded by Mr. Hopkins, that the Street and Bridge Committee be instructed to have the grade of Hunter Street fixed, and Mr. Hopkins notified to alter his house in progress, to suit the grade established that this Council do not pay any damages, and that the Treasurer be instructed to pay the money to the person entitled to the same, when the house is painted.

Moved by Mr. Toole, seconded by Mr. Beal, that a bonus for improvements be granted to the Peterborough Examiner.

Moved by Mr. Patterson, seconded by Mr. Hopkins, that the Street Inspector be instructed to have the gravel sidewalk on the north side of Hunter Street, between Water and George Streets, repaired, and Mr. Hopkins notified to alter his fence to suit the grade. Carried

EDITORIAL ITEMS.

AUCTION SALE.—Mr. Hewlett's sale of household furniture will be on the 6th instant. The articles are numerous, and of good quality. Mr. H. leaves for England in a few days, hence the sale.

DOMINION TELEGRAPH.—This line is now being extended so as to connect Norwood direct from Peterboro The wires were being put up yesterday. The posts put up in town are not of the neatest description, but they have the appearance of durability, a very handy trouble in selecting a few straight ones for town would have added to the appearance of the work in no small degree.

SABBATH DAY POLITICS.—On Sabbath day, 24th instant, two of our leading citizens and leading politicians had a drive and a little canoe. Of course we need not mention where they were—they merely went for a drive; stopped at an hotel some 13 miles distant, enquired as to prospects, did the usual amount of canvassing, and returned home. Query: Are they any less culpable than a late M. P. who made a speech and hired teams on Sunday? Not a whit. We will give names next time we learn of such conduct. By all means let there be a fair contest; but let the combatants rest on the Sab bath. Would it not appear strange if, at one of these Sabbath desecrators once made a great ado about the religious sentiments of a certain candidate—yet so it is. He is a gentleman of strong faith, let us hope; but he does not verify hi faith by his works, we fear. Be sure your sins will find you out.

ST. ANDREW'S CHURCH BAZAAR.—The bazaar in connection with St. Andrew's Church, on Wednesday last, realised over $300, and we understand that the parlor soirée realised over $150. These sums are to be applied toward the erection of a new Sabbath School room in connection with the church.

POST OFFICE.—The revenue of the Peterboro Post Office for the year ending 30th ultimo, 1873, was $7,990.32. Salaries, $1,730; forward allowances, $980; rent, fuel and light, $300

WITHDRAWN.—We are requested to state that owing to the absence of the Rev. Charles Fish from Town, the morning service in the Charlotte Street Wesleyan Church is withdrawn for Sunday next, the 7th inst. Evening service as usual. Rev. Samuel P. Rose will (D. V.) preach at 6.30 p.m.

FISH!—All parties interested in the preservation and propogation of fish in our inland waters are requested to meet Mr. Bertram on Monday, the 8th inst., at the Huffman House to consider the matter. at 2 o'clock p. m.

CONCERT.—On Monday, 18th of May, Judge Boswell sentenced Thomas Tinkler to five years in the Reformatory, for larceny, and Richard Macklebright to take his trial at the next general session for bigamy.

WOOL.—Reports represent the wool clip this year as likely to be good, and price above the average. A United States mercantile report thinks it will open there at 36c. currency

AUCTION SALE.—Remember the sale of Mr. Kempt's property to-day. The sale of furniture will be at 10 a.m; of the real estate at 2 p.m.

GRAND CONCERT. A rare and enjoyable Musical Treat will be given by Madame Ciotilde L'Hote, the world-renowned Pianiste and Vocalists, in the Music Hall, Peterborough, on Tuesday evening, June 9th. Some of the best local talent will assist her on the occasion. Excerptions from the press.

(From The Toronto Globe.)

Madame Clotilde L'Hote is a Lady, born and educated in Paris, where she enjoyed the advantages of a first class musical cultivation. She possesses an executive ability, which combined with her fine style, and her power of expression, gives her a clear title to rank among the very best pianists who have ever visited Toronto. She also plays with great power, without any apparent exertion, she produces tones, which in the performance of ordinary pianists are seldom or never heard. In her loudest passages, however, there is never anything harsh—all her notes are clear and sweet.

(From the New York "Herald,)

Madame Clotilde L'Hote made her first bow before an American audience last night, (at a Concert at Plymouth Church, Brooklyn,) which was a very large and appreciative one. Madame L'Hote's execution was discussed during the intermission, to the end, that all agreed her superbly bold and powerful touch has no superior in America. It rather reminded one of Thalberg's, whose pupil she is, than of the fingering of a lady.

INTERESTING TO ALL.

From the Guelph Mercury.

A Book-Publishing Office has been opened in Guelph, by Mr. J. W. Lyon that bids fair to be a credit to the place The work he is now engaged in publishing and selling is admitted by all who have seen it to be one of the most valuable books in the English language. It is one that all religions and parties join in recommending. It is entitled "The Polar and Tropical Worlds," written by Dr. Hartwig, President of the Heidelberg University, the oldest University, in the world, and the one that holds the highest rank.

Over 1,000,000 copies have been sold in the old country, 30,000 copies have recently been sold in New Brunswick and Nova Scotia. The Book is especially valuable to Canadians, from the fact that it gives the most correct history of the Hudson Bay Fur Company, British Columbia and Manitoba, as well as along the whole line of the projected Canada Pacific Railroad, from Montreal to Fort William, thence to Fort Garry, through Manitoba, and British Columbia, to Vancouver's Island, giving full information in regard to the soil, climate, products, to be traversed, cost of building, &c. It also gives a full account of Newfoundland's forests, swamps, and fisheries, and the fisheries of the St. Lawrence. Several chapters are from the pen of our Lord Dufferin—finely written letters from the Iceland and "the Higher Latitudes, and what makes it still further attractive, it gives reliable information in regard to all the colonies of Great Britain, Newfoundland, Canada, Manitoba, and the North West Territories, and the best routes for the use of the future travellers whose noble deeds are recorded in the work are either English or Scotch. The work contains the most important information from over 150 explorers. It is embellished with over 200 fine wood engraving, either photographic or drawings with the pencil, taken by travellers from nature in the countries to which they relate. It treats of Natural History, Physical Geography, travel and adventure, which makes it interesting to a child. It treats of Botany, Geology, currents of the Ocean, their influence upon climate and life, which, with the maps and charts, makes it invaluable to the scholar. No school teacher or advanced student can afford to do without it or any family who wish to inform themselves in the cheapest and most readable way. No book could be better got up as regards paper, binding, or material, and its cheapness brings it within the reach of all. The following are the opinions of our Premier and School Inspectors in regard to this work, each of whom thoroughly examined the book itself before giving their testimonials. All have taken a copy for their own use, with one ex ception. Some of them say they never before purchased or recommended a book sold by agents:—

TESTIMONIALS.

As requested by the Publisher, Mr. J. W. Lyon, of Guelph, I have looked through a work on "The Polar and Tropical Worlds," by Hartwig, and edited by Dr. A. H. Guernsey. Even a cursory examination of the above work is sufficient to show that it contains a large amount of very interesting information in regard to the Physical Geography, and Natural History of the two worlds of which it treats, and I doubt not that the very creditable manner in which the work has been gotten up, will aid in obtaining for it a ready sale.

ARTHUR PALMER, M. A.,
Archdeacon of Toronto.

I bear cheerful testimony to the admirable style, and the get-up of the book, for as regards goodness of paper, cleanness of printing, and the binding, it compares favorably with the best specimens of English works. It will be a matter of special attraction to Canadian readers that this work gives the clearest and most recital of the life and products of Manitoba, and the line of the projected Pacific Railroad. It also supplies many valuable extracts and illustrations of Polar life from Earl Dufferin's work, "Higher Latitudes."

WM. MACKERRS.
Pastor of the Congregational Church, Guelph.

I have carefully looked over Dr. Hartwig's "Polar and Tropical Worlds." It is a book of vast and varied interest, exceedingly well written, and profusely adorned with very appropriate illustrations. Its vivid descriptions of scenes so different from our own cannot fail to interest and instruct the young, while the mature student must derive much valuable information from its pages. It is well worthy of an extensive circulation.

JOHN HOGG, D. D.,
Pastor of St. Andrew's Church, Guelph.

After a careful examination of the "Polar and Tropical Worlds" I have much pleasure in testifying my concurrence in the foregoing recommendations of the work by Archdeacon Palmer, Mr. Mackerss and Dr. Hogg. Being familiar with the literature of Arctic explorations, I can especially certify to the correctness and excellence of that part of the book. I hope it may have a wide sale.

WM F. CLARK,
Congregational Minister, Guelph.

"The Polar and Tropical Worlds" is what it professes to be: a compilation from the most recent and valuable writers on the subject contained in the volume. The part on the Polar World is particularly complete, and contains all that will probably ever be written on the subject, as further exploration will be discouraged, and the present volume contains all that is really valuable on outer intining on the subject. The workmanship both in type and illustrations speaks for itself and needs no commendation.

W. S. BALL,
Pastor of Knox Church, Guelph.

The volumes—for there are two in one are a storehouse of facts. I have read it day by day with unflagging interest, and have been delighted, instructed, almost fascinated. The work is a most reliable one, and by no means one of the cheap, trashy kind such as are often offered for sale. The illustrations are finely executed and life-like, the letter press is first rate, the paper excellent, and the binding elegant. This volume is worthy of a place in every household library, and I most cheerfully and heartily commend the work to the public.

THOMAS L. DAVIDSON, M. A., D. D.
Pastor Baptist Church, Guelph.

I have examined the beautiful volume, "The Polar and Tropical World," and have no hesitation in giving it my cordial approval as a work of sterling value. It contains a most interesting and important history of parts of our earth of which comparatively little has been generally known; and the name of the celebrated author is a sufficient guarantee for its authenticity and excellence. Those parts which treat of the northern portion of our own country will be especially interesting and valuable to Canadians. It certainly deserves—as I trust it will have—an extensive sale

L. B. HOWARD,
Pastor W. M. Church, Guelph

I can most cordially recommend the "Polar and Tropical World" as a book full of valuable information, and hope it may have an extensive circulation.

GEORGE WOOD.
Primitive Methodist Minister. Guelph.

While it must attract the old, it possesses peculiar charms for the young, who, if furnished with the opportunity, will spend pleasant and profitable hours over it. The typography is everything that could be desired. The illustrations, of which there are about two hundred, are beautiful, and contribute greatly not only to the attractiveness but to the usefulness of the book. Every family should have a copy—and I should judge it to be eminently serviceable to School Teachers.

ROBERT TORRANCE,
Clerk and Inspector of Public Schools, Guelph.

In this work, now brought before the Canadian public by Mr. J. W. Lyon, Guelph, we find the two admirable volumes of Dr. Hartwig on the "Polar and Tropical Worlds" combined in one. I am convinced that few readers will ever hesitate to say that the excellence of the work fully justifies the attractiveness of the title. I heartily unite with the many who have recommended it to the favor of all who can appreciate a work so calculated to interest and instruct.

THOMAS WARDROPE,
Minister of Chalmers' Church, Guelph

I have examined this work with care and interest. The matter of the book cannot fail to interest and instruct all who read it. The present edition is got up handsomely, being printed on the best of paper and excellently bound. It is a work that I can heartily recommend to all; but especially to those who are teachers and instructors of youth. As it contains a rich fund of information which they should possess in order to impart it to their pupils.

JAMES KILGOUR,
Inspector of Public Schools, Division 1st, County of Wellington.

I examined the work and found it very instructive, and can recommend its perusal by all.

L. JOUIN, S. J.,
St. Bartholomew Church, Guelph.

ODDS AND ENDS

DEAN OF CORNWALL.—The beforation of Her Majesty's birthday in England was signalized by the title of "Duke of Connaught" being conferred upon His Royal Highness, Prince Arthur, son of our beloved Queen. This is the first royal title conferred with Imperial stamp it became a part of the British Peerage.

FROM KINGSTON, Manitoba May 23rd, course the following news of a shocking calamity: While two boat loads of raftsmen, twelve in all, were passing down the Saskatchewan River about three miles above here, this morning about nine o'clock, their boats upset in the Landing Shoal Rapids. Seven out of the twelve were drowned, owing to the high water, great eddy and strong current at this season of the year. Up to this evening none of the bodies have been recovered.

A FAT TASK.—The Duke of Edinburgh and his wife, the daughter of the Czar of Russia, are always well fixed for housekeeping. The British Parliament voted the bride an annuity of $400,000, and in addition to this the Czar has endowed her as follows:—First, a gift of $750,000 in cash, as a marriage portion; second, $750 000 as a special marriage portion; both to be invested in Russian 5 per cent bonds, interest payable every six months—that is to say, $75,000 a year. Besides this the Emperor gives her $64,250 yearly as a mark of affection; and last of all she has a private fortune of $450,000.

SMOKE NUISANCE.—Mr. Bass, M. P., the chief who has done over so much bitter beer, has built at his individual expense at Burton-on-Trent a church, parsonage and school house, and presented the whole to the parish. Including the endowment, organ and peal of bells, the cost is $250,000. As a beneficence after the consecration, Mr. Bass has let the Admiralty operate to shield what he thought true thought would follow his example, and, instead of hoarding up their money, spend it as he had done, for he was sure they would derive the greater good by so doing.

CHINESE NAVY.—The Chinese Government has recently made a vast improvement in its navy and naval armament, and China promises soon to hold its own upon the sea with any of the European powers. Fifteen magnificent ships have been added and launched from the great ship-building yard at Foochow, and two 12 gun frigates are being constructed at the arsenal near Shanghai. A number of native youths are also being fitted in the training ship at the Foochow yard to command these war vessels.

ONE day Dr. Whately was walking with a young officer of artillery who was allied to him in blood, when the latter propounded the following riddle: "What is the difference between a donkey and an archbishop?" Whately gave it up, and received the following reply: "The one carries his ears behind and the other before," referring to the marks of the ears on the back of the domestic ass and on the apron of an archbishop! "Very good, indeed," laughed Whately, "And now can you tell me the difference between a donkey and a captain of artillery?" "No, indeed, I cannot," replied the officer. "There is none whatever," rejoined the archbishop.

CHARLES LAMB, riding home one evening (after dining with a friend) in a crowded London omnibus, had his attention attracted to the vociferous inquiry, "All full inside?" on the part of a gentleman at the door. Charles waited some time (being much afflicted with stammering) to see what notice his fellow-passengers would take of the unsuccessful applicant for a seat. None deigning to give the individual an answer, Charles replied, on a repetition of the inquiry, "I d-d-don't know how it is with the other gentlemen, but that last piece of oyster pie that I took did my business."

BIRTHS.

KARL.—At Cherrydale Terrace, Stratford, May 20th, the wife of R. E. Karl, of a daughter.

MARRIED.

HUNTER—BAGULEY—By the Rev. C. Fish, M. A., at the residence of the bride's father, Mr. W. A. Hunter, to Miss Annie Bagaley, all of Peterboro.

DIED.

MOHER—In Douro, on Wednesday, May 20th, of disease of the heart, John, son of Wm. Moher, Esq., aged 20 years.

The deceased was a young man of more than ordinary intelligence of amiable and gentle disposition, and his decease is greatly lamented by his relatives and acquaintances.

EGGS FOR HATCHING.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL

Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicines which have withstood the impartial judgement of the people of any length of time. One of them is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtues of its own. Scientific physicians knew that medicines may be formed of several ingredients in certain exact proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever known, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; wherever with other penetrates nearly all the alcohol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, PERRY, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McComus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McFeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Perildocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McComus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach, Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

Choice Poetry.

The Sailor Boy's Farewell.

We know not to whom belongs the authorship of the following lines—but all will agree with us in saying that nautical phrase never was more beautifully interwoven in sentiment of the heart's best love for those we cherish with the highest, holiest and purest affection.

Farewell to father-blessed hulk,
In spite of metal, spice of bulk,
His cable soon may slip;
Yet while the parting tear is moist,
The flag of gratitude I'll hoist
In duty to the ship.

Farewell mother—first class she—
Who launched me on life's stormy sea,
And rigged me fore and aft;
May Providence her timbers spare,
And keep her hull in good repair,
To tow the smaller craft.

Farewell to sister—lovely yacht—
I cannot now foresee;
May some good ship a tender prove,
Well found in stores of truth and love,
And take her under lee.

Farewell to George—the jolly boat—
And all the little crafts afloat
In home's delightful bay;
When they arrive at sailing age
May wisdom prove the weather gauge,
And guide them on their way.

Farewell to all on life's rude main,
And though we may never meet again
Through storm of stormy weather
Yet summoned by the Board above,
We'll anchor in the port of love,
And all be moored together.

Maxims for the Young.

Never be idle If your hands cannot be usefully employed, attend to the cultivation of your mind.

Always speak the truth.

Keep good company or none.

Make few promises.

Live up to your engagements.

Keep your own secrets, if you have any.

When you speak to a person, look him in the face.

Good company and good conversation are the sinews of virtue.

Good character is above all things else.

Never listen to loose or idle conversation.

You had better be poisoned in your blood than in your principles.

Your character cannot be essentially injured except by your own acts.

If anyone speaks evil of you, let your life be so virtuous that none will believe him.

Drink no intoxicating liquors

Avoid the use of tobacco in any form.

Ever live, misfortune excepted, within your income.

When you retire to bed, think over what you have done during the day.

Never speak lightly of religion.

Make no haste to be rich if you would prosper.

Small and steady gains give competence with tranquility of mind.

Avoid temptation through fear that you may not withstand it.

Earn your money before you spend it.

Never run in debt unless you can see a way to get out again.

Never borrow if you can possibly avoid it.

Be just before you are generous.

Keep yourself innocent if you would be happy.

Never think that which you do for religion is time or money misspent.

Read some portion of the Bible every day.—Ex.

A Duke and a Snob.

An amusing story of an English nobleman, recently deceased, is told by an English sporting journal.

The Duke was once in church, no matter where, when a collection for some charitable object was announced. The plate or hat, or whatever it might be, began to go round, and the Duke carefully put his hand into his pocket and took out a crown piece (five shillings), which he laid in the pew before him ready for transfer to the plate. Beside him sat a little snob, who, noticing this action, imitated it by ostentatiously laying a sovereign along side the ducal crown piece. This was too much for his Grace, who dipped his hand into his pocket again and pulled another crown piece out, which he laid by the side of the first. The little snob followed suit by laying another sovereign by the side of the first His Grace quietly added a third crown piece, which was capped by a third sovereign on the part of the little snob. Out came a fourth crown piece to swell the Duke's donation; then the little snob triumphantly laid three sovereigns upon the board. The Duke, not to be beaten, produced three florins. Just at this moment the plate arrived. The little snob took up his handful of sovereigns and ostentatiously rattled them into the plate; then turned defiantly to his rival, as much as to say, "That takes the shine out of you!" Fancy his chagrin when the Duke, with a grim smile, put one crown piece into the plate, and quietly swept the remaining six back into his pocket. His Grace used to chuckle when he related the story, and I think, on the whole, he had the best of it.

A clergyman, having on a certain occasion delivered himself of what is called a fine address, was met by one of his hearers the next day, when, in the course of conversation, allusion was made to it. The parishioner remarked that he had a book containing every word of it, and had heard it before. To this the clergyman boldly asserted that the address was written by himself the week previous to its delivery, and therefore the assertion could not be a correct one. The next day he received a splendid copy of Webster's Dictionary.

On examining some new flowers in the garden of the Rev. Sydney Smith, a beautiful girl who was of the party exclaimed, "Oh, Mr Smith, this pea will never come to perfection!" "Permit me then said he," gently taking her hand and walking toward the plant, "to lend perfection to the pea."

ANECDOTE OF SYDNEY SMITH.—The following is related of Sydney Smith, and that it is founded on fact there can be but little doubt, exemplifying, as it does, that peculiar and matchless humor for which Sydney was so remarkable. The thing occurred in Edinburgh, when Jeffrey, Brougham, Sydney, and the rest of that brilliant constellation of men of genius were shedding so great a lustre upon "Auld Reekie" and the world. There was, at the time, a literary pretender and bore in Edinburgh, whose everlasting subject of discourse was "The North Pole," and whose delight it was to inflict his theme upon every patient listener. He met Jeffrey in the street one day, and after the usual salutation, at once introduced his favorite subject. "D—n the North Pole!" exclaimed Jeffrey, and extricating himself from the bore's grasp, pursued the even tenor of his way. The former, wincing under Jeffrey's abrupt treatment, also went on his way, when, encountering the good-natured Sydney, he related to the latter what Jeffrey had said. "Ah!" said Sydney, "I would'nt mind it. We all know Jeffrey. You'll hardly believe it, but in a conversation I had with Jeffrey, the other day, he actually spoke disrespectfully of the Equator."

God often hangs the greatest weights on the smallest wires.

Satan's promises are like the meat that fowlers set before birds, which is not meant to feed them, but to take them.

SEASON 1874

DAILY LINE TO ROCHESTER,

COMMENCING ON OR ABOUT THE 1st of APRIL.

THE NEW LAKE STEAMER

"Norseman,"

(R. CRAWFORD MASTER.)

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatisms, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Choice Poetry.

One of the Sweet Old Chapters.

One of the sweet old chapters,
After a day like this;
The day brought tears and trouble,
The evening brought no kiss.

No rest in the alms I long for—
Rest, and refuge, and home;
Grieved, and lonely, and weary,
Unto the Book I come.

One of the sweet old chapters—
The love that blossoms through
His care of the birds and lilies,
Out of the meadow-dew.

His evening kiss soft around them;
Their faith is simply to be.
O hushed by the tender lesson,
My God, let me rest in thee.

MIND YOUR OWN BUSINESS

BY OLD HUMPHREY.

'Mind your own business,' is an expression very often in use, and not unfrequently it would be as properly applied to the speaker as to the person to whom it is addressed.

Sometimes it is spoken very opportunely, and sometimes it had much better be withheld; for those who neglect their own business are not the proper persons to correct others for disregarding theirs. Yet still, without reflecting whether we are faulty we are all too ready to cry out to those who intrude upon, or among us, 'Mind your own business,' for true it is, that we see a small hole in our neighbor's coat plainer than a large one in our own.

We are, indeed, most of us a great deal disposed to neglect our own business, as well as to inter meddle in the business of others.

Whenever we spread an evil report, the truth of which is doubtful, but which must by its publicity do some one an injury, we are travelling out of our way to do mischief.

Believe not each aspiring tongue,
As some weak people do;
Put ever hope that story wrong
Which ought not to be true.

It would be a better deed to hide a fault than to publish it. 'It would be better to correct failings of our own than to make known those of our neighbors: therefore, by spreading an evil report, we are not minding our own business.

Every one has business of some kind or other, which he ought to attend to; and whether it be a family, a town, a county, or a kingdom, it is sure to be under better management when every member of it minds his own business.

When is it that we are dissatisfied with ourselves? that our affairs get into confusion? that we are behind-hand in what we have undertaken to do? Why, when we have been idle, thoughtless, or foolish; when, in short, we have not minded our own business.

Look at the world around you, there are, doubtless, many instances wherein sickness, accident, and misfortune have brought down the richest, wisest, and the most industrious members of the community to poverty; but if all those who are in circumstances of comfort were to be placed on one side, and all those who have been reduced to rags, want and misery, on the other, the greater part of the distress of the latter were they inquired into, would be found owing to this—that they have not minded their own business.

Depend upon it, it is an excellent thing to mind your business; by doing this, you may be more respected, more useful, more benevolent, and ten times more happy. Do this, and things will go on right, neglect it and everything will go on wrong. If you have any love to you neighbor, or any respect for yourself, mind your own business.

Drunkards, and gamesters and libertines are sure one day or other to be overtaken by the dreadful effects of their folly, intemperance and wickedness; but is this to be wondered at? No, it is the natural consequence of not minding their own business.

How is it likely that if we do not mind our own business any one will mind it for us? If neither we nor other people attend to our affairs, disorder and ruin will soon be written legibly upon them; and, whether we read it or not, disorder and ruin will inevitably follow. Show me a man who does not mind his own business and I will show you one who will soon be in trouble.

But do you ask me if it be wrong to do a kindness to another? to bear the burden of the weak? to watch by the bedside of a sick neighbor? to relieve the destitute? to instruct the ignorant? to warn the careless? and to read the word of God to the blind and unlearned? I reply, that it is a part of your business to do these things according to your ability; for it is the business of every one to do what he can for the glory of God, and for the welfare of mankind; therefore, in doing these things you are really minding your own business.

It ought to be considered by every man to be a part of his business to make others happy. 'A man that hath friends must show himself friendly,' Pro. xviii 24, and a Christian man cannot but feel interested in the temporal and spiritual prosperity of his neighbors. You may reprove your neighbor, encourage him, serve him and love him, and yet mind your own business.

Fail not then to follow His bright example, who when he was on earth 'went about doing good,' Acts x. 38, remembering that it is your business on earth to prepare for heaven. Employ every talent you possess usefully, pray in the Saviour's name fervently, read the word of God frequently, and confide in its promises firmly. Do these things and you will not fail to find in life and death, in time and eternity, the advantages of having minded your own business.

CHURCH ATTIRE.

An exchange has a long article in reference to plain attire at church. It gives nine reasons why people should do away with foolish trappings. We give them below. Cut this out and paste it on the back of your 'beauty of a bonnet.'

1. It would lessen the burden of many who find it hard to maintain their place in society.

2. It would lessen the force of the temptation which often lead men to barter honesty for display.

3. If there be less strife in dress at church, people in moderate circumstances would be more inclined to attend.

4. Universal moderation in dress at church would improve the worship by removing many wandering thoughts.

5. It would enable all classes to attend church better in unfavorable weather.

6. It would lessen the gulf between the rich, the tempted and the tempting.

7. It would lessen the [illegible] of changing the [illegible] to be observed and practiced.

8. [illegible]

9. [illegible]

10. It would lessen [illegible] serious pretensions, and thus [illegible] so as to do more for a good cause.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption

Probably never before in the whole history of medicine, has anything won so widely and so steadily upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the nations of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a preventive against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of these yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Hoarseness and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish them here, or do more than assure the public that its qualities are fully sustained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Dumb Ague, Periodical or Bilious Fever, and indeed the whole class of diseases originating in malarious countries.

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. Because they are found to possess all the qualities claimed for them.

2nd. Because no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

3rd. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—Solely our own.

4th. Because the nerve fibre over and last many years without the necessity of change.

5th. Because being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

WM. H. TAYLOR, M. D.

Sole Agent for

P TERBORO'

Corner of George and Hunter Streets.

PETERBORO', JUNE 11th 1874.

THE CONTEST.

The writs are now issued and in the hands of the Sheriff. The nomination will be on the 23nd instant, and polling on the 30th. The contest therefore will be short. The object is to get the whole over before hay harvest sets in, so as not to repeat the action of '72 on a small scale in this riding.

THE DUTY OF THE HOUR

Is now to go to work in earnest. Let the friends of good government rally round Mr. Dumble. There need not be undue excitement, but let there be sure work. The dividing line in politics is well drawn. The history of the last few years need not be now more than hinted at as sufficient cause to arouse the old reform blood, and a few hours will again decide the matter in favor of the overthrow of all those who would condone the extravagance of the John A. MacDonald party, or who would palliate the Pacific Scandal in order to retain men in power who had abused the sacred trust confided in them.

ONLY ONE SESSION.

This is a cry that is kept up to deceive the unwary, and lead them to believe that as there is but one session to a general election, it is of little importance who is returned. This is a delusion and a fallacy. It is of great importance that the men who were parties to the Pacific Scandal should be taught that the country cannot so easily forget the heinousness of the crime of bartering away our interests for money to elect themselves. It is of great consequence that the men who could use $4,000 of our money to remove or conceal a murderer, should not be allowed even the semblance of a return to power. It is of the utmost concern to the people that our public men whose character and doings have merited our approval, should be sustained by the unanimous opinion of the whole people, even for one session, and to this end let all those who desire to stamp their approval of Mr. Mowatt's government on this election, remember that the contest is not men, but great principles, not Mr. Dumble merely, but good honest government.

PARTIES.

Your interests are plainly interwoven with the interests and success of the men now in power, in Ontario. The settlements of the Municipal Loan Fund alone by which this vexed question was set at rest, and settled for ever, entitles them to your heartiest support. The conservatives were afraid or unable to grapple with it. They kept it dangling before the people as a money influence to dazzle and blind the unwary or unthinking. Mr. Mowatt cut the knot and settled the matter. By virtue of this settlement, Smith, alone, receives $6,856 which the council is now using to build roads and erect school houses. This sum would still be in the hands of the government if a conservative government had retained power. Monaghan received $2,956, Enniamore $2,206. That is $12,022, that the Mowatt government or reform party have placed in the hands of the people for the benefit of their local improvements. Are these things of no importance? Should the men who thus wisely, economically, and fairly deal with the finances of the Province not be sustained in the laudable endeavors to aid the people in improving our resources and increasing our local comforts in the way of new roads, school houses, town halls, etc.,? It is not too much therefore to ask the farmers to come forward now and sustain those men in their earnest, honest efforts to benefit the country.

WHAT HAS MR. SCOTT OR MR. SCOTT'S PARTY DONE FOR THE COUNTRY.

The personal matter we will leave to the electors to decide—merely asking them to point out his philanthropic deeds, or efforts to advance a single interest of the people, in his long career as a public man. On the contrary has he not allied himself with men in whom the electors have no confidence? Has he he not been their special pleader? Has he not endeavored to continue men in power who had bartered our best interests, our honor, our good name, and our territory for nauche? Has not his party been a hissing and a by word for corruption, and selfishness? Will we need again to legislate for us, men who were hurled from power but six months ago, for the grossest maladministration and corruption? Or shall we not rise as one man and vindicate our conduct at the last general election, by again voting and working for a party that we know is above trickery, and deigns to be guilty of those chanes, which we so justly and so emphatically condemned. It is said by our enemies:

MR. SCOTT CAN DO NO HARM

In one short session. Admitted,—suppose he should be powerless for harm, the question is, should we encourage the expelling of men of doubtful political honesty even for six hours? Our sense of respect cannot allow us to dwell with our own sense of right, so far as to forget that the election of a man whose life long political morals has been to destroy confidence. What would the parrot in the question? not what harm can he do, any other man of like principles. Shall we, as wise citizens let one enemy into our city, or as faithful soldiers allow one [illegible] open struggle and recollect the [illegible] ment of the past that renders him ineligible for our support now. There is now but

SEVENTEEN DAYS

Of work needed, and let them be seventeen days of work, no loitering, no cavilling, no indifference, no cold heartedness, but earnest, untiring, vehicle created regard for the party who have our confidence, and on the 30th we will again teach our opponents a lesson that will be remembered for the next five years. The contest is not between candidates. It is not a matter of small concern It must not be allowed to be by default, because of personal feeling. Our principles are at stake; and good bad that government will be more or less endangered even by the election of one man whose principles we cannot endorse. The honor of our country is before us, our good victories are not to be lost sight of. All these should be incentives to more than our position and again prove our detestation of meanness in politics, just as we would in any other transaction of life.

NORTH YORK ABROAD

Our Fair Town on Friday evening was the scene of a neat little supper, in honor of a gentlemen who was about leaving it for some other field of labor. The supper was intended to be served up of conservative "vittals," and hence there were to be as few "grits" as possible present. Only one, we understand, or thereabouts. Two of the canine species—conservative animals—entered with their masters, and ere long showed their teeth in their own way, having a canine "tiussel" for fun, let us suppose. *Entente cordiale* being established between the two by inviting them outside, Mr. Boultbee, member for North York, entered, as our correspondent saith, from a visit to the south ward. He had crossed the bay and heard the beautiful evening lullaby of the spring songster of the water. The music being peculiarly delightful, and symphonious to his ear. The feast of the evening had been nearly disposed of, yet Mr. Twaddle had to make a speech, and he, modest man, did so,—speak, as we are informed, treely:—

The exordium is wanting, as it must have been the echo of the sounds just reverberating through his surlouin organs previously. Proceeding, he said, —MR CHAIRMAN, I WAS INFORMED AS I ENTERED, THAT THERE WAS ONE OR TWO OF THOSE MISERABLE CREATURES CALLED GRITS IN THE ROOM, AND IF THERE ARE, THEY SHOULD BE TAKEN BY THE SCUFF OF THE NECK AND HANDED OUT OF DOORS LIKE THOSE DOGS.—(Loud and continued cheers.) How much more the sage of York did say our informant saith not, as there was a little intention on the part of one or two to take him to task, when the wiser heads remarked, it was only Boultbee, and they knew him. Did Mr. Boultbee so far forget himself and his position as to use such language? Did he have so little respect for the "Liberal Conservative" company he was in as to thus shame them? Was he so unmindful of the guests and of him whom they met to honor, as to be guilty of this outrage on common decency? We cannot say: We merely report as we are informed.

A NEW SCHOOL HOUSE.

The Trustees of School Section No. 4 Dummer, have just completed the erection of a very neat brick school house. Messrs. Wright and Pete of Ashburnham contractors. The cost is about $1,000. The workmanship does credit to the gentlemen who performed it. It is seated in the most approved manner, and surmounted by a bell purchased from Mr. Lannin, of the "Giant T." By invitation Principal Dickie, Mr. J. C. Brown, Mr. Christie, Mr. Handa, Mr. Earl and Mr. Stratton, were present at the opening of the new building on Saturday last. The people had gathered in their holiday attire, and prepared a pic-nic in the woods near by. Mr. Darling, the excellent teacher of the section, had made arrangements for short speeches, which were made by Mr. Dickie of the Collegiate Institute, Mr. Moore of the Norwood High School, and Mr. Stratton. Readings were given by Mr. Christie, Mr. Handa, Mr. Dewart of Norwood. Miss Pye, and Miss G. Laing sang several suitable pieces, accompanied by Miss Pye on the Melodeon. Mr. Brown, County Inspector, presided during the speeches, &c., made some very appropriate remarks. After this all adjourned to the woods where an abundant supply of [illegible] was spread by the people of the section, of which all partook as freely as they were freely given. The day was pleasant, and pleasantly spent by all.

The people of the section formerly had two schools in which school was kept every alternate six months. They have abandoned that system—placed a good building in the centre of the section within about two miles of the most distant resident, and now all will be able to attend the *whole* year instead of one half as formerly. It is too much to suppose that all feel pleased with the arrangement, but a few years will remove the dissatisfaction. They have an excellent teacher in the person of Mr. Darling, and by maintaining the section as it is, they will be able to retain him and give him a fair salary, which could not be done if they divided the section.

CHIEF JUSTICE DORION.

From the length of his service, its well as from their value, the Hon. Mr. Dorion will regret the right hon. gentleman's political life. Now close sixty-six years old, he has been in Parliament continuously, we think, for about twenty years during all of which time he has been the leading spirit among the Quebec Liberals. He was a member of the famous but short-lived Baldwin-Lafontaine administration of 1848. He belonged to the Sandfield Macdonald Government in 1863, being the Lower Canada leader of it. From the time of its resignation in 1864, he remained in opposition until last year, when he became Minister of Justice in the present Cabinet. In the general election of 1872 he had almost made up his mind to retire from Parliament and from Canada on a visit to Europe, but was induced to stay here. His health is now in the Province of Quebec. Whether that will restore his usual ability and energy, and if so, whether he will remain in Canada, and in Parliament, are questions which only time can solve. Should he not be able to resume his seat in the House of Commons, he will be missed by friends and foes alike. He is one of the great men of the political arena of Canada.

SMITH.

Members of the Council met at the Town Hall, on the 4th of May, 1874. After taking and subscribing the oath and affirmation required by law, the Reeve took the chair.

The following appeals were heard and disposed of: Louis Fobert, requesting to be assessed for the property assessed to John Craigie. Request granted.

George J Chalmers, not bona fide owner. Name erased, and property assessed to James Chalmers.

William Preston and John Preston n.s. bona fide tenants. Assessment confirmed.

Michael O'Neil not bona fide owner. Assessment confirmed.

Frederick Mitchell not bona fide tenant. Assessment confirmed.

Robinson Moore not bona fide tenant Assessment confirmed.

James Stabler, jr not bona fide tenant Assessment confirmed.

Robert Pearson not bona fide tenant. Name erased, and property assessed to William Pearson.

Patrick Cochlin, overcharge on real property. Assessment confirmed.

Robert T. Milburn, not bona fide tenant. Name erased, and property assessed to Thomas W. Milburn.

W. L. Scott, overcharge on real property. Assessment confirmed.

John Moore, not bona fide owner. Name erased, and property assessed to Charles D Moore.

William Tully, not bona fide tenant. Name erased, and property assessed to Robert Tully.

John B. Montgomery, not bona fide owner. Name erased, and property assessed to Andrew Montgomery.

Charles Davidson, not bona fide tenant Name erased, and property assessed to James Davidson.

William Davidson and Alexander Davidson, not bona fide owners. Names erased, and property assessed to James Davidson.

Sylvanus Davies, not bona fide owner. Name erased, and property assessed to Lewis Davies.

Ephraim Jackson, not bona fide tenant. Assessed as owner.

James Darling, not bona fide owner. Name erased, and property assessed to John Darling.

Isaac Manning and Wallington Manning, not bona fide tenants. Names erased, and Samuel Manning assessed for property.

John Kennedy, not bona fide tenant of north half of lot 29 in 11th concession. Erased from his assessment and assessed to John Rodgers.

George A Bickell, not bona fide owner. Name erased, and property assessed to John Bickell.

John D. Tully was assessed as tenant of north-east quarter of lot 8 in 1st concession, and John Tully as owner.

Wm. Evans Chamberlin and Edmund Chamberlin were assessed as joint owners of broken lots 4 and 5 in the 5th con.

Ralph Robinson was assessed as tenant of the north-east quarter of lot 7 in 1st con, and Duncan McGregor as owner.

On motion of Mr. Bell the Court adjourned until the first day of June.

Pursuant to adjournment the Court met at the Town Hall, on the 1st day of June, all the members present.

The Minutes of last meeting were read and signed.

The following appeals were heard and disposed of:

Joseph Nugent, not bona fide owner. Assessment confirmed.

Robert Rogers, not bona fide owner. Name erased, and property assessed to James Rogers.

Wm Roseborough, not bona fide owner. Name erased, and property assessed to James Roseborough.

Richard White, not bona fide tenant. Name erased, and property assessed to Thomas White.

On motion of Mr Bell the Court adjourned until the 5th June.

After the adjournment of the Court of Revision the members went into Council, and the Minutes of last meeting were read and confirmed.

The resolutions passed on the 11th and 26th days of May relating to the division of the sum of $6,856, payable to this municipality under the Municipal Loan Fund, were rescinded, and said sum divided as follows: To the Council of the Town of Peterborough, $620; to gravel roads, cut down hills and to aid in building bridges, school houses, etc., in ward No. 1, $1,107; in ward No 2, $987; in ward No. 3, $1,167; in ward No. 4, $1,197; and in ward No. 5, $1,907.

The Quarterly Report of the Inspector of Licenses was received, read and adopted.

The Treasurer was instructed to pay the sum of $12, in favor of Geo. Parson an indigent person.

The Council then adjourned.

Pursuant to adjournment the Court of Revision met at the Town Hall, on the 5th day of June. All the members present.

The Minutes of last meeting were read and confirmed.

The following appeal was heard and disposed of: William Graham, not bona fide tenant. Name erased, and property assessed to John W. Graham.

On motion of Mr. Fitzgerald the Assessment Roll was passed by the Court and the Clerk instructed to certify the same.

The Members then went into Council, and the Minutes of last meeting were read.

The following By-laws received their several readings and were passed:

A By-law to provide for the appropriation and expenditure of the sum of $230 in the general improvement of the roads and bridges in the Township of Smith, and to appoint Commissioners to expend the same;

A By-law to provide for the appropriation and expenditure of the sum of money payable to the Municipality of the Township of Smith under the Municipal Loan Fund Resolutions passed by the Legislative Assembly of Ontario on the 27th day of March, 1873, and to appoint commissioners to expend the same.

The Clerk was instructed to Appoint a day for the Reeve of the Lieutenant-Chief [illegible] to obtain further information as to the appropriation of moneys which will be considered consistent with the provisions of the Provincial Statute.

The Treasurer was instructed to pay John Hall the sum of $5.50 for flour for indigent William Adams.

On motion of Mr. Mossington, Daniel Hurley and Henry Sherin are allowed to construct their sidewalks [illegible] dividing line between lots 2 and 3, west of the Commissioners Road.

Council adjourned.

Ayr, May 6th, 1874.

A most disgusting incident occurred here this morning. A man named Wm. Hendry, one of Mr. Thomas Hendry's men, was found floating dead in the mill dam, after which the men proposed a bath. The unfortunate Harper was only a few minutes in the water when he sank and did not rise again. When his body was discovered life was extinct.

LOSS OF THE BRITISH AMERICA.—[illegible] Capt. Bell, of the above boat, went ashore on King's Island in Bow Straits, and became a total wreck. The passengers, 26 in number, and crew of 20 persons [illegible] All were saved. The vessel was valued at $30,000, and was insured for $20,000 in the Quebec Fire Office. The cargo consisted of 1,000 barrels of flour, 1,000 bushels of wheat, and 1,000 bushels of oats, and was insured for $20,000 in the Quebec Fire Office. The cargo consisted of 1,000 barrels of flour, 1,000 bushels of wheat, and 1,000 bushels of oats, and was insured for $20,000 in the Quebec Fire Office.

VICTORIA COUNTY COUNCIL.

At the opening of the [illegible] of Victoria, the Warden said:

"I have to congratulate the people of Victoria on the [illegible] of the new [illegible] Victoria by a majority of [illegible] votes. The people there. This cannot be anything but beneficial to the [illegible] municipalities of this county [illegible] especially to the Town of Lindsay. A great amount of business [illegible] done in Peterboro' will in future be transacted here; and still more if the [illegible] Victoria Railway be built, as it [illegible] access to every part of the county [illegible] and enhance the value of property of every description from Lindsay northward to the most extreme limits of the newly erected township.

"The people of Lindsay, as alive to their own interests. For years there have been traitors in our camp. The result of their treachery is now manifest, and Lindsay is proud of it. Those miserable who opposed railways northward can now see the result of their short sightedness.

To the Electors of the West Riding of the County of Peterboro'.

In all probability, before the end of the present month, you will be called upon to elect a new representative for the Ontario Parliament. You have to make choice of one of the two candidates now before you. [illegible] is the [illegible] the Conservative [illegible] amble [illegible] of the Reform party making [illegible] I hope you will be guided solely by the dictates of patriotism and of duty, and I ask you not to suffer yourselves to be influenced by any considerations of a private or personal nature whatever. The franchise was given to you in trust for the use and benefit of your country, and he who abuses that trust deserves and will receive the condemnation and contempt of every good citizen.

In placing before you some reasons why I think your votes should be given to Mr. Dumble instead of Mr. Scott, I shall confine myself to matters of a strictly public character, for I consider that in contests like the present one should be divested of all private or personal feelings, and should be carried on and determined with reference to the best interests of the country. No doubt there will be found a-me few electors who will disregard their obligations and duties, but I hope that no true reformer will be found among them.

It is idle to assert, as Mr. Scott in his address would have you believe, that politics considerations ought not to influence the present election, that the Ontario Legislature is more of the character of a municipal body than a political body, and that political feeling should not be allowed to control your votes on the present occasion. I am surprised to find Mr Scott making such a statement, and I am sure that I will be doing him no injustice when I say that he does not mean what he says, that he cannot mean it, and that he himself, in his present candidature, represents the very opposite principle; that he is the nominee of the conservative party for the present election, and that if elected, the conservatives will proclaim that fact as a conservative victory, and will send it forth to the world as evidence of a reaction in the Province, and that the conservatives in the Ontario Legislature will look upon Mr. Scott as an important addition to their number. Mr. Scott knows perfectly well that he is the conservative candidate, that he will receive the whole conservative vote, and he knows too that his [illegible] confidence is that of the conservative party. But is by pretending to reformers that they should not be influenced by political feeling in giving their votes, he can induce some of them to vote for him, he will laugh at their simplicity or ignorance, and when too late they will see their error. The conservatives know that they can never regain power at Ottawa so long as the Government of Ontario is reform, and they know that their first step in their success at Ottawa is to obtain control in the parliament at Toronto, and they know too, that so long as reformers rule in this Province they will govern in the Dominion Parliament. Therefore they must put forth every effort to convert their minority in Ontario into a majority, and not until they do that can they hope to succeed elsewhere. And, moreover, it is worse than folly for Mr. Scott or any one else to say that the Ontario Legislature is not a political body, and that it does not and ought not to represent the political feelings of the country. Look abroad into every Province of the Dominion, and into every state of the neighboring Union and what do you see but one party arrayed against the other, party for the sole purpose of obtaining a majority in their local legislatures, in order that thereby they may be able to carry out their own political views and control the patronage and the due administration of the public business. The second consideration being in the eyes of conservatives of more importance than any other. So long as the Sandfield Macdonald Government ruled in Ontario the conservatives were never heard to say that the government should not be political, but when be fell and reformers come into power, oh then they pay, political feelings ought to be discarded, just as they said during the Dominion elections, immediately after confederation. Reformers were told that there were no political parties, and that there ought not to be any political parties, that all old political issues were dead, and that reformers should vote irrespective of party obligations, but the conservatives took good care, in every instance to have conservative candidates and to vote for them, and thus, by bood-winking reformers they filled the first Dominion Parliament with conservatives, and when too late reformers saw their mistake. The result of that mistake has been the government of the country by conservatives up to the advent to office of Mr. McKenzie. The increase of the public debt of the country by many, many millions of dollars, the increase in all branches of the public expenditure, the increase of taxes and the filling of all offices by conservatives alone, reformers being treated with insult and contempt as they deserved to hand new upon the advent to office of reformers they find the public treasury impoverished and a deficiency of revenue over expenditure of upwards of three millions of dollars which can only be met by increased duties upon goods imported into the country, and by increasing taxes, for the public credit must be protected. This is the legacy resulting from the simplicity of people who thought there should be no [illegible] in politics in the government, and first the [illegible] lion and the lamb were about to lie down together in peace.

But they have had a rude awakening, and now when too late, they [illegible] know of their country tarnished, its finances impoverished, the reputation of some of their public men ruined, and that the only remedy, the only means of saving the credit and prosperity of their country is to go back again to party politics, and to put into power, men whose honesty and political principles [illegible] take the country out of the [illegible] and troubles into which it has been brought by the party who now tell you, as they did after confederation, that you must lay aside politics and vote for them, as in [illegible] likely that you will allow yourselves to be deceived again. On the contrary, I trust that every reformer and every honest [illegible] will be at his post [illegible] the day of election, and that each man will feel as if the result of the contest depended upon his own exertions, and that not one single vote will be left unpolled for the reform candidates for the county let the [illegible] to be a close one, and if reformers will [illegible] to it, truly and zealously, victory must perch upon their banners.

As I said before, the franchise was given to you for the good of your country. You have it upon the most sacred trust, to exercise it you must look to the good of your country above all else, and to that end you must work for it, and support the man who has been chosen as your representative, and who will best [illegible] it. Do not allow yourselves to be misled by [illegible] everybody, all the party cry, and [illegible] and [illegible] but look to the principles of the party you are to support, and to the men who will support them in the interests of the country. Be not led away by the cry that politics should not enter into the election, for politics is a very necessary element in every election, and it is very necessary that politics should enter into this election, for upon the result of this election depends the future prosperity of the country, and it is necessary that every elector should be a politician, and that he should vote politically, and for the party which will make proper and judicious use of the money which will be placed at the disposal of the Government next year, when the [illegible] will be [illegible] to the Dominion Parliament. Therefore, I say, be politicians, be true to your country, be true to your principles, be true to your party, and you will be true to yourselves, and you will be rewarded by the consciousness of having done your duty, and by the gratitude of your country.

I hope you will be guided solely by the dictates of patriotism and of duty, and I ask you not to suffer yourselves to be influenced by any considerations of a private or personal nature whatever. The franchise was given to you in trust for the use and benefit of your country, and he who abuses that trust deserves and will receive the condemnation and contempt of every good citizen.

In placing before you some reasons why I think your votes should be given to Mr. Dumble instead of Mr. Scott, I shall confine myself to matters of a strictly public character, for I consider that in contests like the present one should be divested of all private or personal feelings, and should be carried on and determined with reference to the best interests of the country. No doubt there will be found a-me few electors who will disregard their obligations and duties, but I hope that no true reformer will be found among them.

It is idle to assert, as Mr. Scott in his address would have you believe, that politics considerations ought not to influence the present election, that the Ontario Legislature is more of the character of a municipal body than a political body, and that political feeling should not be allowed to control your votes on the present occasion. I am surprised to find Mr Scott making such a statement, and I am sure that I will be doing him no injustice when I say that he does not mean what he says, that he cannot mean it, and that he himself, in his present candidature, represents the very opposite principle; that he is the nominee of the conservative party for the present election, and that if elected, the conservatives will proclaim that fact as a conservative victory, and will send it forth to the world as evidence of a reaction in the Province, and that the conservatives in the Ontario Legislature will look

FIRST
Light Brahmas.

THREE BIRDS took the First Prize at the Guelph Exhibition, held March 1874.

FOR EGGS—April
J. McCONNELL,
1647 Peterboro.

The Examiner.

EDITORIAL ITEMS.

ALMOST DROWNED.—Several cases of persons almost drowned while washing sheep, have found their way into the papers. Moral:—Keep in moderately shallow water.

LORD DUFFERIN AND FAMILY are gone to reside at Quebec for a season.

CHIEF JUSTICE DRAPER has taken his seat on the Bench. He was presented with an address on the occasion. It is the wish of many in the Dominion that Mr Blake should succeed him as Minister of Justice.

MICHELIN & HALE are now offering the balance of their Extensive stock of Trimmed Millinery at a reduction of twenty-five per cent. Also a lot of Ladies' and Children's winter clothing at cost.

PERSONAL.—The numerous friends of Dr. O'Sullivan will be pleased to learn that he is very much improved, and is now able to leave his room. He intends shortly taking a trip for the good of his health, which all earnestly wish may so completely restore him as to enable him to resume his practice at an early day.

ATTENTION.—Mr. George Mills, completely restored to health, is again pushing his blacksmith and carriage business at the old stand, corner of George and Brock Streets, Peterboro. His many friends will be pleased to find him at his work, with new energy and his old skill suiting the wants of his numerous customers.

HOUSE BURNINGS.—Mr. Peter Hamilton is now manufacturing Wood's Self-Raking Reaper, one of the best in the market. The first of his make was on exhibition at the recent fair, and was admired by all the farmers who examined it. We understand it was sold at once, and several others ordered immediately. Mr. Hamilton has made preparation for the manufacture of Reapers and Mowers extensively. All who are in need of such machines and other agricultural implements, ought do well to give him an order and encourage home enterprise, where you can obtain a first-class machine, a guarantee for workmanship, and be sure of getting your machine repaired at home, if an accident occurs.

ATTENTION.—Mr. George Stethem, who always keeps an extensive stock of hardware, cutlery and plated ware, at present has some new and elegant designs in silver-plated ware of superior quality, such as tea pitchers, cake baskets, card receivers, sugars, creams, salts, napkin rings, cruet stands, butter coolers, cabinets of Harrison's table and dessert knives and forks, carvers and steels. Parties wanting complete furnishings in those lines would do well to call and examine Mr. Stethem's stock. The goods are of best quality and newest designs.

BARNUM will visit Peterborough this season about the last week in July. An Agent was here this week, and assured us that this is no humbug. A monster show will be the result.

WHISTLEWING.—This favorite steamer will run an excursion trip to Harwood once a week, commencing next week. We understand that there is a movement to close the stores every Thursday afternoon. If this should be agreed upon the excursion will be on that afternoon. The time, however, will be announced by bills.

SUN-STROKE.—A man named Webb, working on Carling's new brewery, London, Ont., received a sun-stroke a few days ago and died almost instantly. Another case of sunstroke occurred to a watchman on the Grand Trunk, but it did not prove fatal. The heat of the day was oppressive, the thermometer ranging in the nineties.

TENDERS FOR COUNTY WORKS.—For fence: John Boyd, per rod, $5.00; Alex. Stewart, per rod, $6.50; J. Stark, per rod, $7.00; J. Robertson, per rod, $9.25; Robertson & Green, per rod, about $10.50; T. D. Crolly, per rod, $11.55; T. D. Crolly, per rod, second, $8.75. T. D. Crolly, for Band Stand, $175. The above are tenders for a fence in front of the Court House, Mr. Boyd being successful. For the Band Stand Mr. Crolly obtained the contract.

PRESENTATION.—We learn that on the evening of the 1st inst., at a meeting of Verulam Lodge, A.F. & A.M. of Bobcaygeon, Lieut. Colonel Kennedy of this town, who has held the position of W.M. of the Lodge for some years, was made an honorary member, and presented with a purse of $95. Mr. Kennedy is we understand about to leave for Manitoba to spend the summer with his son, the Hon. Wm. N. Kennedy.

GRAND REVIEW PRO-NEM.—The reformers of North Oxford will entertain their representatives, Hons. O. Mowatt and Oliver, at a grand pic-nic on the 10th instant. The leaders of both governments will be present, and numerous M. P.'s and M. P. P.'s. The demonstration will be a grand affair.

ON DIT.—They say that Mr. Rykert will pay a visit to this riding soon to assist the conservative candidate. Let him come. No one will regret his presence more than his friends.

GOOD NEWS is received from all parts of the riding. Our old friends are as true as ever, and some new ones will be added. Our opponents are going about circulating that they have got promises of votes; of staying at home, and of upwards hundred and one other things never mind them things. They are going to have fifty or sixty of a majority in Town just black, but they did not say any money. They are not unlucky, they are not hopeful, they are not on the right side and they feel it. They have a hard cause to defend, and worse to advocate. On the side of Reform there are honest Liberals, there is wise legislation, a noble and honorable record, and the confidence and esteem of the people. These should secure victory.

PORT HOPE.—The council of the Town of Port Hope has accepted an offer from Mr. John Fuller to construct a system of Water Works, at a cost of $70,000, and a yearly rent for ground for building and for water power, of $600. Port Hope has now a Board of Trade. Several outside for Sir Joseph Hickson, Bart., Montreal. CHRISTIE

ODDS AND ENDS.

A painful story is related by a brakesman of the Northern Railway. It appears small boy is going very badly with cholera infantum, and a few days ago a man named McCrossan, a native of Lindsay, but who has been staying at Rosea, took the cars for Orillia. The conductor noticing that he had a child with him, passed him on the train and allowed him to drink at the swamp. McCrossan went after his trunk into the swamp, and after a short interval appeared in Orillia to make arrangements for the burial of his child. The good people of that village drove him out, but he again returned, when he was put into the lockup and left for two days without anything of attendance, and at last accounts he died. The keeper of the lockup, Thos. Warwick, is now down with the disease.

DREADFUL ACCIDENT AT PORT PERRY.—A most distressing accident occurred at Sexton's steam saw-mills, Port Perry, last Thursday week. James Smith, one of the hands, while turning a nut on the engineer screwed it up the wrong way, and was drawn up between the belt and tightener wheel. The belt was then disjointed, and he fell among the belts and pulleys beneath. His body was much bruised, the marks of the belts being quite visible, and indicated clearly the position that his body must have assumed while drawn up. His head must have come into violent contact with some beam or hard substance, as his left eye was fearfully damaged, and a large gash appears over the eye, laying bare the skull. The poor man died in a few hours.

TEMPERANCE.—The members of petitions in petitioning in favor of a prohibitory liquor law presented from the various provinces to the Dominion parliament during the session just closed has been as follows: Ontario, 84,831; Quebec, 12,943; New Brunswick, 13,536; Nova Scotia, 13,437; Prince Edward Island, 3,340; British Columbia 208 and 1,712.

MUNICIPAL.—The following municipal bodies and counties representing a population of 410,000. Petitions have also been presented from the Canada Presbyterian Church representing a membership of 296,000; the Presbytery of Montreal; the Grand Division of Sons of Temperance of the Province of Nova Scotia; the Young Men's Christian Association of the city of Fredericton; the Free Christian Baptist Conference of New Brunswick; the Professors and students of Knox College, Toronto; the Brockville and Ottawa Railway Company; the Nairn Church, Strabane, Co. Wentworth; the Sunday School Association of the town of Dundas, Co. Wentworth; the Dundas Temperance Union; the Niagara Episcopal Church of Canada, in session at Struthroy; the faculty and students of Victoria College, Cobourg, and the members of the New Brunswick Legislature.

DEATH OF A JOURNALIST.—Mr. G. J. Walker, editor of the North, Ont. Courier, died on Monday of typhoid fever. Deceased was not only a man of unimpeachable integrity and more than common talents, but his retiring and genial disposition made him a favorite with those who had the good fortune to know him. Mr. Walker was this year to have read the annual essay before the Canadian Press Association. That Association as well as Liberal Journalism in Ontario has lost an ornament.—*Woodstock Sentinel.*

IN MEMORIAM.

Margaret Robertson, relict of the late John Macdonell, of Ashburnham, who died May 30th, 1874 Aged 61 years.

Winter had past, and summer came,
May flowers bloomed in the hall,
When she was laid within the tomb
Who was beloved by all.

And those parted to enjoy the day
That for the saints remain
Among the assembly of the blest,
Who with their Lord do reign.

Faith in God's Word—oft her to find
Through all the toilsome love,
The spirit to her Father's mind
That she had sought to bear.

And when the gale bears richer stand
To claim her outward part,
The hope of Heaven did sustain
And cheer her drooping heart.

The means of grace she ever sought
Both by night and day,
The comfort christians at the footstool brought
Before she passed away.

We hope friends left will think upon
Through the low cipher,
Obey the wish of her that's gone,
To meet with her in Heaven.

A. GRAHAM.

BIRD.

PATERSON.—At Ashburnham, on the 3rd instant, Sarah Jane, only daughter of Mr. William Paterson, Aged 5 years.

SHERIFF'S SALE OF LANDS.

BY VIRTUE of a writ of *Fieri Facias* issued out of the Court of Chancery in a certain cause wherein Thomas Giles is Plaintiff and Archibald Hamilton Campbell and John C. Ingram, the Executors of John Bibby, Esquire, and of William Lundy are Defendants, and against the lands and tenements of the said Defendants I have seized and shall offer for sale at my office on the Church Square in the Town of Peterborough on TUESDAY the 11th day of AUGUST 1874 at 12 o'clock noon, all the right title interest and equity of redemption of the said Defendants in and to Lot No. 25 in the first concession and Lot No. 26 in the 3rd concession of the Township of Asphodel.

J. A. HALL,

THE REASONS WHY LAZARUS, MORRIS & Co's CELEBRATED Perfected Spectacles, AND EYE GLASSES, have met with such extraordinary success and are so much in demand:

1st. Because they are found to possess all the qualities claimed for them.

2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. Because no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. Because the never tire the eyes and last many years without the necessity of change.

6th. Because being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable values.

A full and complete assortment has been supplied to and always kept on hand by

WM. H. TAYLOR, M. D. Sole Agent for PETERBORO' Corner of George and Hunter Streets. February, 29, 1872.

Peterborough Examiner.

PETERBORO', JUNE 18th 1874.

THE CONTEST.

Mr. Dumble is now holding meetings in the West Riding, and is promised the strongest support. He was at Bridgenorth on Monday evening; Mr. Boultbee was there to be laughed at. He is doing good service in this way to Mr. Dumble. But what has he to do in the Riding? Let him go whence he came, to North York; Peterboro' can manage its own business, and will do so in its own way. Mr. Boultbee, was laughed at in his riding, and he must be vain indeed if he hopes to escape ridicule in this county.

The friends of reform are rallying round their candidate, Mr. Dumble, and are determined to elect him by a handsome majority. We ask the supporters of the present Reform Government to keep their shoulders to the wheel for six or seven days and their success will be the more glorious. South Monaghan promises us better things than in the last contest; North Monaghan, also, will do no worse; Ennismore will do better than in the past; good old Reform Smith will also increase her old majority in favor of Reform, and we may urge Peterboro' to maintain her good name and prove that we are in favor of honest government.

Mr. Scott tries to avoid political questions, but all questions affecting the people are political, and his play upon words will avail him nothing. The people are not in favor of a return to power of the party for prog.

We have not yet heard Mr. Scott, and as his address contains nothing, till heard, we cannot tell what arguments he uses to induce the electors to support him, but he must be judged by the actions of the party he allies himself with, and judged by those actions he must be condemned and left at home.

BUY TRUTH AND SELL NOT.

Our respected friend the *Review* takes upon him last week to read us a homily on editorial duty, advising us to make enquiry before publicity is given to rumors. Let him take the hint. He comes to the relief of the member for North York and tries to relieve Mr. Boultbee at our expense, we can only say that Mr. Boultbee has this time misled our worthy contemporary.

The EXAMINER never publishes rumors unless well founded, and, if Mr. Boultbee so far forgot himself when wine was in, let us suppose, as to make use of the ungentlemanly expression he did, the *Review* should reprove him, not us.

It is true we should take Mr. Boultbee at his friends estimate, and say it was Boultbee who said it, and grant him a fool's pardon, but at the same time he must be reminded that for his amenable to public opinion, whether he wills it or not, and the public should know enough of their own good to take his conduct without reference by better authorities.

Mr. Boultbee [illegible]

MR. SCOTT A PARTY MAN.

The answer to this question must be an ex. He has been an out and out advocate of conservatism in this county. He has been the unflinching defender of the John A. Macdonald Government. He has opposed the Reform party in every election. He has been the champion of those who call themselves Liberal Conservatives. He is now the candidate of the Conservative Club, and holds his meetings in the Conservative Club Rooms. He is supported by the Conservatives of the Riding. He declares himself opposed to the present Reform Government. He loses no opportunity to oppose the Grits; and Mr. Boultbee is his confident and advocate. Why there is no greater partisan in Ontario, and yet, forsooth, his friend cry "No Party." They did so in 1867; they are doing so now. They are doing so to deceive the unwary, and if they succeed, he will be found a partisan of the most fixed type. Why does he fear to avow his principles? Why does he fear to let the people know them? Because he well understands that they are hateful to the people, and hence he is ashamed to avow them openly. He is not honest in this "no party" cry. Electors protest against this, and vote against the man who would deceive you; vote against the man who would hypocritically pretend there is no party, while he is the *candidate* of the conservative party.

FIRES.

Our Town has been the scene of a series of Fires since our last issue.

On Thursday morning about 3 o'clock, the waggon and carriage shop of George Mills opposite the Commercial House was consumed. The fire was advanced before the Fire Company could throw water. The furniture shop of Mr. Langford suffered damage, the glass giving way, the heat did considerable damage although there was nothing entirely destroyed. The grocery store of Mr. Glass, and dwelling over it was in great danger for a time, and the furniture was damaged considerably, and Mr. Huebeck's furniture rooms were injured. Those three buildings were saved by the energy of the citizens. The roof of the new Bank of Commerce was on fire several times but a band of citizens did good service in checking it without damage. The Commercial House was also on fire several times and Mr Morgan's little garden engine did good service in saving the whole block, as if the hotel had caught, nothing could have saved the adjoining buildings.

The Tavern adjoining the waggon shop is badly damaged and the building on George street north of the waggon shop is burned down. Mills loss is considerable as there were ten or twelve buggies finished and some waggons and a quantity of work almost finished, besides tools, lumber, etc., all destroyed except one buggy. There was a partial insurance of $700 on the material and finished work but nothing on the buildings.

The house on George street was owned by Mr. A. Stutt, partly insured. The Tavern on Hunter street is partially covered by insurance, and Mr. Heuback and Glass are insured and will loose very little, but Mr. Langford had no insurance The Fire Company did not meet the expectations of the citizens.

DENNISTOUN, BROS. & HALL'S

Law office was also discovered to be on fire about the same time. It being fire proof from the outside, there was a mystery about the matter for a while, which was unravelled during the day. The fire had been put on near the counter and contiguous to a wood box. The books had been arranged over the fire and the whole was well saturated with coal oil. The closeness of the place prevented the flames from spreading fast, and fortunately the people going to the other fire discovered this one in time to save a greater loss. The Ledger only is missing the cash book is damaged but legible, a few unimportant papers are damaged but on the whole they have escaped with a comparatively small loss, towards what might have been, and that what was intended by the miserable creature who set the match to the pile.

As the party must have entered by the door, suspicions were aroused as to the Book-keeper, Maurice Dunaford, and Mr Dennestoun at once suspected there was something wrong. Through the day he was found to be a defaulter to the amount of $2,000 to $3,000 which he labored to conceal, and had falsified the figures for his purposes. About 5 o'clock a warrant was taken out for him and placed in Mr. Johnston's hands, but he permitted him to escape. About half past 8 o'clock Dunaford pretended he was going home to tea, but instead got a team from Mr. E Donnelly and in the presence of the Chief Constable drove away on pretence of going to Lindsay, but really went to Brighton, where he arrived next morning but no boat being there he left Donnelly's team, getting a man to drive him to Trenton, where he got on board some craft and left for a sojourn in the Dominions of Uncle Sam. Before leaving he wrote to Mr. Donnelly telling him his horses were at Brighton, and asking him to charge expenses to him.

Chief Constable Johnston followed him first towards Omemee and then to Port Hope, but we need not say did not get him. Maurice was well known here as a fast youth, fond of show, and would drink and gamble. For a time he edited the *Times* newspaper. His accounts have been cooked for over a year. The supply is that Mr. Dennestoun could not find such a limited salary would not cover the outlay that necessarily followed the mode of living his book-keeper pursued. There is a Club in Town also which he freely attended, had it anything to do with the gambling and extravagance? Dunaford is the son of respectable parents, but he cares little for their responsibility as would appear from his conduct.

ON FRIDAY MORNING

The engravings of Messrs. Crosa and Ashbridge, Ennismore [illegible] by fire. It took place about 5 a.m. and completely destroyed the shop with all its tools, timber, and stock in hands. We regret to learn that they had no insurance. [illegible]

person [illegible] Dumbleton's Lake Shore, but these suppositions may be entertained, ungenerous simple instance rather than diminish the merits of the erring.

COUNTY COUNCIL

The Council met on Tuesday, at 3 p. m. Present,—James Gardiner, Esq., Warden, James Miller, Esq., Reeve of Otonabee. Thos Hazard, Esq., Dep. Reeve, Otonabee.

R. Rogers, Esq., Reeve of Ashburnham.

M. Sanderson, Esq., Deputy Reeve of Smith.

H. Collins, Esq., Reeve of North Monaghan.

Peter Pearce, Esq., Reeve of Belmont.

T. G. Choate, Esq., Reeve of Dummer.

R. Birdsall, Esq., Reeve of Asphodel.

J. P. Brown, Esq., Dep. Reeve of Asphodel.

J. Wells, Esq., Reeve of Galway.

W. Blewett, Esq., Reeve of Harvey.

J. McCarthy, Esq., Reeve of Ennismore.

The Reeves of Minden, Snowden, Stanhope and Dysart, did not come to the Council, as they now form a provisional county in connexion with the Townships of Cardiff, Monmouth, Lutterworth and Anson.

The Clerk read the minutes of the last Session of the last meeting of the County, and on motion they were signed by the Warden.

The Warden then addressed the Council.

THE ADDRESS.

To the Municipal Council of the County of Peterboro.

GENTLEMEN:—This session of the Council is one of more than ordinary importance. Recent Legislation having in some changes that considerably affect the interests of the County. The northern portion of the county having been formed into a new corporation, and a portion of the Township of Asphodel having been taken to form a part of the newly incorporated Village of Hastings in the County of Northumberland. A settlement of the proportion of the debenture debt due by that portion of the county thus detached, and that part lately united to the Town of Peterboro, I trust will engage your serious attention. I am informed that an act has been passed by the Provincial Parliament, the provisions of which will greatly facilitate the settlement.

Up to the present, after paying liabilities and reserving a sum sufficient to meet current expenditures. There has been surplus of the Sinking Fund to invest, and I therefore could not carry out the recommendation of the Finance Committee.

The Registry has not as yet moved into the new office, and has requested that certain changes be made in the internal arrangements of the building.

There is another matter connected with the Registry Office to which I wish to call your attention. Some years since under the provisions of the new Registry Law, this County paid the Registrar a large sum of money for copies of deeds, &c., of lands situate in the Town of Peterboro, the money so paid has never been repaid to the County by the Town. Nor can we, as the law now stands, collect it. I recommend that we memorialize the Legislature, praying for relief in this matter, or else give notice that we will apply for a special act in order to enable us to receive the money so paid.

The Inspector of Prisons and the Board of Audit have recommended that the bread for the use of prisoners be purchased by tender.

The Deputation sent to Toronto under a resolution of the Council at the last sittings, I will lay before you the result of the several applications to Government.

At the suggestion of certain members of the Council, I and Mr. Reid visited Toronto for the purpose of laying before the Commissioner of Crown Land the state of the Burleigh Road, and to solicit aid in repairing the same, but were greatly disappointed to find him absent.

The government have undertaken to build the Burleigh Bridge on condition that this council deposit the sum of $2,000 to the credit in the Commercial Bank. I have complied with the conditions, and have to report that the building of said bridge will soon be completed.

The following communications and petitions have been received, and are herewith submitted:—

The Registrar requests to be repaid a sum of money paid him to the County Treasurer, which he claims as an over payment.

The Council of the County of Wentworth forwarded a copy of a memorial of that Council to the Dominion Government, respecting the free importation of coarse grains, and requests you to adopt a similar memorial.

The Trustees of the Norwood High School have requested that the County grant to said school be paid at once, instead of delaying such paying until the taxes of the current year be collected.

The Secretary of the Kingston Hospital has sent a circular praying for aid.

Mr. Bonnistoun, attorney for Mr. Biglow, has applied for the payment of $60 98 being the amount claimed as redemption due by the County to the estate of the late O. Biglow.

The gentlemen appointed by you to value the real property within the county for the purpose of forming a basis of equalizing the same by the County Council for a period of five years, met myself and the Advisory Committee, and after careful consideration of the change of the limits of the county, and the impossibility of the completing the duties in time for this meeting, were unanimously of the opinion that it would be better to let the matter lie over until the Council should meet, consequently the equalizing of the Assessment Rolls of the different Municipalities in the County will require your careful consideration, and I feel assured that as it is one of the utmost importance duties you will have to perform, it will be attended to faithfully by you with the view of doing justice to all concerned.

The Auditors report of the receipts and payments of your Treasurer for the past year will be laid before you, and I trust you will finally audit and pass the same.

The Treasurer will, at the proper time, lay before you a statement of your finances with an estimate of the receipts and disbursements of the current year.

(Sd.) ISAAC GARBUTT,
Warden.

Committee Rooms,
Peterboro', June 16th, 1874.

Moved by Mr. Collins, seconded by Mr. Pearce, that Messrs. Rogers, Miller, Pearce, Choat, Birdsall, Moloney and the mover be appointed a special Committee on the Warden's Address. Carried.

Mr. Pearce reported in reference to the construction of a bridge across the Narrows of the Trent, and on motion of Mr. Pearce, seconded by Mr. Blizard, the Report was referred to the Committee on Roads and Bridges.

Mr. Miller asked if the Government engineer had taken the bridge off the hands of the contractor.

Mr. Pearce explained that the Commissioners had by direction of the Government taken the bridge off his hands, and had also promised to pay the sum agreed upon, on receipt of a duplicate copy of the recommendation of the Commissioners.

Mr. Pearce wanted to know why the Registrar did not occupy the new Registry office.

The Warden said the Registrar complained of the uninhabitableness of the building.

Mr. Pearce said that a special Equalization Committee should be appointed, without reference to any probable change to a provisional County in the north. No proclamation had been published or issued in the knowledge of this Council, and in view of this fact he thought the Council should act as if no division were contemplated.

Moved by Mr. Sanderson, seconded by Mr. Rogers, that Messrs. Pearce, Miller, Choat, Moloney, S. B. Brown, Collins and M. McCarthy, with the mover and seconder, be a Committee to revise the Assessment Rolls for the current year. Carried.

Moved by Mr. Rogers, seconded by Mr. Miller, that the several paper presented to the Council by the Registrar, in reference to the Registry Office, be referred to the Committee on the Warden's Address. Carried.

Moved by Mr. Collins, seconded by Mr. Pearce, that the Council go into Committee of the Whole on the letter from the Registrar.

Mr. Collins said, after explanations, that the Registrar had written, asking permission from the Inspector to have changes made, but the Inspector would not consent.

Mr. Garbutt explained that the Registrar had visited other offices west, and found that they paid no attention to the Inspector but got what was necessary done

It was finally moved by Mr. Pearce, seconded by Mr. McCarthy, that the letter of the Registrar of this County, asking for certain changes to be made in the new Registry office before it be occupied, be referred to the Government of Ontario. Carried.

Wednesday, June 17th.

The County Council met. All the members who were present yesterday present to day.

Mr. Pearce moved, seconded by Mr. Brown, that the name of R. E. Birdsall, Esquire, be substituted for the name of John Powell, late Reeve of Asphodel, on the several Committees of the Council. Carried.

Moved by Mr. Sanderson, seconded by Mr. Blewett, that the petition of W. B. Read and 92 others, in relation to the road between Bobcaygeon and Pigeon Creek bridge be referred to the Road and Bridge Committee. Carried.

On motion of Mr. Birdsall, seconded by Mr. Choat, Messrs. A. Smith and R. Romaine addressed the Council on the subject of aid to the Parliamentary survey of the Trent Valley Canal.

It was moved by Mr. Birdsall, seconded by Mr Choat, that the propriety of granting $580 in aid of preliminary expenses of the Trent Canal be referred to the Finance Committee. Carried.

Mr. Pearce, chairman of the Committee on the Warden's Address, reported, and on motion the Report was adopted.

The Warden read a letter—an application from Mr. H. Nesbitt for increase of salary, which, on motion of Mr. Sanderson, was referred to the Finance Committee.

Mr. Pearse introduced a By-law to repeal the By-law appointing County valuators.

On motion of Mr. Pearse, the Council went into Committee of the Whole on the second reading. The Committee reported the By-law read with amendment.

Mr. Pearse spoke against the action of the Advisory Committee in reference to the matter.

Mr. Collins and Mr. Miller defended the Committee.

The Warden also explained that the Valuators wanted $5 a day and expenses, and they refused to take the oath unless they should visit every lot and do their work according to law; and in view of this the Committee put the matter off till the June session.

The Council adjourned till 2 p.m.

DOURO.

A meeting of the Ratepayers of Ward No. 1, Township of Douro, was held at the school house, Lakefield, on Monday, the 8th instant, for the purpose of considering the best means of expending that portion of the Municipal Loan Fund which may be appropriated to Ward No. 1.

The Warden, Councillors E. Foley, D. Leahy, and M. Leahy, were present.

Considerable discussion ensued on Councillor Foley being

The Examiner.

EDITORIAL ITEMS.

CRICKET AT KENNE.—On Thursday last a Cricket Match was played at Keene between the Keene and Westwood Clubs, which resulted in a victory for the former by 47 runs.

MECHANIC'S.—The Anniversary Sermons in aid of the Sabbath School Fund of the B. C. Church, Merrby's, will be preached on Sunday, June 21st, and a Tea Meeting will be held in connection therewith on Thursday, June 25th, commencing at 2.30 p.m., when addresses will be delivered by ministers and others.

REV. DR. TAYLOR.—We are informed that the Rev. Dr. Taylor, one of the Secretaries of the Wesleyan Missionary Society, and lately appointed Emigration Agent of the Dominion Government to England, is about to pay a visit to Peterboro. He will preach in the George St. Wesleyan Church on Sabbath morning at 10:30 o'clock, and lecture in the same place on Monday evening, the 29th inst., on "The Great Lone Land, or Manitoba and the Far West," being the result of five months personal experience, and of over 7,000 miles of travel. Admission 25 cents. The doctor is well known here, and as the Peterboro friends are not likely to have another similar opportunity soon of hearing him, there will probably be good audiences.

BURGLARY.—On Monday, two men named Dallycourt and Aird entered into Messrs. Hall & Connor's Shoe Store, through Mr. O'Beirn's office, and took 20 pairs of boots, and hid them in a hole dug in the middle of a street in the south of the town. In the morning the men quarrelled, and Aird revealed the whole affair to Chief Constable Johnston, who went and got 19 pairs of the boots in the bag, buried as above, and one pair under the fence. Dallycourt and Aird were brought before Mr. Hatton, when Messrs Hall and Connor's identified the boots as theirs, and both birds are caged safely, awaiting their trial. Aird is only out of gaol a few days, on a charge of stealing cloth of a peddler of shoddy. Dallycourt is a pensioner—a hard case—and hails from Belleville. His companion in chains hails from Toronto. They will find employment somewhere else, and we hope some more honest employment than they have been used to.

MIS-STATEMENT.—The Peterboro *Review*, pursuing the usual tactics of its party, is endeavouring to injure the credit of the Ontario Government by publishing false statements of revenue and expenditure, and as if to vouch for the accuracy of the figures refers to the Blue Book. Now if any one will take the trouble to look at the blue books and at Mr Crook's budget speech he will find that instead of a probable deficit of over $300,000 for this year, there will be a surplus of $100,000. Last year there was a surplus of over $800,000. We have no objection to a party making the most of facts, but we submit that falsifying figures to gain a petty advantage for the passing moment is beneath the dignity of honorable journalism, and will in the end only injure the party resorting to such dishonorable means.

READ AND LEARN.—Lyon's "Polar and Tropical Worlds." This is the title of a book published in Guelph. The agent is now in town taking subscribers for the work, which is highly recommended by all our resident ministers, as well as by those of other places, who have examined the complete work. It is well got up. The letter press is really good, and the whole work is a credit to Mr. Lyons, the publisher. We have ordered a copy for ourselves, and can recommend it as entertaining and instructing. It answers in all respects the description given of it by the agent.

PERSONAL.—Mr. John Fowler is in Town with a view to get the County to submit a by-law granting a bonus to the Huron & Quebec Railway. We understand that he will also apply to the Town Council for the same purpose. He is sanguine that he will be able to commence the road as soon as the Town and County submit the by-laws.

TESTIMONIALS.

"The Polar and Tropical Worlds" is a valuable book. I have read a great deal of it, and can truly say I have enjoyed it much. It contains a great accumulation of highly interesting facts, most of them treated in a highly scientific manner. I like the illustrations; they are in general well drawn and executed in a very creditable manner. I have no doubt that those who possess themselves of the book will be much pleased with their acquisition. They will find that this book corresponds with the prospectus.

J. M. ROGERS,
Pastor of 1st Presbyterian Church, Peterborough.

Having carefully examined the work entitled, "The Polar and Tropical Worlds" I have much pleasure in subscribing to the testimony of the many eminent persons who have recommended its perusal as a book of useful information.

M. LYNCH,
Priest St. Peter's Church, Peterboro'.

I have looked through Dr. Hartwig's work on the "Polar and Tropical Worlds," and I consider it very useful and instructive. It is got up in accordance with the prospectus the agent showed me.

J. W. R. BECK,
Rector of Peterboro.

"Having examined the Canadian edition of Dr. Hartwig's work entitled 'The Polar and Tropical Worlds,' as prepared by J. W. Lyon of Guelph, with much attention as the time at my command would allow. I am happy to be able to say that the information it contains is full, varied and so far as I have been able to test it, accurate. Its reference to recent artic exploring expeditions give to it a special interest at present, for those who have not access to the same information in other treatises, it cannot fail to prove instructive in its perusal and valuable for future reference.

K. MACLENNAN,
Pastor of St. Andrew's Church, Peterborough.

Several other testimonials are unavoidably left over.—ED EX.

MARRIED.

RUTHERFORD—FRANKLAND—By the Rev. C. Fish, at the residence of the bride's Father, on Tuesday, June 16th, Mr. Thomas Rutherford, to Miss Elizabeth Frankland, both of the Town of Peterborough.

DIED.

DUNBAR—At the residence of her brother-in-law, Mr. J H Anson, Peterborough, on June 16th, Mary Ann Ritchie, aged 39.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have without the impartial judgment of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Gifts that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus is the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the smell of Oils which they may contain.

S. S. THOMAS, PHELPS, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—Eclectric—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervousness and Spinal Affection, Pains in the Back and Limbs, an night sweetties, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferine and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
TOROKTO, Ont.

Address T WILLIAM & Co., South Eight st. Philadelphia, Pa.

October 4, 1873 49-tf

As numerous cases of Poisoning have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold to the public without being properly labelled purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, are requested not to confound the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the phenomena of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest doses, is is of the greatest importance that this caution be heeded

By Chronic wasting disease is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of Sesh and Bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalizing blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

PAIN-KILLER!

THE GREAT

FAMILY MEDICINE OF THE AGE.

Sold EVERYWHERE

PRICE 25 CTS. PER BOTTLE.

PERRY DAVIS and SON,
SOLE PROPRIETORS.

To the Electors of the West Riding of the County of Peterborough.

GENTLEMEN,—Having received the unanimous nomination of a very large Reform Convention to be their Candidate to contest this Riding for the occupancy of the seat in the Ontario Legislature, recently vacated by the lamented decease of the late T. M. Fairbairn, I have accepted the nomination, and I now solicit your hearty support and co-operation in my canvass.

My political principles are known to most of you, as I have for many years taken a decided stand in the political struggles in this County.

A native of Ireland, I am a Canadian by adoption and long residence, and while glorying in my birthright as a British subject, and proud of our British connection, I yet give my first and best fealty to the beautiful land which has afforded to me so happy a home.

I approve of the present administration in Ontario, believing that it is striving to administer the affairs of the country conscientiously and judiciously. If elected, I will countenance every effort to secure economy, while at the same time I believe the country requires broad and liberal legislation to encourage the developement of its resources. Immigration is the great want of the country. I would therefore favor liberal dealing with the Emigrants, that many may be induced to seek our shores. I would also support such a land policy as will prevent the sons of the soil from going to the United States.

I am in favor of Party Government as the most effectual mode of checking corruption and extravagance. If elected, however, I shall only consider myself bound to vote for such measures as commend themselves to my own judgment, and such as I approve of, I shall support, by whomsoever introduced.

So far as I am able I will aid in the promotion of efforts to open up highways by land and water in our county, and particularly am I desirous of seeing the great country between Peterborough and the Ottawa opened up by railways, that its minerals and hardwoods, now valueless, may be brought into market, thus employing labor and giving scope to the enterprize of our people.

The challenge having been thrown down that the "Liberal" Conservatives of this Riding were entitled, and able to place their nominee in the Legislature. I have to ask the friends of the Government, at whose instance I accepted the onerous task of contesting this constituency to give me such backing as will determine whether the present Government are entitled to a continuance of the support which they now so largely enjoy.

I will take the earliest opportunity of meeting the Electors and more fully explaining my views on such questions as may suggest themselves for discussion.

I have the honor to be,
Gentlemen,
Your obedient servant,
D. W. DUMBLE.

I, the undersigned, do hereby certify the above to be a correct list of Convictions returned to me, by Her Majesty's Justice of the Peace for the County of Peterborough, from the Tenth day of March, 1874, to the Tenth day of June, 1874, both days inclusive.

Clerk of the Peace.

C. A. WELLER,
CLERK OF THE PEACE.

Choice Poetry.

PAY AS YOU GO.

A word of good counsel
We ne'er should forget,
Is that which forewarns us
To keep out of debt.
For half of Life's burdens
That men have endured
Who started by borrowing
To pay what's owed.

'Tis folly to listen
To those who assert
That a system of credit
Does good and no hurt.
For many have squandered
Their wages away,
And hearts have been wrecked by
A promise to pay.

A man to be honest,
As merchant or friend,
In order to have,
Must be willing
Is it love, or affection
Or faith they
Returns their full
And pay as

He loses the
That life
Who locks up
Of wealth
To reap a rich
Of pain and regret.
When Artful-ness, he discovers
He's almost
Nor
That
Of
Of
That are adding to-day!
For where is the comfort
Of tears that are shed
On the face of the dying?
The grave of the dead?

A word of good counsel
We ne'er should forget;
And to keep out of danger
Is to keep out of debt.
If peace and
And joy you would know,
Don't live upon credit,
But pay as you go!

AN OLD SINNER CAUGHT.

A MURDERER, CONVICT, AND THIEF.

About two weeks ago we gave the particulars of a daring theft, committed by a man from Buckingham, who gave his name as McGinnis. He drove a yoke of oxen to Ottawa and sold them to Mr. Slatterly, Ry Ward *Market*, for the small sum of $60. So soon as he got the money he mysteriously disappeared and gave place, as it were, to another man, the rightful owner of the oxen, who came to Ottawa in search of his property. He found them in Mr. Slatterly's possession, and as a difficulty immediately arose, the police authorities were applied to, for the wherewith to calm the troubled waters. To settle the matter satisfactorily, it was found important and necessary to bring Mr. McGinnis to the front. Dective Hamilton accordingly set to work to ferret him out, who he was, whither he had come from, or where he had gone, were dark points which required some *eclaircissement*. The detective set about his his business, and succeeded on Saturday last in tracing up his man. The old fellow immediately realized his situation but was not the least disconcerted, nor did he seem chagrined that the tables had turned on him. His chequered life. The detective and his prisoner, having got well on the way to Ottawa, he became quite communicative, and gave a history of his life in brief. His proper name, he said, was McGill; he sometimes went by the name of Mc-Neil, and when he disposed of the oxen he gave his name as McGinnis. He is a North of Ireland man, and as may be seen by the above *aliases*, he had a decided fondness for the prefix Mc., which he retained throughout. When quite young he enlisted for the navy, and went aboard an English man-of-war. Whilst in the "ould sod" he had become proficient in the pugilistic art, and could whip anything of his size or weight in the country. He began the business of murder at the early age of twenty-two, when as a down-checked boy he slew the pilot of the vessel and threw him overboard. He was tried for this initiatory offence, and sentenced to be hanged. A rope duly arranged was nicely fixed up to the yard of the ship, and he was on the point of being launched into eternity when his sentence was commuted. He took some hundred or more lashes with good grace, and all was over, so far as the murder of the poor pilot was concerned. Some years afterwards he got into a quarrel with a powerful Englishman, whom he beat in such a fearful manner that he died in a few days after the affray. It appears that a heavy blow which he struck the Englishman on the windpipe produced the shortness of breath which proved fatal. For this offence he was sentenced to death, but was let off with some minor punishment. Finally he left the navy and came to Canada, living in various places. He never married, and consequently was free to roam whither he pleased. About twenty-five years ago he went up the Gatineau, and in the course of his peregrinations met a Frenchman, with whom he succeeded in getting up a fight. He annihilated this unfortunate individual—"killed him outright. He was tried at Aylmer and sentenced to twenty years imprisonment. He moved off to Kingston Penetentiary, where he spent eighteen years in "durance vile." He got out again, and nothing more was heard of him until he forged another link for the chain of his life's history, viz., he stole those oxen. When arrested he had $25 of the money on his person. He had lent $13, and had paid some small debts with the remainder. He is now in gaol at Ottawa, and will be tried at the assizes this term.—*Free Press.*

The Canadian Commissioner sent to Washington for the re-opening of the Reciprocity Question has, we believe, reason for satisfaction with his experiences. It is reported, on what is considered fair authority, that the skeleton of a treaty has been agreed upon, the minor features or details to be filled in hereafter. The Americans were found in an agreeable mood, and in their treatment of Mr. Brown were the reverse of unfriendly. It is not presuming on credulity to say that his antecedents as a Canadian Statesman and contributor to the formation of public opinion, had something to do with this pleasant circumstance. As we have already informed the public, there is a cheering prospect of freer commercial relations between Canada and the States within no distant period. Hon. Mr. Brown will probably lay his report before the Governor in Council to-day. —Ottawa "Times."

To Remove Gilt Frames.—Take one ounce of cooking soda and beat it thoroughly with the whites of three eggs. Blow off the dust with a pair of bellows, or brush it out with a feather duster. Then dip a small brush into the mixture and rub it all over the gilding, into every tiny crevice, and it will render it fresh and bright.

NOTICE

THE Partnership heretofore existing between the undersigned, carrying on business under the name and style of E. Wilson & Co., is this day dissolved by mutual consent.

JOHN TAYLOR, EDWARD WILSON
April 1st, 1874

Peterboro, February 26, 1874. 9-tf

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a *life-giving principle*, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by *mineral poisons* or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the *Lungs*, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PROCLAMATION,

To the Inhabitants of Peterborough County

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of *adjusting* them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England,

Lecturer on the human eye and ear and their diseases, inventor and patentee of improvement in spectacles.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, *healthy*, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and *injurious to the hair*, the *Vigor* can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.

General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the diseases of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they are loosened, subdued and disappear.

Clergymen and Public Speakers find great protection from it.

No one who has once used it thought it necessary to keep it always followed and often wholly cured by it.

Every family physician is generally cured by taking the Cherry Pectoral in time, or else by the timely dose.

In fact, only let the virtues become known that we need not publish certificates, or do more than assure the public that its qualities are fully sustained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Dumb Ague, Bilious Fever, &c.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will restore sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.
Sole Agent for
PETERBORO'

PETERBORO', JUNE 25th 1874.

NOMINATION

The nomination of candidates for this Riding took place on Tuesday about one o'clock.

The Sheriff read the writ first and then said that Mr. Dumble had named Mr. Bleecker, barrister, his agent according to the statute, and Mr. Scott had named Mr. W. H. Moore, Barrister as his agent.

Mr. Scott was proposed by Mr. H. Collins, reeve of North Monaghan and seconded by Mr. John Bell of Smith. Both gentlemen made speeches, both declared they had been reformers, (this was not true in Mr. Bell's case) but had left them, and Mr. Collins made a personal attack on Mr. Dumble about offering him money to canvass for Mr. Gordon in 1867, which was not in place, personal abuse makes no converts to a party.

Mr. Dumble was nominated by Mr. Wm. Hall, and seconded by Mr. John Moloney.

Mr. A. Boultbee was proposed by Mr. W. H. [illegible], and after awaiting some time Mr. S. Campbell of South Monaghan nominated him.

Mr. J. D. Mearick of Toronto was then nominated by Mr. Richard Kerr of South Monaghan and seconded by Mr. John Walton.

Mr. J. Hawkins of Brantford was nominated by Mr. Carnegie but he got no seconder.

The Hon. C. Fraser was nominated by Mr. Bertram, and seconded by Mr. Cox.

A Poll was demanded on behalf of Mr. Dumble by Mr. Stratton, and on behalf of Mr Scott by Mr. Elliott.

They then adjourned to the Court Room for the speeches, two hours being allowed to each candidate and his friends to be used as they should settle among themselves.

Mr. Scott addressed the electors first, being first nominated. He commenced by defining his position, rendered necessary by the doubtful position assumed in his address. He attempted to prove there should be no parties in the Ontario House, but betrayed his incerity by declaiming against the government party, and used the garbled and jumbled figures of the *Mail* newspaper in attacking their financial management, proving conclusively that he is on one side, and would be if elected. It was a large County Council, but he must be simple indeed if he does not see parties even in county councils. The same is nothing, there are parties however. The charges alleged against the reform party (this no-party man) were that they have broken their professions. Official interference. They gave the workingmen a half holiday: they don't submit everything to Parliament. They sold a large tract of timber, which would increase in value if not sold. They formed a coalition government, and they are extravagant. This is the substance of all his harrangues wherever he addresses the Electors. His attempt to prove that they had broken their professions was very labored, and left no impression on the audience. His official interference was the old "Proton Outrage" that brought the night mare on him 3 years ago. And the half holiday affair was not well received by the people, as while he referred to it the people everywhere shouted McKeller had done right. The charge that they don't submit everything to Parliament was founded on this,—That they sold some timber limits on Lake Huron in the interim of two sessions of Parliament. The mismanagement of the Finances was *mismanaged* by Mr. Scott. His jumble of figures from the *Mail*, he attempted to explain but very evidently did not understand them himself. His friends were not in force in the hall, and he labored under the disadvantages of a bad cause, depression of spirits, mixed ideas and jambled figures, enough in themselves to discourage. Extravagance was shown to exsist in increase of salaries to officials—a larger than usual expenditure on colonization roads, increased grants for education, and some expenditures in the Central Prison, asylums and a normal school.

Mr. Dumble followed: first alluding to the sad event which rendered necessary the election and constitutionality of leaving no part of the Province unrepresented. He then referred to Mr. Collins' charge, stating that he did not remember the matter now, but he did not doubt that he had offered Mr Collins money to canvass, not to buy his vote, and if he did not get his influence, he had not reached his price. After this digression, he applied himself to the political questions, showing 'he' always [illegible] allied, were banded together on principles, and that truth had kept them together during twenty years of opposition. Their professions had been adhered to, and thus principles had prevailed. The 'Proton' affair had been in service before by Mr. Scott, and had done no good service in the contests, nor would it now. And he said their cry about a half holiday to the working men would be as unavailing. He showed that the sale of timber limits was merely a license to cut timber, and that the timber had to be paid for at so much per log. The land was not sold, the timber was not sold, and the bonus paid was merely for the right to go and cut, similar to paying for a license, and yet by the transaction the country had gained $600,000. Mr. Scott's no-party cry he showed was hollow and intended to deceive. He was still the champion of Sir John, the leading spirit of the Tory party here, and ready to defend the "Scandal," the paying of public money to get a criminal away from justice, or any other of their evil acts, and yet, forsooth, he wanted no party. But Mr. Scott was too transparent this time to deceive any one. Mr. Dumble then analysed Mr. Scott's figures, showed they were incorrect, and confused, and mingled for a purpose, and that the money spent by the Government was spent in the interest of the Province, in building roads in our back Counties to let settlers in, in aiding education and building asylums, central prisons, and aiding railways. These works the people wanted, and they were of infinite importance in developing our country and trade, and ensuring our progress. No less a sum than $3,115,000 had been given to the municipalities for schools, roads, and other improvements, and Smith, and Monaghan, and other Townships had got their share. Mr. Collins denied that Monaghan had got anything. Mr. Dumble said if they had not it was because their Reeve was not smart enough to apply in time for it. It was ready for them in the bank. He proceeded to show that the present Reform Government was an economical one, spending only what was necessary for the good of the country and for aiding in developing its resources. He asked the Electors to whom did Mr. Scott wish to hand over the affairs of the country—to Boultbee & Co., or to whom? to the immaculate quartette? He thought not, nor even to Mr. Scott. He defended Mr. McKellar, as a candid, fair, honorable statesman, who acted openly, not in a hole or corner way, and that he considered him worthy of his support while he continued to discharge his public business in the just and equitable manner he was now doing, and so long as they did so the Government would have his support if elected. He sat down amid rounds of applause.

The immaculate Boultbee followed, amid cries of "Put him down!" "Put him out!" "Put him out!" Quiet being restored, he spoke a few minutes.

Mr. L. Merrick, of Toronto followed. He referred to the issues before the electors as purely political, and in consequence, party issues. He knew that the friends of Mr. Scott wished to turn the people away from these issues, but they should not be allowed to do so, as there would exist parties, and if Mr. Scott should be elected he would be found among the Conservatives in the House. He showed that the present Government was honorably and honestly carrying out everything for the interest of the people, as the Reformers had always done, inaugurating good measures, such as pure Election Laws, Vote by Ballot, Reciprocity, Military School, and Colleges for the education of the people. The party cry about giving the poor man a half holiday he considered foolish and unmanly, as it is customary to give employees a day at elections. Mr. Richard Scott's timber limit sale was for the purpose of saving the timber from American plunderers, and did increase the Provincial finances. The government had to assume the blunders of the Sandfield government, and had to meet the deficiency in the Central Prison Works to a large amount, but they had watched over the works and saved the country from greater loss. The reform party were the party of justice to all, and honest in the discharge of the duties of office, and they had always dealt out even handed justice to the people irrespective of creed or nationality. He was several times applauded and is a good speaker.

Mr. Hawkins followed, declaring himself an old reformer, but now a supporter of the conservatives. He gave a rehearsal of the old charges,—tried to defend John A's taking Sir Hugh Allan's money to bribe the people as taking money for "legitimate expenses" (hisses) and charged Mr. Mowatt with want of candor, and the whole party as extravagant. He is a good speaker, a declaimer, but had a bad cause and made very little out of it.

The Hon. Mr. Fraser followed and in a neat speech exposed the hollowness of Mr. Hawkins' arguments, the want of candor and truth pervading his assertions and the reckless disregard of truth in his figures. Mr. Fraser showed that the issues were party issues. They were the issues of men in power and men out of power, and that Mr. Scott, if elected, would do his utmost to put the present reform government out of power, and that hence in spite of his logic it was a party issue. Boultbee, Scott & Coy. would say you fellows must leave. To this end they were misleading the electors, and they were jumbling the figures. He, Mr. F., knew well that neither Mr Scott nor any one of them understood the figures; *they* did not because they could not, and if they could not understand their own figures what could they know about finances—nothing. He gave as instances the sale of Dominion bonds put on the English market by Mr. Cartwright at 90, which Mr. Scott nor his friends did not understand. They only bear interest at 4 per cent, while all the bonds lately put in the market bear 6 per cent, and any man knew that a sale at 90 at 4 per cent was better than a sale at par bearing six per cent interest. He next defended Mr. Mowatt as a man of honor and truthfulness, and administered a severe rebuke for daring to charge him with want of candor,—Mr. Hawkins wincing under the hon. gentleman's withering rebuke.—He held up to ridicule the conservative idea of wrong, as they called taking Sir Hugh Allan's money a *political* wrong merely, but they knew nothing about *moral* wrong. If they had not been detected it would have been all right. The hon. gentlemen then seriatim answered every charge, showing them to be without a shadow of foundation; proved that the principles of the party had been sacredly kept, and that they submit every thing constitutionally to Parliament. He then proved that Mr. Scott nor Mr. Hawins knew nothing about the finances, and that their figures were lies written to deceive the people. The increase of salaries he said had been promised by Sandfield, and voted for by Mr. M. C. Cameron in every instance. The extravagance talked of was spending money to build roads for the people, and to educate them, and if this was extravagance he was to do so while in power, as it was the true policy of giving the people the use of their own money. He exposed Mr. Scott's figures in reference to cash on hand or in the banks. Mr. Scott said it should be taken from the surplus, and Mr. Fraser asked him where he would put it. Every book keeper places cash in hand as an asset, and Mr. Frazer thought the government should do so too. But where would Mr. Scott place it. He thought the best answer to this would be,—Mr. Scott knew nothing about financial accounts and would not know where to place it. Mr Fraser further exposed the comparison of cost of immigration in 1871 under Sandfield, and in 1873 under Mr. Mowatt. In 1871 no bonus was given by Sandfield; since that the government had determined to compete with the other countries which were giving free lands and bonuses, and in consequence, the Ontario Government are giving $6 per head to adult emigrants, while Sandfield gave nothing. How could a comparison be made? It was ridiculous to hear such clap-trap got up to mislead the people. He accounted for all the extravagance under the heads of Immigration, Education, Roads and the Central Prison, and said the government was determined to leave no taxes except for gratitude for liberal and wise government. Mr. Hawkins having introduced an appeal to his Roman Catholic friends to support Mr. Scott, and having denied that reformers were ever just to them, stating that the Separate School Bill was the work of Sir John A. McDonald. Mr. Fraser took the matter up and exposed Mr. Hawkins again as to his ignorance; that it was under John Sandfield in 1863 that the separate school bill was passed, and ended by showing that he, Mr. Fraser, was asking and would ask nothing less or more than justice for his co-religionists, and he thought he was as able to secure it as Mr. Hawkins. Owing to the lateness of the hour he sat down amid deafening cheers.

Three Cheers were given for the Queen, Three for the Ontario Government, and three for Mr. Dumble. Not even a whoop for Scott. More than three fourths of the electors present were in favor of Mr. Dumble.

The result of Mr. Fraser's able speech was very evident on Mr. Scott and his friends. They were gloomy and depressed during the evening, and a dark cloud evidently overshadowed them.

ONTARIO FINANCES.

The *Review* has a rehash of Mr. Scott's speech as far as relates to the Ontario finances, or perhaps the *Review* will claim Mr. Scott has taken a scrap out of its columns to make a speech out of. Both, however, are taken almost verbatim from the *Mail*, so that neither can claim the credit of the jumble, nor yet of understanding the figures. Few could give them credit for trying to understand them. The people, therefore, may justly be excused if they do not understand Mr. Scott's lame attempts to show an Ontario deficit at the end of the year.

The last public accounts rendered show the very contrary of what the champion of the Pacific Scandal would wish the Electors to believe.

The Invested Funds on 31st December, 1873, were: $2,747,805.01; cash on deposit, $1,646,739.61; debentures, $33,949; cash on hand, $277,948; municipal loan fund indebtedness, $1,682,764; making a total surplus of $5,809,195: Dominion securities, $250,000—total, $6,059,195. Against this: $1,100,572, railway subsidy; $300,000, municipalities; $3,115,736 M L F: total liabilities, $4,516,308; leaving a balance of surplus over liabilities of $1,642,887. And taking the very worst view of the finances, there is a surplus of over $1,500,000, round numbers.

The *Review* and Mr. Scott, following the *Mail*, then rush into figures about railway aid excess, of drainage debentures and drainage works, which is just so much nonsense. If the Government should lend $200,000 or $300,000 to municipalities, under the drainage act, they will have municipal debentures instead as securities, and interest on the sum lent. And as well might Mr. Scott and the *Review* tell the people that a man who lends $1000 on a mortgage on a first-class farm is ruining himself, as tell us that the Government is extravagant for lending money to drain certain lands, while they have the debentures of the whole township, to secure a few thousand dollars. Money lent on good security, or mortgage, is considered just the same as money in the bank or in Dominion Bonds.

Then we are told that money in the Bank must be taken from the estimated surplus—suppose it was all money instead of Dominion securities, then according to Mr. Scott and the *Review*, although we would have 31,600 000 in the bank we are in debt, rushing to ruin. Even a child will see through the bun combe. These are heaven born accountants who reckon cash in the bank as no asset.

Again we are told that we have to pay a higher rate of interest on the Municipal Loan Fund to the Municipalities than we receive. This is also incorrect, we find our securities to a large amount bearing 6 per cent., the balance 5 per cent., and we know that the Act provides that Municipalities shall receive 5 per cent on the unpaid portion of the Municipal Loan Fund. Now where is the loss? Receiving 6 per cent on Dominion securities and paying 5 per cent would appear to our simple minds to be a gain of ONE per cent instead of a loss, as the *Review* and Mr. Scott assert.

The truth is? The Sandfield Government feared to touch the Municipal Loan Fund Question. They were afraid of meddling with a question they were unable to settle, unless they paid away their then surplus. The Mowat Government at once grappled with the difficulty, settled it, and are now paying the people back $3,115,000 for roads, Bridges, Schools, Town Halls and Public improvements. The people are now getting the good of it, instead of lying on deposit or securities. This shall no more remain to blind the eyes of wise. In 1872 Mr. Read's friends in the East and Carnegie's in the West, "cried" elect these men or John Sandfield will give you nothing. The people said we [illegible] affairs in the hands of just men and abide results, and the consequence is, that government has given $1,900,000 to railways and have set apart $120,000 a year for 20 years to aid other necessary railways. They have given back to the people $3,115,000 out of the Municipal Loan Fund. These sums equal $7,000,000 in round numbers given to the people, and to develope our country and they have still a surplus of $1,600,000. The have increased the appertunities and facilities for educating the poor mans children, as well as his rich neighbor, they have spent large sums on the roads and bridges of our new Townships, and they are using the peoples money for the peoples advantage.

The truth is, Mr. Scott in his article in the *Review* has done his utmost to confuse the figures so that no one can understand his handiwork to detect his nonsense. Mr. Dumble has asked for them but in vain, but there is no use trying to mislead the electors, his sophistry will recoil on himself.

HURON & QUEBEC RAILWAY.

Mr. Fowler entertained the County and Town Council and a number of citizens on Friday evening in the Huffman House. The spread was got up in excellent style. About 50 to 60 partook thereof and appeared to enjoy themselves. The warden, Isaac Garbutt, Esq., presided, and after the usual loyal toasts, Mr. Fowler gave a lucid statement of what he had been doing in the matter of this important work, how he had obtained a very favorable charter and that all along the projected line the people were ready to aid it by large bonuses, amounting in several counties to over $7,000 per mile. He explained that the road was to be a parcel of the Ontario and Quebec line projected by Sir Hugh Allan, and that they would become one line about the eastern boundary of this county. It was his intention to make Peterboro the centre of the business management and workshops of the road, and hoped to be able soon to commence work. After a jocular allusion to the past incidents of his railway life, he concluded amid rounds of applause. Mr. Peter Pearce, reeve of Belmont and Mr. McCarthy, reeve of Ennismore spoke in favor of the projected line, Mr. Pearce stating that he believed it would be favorably received if the old bonus by-laws were settled and out of the way. Councillors Toole and Hamilton also spoke favorably of the proposed line, expressing a wish that it would be well supported and passed as a sound outlet for the people of the town and county. Mr. Chrysler, who was present, expressed himself in favor of the road and was ready to aid it, as the best paying line that had been brought before the people of Peterboro'. [illegible] pleasing [illegible]

Council Meeting.—Council met pursuant to adjournment. Members all present. The minutes of last meeting were read, confirmed and signed. A by-law fixing upon the number of persons to be credited to the Town of Peterborough for the purpose of determining the population allowance going to the said Town on account of that portion of the Township of Douro now included within the limits of the said Town of Peterborough, was read a first second and third time, and passed. John Casey on part of lot 15, concession 7, was exempted from performing Statute labor for the present year as it appears on authority that he is an old man and unable to work. The Reeve and Duncan Leahy were authorized to employ a surveyor for the purpose of locating the Dummer road, with a view to removing the fences and all other obstructions thereof, and to employ any extra assistance that may be required in connection therewith, also that the Treasurer do pay to their order what cost may be necessary for employing. Moved by Michael Leahy seconded by James Leahy,—That a Resolution passed in Council May 18th, 1874, appropriating $1000 of the Municipal Loan Fund for the purpose of building and improving school houses be rescinded also the Resolution passed on the same date appropriating the sum of $4.252 to be expended on roads and bridges of the Municipality be rescinded. The Reeve was authorized to procure one dozen copies of an act relating to Tavern and Shop Licenses, pass in 1874, and the Treasurer was directed to pay the cost of same. On motion of Mr. Foley, seconded by M. Leahy, a Resolution passed in Council on March 14th, 1874 authorizing the Clerk to insert on the Collector's Roll of 1873 the various remittances allowed to the Collector on the Roll of said year, under appropriate headings, be amended, by adding after the word headings, that said list shall be a sufficient voucher for the Treasurer to produce to the auditors, and for all other purposes, and that the Clerk do add this amendment to said resolution on the Collector's Roll of said year. The Reeve issued his order in favor of Daniel Moher, Collector, for the sum of $6 for extra services in connection with the duties of his office for the year 1873. An application from John McAuliff with regard to a fence in front of lot No. 1, in the first lot, concession 12 on the River Road side was laid over to next meeting of Council. Edward Foley was appointed a Commissioner to expend the sum of $25 on the concession line between the 5th and 6th concessions, opposite lot 18 The Treasurer was authorized to pay said amount to his order when the work is performed. The Collector was empowdered to collect the taxes charged on the Collector's Roll of 1873 against the following parties as this council is satisfied that there is sufficient property to destrain for said taxes, viz:—John Johnston pt of lot 4, con 12; William Torpy, pt of lot 6, con 3; Michael Moloney, pt of lot 12, con 1; V. Clementi, lot 2 w Church st., in the Village of Lakefield. On motion of Dennis Leahy, seconded by James Leahy, it was resolved, that whereas this Council has been apprised by the Provincial Auditor, that the amount due this Municipality from the Municipal Loan Fund is $5,342, and is payable to this Municipality under the Municipal Loan Fund Resolutions of last Session. And whereas this Council has agreed to credit the Town of Peterboro' with the sum of $30, being the amount that that portion of the inhabitants included in the [illegible] of the Town limits of said town in 1877, would have been entitled to under the Provisions of the Act, thus reducing the sum to $5,252, it was therefore resolved that the said sum of $5,252 be expended in the building or improving of schools, opening up and gravelling roads within the said Township of Douro, and that $90 out of said amount be awarded to Ward No. 2, and $200 to Ward No. 1, the balance to be equally divided between Wards Nos. 1, 2, 3, 4 and 5; and that this Council doth recommend that the Councillors representing each of said old Wards to call a meeting of the ratepayers in each of such Wards and endeavor to elict the general opinion as to how the same shall be expended in each Ward, said meetings to be held previous to June 13th, 1874, so that the decision of such meetings may be communicated to this Council at its next sitting, and that this Council do then pass a By-law stating how much money shall be appropriated, and transmit the same to the Lieutenant Governor in Council for his approval, and obtain the Certificate of the Commissioner of Public Works as provided for by sec. 14, 36 Vic. Chap. 47. The foregoing resolution was carried on the following division:—Yeas, M. Leahy, D. Leahy, and Jas. Leahy; Nays, E. Foley. The Reeve ordered the payment of $2 to D. Leahy, said amount being arrears of Statute Labor due to Road Division No. 22. The Council tendered a vote of thanks to D. Moher, Collector, for the very able and efficient manner in which he performed the duties of his office for the current year, he collected the whole amount on Roll excepting a small trifle. Council adjourned to the 13th day of June next, and a former resolution of Council adjourning to May 30th was rescinded.—Com.

TESTIMONIALS.

I have looked over the work published by J. W. Lyons, of Guelph, Ont., entitled the "Polar and Tropical World's" and I think highly of its superior merits. Assuming on the authority of its contributors that its facts are unquestionable, it is valuable both to the student and ordinary reader, and to the latter it would beguile him through many a pleasant hour. More solely might such a work be placed in the hands of children than historical works, which are not more entertaining, while they instil the mind for matured glorious realities.

CHARLES CARROLL,
Pastor Baptist Church, Peterborough.

Having read portions of "The Tropical Worlds," by Dr. Hartwig, I have much pleasure in recommending the work as one of great value and interest. The amount of useful information which it contains is very great, and the style such as to make it easily understood by the majority of readers. A lady of considerable culture who has read an immense number of books in nearly every department of English Literature declares this work to be one of the most charming books she has had the pleasure of reading for many years. Dr. Hartwig's book might be read with profit by many young persons whose tastes would thus be raised above the level of "the light literature" which is so common yet so hostile to pure intellectuality and vigorous moral growth.

JAMES B. DIXON, M.A.,
Principal of Collegiate Institute, Peterboro'.

I have great pleasure in stating that [illegible] many to that of [illegible] entitled "The Polar and Tropical Worlds," by J. W. Lyons, of Guelph. The [illegible] contains much interesting information to read and entertaining facts. It should be in every family [illegible]

W. H. [illegible]

Court of Revision.—Court of Revision met on Tuesday, 26th May. All the the Members present. The Court made the following alterations in Assessment Roll. Viz:—John Dinsdale's Assessment reduced $100 on Real Property; R. W Standley's Asst. reduced $525 on Real Property; Levi Walker's Asst. reduced $30 on Real Property; Richard Hope's Asst. reduced $200 on Real Property. Alexander Campbell's Assessment of Personal Property struck of Roll. The assessment of John Taylor changed to John Taylor, Jr. The names of Jas. McEwen and Wm. McEwen were placed on Roll as proprietors of ½ of lot 9 in 8th con. The name of John Mather was placed on Roll as proprietor of w½ of lot 9 in 9th con. George McCannon assessed for lot 13 in 16th con., instead of Thos. Sems whose name was erased. George Nelson complained of over assessment, assessment confirmed. The Roll was finally passed and the Clerk was directed to certify the same. Council meeting. Pursuant to adjournment the Municipal Council met 26th May. Minutes of last meeting read and confirmed. The Treasurer was directed to pay Mr. Clementi, Surveyor, the amount of his account $30, and John Barbidye for digging for foundation of Town Hall, $1 00. William McAllister and David Conroy were allowed to perform their Statute Labor in Road Division No. 67 instead of No. 34. The Reeve was authorized to employ an Architect to advise in matters connected with building Town Hall. The Clerk was directed to advertise for tenders for building Town Hall, the building to be completed by 1st September, 1875. After a long time spent in desiding where to lay out money in improving, the Council adjourned to 1st of July next.—Com.

The Press as well as School Inspectors is lending itself to foist Dr. Sangster on the Teachers of Ontario as their representative in the Council of Public Instructions. Surely the conductors of the Canadian Press are not so lost to all sense of immorality as to urge the claims of a man whose actions have been the subject of public criticism so long. That he has been a good teacher his pupils assert, but should his ability condone his offences? That he is an author is a matter for grave doubts in the minds of many, while all admit that he has compiled several works on education, that they have been superceded by other books is a strong argument that they were of transient merit. No Trustee in Ontario would engage a teacher of the loose views of morality entertained by the Doctor and his advocates, and if his course of conduct in a teacher, would deserve condemnation and so ensure his rejection by Trustees. what claim can Doctor Sangster have to be elected? Treat him as a teacher should be in like circumstances and reject him

---

Cross Cases.—Mr. Romaine, of the *Review*, and Mr. John Fowler have brought their little matters to a crisis, and in final settlement have served each other with writs for libel. Mr. Romaine places his damages at $2,000; Mr. Fowler fixes his at $10,000. Dennistoun Bros. & Hall are attorneys for Mr. Romaine Mr. Armour, of Cobourg, attorney for Mr. Fowler. They both appear to have cause for action, but it remains to be seen whether a jury will think there are sufficient ground and valid reasons to award damages, while the legal advisors will watch their clients funds with unabated interest.

A Brantford Importation.—Mr Scott must be driven to his wits ends when forced to import a Mr. Hawkins, the defeated of Brantford to assist him here. The case is becoming desperate, and desperate diseases require strong medicines. It is true Mr. Hawkins is a good speaker, or declaimer, but he is nowhere compared with the Hon. Mr Fraser. We have not a word to say against Mr. Hawkins; he is a respectable Roman Catholic, and evidently has read the *Mail* closely. He was attentively listened to at the nomination by both parties, but he might as well have staid at home, except that he has seen Peterborough. His conservative friends used him badly at the nomination, they could'nt find a seconder for him. Really are the conservatives afraid or ashamed to second their man? If the reformers bring in a Catholic they don't fight shy of him in that way. Mr. Hawkins has good cause to disclaim connection with a party who are afraid to have the name of seconding him because of his religion.

The Scales Turned.—On Saturday evening last, the proprietor of the *Review*, to our astonishment, and Mr. J. F. Dennistoun, rode in a carriage from the station to the Huffman House along with a Mr. Hawkins, from Brantford—a Catholic! We did not learn whether or not they were a Catholic's horses that drew the carriage: but the whole affair was ominous enough. We might have paid no attention to the matter, but that some three years ago the editor of the Examiner rode from Caisse's to the station (just *half* the distance Mr. Romaine did on Saturday evening) with a Roman Catholic, and the *Review* howled about it for two years. Is it not strange that he would now be guilty of going twice as far in the same kind of company? What can be up? Is our contemporary going over to that faith, politically or otherwise? It is true this is a small matter, but it must be as great a crime (if a crime it be) in Mr. Romaine as it was in Mr. Stratton. Such clap-trap won't even catch Orangemen.

Y. M. C. A.—The Executive Committee of the Young Men's Christian Association of this town met on Monday evening last at the residence of Sheriff Hall, to appoint officers and organize the Association. The following members were present: Revs. J. M. Roger, K. Maclennan, C. Carroll, C. Fish, and S. P. Rose, Col. Stace, Col. Haultain, Messrs. J. M. Smith, B. R. Matthews, H Dobson, T. Donnelly, Jas. Edwards, Robert Weir, J. B. Dixon, W. W. Johnston, T. Barnardt, J. A. Hall, and J. D. Collins. The Room Committee reported that the new building on George Street, leased from Mr. Bradburn for the use of the Association, would soon be ready for occupation; also, that the necessary furniture had been procured. The following officers were appointed: President, J. Manning Smith; Vice-Presidents, J. A. Hall and T. [illegible]; Secretary, Col. [illegible]; Treasurer, C. [illegible]; Librarian, Col. [illegible]; Committee, W. [illegible], S. Rutherford, T. Donnelly, [illegible] Mason, Wm. [illegible], and A. Cox; and [illegible]

LOST.

A SMALL PARCEL CONTAINING

3 Ladies' Silk Scarfs,

The finder will be rewarded by leaving it at the Huffman House.

June 24, 1874.

The Examiner.

DOMINION DAY.—People of Peterboro, remember DOLAN is still doing a Large Business in Hartys Old Stand. GIVE HIM A CALL for YOUR DRY GOODS. DOLAN'S ONE PRICE STORE.

EDITORIAL ITEMS.

Remember Mr. Dumble's meeting this evening, in Hill's Rink. Hon. M. Fraser will take part in the meeting.

ACCIDENT.—while playing around a sawing machine on Tuesday, a little girl 7 years old, daughter of Mr. Fitzgibbons, of Ashburnham, got her foot fast in some of the wheels, and had it so bruised, that it had to be taken off above the ankle.

CAMP.—The volunteers left for camp, by the steamer "Whistle-wing," on Monday. They go to camp in the vicinity of Cobourg this year.

HILLSBURGH.—The Governor's proclamation has been published setting apart this provisional county, and S. S. Poor, Esq., has received the appointment of Stipendiary Magistrate for it. The conservatives indignant about the appointment.

CROPS.—Look well everywhere since the late refreshing rains.

THE Orangemen of this county will visit Lindsay this year on the approaching 12th of July.

MISSING.—Mr. Daniel Crow, printer and publisher of the Northern *Advocate*, left his place of business, Barrie, on the 11th instant for Toronto, and has not been heard of since. His friends are anxious about him; he is about 45 years of age.

PRESS ASSOCIATION.—The excursion will commence on July 21st. and be by steamer to Thunder Bay, Lake Superior. The Northern Railway has promised passes over the road.

ON Tuesday the Polling or Voting takes place. Remember that good government requires to be supported. Go to the polls early and vote for Mr. Dumble the Reform Candidate.

DESERTED.—The Liberal Conservatives held two important meetings last week; one at Garbutt's or Ray's school house. *No one* present,—Mr. Boultbee was at the door. Another at the North Monaghan Town Hall. One elector present when Mr. Boultbee bolted for the town. The man is so despised in the riding that no one will listen to him, or go where he is expected to be. He managed to speak at Bridgenorth, when his style and disregard of truth and facts turned even old consistent conservatives against him—and against that party. He is doing good service to Mr. Dumble.

ONTARIO AND QUEBEC RAILWAY.—The Newmarket *Era* is pleased to learn that this enterprise is regarded with general favor all along the proposed route.

THE Newmarket *Era* has just entered on its 21st year of publication.

THE Reform Party in North York are organising already for the campaign next year. They are determined not to be caught napping next March. No traitors need than apply.

STRAWBERRY Festival *To-night* in the Wesleyan Methodist school room. There will also be a carriage and some ladies work for sale. The carriage is the gift of Mr. John Motheral to the Ladies' Aid Fund.

VOTE early for Mr. Dumble on Tuesday. Ten minutes in the morning will settle the whole matter.

COUNTY COUNCIL.—The Council adjourned on Saturday. Owing to a press of matter this week, we must defer the continuation of the report of proceedings till next week.

COUNTIES OF NORTHUMBERLAND AND DURHAM.—These Counties have submitted a By-law to grant $150,000 to the Huron and Quebec Railway, by the Townships of Clark, Darlington and Cavan.

DOMINION DAY.—The steamer "Whistle-wing" will run to the Volunteer Camp on the first of July, and as the fare for the round trip is very reasonable, doubtless a great many will embrace this opportunity of peeping in upon the red coats in their mimic canvas city. We understand that pic-nic parties will be landed at any point on the journey, which convenient arrangement will certainly enhance the popularity of the excursion.

VERACITY.—A question of personal veracity is not easily settled unless there is evidence. Mr. Collins and Mr. Dumble had a dispute on Tuesday. Mr. Dumble said the Townships of Monaghan and Smith had got their share of the Municipal Loan Fund Mr. Collins denied it. It stands thus: The money is in the bank for those Townships, as soon as they pass their By-laws appropriating as provided for in the Act of Parliament. It is therefore virtually paid, but as the Treasurer of Monaghan has not the proper cheque for it he cannot draw it. Let him get a proper cheque and he can have the money. Surely this is satisfactory.

GREAT REDUCTION.—Messrs. Lemay & Cadotte have reduced their prices, and are now offering goods cheap. Read their advertisement. Call and examine their goods and prices.

CHANGE OF TIME.—The Midland Railway Time Table was altered last Monday. Trains now leave Peterboro at 5.35 a. m. and 4.15 p. m., and arrive at 12.45 p. m. and 7 35 p. m.

UNPLEASANT RUMOR, (facts they say this time) are afloat about A. Boultbee, who is now stumping this Riding for Mr. Scott. They are so unpleasant too that they will not bear repetition. Under the circumstances, and until the matter is cleared up he should desist from appearing at public meetings.

REQUISITION

TO D. W. DUMBLE, ESQ.

SIR:—We the undersigned, Electors of the West Riding of the County of Peterborough, recognising your services to the Reform Party, and having confidence in your political integrity and consistency, request that you permit yourself to become a Candidate to represent this Riding in the Ontario Legislature. If you do, we pledge ourselves to vote for you, and to render you our heartiest support to ensure your election.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtues of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcbol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Figure, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. *It moderates all excess and removes all obstructions, and a speedy cure may be relied on.*

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell *McNeil & Co. C. Britton, Lindsay*, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferior and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

This simple mental acquirement all can possess, free, by mail, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A queer exciting book. 100,000 sold. Address T WILLIAMS & Co., South Eight st. Philadelphia, Pa.,

October 4, 1873 49-tf

As numerous cases of Poisoning have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold to the public without being properly labelled purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, are requested not to confound the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the phenomena of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest doses, it is of the greatest importance that this caution be heeded

BY Chronic wasting diseases is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism, Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of flesh and bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalising blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

PAIN-KILLER!

THE GREAT

FAMILY MEDICINE OF THE AGE.

Taken internally it cures Dysentery, Cholera, Diarrhœa, Cramp, Pain in the Stomach, Bowel Complaints, Painters' Colic, Liver Complaint, Dyspepsia and Indigestion, Sore Throat, Sudden Colds, Coughs, &c.

Used externally, it cures Boils, Felons, Cuts Bruises, Burns and Scalds, Old Sores, Sprains Swelling of Joints, Toothache, Pain in the Face, Neuralgia, Rheumatism, Frosted Feet, &c., &c.

Sold EVERYWHERE:

PRICE 25 CTS. PER BOTTLE

PERRY DAVIS and SON,
SOLE PROPRIETORS.

To the Electors of the West Riding of the County of Peterborough.

GENTLEMEN,—

Having received the unanimous nomination of a very large Reform Convention to be their Candidate to contest this Riding for the occupancy of the seat in the Ontario Legislature, recently created by the lamented decease of the late T. M. Fairbairn, I have accepted the nomination, and I now solicit your hearty support and co-operation in my chances.

My political principles are known to most of you, as I have for many years taken a decided stand in the political struggles in this County.

A native of Ireland, I am a Canadian by adoption and long residence, and while glorying in my birthright as a British subject, and proud of our British connection, I yet give my first and best fealty to the beautiful land which has afforded to me so happy a home.

I approve of the present administration in Ontario, believing that it is striving to administer the affairs of the country conscientiously and judiciously. If elected, I will countenance every effort to secure economy, while at the same time I believe the country requires broad and liberal legislation to encourage the development of its resources. Immigration is the great want of the country. I would therefore favor liberal dealing with the Emigrants, that many may be induced to seek our shores. I would also support such a land policy as will prevent the sons of the soil from going to the United States.

I am in favor of Party Government as the most effectual mode of checking corruption and extravagance. If elected, however, I shall only consider myself bound to vote for such measures as commend themselves to my own judgment, and such as I approve of, I shall support, by whomsoever introduced.

So far as I am able I will aid in the promotion of efforts to open up highways by land and water in our county, and particularly am I desirous of seeing the great country between Peterborough and the Ottawa opened up by railways, that its minerals and hardwoods, now valueless, may be brought into market, thus employing labor and giving scope to the enterprize of our people.

The challenge having been thrown down that the "Liberal" Conservatives of this Riding were entitled, and able to place their nominee in the Legislature I have to ask the friends of the Government, at whose instance I accepted the onerous task of contesting this constituency to give me such backing as will determine whether the present Government are entitled to a continuance of the support which they now so largely enjoy.

I will take the earliest opportunity of meeting the Electors and more fully explaining my views on such questions as may suggest themselves for discussion.

I have the honor to be,
Gentlemen,
Your obedient servant,
D. W. DUMBLE.

1-1yr.

SEVERAL EXCELLENT FARMS FOR SALE.

PARCEL 1.

The present homestead of the undersigned in the

TOWNSHIP OF HARVEY,

consisting of Lots 10 and 11 in the 11 concession, 455 acres. There are a comfortable Log Dwelling House, a Frame Barn 60 x 40, and other out buildings on it. The farm is one of the best for Dairy purposes. It is well watered; the soil is sandy loam, and there are 20 acres in Fall Wheat looking well, there is an orchard of 300 to 40 trees commencing to bear.

PARCEL 2.

No 13, 14, and 15 in the same concession, containing 455 acres. On these lots there is a large Frame barn 60 x 30. 30 acres are cleared and in cultivation. The soil is sandy loam, and the uncleared portion is well wooded with hard wood, pine, and cedar. A steamboat passes the property daily for Bobcaygeon and Lock 1.

PARCEL 3.

The West half of Lot 12 in 10th concession, and west half of East half of 12 in the same concession, containing 220 acres. This parcel is all well timbered with Hard Wood and Cedar. The soil is good and well watered.

Also an interest in Lot 8 in the 10th concession of Harvey.

Terms Easy and Title Indisputable.

Full particulars will be given on application to Dumbleton, Bros. & Hall, Barristers, Peterboro, or to to the proprietor on the premises, addressed Hall-bridge P. O.

Harvey, April 12, 1874. WM. WOOD. 16-tf

CHANGE OF BUSINESS.

Having disposed of my Tin and Hardware Business to Mr. HENRY BEST, I would take this opportunity of thanking my old customers for the liberal patronage extended to me during the last twenty-five years. Mr. Best, who recently carried on an extensive Tin and Hardware business in Lindsay, and who thoroughly understands the trade succeeds me. I can confidently recommend him to my former patrons.

VINEGAR BITTERS

PURELY VEGETABLE TRUE TONIC

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, but was every before so universally adopted into use in every country, as these Pills all classes, as their mild but efficient properties [illegible] Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault of [illegible] its composition. We have thousands upon thousands of certificates of most remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither mineral nor poisonous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action, remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting such derangements in the first stages of disease, prevent fatal results. Sugar-coated, they are easy to take, mild in operation, and are the best purgative medicine known, and the cheapest pill you can buy, for the following reasons, which mean you get the best value for your money:

For Dyspepsia, or Indigestion, Liver Complaint, Dysentery, Headache, Rheumatism, Gout, Neuralgia, Piles, they are a specific remedy.

For Costiveness, Colic, Flatulency, Loss of Appetite, Nausea, Foul Breath, Fever, Ague, Inflammation, they should be taken.

For Worms of all kinds, Worm Fever, Worm Colic, Canker, Croup, Whooping Cough, Bronchitis, Asthma, Nervousness, Nervous Debility, Sick Headache, Female Complaints, Erysipelas, Scrofula, Ulcers, Blotches, Boils, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, Syphilis or Venereal Diseases, they should be promptly used.

For Fever and Ague, Chills and Fever, Intermittent Fever, Periodical Fever, Remittent Fever, Bilious Fever, Typhoid Fever, Scarlet Fever, Yellow Fever, Malarial Fever, Congestive Fever, Typhus Fever, Spotted Fever, Pernicious Fever, Puerperal Fever, Milk Fever, Infantile Fever, Inflammatory Fever, Brain Fever, Mucous Fever, Gastric Fever, Nervous Fever, Low Fever, Eruptive Fever, Fever and Sores, Fever and Ulcers, Fever and Blotches, Fever and Boils, Fever and Tumors, Fever and Pimples, Fever and Eruptions, Fever and Salt Rheum, Fever and Scald Head, Fever and Ringworm, Fever and Sore Eyes, Fever and Sore Ears, Fever and Syphilis, Fever and Venereal Diseases, they should be taken.

For Female Complaints, Irregularities, Suppressions, Obstructions, Prolapsus, Leucorrhœa, Ulceration of the Womb, Hysteria, Sterility, Barrenness, Incontinence, Chlorosis, Green Sickness, Falling of the Womb, Bearing Down Pains, Dropsy, Dropsy of the Heart, Dropsy of the Brain, Dropsy of the Chest, Dropsy of the Abdomen, Dropsy of the Ovaries, Dropsy of the Bladder, Dropsy of the Kidneys, Dropsy of the Limbs, Dropsy of the Scrotum, Dropsy of the Joints, Dropsy of the Extremities, Dropsy of the Feet, Dropsy of the Ankles, Dropsy of the Hands, Dropsy of the Arms, Dropsy of the Neck, Dropsy of the Face, Dropsy of the Head, Dropsy of the Throat, Dropsy of the Lungs, Dropsy of the Stomach, Dropsy of the Bowels, Dropsy of the Liver, Dropsy of the Spleen, Dropsy of the Pancreas, Dropsy of the Kidneys, Dropsy of the Bladder, Dropsy of the Womb, Dropsy of the Ovaries

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranted against injury to the Eye Sight from improper selections.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—*solely our own.*

5th. *Because* the never tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

WM. H. TAYLOR, M. D.

Sole Agent for

PETERBORO'

Corner of George and Hunter Streets.

PETERBORO', JULY 2nd, 1874.

THE CONTEST.

CONSERVATIVE ROWDYISM,

The result of the contest in this Riding has been a defeat by five. This was caused by over-confidence, and a little apathy on account of the shortness of the time to the general election, which may come off in about nine months. The contest was not entered into with that spirit that should have actuated every man to maintain the position secured in the last election. Many of Mr. Dumble's friends felt the election safe, and dallying on their oars, doing almost nothing, some of them not coming to the polls until it was too late to retrieve their mistaken confidence. The town did not come up to the expectations of his friends as will be seen by the figures given below. The first and second Wards were so well manipulated by Mr. Scott and his friends that the majorities for him were got here.

Ever since the last contest Mr. Scott has been at work, doing all in his power to gain the confidence of the electors. He had also a number of understrappers at work, who were assidous in their labors for him, and have succeeded—not in winning votes so much as in cajoling the Reformers into indifference.

The good old Reform Township of Smith did nobly again, even better than was anticipated by the more careful calculators of the party. The Monaghans did about as expected, South Monaghan doing better, and North Monaghan a few worse than had been reckoned on.

ROWDYISM.

Enniesmore was the scene of one of those disgraceful acts for which some Conservatives in West Peterboro have become notorious.

THE POLL BROKEN UP.

About 11:30 a.m. a few "roughs," no doubt instigated by Boultbee, Smith & Co., who were there the night previous, at a signal, jumped through the windows of the polling place, followed by others of the same class, and breaking the table, chairs, etc., threw out the poll book, put the Returning officer from his place, and broke up the poll. There is no doubt as to this having been planned before hand by the same party who planned the Clarkston fraud two years ago, and who, by means of whisky and bad advice, have hitherto brought a bad name on the Township of Enniesmore. This time we hope that the instigators and advisors of this outrage will receive the reward of their wanton proceedings, and get a few years in the Penetentiary.

RUFFIANISM.

After Mr. Dumble's friends found the poll broken up and closed, they returned to town, when another act of the most wanton ruffianism was perpetrated on the person of J. D. Merrick, Esq., who had come to assist Mr. Dumble. As he was entering the hall of the Hoffman House, from the dining room, the celebrated Bill Montgomery attacked him without provocation, or even speaking to him, and succeeded, in his dastardly style, in leaving several bruises on his face, nose and temple, and a cut in his head. It is a matter for thankfulness that the gentleman got off with the few scars, he did as others who would then supply another in the last of those, on whose class of whose they might be. In addition to this assumption, the Tory journal also publicly avows that Mr. Dumble's party proved itself the honest look, we may say, the honesty of the intentions of too many of their own supporters, by swearing electors who were against them. This, however, will produce its fruit in due season.

Notwithstanding the cowardly and dastardly rowdyism in Enniesmore, where were Boultbee and Smith, and their more than superhuman efforts in town, they have only succeeded for a moment, while their disregard of law and justice will not screen them from the ignominy that always attaches itself to rowdyism. The leaders of the Conservative party of this Riding have earned for themselves a notoriety not surpassed by the party in Lanark at the general elections for 1872.

The figures, as reported at the close of the polls, stood as follows:

	DUMBLE.	SCOTT.
Ward No. 1—W. A. Scott's Office	20	65
——— M. Shaw's Office,	13	61
Ward No. 2—Council Chamber	55	93
——— Skating Rink	20	25
——— T. Bawlf's Shop	31	27
Ward No. 3—G. Wheeler's Shop	32	41
——— J. Irwin's Shop	27	46
——— D. Mashall's Shop	25	28
Ward No. 4—W Lee's Shop	60	41
Smith—Town Hall, Fridgmouth	75	20
——— Ray's School House	60	25
——— Madill's School House	70	45
Enniesmore—P. Galvin's House	53	13
North Monaghan—Town Hall	60	62
South Monaghan—Centreville	34	43
——— Bobliboro	35	39
	676	684

Majority for Scott 6.

THE VOTE ANNALYZED.

Town	323	413
Smith	314	109
Enniesmore	23	18
North Monaghan	49	62
South Monaghan	60	82
Total	676	684

THE POLL STOOD IN JANUARY.

	BERTRAM	SCOTT
Ward No. 1—Scott's Office	36	51
——— Shaw's Office	21	45
Ward No. 2—Bawlf's	40	40
——— Hall's	50	23
——— Council Chamber	58	96
Ward No. 3—Wheeler's	53	46
——— Irwin's	43	52
——— Marshall's	57	39
Ward No. 4—Lee's	77	43
Smith—Bridgenorth	94	48
——— Ray's	78	41
——— Madill's	84	56
Enniesmore	57	73
North Monaghan	65	64
South Monaghan	86	102
Total in January	892	891
Total now	676	684

This shows that Mr. Scott has not now got anything like his last vote, and shows further that he has lost in every Township since January last. The gain being secured in the Town, not by getting Reform votes, but the reform vote did not come out as it should have done. Mr. Scott's vote in town is twenty less than in January last.

We also see by the comparison that while Mr. Scott has not polled within 117 votes of what he did in January last, 214 Reform votes in Town must have been careless, and thus allowed the enemy to steal a march on them. Notwithstanding all this apathy, if the rowdies had allowed the Enniesmore poll to remain open Mr. Dumble would have been elected.

Is this Riding Reform or Conservative? No other man in the conservative party can poll as large a vote as Mr. Scott, and yet he has obtained the narrow majority of 5, while in Town two to one reform votes are unpolled, in Smith there are unpolled thirty reform votes to twenty conservative. Or taking the worst view of the situation we have in the Riding of what may be called apathetics on both sides, Reform 250; Conservatives 120, or enough votes who when aroused to a sense of the result of their carelessness can wrest the vantage now gained by rowdyism in Enniesmore and through indifference in the Town.

The next contest in a few days will tell a different tale.

FIRE INQUEST.

Dr. Kincaid held an inquest on the late fire in Dennistoun Bros. & Hall's Office, on the 11th June.

Mr. Hazlitt was sworn, but could only testify to being there helping to get in to extinguish the fire.

Mr. Dumble was then sworn. He was there at an early hour, and aided in saving the books in part; he was there when Maurice Dunsford entered in haste. Neither of those gentlemen saw any traces of coal oil

Mr. T. B. Clementi was also sworn, but could testify to little of importance as to the origin of the fire. All these witnesses noticed that the books were in a pile when found in the fire.

Mr. J. I. Davidson was there after the fire was discovered, and was of the opinion that artificial means were used to burn the books.

Dr. R. P. Boucher testified to being there and seeing Maurice Dunsford enter in a state of excitement. Witness did not think the books could be so much burned without the aid of *some* combustible means, but he did not detect any odor. Mr. Geo. E. Shaw was sworn, and testified to being in the office after the fire was discovered, and saw Mr. Dennistoun pick up a coal oil can from the shelf near the place where the books were, and also some matches were found on the counter; heard Mr. Dennistoun remark that this looked liked foul play; saw the book and was of the opinion that they could not have been burned as they were, without the aid of some combustible.

Mr. Wm. Lundy was sworn, but could give no evidence as to the origin of the fire.

Mr. R. W. Errett was sworn, and gave it as his opinion that the fire in question was the work of an incendiary, as it would not be possible to burn like as he seen without the aid of combustible material; coal oil might be used without leaving traces.

The evidence of Mr J. Doanistoun is most minute in detail, and is as follows:—

J. F. Dennistoun being sworn, said: I am the senior partner in the firm of Dennistoun Bros. & Hall. I was first made aware of the fire in our office by my mother-in-law, who awoke me, saying that a man had galloped up from town to say that my office was on fire. I went to my office as soon as possible, and commenced to examine the position of affairs. On examination I found that the fire had been confined to a small portion of the counter in the main office, and had been extinguished before I arrived. The portion burned was about five feet long. The counter was divided into d compartments, each separated by a desk[illegible] Nine Desk of these compartments was entirely consumed except the top, of which only a small portion was burned through. A small pool was standing on the stone paper [illegible] was standing against the outside of the counter, and the side of this case next the counter and its top were totally consumed, [illegible] with its contents. The [illegible] of glass laid on counter, with [illegible] lost under the burned part of the counter. The part of the counter [illegible] sustained books [illegible] remains of which were found removed by Mr. Hall, of the firm, when I arrived. The books kept in the compartment [illegible] were [illegible] in order, except the [illegible] desk book, which was [illegible] and lying open in case, and [illegible] almost completed in the compartment of the [illegible] other books. The cash book [illegible] and journal, which were in constant use, were kept in the mahogany desk that stood against the wall some distance from the place where the fire was, and where no damage was done except from smoke. I enquired of Mr. Hall as to the condition of the books, and he answered "that no trace could be found of the current ledger;" I asked if Mr. Maurice Dunsford had been there, and he told me he had for a few minutes; I then proceeded to gather the books together, relative to the cash transactions of the firm, and found them all except the current ledger, which is the only book missing. A ledger of the same size and of the same make which had been purchased from the same maker a short time before the fire, and which had not been used nor opened, and which was in the rack at the time of the fire was found by me two-thirds burned. I also found a can capable of holding two gallons of coal oil on a shelf adjoining the burned compartment on the north side about half full of oil, the cover was off, and I became satisfied after I had examined everything that the fire must have been the work of an incendiary and my suspicion rested upon Maurice Dunsford, and I thought upon examination of his cash book that the motive would be discovered. Maurice Dunsford has been my cashier and book-keeper for some years, and during the whole time had my fullest confidence. In January last I had instructed him to adopt a different system of balancing his cash book from what he had before practised. He had been in the habit of striking his balance in his Cash book monthly, and I instructed him to do so daily. It was therefore his duty to balance his Cash daily, and he assured me he did so. In the month of March last a payment of $2166 was made to Mr. Dunsford which should have gone to the credit of R. Hamilton and on the 21st of April last I proposed an investment of $1400 on Mr. Hamilton's account and I therefore asked Mr. Dunsford what the balance at the credit of Mr. Hamilton was; he told me the account was over drawn $300; I said "that could not be, as you received over $2,000 last month on Mr. R. Hamilton's account, and we have had no heavy charges against the account since;" he said he thought I was mistaken—that the payment I was thinking of must have been for some other account; I said no, that I had signed the discharge as Mr. Hamilton's attorney and that we would find out whose money gave it was by a reference to the securities book—and on turning up Stewart's mortgage to Mr Hamilton, we found that it was not entered there as being paid. My brother, who was absent when the conversation took place, came in and confirmed my statement as to the payment made to Dunsford, the latter then entered it in the cash book. I then charged him with not having balanced his cash and told him to do so at once and bring me a statement of it; in the course of an hour he brought me the Canadian Bank of Commerce pass book, and showing me a credit of $2 100 in the book, said he remembered the occurrance—the money had been paid him just before [illegible] p.m, and he had deposited it [illegible] as not to keep it over night, and a reference to the cash book and Bank pass book showed that it must have been the $2,100 that he got from Stewart, and I was satisfied that it was all right. Next day I asked him if he had balanced his cash and he said he had, but that he was some $40 to $50 short, which was for payments on his own account. (The witness then spoke of his excuse for not opening his new ledger, which was that his ledger balance did not agree by fifty cents.) One week before the fire I told him that if he failed to balance his cash I would do so. I was not in the office at all on the 10th inst. My suspicions were further directed against Maurice Dunsford from his conduct at the fire and his not staying to render me such assistance as a man would expect from his confidential clerk. He did not come until 11 a.m. and then rendered no assistance in moving except to carry a pen in one hand and an inkstand in the other. When he did come to the office I asked him about the ledger, and he said he had left it open on the counter where the fire was, and where he had been using it the day before—which I questioned. Having by the time my suspicions fully aroused, I had my bank books written up to date, and proceeded to examine my cash book to see how the balance stood. Dunsford came into the room while I was at work, and I told him to adjust his bank balances, which he did; I examined them and believed them to be correct; I found that $40 had been paid to him on the 6th June which had not been entered, I made the entry, and asked him if he had received any other money which had not been enter, and he said that he had received $34 the day before from Charles Perry, Esq.; he had not entered the notorial fees which he had received from the Bank, amounting to $41; he made the entries, and then about $1,200 was needed to balance. I then asked him to make up his cash additions and see what the balance was, and it was $1991 46 On enquiry I found that we had commenced at the same place. I pointed out the deficit as I made it, and asked him to check the additions with me. He said "I must go out for a few minutes;" he was watched, and returned in a short time. We then went over the additions together, and varied them only $10; I said to him, "you had better check your work again and see where your mistake is." I then lodged information with the Police Magistrate against Maurice Dunsford for embezzlement. When I returned he showed me where he had made a mistake of $1000 in additions which had been carried forward. After some conversation respecting these errors, I said, "We will turn back to a time on which there can be no mistake, and add it all up." He said his child was ill and he was anxious to go home but he would go over the additions in the morning. The witness went on to say that he found that Dunsford had charged himself with $1,000 less than he had received, and that on the credit column the totals were $1,000 more than he had paid, which would cover a deficiency of $2,000. No error was found before the 1st of April but between that and the 18th May five errors of exactly $1,000 occurred and always in heavy columns where they would stand the least chance of detection. Had the cash book disappeared it would have been impossible to establish the defalcations which are now known to amount to $,200 The books were kept in the rack on their ends and tightly packed. The persons who had keys and could enter the office when they liked were myself, my brother, Mr. Hall, Maurice Dunsford and Mrs Sandy. It was the duty of the latter to clean out the office every morning. When I lodged the information before Mr. Hatton I requested him to tell Chief Constable Johnston not to arrest him unless he was going to leave, that was about 4 p. m., about 6 p. m. I wrote a note saying he had just left me and expressed my fears that he was going to leave. I saw Johnston a short time afterwards and he asked me what he would do with Dunsford after he had taken him; I said I supposed Mr. Hatton would dispose of the matter. Dunsford confessed to a defalcation of $2000.-54, and the books show $2,000 more. I made no charge against Dunsford with regard to the fire, but did say in his presence that the office had been fired by some one who had a key, and that the said party had carried off the wrong book.

Mr. J. D. Christie and Mr. R. Hall[illegible] gave a light to the office between 11 and 12 o'clock, as if of some one at work. Mr. R. J. Tobey left Dunsford on George Street, about 12.30 or 1 p.m.

After the evidence the [illegible] returned the following:—

We, the Jurors summoned by you to enquire into the origin of the fire at the office of Messrs. Dennistoun Bros. & Hall, on the morning of the 11th instant, are of the opinion that the same was caused by Maurice Dunsford. The Jury recommend that the Crown Prosecutor take the necessary steps to have the said Maurice Dunsford arrested and dealt with according to law.

From the evidence of Mr. Dennistoun it will be seen that Chief Constable Johnston is endeavoring [illegible] Dunsford believed to get away.

The Collegiate Institute.

The [illegible] examinations [illegible] connection with the Collegiate Institute and Public Schools took place on Thursday and Friday last. Visitors were not as many visitors as might be expected, although the number was probably equal to those generally attending. All who were present were highly pleased with the very satisfactory state of both schools. Several of the teachers were made the recipients of very handsome presents.

On Thursday Mrs. Flavelle's room was examined, and at the close Miss Denne and Miss Kennedy, respectively, as having written the best specimens of penmanship, received a gift of books from their teacher, and the pupils in their turn presented a nice fan to Mrs. Flavelle.

Miss Dowling also received a handsome glove-box and other trinkets from her pupils.

Mr. Farl, who is a very popular teacher, was the recipient of a very fine present from his pupils, consisting of several valuable books, and an address, to which he made a very suitable reply.

On Friday, at the close of the public School Examinations, Mr. Dixon was made the recipient of a very nice silver tea service, valued at $60 to $70, the gift of teachers and pupils of the Institute and Public Schools.

Those little tokens of good will between teachers and pupils are cheering to those who have to undertake the onerous and responsible duties of teaching. The teachers position is one of continual anxiety and worry, and it must be refreshing to find that their labors are not forgotten by those committed to their charge.

The Peterboro Schools are in a very flourishing condition, and the trustees and parents are proud of their educational institutions. Rev. Mr. Fish, who was present at the close of the Examination on Thursday, said, and said justly, that the Peterboro Collegiate Institute and Public Schools were second to no kindred institutions in the Dominion, and the of teachers were deserving of praise and encouragement.

NORTH MONAGHAN.

June 1st, 1874.

An adjourned sitting of the Court of Revision was held here, but as no additional appeals were presented the Assessment as revised and corrected was finally passed Council meeting. Present,—The Reeve and Councillors Binney, Robson, Brownscombe and Lewry. Minutes of last meeting of council read and confirmed. Communications from the principal of the Ontario Institute for the blind, Brantford, stating by circular the conditions on which pupils were admitted. From the Auditors Office, Treasury Department, Toronto, stating that the sum of $2,938 was to the credit of the Township, bearing interest at the rate of 5 per cent till paid. From Robertson & Walsh with account for printing, and soliciting a portion of the township business. By-laws commuting the Statute Labor of Mr. A. Donnelly for five years, received three readings. A By-law to consolidate the several By-laws relating to Pounding, Line Fences, &c, and a By-law to determine how the amount coming from the Municipal Loan Fund shall be divided, were severally read a first time. Orders on Treasurer. Mr. W. Wand, $38.75 for window blinds and fixings for Town Hall. W. Handbidge, $4, for Statute Labor performed, but charged against him by County Treasurer. Clerk, $2.30 for Registration of Births, Deaths and Marriages, $20 on account of services for present yeear; and Assessor $30. Moved by Mr. Robson seconded by Mr. Binney,—That the account of Robertson & Walsh be not paid, as no orders were given for the same; but from date they be allowed a share of the Township printing.—Carried. Council adjourned to Saturday, the 27th instant, at 10 o'clock, then to meet to consider the By-law for the division of the money coming from the Municipal Loan Fund to the Municipality.—Com.

HURON & QUEBEC RAILWAY.

A Committee was appointed to report on this matter during the session of the County Council. After deliberation they reported as follows.

The Committee named by the warden to meet with a committee of the Town Council of Peterboro and Mr. Fowler, to discuss the question of submitting a By-law to the ratepayers of the county of Peterborough in favor of granting a bonus of $150,000 to the Huron and Quebec Railway Company, have to report—That they understand that the town of Peterboro is about to submit a By-law granting a bonus to the same object and that the former By-law of the county granting a bonus of $150,000 to the Quebec and Ontario Railway is now inoperative. They would therefore recommend that in the event of the town of Peterboro By-law being carried, and Mr. Fowler depositing with the Treasurer a sum sufficient to cover the expense attending the submission of a county By-law, that such By-law be submitted to the ratepayers of this county for $150,000, to be prepared by W. H. Scott, Esq., and to contain a clause that the By-law shall be of no effect unless this county is free from any liabilities indicated in the former By-law of $150,000 to the Quebec and Ontario Railway.

Hon. Mr. CARTWRIGHT'S MISSION

We are glad to be able to announce that a despatch has been received from London to the effect that the Hon. R. J. Cartwright has met with the most gratifying success in his mission to London. He has succeeded in placing the Dominion Loan of £4,000,000 sterling upon the London money market at the issue price of ninety cents on the dollar. The rate of interest paid is only four per cent, which is a very reasonable rate of interest, and especially low when we consider that the loan is *unguaranteed*, and has no other backing than the credit of Canada. Our despatch states that London financiers say that the highest price has been obtained, and consider the operation a very good one. The loan has been undoubtedly as favorably placed as any other [illegible] ever effected by the country, [illegible] the Finance Ministers [illegible] every credit for his gratifying success. The ridiculous Jeremiads indulged in by the Opposition journals, to the effect that the Canadian credit had received irretrievable injury from the financial policy of the late Government, are most effectually answered by the fact that Canadian credit has attained the enthusiasm of Imperial guarantee, here able to do what it never has done before, to secure a loan of this magnitude at the low rate of four per cent. This document has shown that the application of honesty and economy to the management of our public affairs, is sure to command the confidence of the European capitalists.—*Free Press.*

APPALLING DISASTER

THE FLOOR OF A CHURCH GIVES WAY—SAD END TO A STRAWBERRY FESTIVAL

An appalling catastrophe occurred in Syracuse on the 11th. A strawberry festival was being held at the parlors of the Central Baptists Church, when without any premonition the floor gave way, about half-past nine, precipitating a room full of people into the story below. The parlor was on the second floor, and the room underneath was also full. The fire alarm was immediately given, and firemen hurried to the scene. Five dead bodies have been taken out; and work had hardly started when the despatch came. The following dead bodies had been recovered: Dr. O. E. Wainwright, Miss Minnie Thomas, a child named Ostrander and a little girl named Horton. Miss Theodore Holmes, and a little girl named Winnie Collins. The Rev. George T. Dowling, pastor of the church, is dangerously injured: also his wife, who is not expected to live. The Rev. Henry Eddy is seriously injured. Two hundred are injured, some dangerously.

LATER—14 KILLED, 200 WOUNDED.

The following were taken out dead: Dr. O. Wainwright, Mrs. Austin Barnes, Mrs. James M. Crow, Mrs. J. E. Karr, Miss Gussie Carpenter, Mrs. Abigah Veeder, of Utica; Miss Gracie Homes; Miss Winnie Collins, aged 13; Hattie Leonard, 5 or 6 years old; John A. Ostrander, a boy of 9 years; Miss Minnie Thomas; Frank Collins, aged 14; Lutie Horton, 12 years; Mrs. Dr. Wainwright will undoubtedly die. Ex-Alderman Austin Barnes is very seriously injured. Rev. Dr. A. Eddy is slightly injured. The bodies are supposed to be all recovered now. About 200 persons are injured, but it is impossible to get the news to-night as the excitement is so great. The scene in the streets around the church baffles description, thousands are gathered there asking after friends, waiting for the dead, and attending to the injured. The entire police force and fire department of the city were called out, and took charge of the work of recovering the dead and wounded. The church is comparatively a new one. A few minutes before the church gave way it trembled so that many persons left the room, fearing an accident, which has been predicted by many. The accident was caused by the giving way of the joist that supported the floor. The joist ran from both sides of the room to a cross stringer in the middle of which it was supported by iron rods from the roof. The stringer gave way, pulling the ceiling and roof down upon the people, and precipitating into the room below. The work of recovery was exceedingly slow, as it had to be done in the dark, and it was feared every moment that the walls would fall in.

THE CANADIAN LOAN.

It is amusing to note the controversy of the opposition press over the statements, as announced in the *Globe*, that Mr. CARTWRIGHT had placed the Canadian loan in the market 90 per cent. Without knowing the fact which was published in the FREE PRESS of the same day, that the said was unwarranted and only bore four per cent interest, the organs of the party of wrath and bitterness girded up their lions, and "went for" the enemy. The *Mail* and *Gazette* abuse without stint the operation, declaiming that the discount is enormous, and that a guaranteed loan ought to "do better," and that a "Grit Government" had lowered the credit of the country into ruin. The *Mail* says the Toronto Water-works six per cent. Debentures were issued at 96 cents on the dollar, and adduces that fact as proof positive that the mission of Mr. CARTWRIGHT has been attended with ill success. Without taking into account the very trifling amount of the Toronto debentures, let us take the rate which it considers a good one. The net difference between the issue price of the debentures and that made by the loan, would only be $800,000; but if the loan had been effected at the rate of interest paid by the Toronto debentures the country would have had to pay $480,000 more per annum than they will under the present arrangement, or in the aggregate over ten millions of dollars more, before the debt is paid off. The *Mail* assumes the Toronto transaction to have been a good one, the conclusion is irrestible that the loan effected by Mr. Cartwright is infinitely better, indeed considering the amount negotiated, out of all comparison as a successful transaction. As a matter of fact, no Canadian loan, of this magnitude, or indeed at all, without the consideration of the Imperial guarantee, has ever been able to command so favorable a market at so low a rate of interest. Doubtless the opposition organs would not have committed themselves, had they been better posted; but now that they know that the loan was landed on the market *unguaranteed, at four per cent interest*, they must acknowledge that what they intended as adverse criticism, was really establishing beyond doubt, the fact that Mr. Cartwright's operation was a most advantageous one as regards Canada. They cannot now find a fault without eating their own words, as well as outraging common sense and facts. It was really a good dodge of the *Globe*, through its imperfect information, to lead the rabid organ into such a hot and ill considered criticism.—*Free Press.*

Mr. Donald barrister, of St. Thomas is spoken of in connection with the representation of East Elgin.

Rev Lachlin Taylor D.D., has been appointed immigration lecturer in europe on behalf of the Dominion.

Chief Justice Wood has decided that the Manitoban Courts have jurisdiction over the Scott murderers. Lepine is to be tried at a special session in September.

THE call for tenders for the construction and maintenance of a telegraph line from Ottawa to Vancouver is in earnest of the intention of the Government to push forward with all practicable speed every enterprise that will tend to unite the various Provinces of the Dominion in fact as well as in name. Direct telegraphic communication between this Province, from sea to sea is [illegible] to strengthen the bonds of union, and [illegible] the completion of the Pacific Railway is destined to make perfect.

BURGLARIOUS ATTEMPT.—On Tuesday afternoon last two brothers named Richard and John Doyle, farmers residing near Bells Corners, Arthur township, got into a quarrel respecting some pigs getting into a field of potatoes and about his right of cutting through each others places. The dispute became warm and Richard ran at John with an axe, when the latter drew a revolver and fired two shots at his brother, one of which took effect in the pit of the stomach. The wounded man was conveyed to his residence, where he lingered in great pain until Wednesday morning, when he died. The murderer escaped.

To the Editor of the Examiner.

DEAR SIR:—I ask a small place in your paper for the following reply to an article in the *Review* of the 18th inst., headed "The New School House." The writer, signing himself "One Who Knows" refers to an article in the *Examiner* of the 11th inst. about a new brick school house in S. S. No. Dummer, in which the writer, after referring to other matters, said that the people had "placed a good building in the centre of the section, within about two miles of the most distant resident." I have full confidence that the writer of the article stated what he deemed the facts, but through some information the distance was understated; though with regard to a majority of the children the statement is correct. There is not a school in the township that some of the residents are not much further than two miles from the school-house, and our section is no exception. "One Who Knows" appears to make up for any understatement by giving good long distance.

Then, "One Who Knows" says, "The School House cost $1000, while it could have been built for $600." He must have made a mental reservation when he penned that; for from my own knowledge of the cost of material, &c., I am satisfied that, if he built and furnished the house as now, he would be out of pocket at a higher figure than $600. Contractors, Messrs. Stuart Wright and James Peate, assured me and others after the contract was given up, and they were paid in full, "That they would have made as much working by the day for an employer as they did by the contract." Again, he says, "that two of the Trustees would build the house there; the other would have nothing to do with it, as he knew there ought to be a school houses in the section." The Trustees who would build the house that only carried out the wishes of 28 out of the ratepayers present at the Special Meeting which the site was chosen. The statement "That the other Trustee would have nothing to do with it is strictly true for he has attended a Trustee Meeting for building any other purpose, since his election in January last; though the same Trustee seconded this motion, February 5, 1873,—"That a school house be built in some central place in the section in lieu of the two school houses now in use," and he also seconded, at some time and place,—"That half an acre of land on the rise near the centre of the part of the north half of lot 25 in the 7th concession, near the concession line, be selected as a school site." It can be easily seen if the trustee referred to knows "there ought to be two school houses in the section" did not think so 5th February, 1870. he says, "And a great many of the inhabitants wanted two; and there must be two before the children can get schooling." How I want this? About one-third of the ratepayers believe, or affect to believe, that there ought to be two school houses, or more properly *two school sections*, and a large per centage that number voted formally for one school house *in the centre*. *I am much mistaken* if "One Who Knows" was not himself, as advocate for a central school house; what is more remarkable still, the plan wanted as a site then was within a few rods, if not the *exact* spot where the

The Examiner.

EDITORIAL ITEMS.

Rev. L. Taylor has been appointed Emigration Agent to Bishops. He says it is only carrying out arrangements J. A. McDonald made with him.

Canadian Cheese.—From an article in the *Fall Mall Gazette*, it appears that Canada, last year, made about 20,000,000 lbs. of cheese, averaging 11½ cts. per lb., and realizing about $2,000,000. Of this sum Ontario secured about $1,625,000, the balance scattered over the Provinces. Ingersoll and Belleville are reported as centres of the Ontario cheese trade, but from the energy and enterprise of Mr. James Elliott, of Smith, our long Peterborough will not long remain behind in becoming one of the centres.

Sale of Lands.—Mr. Nicholas Walton of Smith sold his farm last week to Mr. Neal McDonald, of Bridgenorth, at 200 per acre.

Foundling.—On Friday night, a well dressed female child was left on Mr. Jno. Armstrong's verandah, Downie's Corners Mr. Dawson, who lives across the way, first heard the cries of the child, and wondering where the sound came from, arose, and following the cries found the child as stated above. It is about two months old, and was well dressed when found, having no less, it is said, than twelve changes of raiment left beside it. Mr. Armstrong took it in, and next day took it to Mr. Milar, Reeve of Otonabee, who had to provide for it at the expense of the Township. The mother, or other person leaving the child, must have been aware of the fact that Mrs. Armstrong has no children, and with good intentions had just provided one for her, but contrary to expectations, it was no welcome gift. No traces of footsteps, or of wheels of a carriage, were visible near the place. Perhaps the child may find some person more kind than its unfortunate mother, and more desirous of adopting an unfortunate waif than Mr. Armstrong has been.

Served Them Right.—Aird, who broke into Hall & Connor's store, lately, and took 20 pairs of boots and shoes, was tried before Judge Dennistoun on Saturday, and sentenced to 9 months hard labor in the Central Prison. The Judge was lenient—he should have got 2 years at least—he is no child in the burglary business Dallycourt, his accomplice, chose to be tried by a jury, and, in consequence, will be in jail till the assizes. He is a hard case, and is better confined than at large. We may expect Mrs. Dallycourt soon to be with him, as she has no visible means of support

Lord Dufferin is expected to visit Orillia on the 15th of July. Excursion trains will leave Port Hope and Peterboro' on that day for Orillia.

Railway Disaster.—Some wretch or wretches lately placed a log across the railway approaching London, Ontario, by which the train was thrown off, by which one person was killed and several injured.

Pere Hyacinthe, who opposes the Infallible and other dogmas, but who still claims to belong to the old Catholic party, has taken to himself a wife, and now rejoices in having a son in his old age. Several other priests in Germany and at Geneva have followed his example, with what results we have not yet learned.

French Canadian.—The French Canadians of Canada and the United States, held a grand convention last week at Montreal, with a view to induce those French Canadians who had gone to the States to return to Canada. Several addresses were delivered. The benediction of the Holy Father was received by telegraph. An attempt to elect Louis Reil as a member of a general committee of management was, after advice, withdrawn, as likely to injure other than favor his amnesty.

Count D'Alton Shee, a French nobleman of Irish descent, is dead. He was a leading Republican.

Wool.—Mr. George Webber, of Smith, sold Mr. W. Beal, this season, 24 fleeces of wool which weighed 183 lbs, or 7 lb. 10 oz. per fleece. Mr. Webber is noted for his excellent breed of sheep.

Sheep Killed by Lightning.—On Wednesday, last, Mr. Wm. Armstrong, of Cavan, had 16 sheep killed by lightning. They were under a tree when the lightning struck it, killing them.

Reciprocity.—Is about certain. The terms of the treaty will be submitted to Parliament at next session.

Lakefield.—Last Sabbath evening the Rev. S. H. Rice, B. C. Minister, of this place, preached his farewell sermon. The church was densely crowded, Mr. Rice, who goes to Hamilton City, is succeeded by Mr. Richards of Hampton.

The Census of the proposed incorporation of Lakefield Village, has been taken. The population is over 870.

Lakefield can now boast of a barber. We trust he may live well by scraping, and long stay to shave the shavers.

Farm For Sale.—We would draw attention to the sale of Sandy Lake Farm, on the 8th instant. See advertisement.

Midland R. R.—The trains leave here for Port Hope at 5:25 a. m. and 4:15 p. m., daily

DOMINION DAY.

The town was very quiet on the 1st of July. The shops were deserted, and the streets almost so till about 5 o'clock.

The steamer "Whistlewing" took a large party of excursionists down the river, and did not return till late.

The Young Irishmen had a very successful picnic in Wallis's Grove.

The Wesleyan Methodist Sabbath Schools held their picnic in Mr. Dixon's Grove. This was also very successful.

A number also went to Stoney Lake and Julian's Landing, and no doubt enjoyed themselves among the Stony tribe, bosting, etc.

Nothing out of the ordinary course of events transpired. The town showed the appearance of a calm after the storm of the previous day.

LACROSSE.

Millbrook was the scene of great excitement, there being all sorts of games going on. The principal feature of the day, however, in that village, was the Lacrosse Match between the Iqdians and the Millbrook clubs. The contest was a spirited one, the Indians coming off victorious, winning in three straight games. Time: 10 minutes; 20 minutes; 15 minutes.

The Mills' Fire.—Mr George Mills laid information against Aird (who has just been found guilty of stealing Hall & Connors, Boots) charging the firing of his shop to Aird, but he was not able to sustain it. Mr. Mills is now making out accounts with a view to having them settled so as to make a start again in business, we understand. We believe we were wrong in attributing Dolicum Trumbull's late visit to this town to the fire at Mr. Mills' shop. He was he says, and we have reason to believe existed, through aggravating circumstances, and only out himself to let them see he could do so, having no intention of injury to himself, but unfortunately annoyed.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicines which have withstood the impartial judgement of the people of any length of time. One of these is Thomas' Eclectric Oil, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in other proportions. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely diferent from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of all the virtues with other preparations, but with this alchol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Phelps, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

Note.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all *Medicine* Dealers.

The Great Female Remedy.
Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, or slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpasses in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success is owing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

"PSYCHOMANCY OR SOUL CHARMING."

How either sex may fascinate and gain the love and affection of any person they choose, instantly. This simple mental acquirement all can possess, free, by mail, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A queer exciting book. 100,000 sold. Address T. WILLIAM, & Co., South Eighth st. Philadelphia, Pa.
October 4, 1873 49-tf

By Chronic wasting diseases is understood those old complaints that have run a long race and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of flesh and bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheele.'s Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalizing blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but possessive of pleasing dangerous results. The treatment of old lingering complaints is necessarily protracted, and if deleterious drugs are taken into the system for a long time, they only accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containing elements of the tissue, repairs diseased bone, muscle, and nerve, and renews constitutional vigor in the same manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

Valuable Farm for Sale

THE subscriber offers for sale that valuable farm containing 50 acres, more or less, being composed of Lot No. 2, Emmismore. The farm is one of the best (if not the best) in the county of Peterboro. There is on the premises a Roved Log House with stone foundation and water lime bottom, also Sheds, Stables and Barns of the best. Cedar and three never failing wells. The farm is all cleared but about 7 or 8 acres which are timbered with the best Hard wood and good sugar bush. The farm is also well fenced.

For further particulars apply to F. O'DONNELL on the premises, or if by letter to Frankhill P.O. or to Belmore P.O.
June 2nd 1874 23-6in

SEVERAL EXCELLENT FARMS FOR SALE.

PARCEL 1.
The present homestead of the undersigned in the
TOWNSHIP OF HARVEY,
consisting of Lots 10 and 11 in the 11 concession, 200 acres. There are two comfortable Log Dwelling Houses, a Frame Barn 60 x 40, and other out buildings on it. The farm is one of the best for Dairy purposes. It is well watered; the soil is sandy loam, and there are 30 acres in Fall Wheat healthy looking. there is an orchard of 200 to 40 trees commencing to bear.

PARCEL 2.
No 13, 14, and 15 in the same concession, containing 416 acres. On these lots there is a large Frame house 50 x 30. 30 acres are cleared and in meadow. The soil is sandy loam, and the uncleared portion is well wooded with hard wood, pine, and cedar. A steamboat passes the property daily for Bobcaygeon and Lindsay.

PARCEL 3.
The West half of Lot 10 in 10th concession, and west half of East half of 12 in the same concession, containing 200 acres. This parcel is all well timbered with Hard Wood and Cedar. The soil is good and well watered.

Also an Interest in Lot 8 in the 10th concession of Harvey.

Terms Easy and Title Indisputable.

Full particulars will be given on application to Dennistoun Bros. & Hall, Barristers, Peterboro' or to to the proprietor on the premises, addressed Hallidge P. O.

WM. WOOD.

This is the way a Florida man expects to get a partner to his bosom. He advertises as follows: "Any gal what's got a cow, a good featherbed, with comfortable linens, five hundred dollars in good, genuine slap-up-green-backs, that has had the small-pox, measles and understands tending children, can find a customer for life by riten a small william ducky, addressed X. Y. Z., and stick in a crack ot Uncle Billy Smith's barn, jinin' the pig-pen, where Harrison Reed is now planning for future operations."

The following is an instance of the "severely calm" style of Western reportorial description: "yesterday morning a boy sauntered up to a yard on Eigth street, where a woman was scratching the bosom of the earth with a rake, and, leaning on the fence, said, "Are you going round the back yard after a while?" The woman said she didn't know; maybe she would. Why? "Because," the boy said, "I just saw the cistern lid drop on the baby's head a minute ago, and thought if you went around you might lift it off." It is currently reported that the woman went.

One of our fashionable youths donned his first silk hat and cigar on Saturday evening. He got along well enough with the cigar, but he had to give up the hat—it made him sick at the stomach.

A window-full of pot plants suddenly descended into the street, Monday morning, filling the back, bosom and hair of an elderly party with bulbs, earth, thorns and hair-pins. As soon as he recovered his speech he stated that he was a pilgrim and a stranger, but he'd be d—d if he couldn't lick the man who touched off that powder.

New apples are one dollar and ten cents a quart. Ten cents for the apples and a dollar for a doctor.

Mr. Edgar Bascom was taken to the insane asylum at Hartford, this morning—just three months from the day his son Joseph purchased a fiddle.

You do not need to black your boots in Pitsburg. You hang them out of the window at night, and they are black enough in the morning.

A Chip of the Old Block.—"Pa," said a young hopeful to his father, a prominent citizen, "what is meant by a chip of the old block?"

"Why my son, do you ask me such a question?"

"Because I was out hunting this morning, and after returning home I told some gentlemen that, while out hunting I saw fifty squirrels up one tree. They kept trying to make me say that I did not see but forty-nine and, because I wouldn't say so, they said I was a chip of the old block."

"Hem! well, my son, they meant that you were small and homely, like your pa."

E. E. BOWIE.

Peterborough, April 8th, 1874. 15-tf

VINEGAR BITTERS

PURELY VEGETABLE PURE RYE WHISKEY PURITY STRENGTH AND GOODNESS WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim Vinegar Bitters the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of Walker's Vinegar Bitters occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

GEO. T. LEONARD,

Attorney-at-Law, Solicitor in Chancery, Conveyancer, &c., has returned to Peterboro, and resumed the practice of his profession. Office, Scott's Buildings Corner of George and Simcoe Streets. 12-ly.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favourable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully, EDWARD S. FRANKS, M.D., of Manchester, Lancashire, England. Lecturer on the human eye and ear and their diseases, inventor and patentee of improvement in spectacles.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the glossy and beauty of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands completely atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a nasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS.

PRICE $1.00.

NORTHROP & LYMAN, Toronto General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this unrivalled remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform efficiency and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a preventive against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although for settled Consumption, in thought incurable, many instances of cures where the disease seemed hopeless, have been completely cured, and the patient restored to sound health by the use of this medicine. So complete is its mastery over the diseases of the Lungs and Throat, that we do not hesitate to say, to those who have tried other remedies in vain, that they may rely with confidence upon the Cherry Pectoral that now stands before them.

All over the United States Agents are found, who have, in almost every village, some wholly remarkable story to tell of the cures by this medicine.

Ayer's Ague Cure,

Peterborough Examiner.

VOL. XIX. PETERBOROUGH, THURSDAY, JULY 9, 1874. NO. 28.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural status.
3rd. Because no glassgazing or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye sight from improper selections.
4th. Because the system of fitting is an engraving guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. Because the never tire the eyes and last many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.
Sole Agent for

Peterboro, July 9th, 1874. 28-tf.

THE CELEBRATED

Osborn AND Elias Howe

SEWING MACHINES

After a number of years experience in the different kinds of Sewing Machines, we have come to the conclusion that the CELEBRATED OSBORN AND ELIAS HOWE MACHINES are the Best for family and manufacturing purposes.

They will do a run of work such as no other Machine can attempt.

THEY ARE BUILT ON THE

CALM PRINCIPLE

HAVE NO COG WHEELS, RUN STEADLY, AND,

RUN EASY AND QUIET,

And cannot get out of time or adjustment. They have all the

LATEST IMPROVEMENTS

And each machine is sold with a complete set of attachments.

A CARD.

TO THE FIRE BRIGADE,

GENTLEMEN:

I cannot let the present opportunity pass without publicly expressing my heartiest thanks, for the able and efficient manner in which you extinguished the fire in Mr. CLEGG'S shop, on the morning of Sunday last, thereby saving my property from destruction.

GEO. TANNER.

July 8th, 1874. 28-1in

TO LET.

A Comfortable Cottage

ON WATER STREET.

Opposite the residence of Mr. Benallick.

E. BURNHAM.

Peterboro, June 24, 1874 28-2in

A CARD.

To the Electors of the County of Peterborough.

I beg to return my sincere thanks to my many friends who supported me in the recent contest, while I regret that the over confidence of our friends in town and the plot of our opponents in Ennismore, deprived us of the success we were too sure of. I yet cannot too warmly thank my friends in the Townships who did their part so well. It is hoped that success will attend our efforts in the next election, which will occur ere many months.

I am, Gentlemen,
Your Obdt. Servant,
D. W. DUMBLE.

July 8, 1874. 28.1in.

CARD OF THANKS.

I hereby tender my sincere thanks to the Fire Brigade and Citizens, who saved my property from fire, on Sunday morning last.

JAS. HALL.

July 8, 1874. 28 1in.

JOHN A. HARTLY,

Issuer of Marriage License Certificates.
General Insurance Agent &c.
Office for the present "Examiner office

July 8th, 1874. 28-tf.

Peterborough Examiner.

PETERBORO', JULY 9th, 1874.

THE ENNISMORE RIOT.

WHO BROKE UP THE POLLING?

The *Review* and Mr. Scott's friends have carried out their old *role* of misrepresentation to the letter in this Election Contest. They are as assiduous as ever in their attempts to lay the blame of the Ennismore riot on Mr. Dumble's friends; but their misrepresentations and positive falsehoods will not relieve them of the odium of this second disgraceful act in their programme to attain to power. This lawless and unheard of conduct out of power is but a trifle to what they would be likely to resort to if they should succeed in their object. These Peterboro outrages will open the eyes of the people to the crimes of the Conservative party, and will be the best means of defeating them in the general election next year.

Truth is never likely to be concealed long. The part H. H. Smith has taken in this contest will not remain a secret many days; already it is leaking out. For what was he up all night previous to the Election? Did he and Boultbee provide Murphy with any of the whiskey he drank during that night and the following morning? Did they use the most successful means (strong drink) to arouse the latent passions of their worst followers, so as to have them in a fit state for a row, to carry out their designs of again cheating the Electors out of their choice of a representative?

Did Mr. Scott know the character of the men he was using in Ennismore to advance his interests through the Riding? He did, and is hence as culpable in they are. What a representative he would be who seeks to represent the supporters of the Riding, and to use the worst class of persons to abuse and maltreat innocent persons! He must be held accountable for their actions, as he used them, and they must have been promised a reward to do what they did.

H. H. Smith's part in the disgraceful acts will come out ere long. Already a little has come to light. He got up that little letter in the *Review*, purporting to be signed by Mr. Scollard, Deputy-Returning Officer for Ennismore. He presented it to Mr. Scollard, and he (Mr. Scollard says) agreed to change it before publishing, but did not do so. Does he hope, by these means, to escape the contempt that such conduct deserves? If he does, he will find his mistake.

WHO BROKE UP THE POLLS?

The following extract from an oath made by Mr. Scollard before Jas. Hall, Esq., J P., will settle this question:

"I . . . and that the Polling Place for the said Township of Ennismore was opened by me to receive votes for said Riding, and the hour of opening was 9 o'clock, a. m., and the hour I was instructed and required by the said constables and bailiffs to close was 4 o'clock, p. m., when, by reason of the riotous conduct of persons in the said Township of Ennismore, I was compelled to close the said Polling Place, and others whom I was informed by them to be lawfully breaking into the Polling Booth, destroying the furniture, upsetting the table used by myself and the Poll Clerk, assaulting me, and using violence, threatening and intimidation to myself and others therein, I was obliged and compelled to close the said Polling place, and accordingly declared the same closed, believing that from the violent conduct of the said parties voters would not be permitted to record their votes, and that violence would be used by said parties to prevent me and the Poll Clerk from receiving and recording the same.

The persons here named are supporters of Mr. Scott, Murphy having acted as his scrutineer at the Polling Place.

(Signed), CORNELIUS SCOLLARD,
Deputy-Returning Officer
Township of Ennismore.

Sworn before me at the Town of Peterborough, in the County of Peterborough, this third day of July, A. D. 1874.

(Signed,) JAMES HALL, J. P.

This proves most conclusively that Mr Scott's supporters by violence broke up the polling and prevented the Deputy-Returning Officer continuing it, for fear of personal injury to himself or electors. And it appears, from information since obtained, that the party constructing the riot was influenced more or less by some means. Mr. Scott and his party cannot deny that they have agreed to stand between the rioters and harm—"to see them through." Is this not evidence that the Conservatives broke up the polls?—fearing that Mr. Dumble would get a large majority in Ennismore? And the riot was to prevent this.

DUMBLE'S vs. SCOTT'S Popularity

The *Review* has taken the unmanly course of endeavoring to injure Mr. Dumble, by assailing his character as a citizen. This is the most contemptible and unchristian course a journalists can attempt to injure a political opponent. If so inclined we might write columns of personal abuse of Mr. Scott,—a course which should meet the indignation of every elector. Why should a journalists gratify his spleen or malice in blackening the character of any man for the basest of political ends? because forsooth, his party chooses him as their standard bearer in an election contest, or does the *Review* wish to establish the precedent, then let him bear the consequences in the future.

But let us bring the relative popularity to figures. In the County Mr. Dumble obtained the unbiassed vote of 678 of his fellow electors,—Mr. Scott received 684, or just six more, and of these neither Boultbee, Knapp, Cope, Wm. Montgomery nor Harte, had legal votes, besides, no doubt, several others. In all honesty these five should not have voted, so then Mr. Scott, the *Review's* popular Mr. Scott, got *ONE* just one more vote than Mr. Dumble; and to secure a temporary advantage had to resort to the old tory system of riots and intimidation, swearing and personal abuse, *a la* John Carnegie.

Where is Mr. Dumble's unpopularity? Mr. Scott may be a popular man, but if so unpopular a man as the *Review* makes Mr. Dumble, can secure within *ONE* vote of him notwithstanding rowdyism and threats, then may we not retort and say, Mr. Scott's personal unpopularity was the cause of his having to obtain the aid of drunken rowdies to secure *ONE* vote over Mr. Dumble.

The truth is, Mr. Dumble has been a thorn in the side of the *Review* and that party during the past seven years, and during that time they have unceasingly pelted their filth at him, and still he obtained the unbiased vote of as many honest, honorable electors as the popular Mr. Scott,—their filth does'nt affect him therefore.

Their hopes for the future lies in bespattering their opponents and falsifying the parliamentary records, and we may therefore look forward to wholesale abuse of our public men for six months to come. It will avail nothing, however. Taking the vote of January 1874 as the standard, there are 260 reform votes still against 117 polled for Mr. Scott then, and this proves conclusively that he has not the shadow of a chance for re-election, even if now allowed to take the seat.

But do these figures not prove that Mr. Scott is losing in public estimation. He did not get as large a vote before, and more than that never will again. If the contest should be again between Dumble and Scott, the latter and the *Review* will find out who is the popular man.

WHAT NEXT!

It is well known that the firm of Boultbee, Fairbairn & Pousette has been dissolved; and that now Messrs Pousette & Roger are their successors, so to speak, and occupy the offices. Mr. Boultbee lives in Ashburnham still. At the Election Mr. Boultbee was sworn as to his right to vote, and the scrutineer informs us that he took the whole oath, swearing that he was a resident of the Riding. He did so, asserting that he had not given up possession of the old office. But how did he swear that he was a resident of the Riding, since he resides in Ashburnham? Mr. R. Hall, Mr. Dumble's scrutineer, says he asked him, when administering the oath: "And are you a resident?" Yet the whole oath was taken, as we are informed. Can Mr. Scott explain this?

Numerous other individuals have been led astray by Mr. Scott and his friends; but generally in ignorance. We can hardly believe that they were all ignorant of this, viz.: where they resided.

SCHOOL EXAMINATION.

The examination of pupils in the Auburn School took place on the 26th ult. There were twelve visitors present, and there probably would have been a greater number present had not the bad condition of the roads prevented. Classes were examined in Reading, Arithmetic, Geography and Grammar. I was much pleased with the correct and proper manner in which the children answered the various questions proposed by the teacher. I examined a class in Geography and another in Arithmetic, and they did remarkably well. The children sang two pieces, after which a gold dollar prize was awarded to Sophronia A. V. Mitchell for good conduct.—Com.

COLLEGIATE INSTITUTE

The Examinations and Promotions to the Collegiate Institute have been on this month as usual, at Cobourg, Peterboro and Whitby. Candidates from County Examinations and Public Schools in all the Counties in this Circuit, also from Lakefield, Millbrook, Omemee, Bowmanville, Port Hope, Cobourg, Colborne, Campbellford, Norwood, Havelock, Peterboro, Lindsay, Fenelon Falls, Bobcaygeon, Orillia, Beaverton, Uxbridge, Whitby, Brooklin, Oshawa—in all. All were prepared before or less in the Union School Of the 69, 57 passed, 55 of the 57 passing creditably, two only with a small margin over. Of the 12 who failed to obtain the required 212 marks, eight were within a few marks of succeeding, four only really failing.

The Council of Public Instruction.

At many teachers may not fully understand the regulations in reference to the pending elections for representatives in the Council of Public Instruction, we give the following important regulations as forwarded to Inspectors:

REG. 6. The person elected to the Council of Public Instruction by the colleges shall be elected on or before the third Tuesday in August of the year 1874, and every subsequent second year thereafter.

REG. 16. The votes will be by closed voting papers, (furnished by the Department)

(*Sub.* 2.) Any paper received by the Chief Superintendent up to or on the said third Tuesday of August, or during the proceeding week, shall be deemed to be duly delivered to him.

The voting papers are furnished thro' the Inspectors. They will be sent by mail, and may be sent during the week previous to the third Tuesday in August, so that they may arrive on that day at the farthest, as they will all be opened on the next day, and those not then received will not be taken into account. The third Tuesday will be the 18th. Papers should be mailed between the 10th and 16th to reach the Department in time.

There are numerous other regulations, but they do not concern the teachers, except to inform them as to the general method of conducting the whole proceedings.

EDITORIAL ITEMS.

SOMERVILLE.—This municipality has granted a bonus of $10,000 to the Victoria Railway.

THE Post Office of Cornwall has allowed itself to get into disgrace,—why should say the Postmaster.—$500 are missing. Letter stealing was the order of the day.

THE ELECTION RIOT &c.—Montgomery gave himself up on Monday, but nothing was done till Tuesday. He relies on the idea that no one saw him beating Mr. Merrick, and hence that there can be no proof against him.

DID Boultbee and Smith instigate the Ennismore riot? Timothy Toomey, who commenced it, says that these gentlemen have promised to protect them from the consequences and see them through. Why did they promise this? When did they make such a promise.

IS IT SO?—Some men, teachers and others, are using their efforts, on the sly, to secure the election of Dr. Sangster. We recommend those who are doing so to read the speeches of Mr. Bryden and Miss Whitcombe at the meeting of the Perth Teachers' Association Both speakers have been at the Normal School, and were cognizant of the Doctor's love-making. We will give them next week.

CLARKE, Attorney-General of Manitoba, has, Sangster-fashion, gone to the States and got a divorce, and taken to himself another fair one,—shall we say wife? If this thing is permitted to go on we shall have the "free love institutions" of the South in Canada, very soon. On his return home his ministry was defeated.

LEGAL LORE EXTRAORDINARY.—Mr. H. H. Smith informed us on Tuesday, that up to that time he had not carefully read the oath to be put to a vote at the election. Yet, forsooth, he is a lawyer and, no doubt, gives legal advice—and has talked about the oath and those who took it. We have heard of lawyers of 1 2 3 degrees; but Falconbridge some of them! It looks like it.—Since Mr. Smith has acknowledged that he was mistaken in some of the clauses of the oath, and yet, he has, before sheet electors. Does he wish to have an exposure of some of his affidavits? Perhaps not.

Pulpits in the Street and Bridge Committee, the committee, consisting of three members, have turned out a man because he was for Mr. Dumble! Mr. Breckenridge should know better than to do so himself and such a course of conduct can only recoil on him and sooner than he might be aware of. Politics in employing street laborers is too good a thing to last long.

SENSATIONAL.—The Bobcaygeon *Independent* is highly sensational in its tone over the Peterboro Election, and it is matter for regret it is not truthful, not even reliable. We trust our confrere will assume a more reasonable and more truthful spirit in his correspondence. His correspondence may amuse, but it requires to be accepted with a grain of allowance generally. But all will admit the difficulty of getting up correspondence at a distance from the scene of action—Perhaps the office is.

TOO TRUE!—The last *Review* contains a letter over the names

JAMES MURPHY,
JOHN DOOEY,
his
WM M GIFFORD,
mark
TIMOTHY CAVANAGH,
PATRICK BUCK,

which, in common parlance, is 'too thin.' James Murphy is the man who caused the riot, assisted by others. Perhaps Mr. Cavanagh was not far distant at the time. Mr. Scott, no doubt, wrote the letter, or dictated it. He is anxious to have clean hands (!) before the public. William Gifford signs with his mark. Who signed the names of the others to the document?—as some of them can neither read nor write. But it would look bad to have too many "marks" to this short letter. Are, it's decidedly too thin!—this signing without marks. It really won't do. We wonder was the Great BoultBEE buzzing 'round them at the signing—eh!

AN ECHO OF THE MAIL.—The Ontario *Observer* revels in figures in its last issue. It deals with millions as a Rothschild would, and calculates profit and loss as a schoolboy too often does—by egregious blunders. Mr. Cartwright's loan is dealt with as if the *Observer* had gone into the details of the *Mail's* renting rather than into the calculation of interest or discounts. All this fudge about millions lost or millions gained, without a figure to show the accuracy of the statement, is so much twaddle put in print to make it appear that the writer has been to school and managed to work a few sums in Sangster, which learned work, strange to say, gives very few examples on the subject referred to. Dashing into figures in the *Observer* style may please him, but will add nothing to the stock of general intelligence of financial matters. It may be a question of financial importance to the people—whether or not it would be better to remain ignorant of the act of reading than to read that which may mislead and deceive. The editor of the *Observer* should give the items of gain or loss in detail. The calculation will repay himself.

NET TRUE.—The following sentence from a *Review* editorial we take the first opportunity of declaring untrue in every particular. This is it: "It may not be out of place to call attention to the fact that in one instance, at least (of which the writer is personally cognizant), the Deputy Returning Officer persisted in omitting from the oath administered an important clause of the oath required by law, and has thus rendered himself liable to a penalty of $100." There is not a word of truth in the above statement, and in penning it the writer knew he was penning a falsehood. Is it not too bad that men will forget the moral law, and write and publish what they know to be untrue in every word. Yet so it is in this case. The truth is: Mr. Scott got an oath printed to suit his purposes, and this he put into the hands of men who knew so little that they were incapable of forming a judgment in the matter, (and those men who swear by Scott, Boultbee, and the *Review*), and now say than an important clause was omitted by the Deputy Returning Officer. No clause was omitted that ought not to have been omitted. The omission was in not bestowing more good sense and intelligence on Mr. Scott's scrutineers. By all means collect the $100 from the Deputy Returning Officer who did wrong. Try it.

TOWN COUNCIL.

The Council met on Monday evening. Present,—Messrs. Hamilton, Cahill, Romaine, Peterson, Hopkins, Robertson, Rutherford and Toole. The Mayor being absent, on motion Mr. Dixon was called to the Chair.

A communication was read from J. H. Balther, Esq., offering his services to the Council as Engineer and Architect.—Referred, together with the communications of Thomas Hay and James Bird, each asking for a similar appointment and sent into the Council some time ago to the Committee on Appointments.

Also, a communication from the Township of Douro, enclosing a copy of a Resolution passed by the Township of Douro Council in reference to the fences on the road between Douro and the Town, and asking concurrence by this Council.—Referred to the Street and Bridge Com

Also, a communication from E. C. Hill asking leave to put in a post near the Post Office. Referred to Committee on Streets and Bridges.

Petitions were read from the following parties, asking for repairs on sidewalks.—Referred to Street Committee.—From John Mack and Others, Isaiah Greenain, Orlando Giles, M. O'Brien, Lucius Sherlock, William Hooper.

A Petition from Patrick Conway asking the Council to indemnify him for 3 sheep said to be killed by dogs.—Referred to the Finance Committee.

Petitions from J. Broult, Thomas Deary and Francis Quinn,—severally asking for a Tavern License.—Referred to the License Inspector.

A Return from the Treasurer showing the expenditures for the first half of the year was submitted.

Accounts from Mullins & Reid, $16.87; R. Reading $20.62; Rutherg & Co., $41.87; B. Slater, use of Room, $4.00; J. Stratton, $21.00.—Were ordered to the Finance Committee.

Mr. Romaine submitted a Report of the Committee on Finance recommending the payment of the following accounts. Scott & Edwards, $10.00; W. H. Scott, $126.44; A. C. Peterson, $21.20; J. Sheldon, $21.87; $ [illegible]

$21.20.

The payment of D. H. Smithers for hire of horses for steam engine, &c., your committee think some of the charges rather high. The hire for hauling the engine to Ashburnham should, your committee think, be paid by that Municipality. The sum of $12 for teams for Councillors, your committee deems was paid by the Council. Your committee would recommend that Mr. Smithers receive $8 discount.

Mr. Rutherford, chairman of the Fire Committee also read and moved the report was received.

On motion of Mr. Romaine, seconded by Mr. Robertson,—Dr. Kincaid was re-appointed Physician for the Town at the same salary as last year, $150; medicine to be the same as last year.

On motion of Mr. Robertson,—The Street Inspector was instructed to put down a plank sidewalk in front of Mr. Johnston's buildings on George Street.

On motion of Mr. Toole, seconded by Mr. Rutherford,—Mr. Fowler addressed the Council in reference to the Haron & Quebec Railway.

Moved by Mr. Romaine, seconded by Mr. Patterson,—That the Mayor or Clerk do ascertain from the Commissioners of the Town Trust, what steps have been taken or proposed to be taken to compel Mr. Bradburn to carry out the terms of his lease relative to the building of the Town Hall, and report the answer at the next meeting of this Council.

Moved by Mr. Rutherford, seconded by Mr. Robertson,—That this Council offers a reward of $25 to any person or persons that will give such information as will lead to the conviction of parties who are continually destroying shade trees, and that the clerk be authorized to have bills posted around the Town offering the above reward.—Carried.

On motion of Mr. Toole, seconded by Mr. Hamilton,—The portion of the report of the Fire Committee referring to to hose cart and tanks and bonuses to teams was adopted.

Moved by Mr. Hamilton, seconded by Mr. Toole,—That the Mayor and members of this Council, in connection with several citizens who shall be named by the Mayor, be a committee to investigate the By-law assisting the Huron and Quebec Railway, to report to this Council at its next meeting if possible, and that Mr. Fowler be notified of the time of meeting.

The By Law granting $100,000 to the Huron and Quebec Railway, was read a first time.

The Council then adjourned for two weeks.

NORTH MONAGHAN.

North Monaghan, June 27, 1874

Council met at 11 a.m., all the members present, the Reeve in the chair. Minutes of previous meeting read and signed. A petition signed by Uriah Payne and 8 others, directing the attention of the Council to the dangerous state of the bridge at Payne's on the 13th conl line was received and read. A communication was received J. T. Henthorn, Esq. J.P. enquiring from the Reeve when the Council would meet again as he wished to attend the same to show how he had been treated by the County Treasurer respecting certain lands of his which were sold for taxes.

COMMITTEE REPORT.

The Reeve reported on the part of the Committee to which he was appointed, they had agreed with Mr. Patton for a gravel pit 75 x 50 yards on south west part of lot No. 7 in the 12th con. for a term of 21 years, for $90. On the motion of Mr. Brownscombe, seconded by Mr. Leary, the report of the Committee was adopted.

BY-LAWS.

A By-law consolidating the several By-laws relating to pound-keepers and line fences, etc. was read a second and third time. A By-law to fix the number of persons to be credited to the town of Peterboro for the purpose of determining the population allowance giving to said town on account of that portion of the township of N Monaghan now included within the limits of the town of Peterboro, was finally passed, as well as a By-law to provide for the distribution of the money coming from the Municipal Loan Fund to the Township of N Monaghan and was appropriated as follows:

For building a stone bridge at Carver's $1,000, bridge at Forsters creek $100, bridge at Payne's $100, gravel pits $290, boundary between Smith and Monaghan $50, ditto between N & S Monaghan $50 and $100 for each of the concession lines between those named, making in all the sum of $3290 leaving a balance of $14 exclusive of interest, to the credit of the municipality and

A By-law appointing Mr. Jas. Howden pound keeper in place of Mr. Jas. Brown whose resignation was accepted.

ORDERS ON TREASURER.

Mr. John Patton $45, part of payment for gravel pit.

On the motion of Mr. Leary, the Reeve was authorized to see the lease between Mr. Patton and the Municipality properly executed before handing him the order on the Treasurer.

Councillor Birney gave notice that he would, at the next meeting of the Council, introduce a By-law for the purpose of making all line fences, whether of boards, pickets or other materials, five feet high

On motion of Mr. Robso the Council adjourned to the 14th day of August.—Com.

HALIBURTON.

FROM MINUTES OF MEETING

Mr. Harding, Reeve of Glamorgan, Cardiff, and Monmouth, drew the attention of the Council to the article which appeared in the *Mail* of the 27th ult., with regard to the alleged dissatisfaction in the appointment of the stipendiary magistrate of the new County of Haliburton, and said the statements were incorrect.

After several other members of the Council had spoken to the same effect, it was moved by Mr. Langton, Reeve of Minden, seconded by Mr. Beatty, Reeve of Stanhope,—

That, whereas, some anonymous correspondent of the *Mail* newspaper, writing from the village of Bobcaygeon, has stated certain things with regard to the recently appointed stipendiary magistrate, especially the absurd dissatisfaction of the people of the new County with such appointment; and whereas the said newspaper, in its issues of the 27th inst., has seen fit not only to insert said misrepresentations, but to publish a leading article professedly based on Mr. Fisk,

Resolved, that we, the Council of the Provisional County of Haliburton, declare, as we hereby do, that, prior to the appointment, Mr. Fisk had the recommendation of the several Reeves and other influential gentlemen in the district. That,

The Examiner.

ASSESSMENT.—There was no meeting of the Council on Monday evening: No quorum.

THE BOARD.—There was no meeting of the School Board on Tuesday evening. No quorum.

BOUNDARIES.—There is some talk o proceedings against the Boundaries of Dillan Burnham, who has emigrated to another country.

ORANGEMEN.—The Orange Lodges of this Township will assemble in Keene, on Monday. They are making preparations for a grand display.

YOUNG CANADIAN L. O. L.—A full attendance of the members of the above Lodge is requested at a special meeting on Friday evening next.

MR. JAMES RITCHIE—a resident of Otonabee, aged 84 years, was followed to his last resting place on Tuesday week by a large concourse of people.

PERSONAL.—We invite attention to Dr. D. Parker's card in another column. He has taken up his permanent residence at Lakefield, where he will be found ready to attend to those who may require his advice and skill.

HALIBURTON.—Mr. Peck is Clerk and Treasurer of the new County of Haliburton, Mr. Niven, Reeve of Dysart, etc., is the first Warden. They have now taken up house for themselves, so to speak. Let the old County Council wish the youthful offspring prosperity.

EXCELLENT FARM FOR SALE IN OTONABEE.—Mr. Wm. Fife offers for sale this week his excellent farm, the homestead in the 4th concession of Otonabee. It is a splendid farm, in a good locality for schools and churches, and but 2 miles from Allendale, and ten from the town of Peterboro. Terms, easy.

SUNDAY WITH LIGHTNING.—On Saturday, during the heavy storm, the dwelling of Mr. Isaac Armstrong, of Otonabee, was struck by lightning. The electric discharge entered near the chimney, and in its passage to the earth broke the kitchen stove and made a hole in the floor. A portion of it is passed through the window, taking a portion of the wall with it. Fortunately no serious damage was done.

THE 12TH OF JULY.—This year the 12th will be celebrated on Monday by a visit to Lindsay. We see by large posters that Lindsay expects the brethren from Cobourg, Port Hope and Peterboro, as well as those of the immediate district. If the day should turn out favorable, there will doubtless be a large assemblance of the order, and no doubt a pleasant time. Several of the Lodges will attend religious services in the churches here on Sabbath morning.

Y. M. C. A.—A prayer meeting will be held in the Rooms of the Association, opposite Mathias & Reid's Bookstore, every Sunday morning from 9 to 10 o'clock. All are invited. A meeting will be held in the Rooms every Thursday evening, beginning at 8 o'clock. The first of these meetings will be held on Thursday the 16th instant. Members of the Association, those who wish to become members, and all interested in the work of the Association are requested to attend these meetings.

THE SUNDAY TIMES.—This is the title of a newspaper published in Toronto It is printed on Saturday, and intended for general readers, but, as its name implies, for Sunday reading. In is non-sectarian in its tone, an advocate of temperance, and contains a good deal of news, both religious and secular, but does not claim to be a religious paper. We cannot presume to give the motive of the publisher, but we suppose it is to make money, and provide reading matter for those who would otherwise spend the day at something worse than reading newspapers The paper is cheap, being only a dollar a year.

SEWING MACHINES.—Messrs. Shortly & Haslehurst are very extensively engaged in the Sewing Machine trade. For several years they have been before the public, as formerly T. Donnelly & Co., and we understand that their machines have given every satisfaction to purchasers. After trying all the other machines, they are convinced, and have come to the conclusion that the Osborn and Eliza Howe, are the only two machines that they can confidently and safely guarantee, and therefore only keep the two kinds. We would recommend intending purchasers to call and examine the machines before purchasing elsewhere.

MARRIED.

JARRETT—ROGERS. By the Rev. C. Fish, at the residence of T. Gladman, Esq., on July 8th, W. H. Rogers Esq., of Darlington, to Miss M. J. Jarrett, of Peterborough.

Jeweller, George St.

Valuable Farm for Sale

THE undersigned offers for sale that valuable farm consisting 80 acres, on lot 1, con. 1, Asphodel, the farm is one of the best (if not the best) in the county of Peterboro. There is on the premises a Frame Log House with cellar, Stabling and Sheds, Orchard, also Sheds, Stables and Barns of the best Cedar and three never failing wells. The farm is all cleared but about 7 or 8 acres which are timbered with the best Hardwood and small saplings bush. The farm is also well watered.

For further particulars apply to P. O'DONNELL on the premises, or if by letter to Frankford P.O. or to Belleterre P.O.

June 2nd 1874 22-tfn

PROCLAMATION.

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favourable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRASER, M.D.,
of Manchester, Lancashire, England,
Lecturer on the human eye and ear and their diseases, inventor and patentee of improvements in spectacles.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have without cod the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines must be mixed scientifically in order to result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, and which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; wherever with other preparations nearly all the alcohol is lost in that way, and you get only the smell of Oils which they may contain.

S. N. THOMAS, PERRY, N.Y.
And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.
NOTE.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kennett, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.
Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

HARDING LABEL.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kennett, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

TORONTO, Ont.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kennett, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

"PSYCHOMANCY OR SOUL CHARMING."

How either sex may fascinate and gain the love and affection of any person they choose, instantly. This simple (and harmless) secret, with many others, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c., a queer exciting book. 100,000 sold. Address T. WILLIAM & Co., South Eight st. Philadelphia, Pa.,
October 4, 1873 ly

By Chronic wasting diseases is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism, Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of Soft and bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalizing blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. The treatment of old lingering complaints is necessarily protracted, and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, counting elements of the disease, purifies diseased humors, strengthens nerve, and restores consistent vigor in the surest manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

HISTORICAL ITEMS.

Augustine, the monk who was sent on the sixth century, by Pope Gregory, to convert the Anglo-Saxons, became Archbishop of Canterbury. He was the first of the long line of archiepiscopal dignitaries in Great Britain, of whom the present archbishops is the ninety-fifth.

The thermometer was in use in the beginning of the seventeenth century, but it is not known precisely to whom the honor of the invention is due. A physician of Padua, named Santorio, in his "Commentaries on Aviceuna," in 1626, claims it for himself.

King Charles the First was executed on the 30th January, 1649. Cromwell became Lord Protector on the 16th December, 1653. In the interval the executive power of the State was wielded by the Parliament.

Greenland was discovered, or rather re-discovered, in 1585. The first whale fishery by the English was in Iceland in 1578, and Spitzbergen in 1598.

Paganini, the violinist, made his first professional visit to England in 1831, being then forty-seven years of age. He died at Nice, on the 27th of May, 1840.

Prince Albert, the husband of Queen Victoria, was not a peer, and he enjoyed the title, but not the emoluments of a field-marshal.

The Ex-Emperor of the French was elected after the *coup d'etat* of the 2nd of December, 1851. He was a special constable in London on the 10th of April, 1848.

The late Mr. Peabody's gifts for charitable purposes to London amounted altogether to £550,000—viz: £150,000 in 1862; £150,000 in 1866; in 1868 £100,000; and £150,000 under his will.

The first ambassador from the United States to England was John Adams, presented to the king June 2nd, 1785. The first from England to America was Mr. Hamsond, in 1791.

The only woman whose age, death and burial are recorded on the Bible was Sarah, the wife of Abraham. See Genesis, chapter xxiii.

St. Lucien, supposed to have been a native of Syria, was martyred on the rack in Nicomedia.

Roses were first consecrated as presents from the Pope of Rome in 1526.

The Strand, London, was first built on a 1353.

We copy the following from an exchange which is important if true:—Chronic diarrhoea of long standing, also dysentery and all similar complaints common at this season of the year, can be cured by the use (internally) of Johnson's Anodyne Liniment we know whereof we affirm.

SEASON 1874

DAILY LINE
—TO—
ROCHESTER,

COMMENCING ON OR ABOUT THE 1st of APRIL.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favour able. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England,

Lecturer on the human eye and ear and their diseases, inventor and patentee of improvement in spectacles.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Invercase cases of Scrofulous disease, where the system, seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or use.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and subtle tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, unless may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, *even* when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in due length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pile, Epilepsy, Neuralgia*, and the various *Uterine* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaints. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaint, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Dyspeptic, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally admitted into use, in every country and among all classes, as this mild but efficient purgative. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures many complaints which they and their friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compounding. We have thousands upon thousands of certificates of the remarkable cures of the following complaints, but space will not permit us to publish them. They can be had of the agents below named, and may be examined by those who need a cathartic. Among the complaints which these Pills promptly cure are Dyspepsia, or Indigestion, Liver Complaint, Dysentery, Foul Stomach, Biliousness, Bilious Fevers, Inflammation of the Bowels, Rheumatism, Gout, Neuralgia, Headache, Piles, Worms, Ulcers, Disorders of the Kidneys, and for Children, Sugar-Coated Pills are the best physic to use. They contain no calomel or other mineral, but are purely vegetable and may be taken with perfect safety by any person. They are the cheapest pill for their virtues that can be had, because they are the most reliable. Being sugar-coated, they are pleasant to take, and do not gripe, but operate in the most mild manner on the stomach, liver and bowels, purifying the blood, and imparting tone, energy and health to the whole system. Prepared by

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its former vigor.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selection.
4th. *Because* the system of fitting is on entirely guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Spectacles will best prove their inestimable value.

Choice Poetry.

Just as of Old.

I saw my love in dreams last night
Pass up the sleeping moonlit lands,
The love beams in her dear eyes bright,
A rose-leaf in her rose-leaf hands.
And crowned [illegible]
I fell her soft arms steal and fold,
While close against my heart she crept.
Just as of old.

The [illegible]
I'[illegible] me to the churchyard lone,
There by the maiden's memory led:
I found a head-[illegible]
I bowed me to [illegible]
I wept, and knew [illegible]
Just as of old.

But ever while [illegible]
This comfort [illegible] and [illegible] my care
We two may [illegible] all is done,
Far off in heaven, where all is fair,
And by the light shines, beyond,
Chastened, each stings [illegible] Behold,
Stainless, more pure, but true and fond.
Just as of old.

RECIPROCITY.

FULL TEXT OF THE TREATY.

Washington, June 22.

The official title of the Treaty is as follows:—

"A Treaty for the Reciprocal Regulations of the Commerce and Trade between the United States and Canada, with Provisions for the Canadian Canals, and for their use by the United States Vessels on Terms of Equality with British Vessels."

The President, in transmitting the date of the treaty to the Senate, sent the following message:—

To the Senate of the United States,—The plenipotentiaries of Her Britanic Majesty at Washington, have submitted to the Secretary of State, for my consideration, a draft of a treaty for the reciprocal regulation of the commerce between the United States and Canada, with provisions for the enlargement of the Canadian Canals, and for their use by United States Vessels on terms of equality with British vessels. I transmit herewith a report for the Secretary of State with a copy of the draft thus proposed. I am of the opinion that result beneficially for the United States; it would not only open or enlarge markets for our productions, but it would increase the facilities of transportation from the grain growing States of the West to the seaboard. The proposed draft has many features to commend it to our favorable consideration, but whether it makes all the concessions which could justly be required of Great Britain, or whether it calls for more concessions from the United States than we should yield, I am not prepared to say. Among its provisions are articles proposing to dispense with the arbitration respecting the fisheries, which was provided for by the Treaty of Washinton. In the event of the conclusion and ratification of a treaty, and the passage of all necessary legislation to enforce it, these provisions, as well as other considerations, make it desirable that this subject should receive attention before the close of the present session. I therefore express an earnest wish that the Senate may be able to consider and determine before the adjournment of Congress whether it will give its constitutional concurrence to the conclusion of a treaty with Great Britain for the purposes already named either in such form as is proposed by the British Plenipotentiaris, or in such other more acceptable form as the Senate may prefer,

(Signed) U. S. GRANT.

Washington, June 18, 1874.

The following is the report of the Secretary of State:

DEPARTMENT OF STATE,
WASHINGTON, June 17, 1874.

I have the honor to enclose a copy of the draft of a treaty for the reciprocal regulations of the commerce and trade between the United States and Canada, with provisions for the enlargement of the Canadian canals, and for their use by the United States Vessels on Terms of Equality with British vessels, which the British Plenepotentiaries have proposed to this Government.

(Signed), HAMILTON FISH.

The President—

The following is a complete copy of the Treaty:

Her Majesty the Queen of Great Britain and the President of the United States of America, being desirous of improving the commerce and navigation between their respective territories and people, and more especially between Her Majesty's possessions in North America and the United States, in such manner as to render the same reciprocally beneficial, have respectively named plenepotentiaries to confer and agree thereupon—that is to say: Who, after having communicated to each other their respective full powers found in good and due form, have agreed upon the following articles:

Article 1.—It is agreed by the high contracting parties that in addition to the liberty secured to the United States and Great Britain, signed at London on the 20th day of October, 1818, of taking, curing, and drying fish on certain coasts of the British North American Colonies therein defined, the inhabitants of the United States shall have, in common with the subjects of Her Britannic Majesty, the liberty for the term of years mentioned in Article XIII of this Treaty, to take fish of every kind except shell fish, on the sea coasts and shores, and in the bays, harbours and creeks of the Provinces of Quebec, Nova Scotia, New Brunswick, and Prince Edward Island, and of the several Islands thereto adjacent, without being restricted to any distance from the shore, with permission to land upon the said coast and shore said Islands, and also upon the Magdalen Island, for the purpose of drying their nets and curing their fish, provided that in so doing they do not injure fare with the rights of private property or with British fishermen in the peaceable use of any part of said coast in their occupancy for the same purpose. It is understood that the above mentioned liberty applies solely to the sea fishery, and that salmon fisheries and all other fisheries in rivers and mouths of rivers are hereby reserved exclusively for British fishermen of the United States.

Article 2.—It is agreed by the high contracting parties that British subjects shall have, in common with the citizens of the United States, the liberty for the terms of years mentioned in Article XIII of this treaty, to take fish of every kind except shell fish, on the eastern sea coasts and shores of the United States, north of the 39th parallel of north latitude, and on the shores of the several islands thereunto adjacent, and in the bays, harbors, and creeks of the said sea coast and shore of the United States and of the said Islands, without being restricted to any distance from the shore, with permission to land upon the said coasts of the United States and of the Islands aforesaid for the purpose of drying their nets and fish. Provided, however, that in so doing they do not injure the rights of private property or with fishermen of the United States in the peaceable use of any part of the said coasts in their occupancy for the same purpose. It is understood that the above mentioned liberty applies to the sea fisheries, and that salmon fisheries and all other fisheries in rivers and mouths of rivers are hereby reserved exclusively for fishermen of the United States.

Article 3.—It is agreed that the places designated by the Commissioner appointed under the first article of the Treaty between the United States and Great Britain concluded at Washington on the 5th day of June, 1854, upon the coasts of Her Britannic Majesty's Dominions and the United States as places reserved from the common right of fishing under the preceding Articles. If any question should arise between the Governments of the United States and of Her Britannic Majesty as to the common right of fishing in places not thus designated as reserved, it is agreed that a commission shall be appointed to designate such places, and shall be constituted in the same manner, and have the same powers, duty and authority as the Commission appointed under the said first Article of the Treaty of the 5th of June, 1854.

Article 4.—It is agreed that the articles enumerated in the schedules A B and C hereunto annexed, being the growth, produce, or manufacture of the Dominion of Canada, or of the United States, shall, on their importation from the one country into the other, from the first day of July 1875, to the 30th day of June 1876, both included, pay only two-thirds of the duties payable at the date of this treaty on the importation into such country of such articles respectively; and from the 1st day of July 1876 to the 30th day of June 1877, both included, shall pay only one third of such duties; and on after 1st day of July 1877, for the period of the years mentioned in Article 13 of this Treaty, shall be admitted free of duty into each country respectively; for the term mentioned in article 13 no other or higher duty shall be imposed in the United States upon other articles not enumerated in the said schedule, the growth, produce, or manufacture of the United States, than are respectively imposed upon the like articles, the growth, produce, or manufacture of Great Britain or of any other country.

Schedule A, consisting of the following natural products:—

Animals of all kinds,—Ashes, pot, pearl, and soda.

Bark, Bark extract for tanning purposes, Bathbricks, Breadstuffs of all kinds, Bricks for building, and fire bricks, Broom corn, Burr or grindstones, hewn, wrought, or unwrought, Butter.

PETERBORO', JULY 16th, 1874.

WHO CAUSED THE ROW?

The friends of Mr. Scott have exhibited an undue anxiety to cast the opprobrium of the Ennismore Riot on the friends of Mr. Dumble. That they knew this was false, made but little difference to them. During the hearing of the two cases in the Police Court on Saturday, the odium was cast on the right Party.

Boultbee and H. H. Smith were in Ennismore the whole night previous to the polling day. Their mission can be easily surmised: their pure minds could easily spend a night in pious devotion—we shall not say at the shrine of Bacchus; but perhaps in the outskirts of the grounds surrounding his temple. We will not say they treated freely, but in some way or other a good many were up all night, and showed signs of liquor next morning at an early hour. Nor did Boultbee, the honorable, the pure-minded member for North York, do anything to break up the polling: he was only going around outside among the simple-minded Electors. H. H. Smith, too, was conveniently away for a voter at the time of the row.

Murphy had caused some disturbance as early as about ten o'clock, swearing and causing annoyance in the polling place. He claimed to be Mr. Scott's scrutineer, and since Mr. Dumble's friends freely. About 11 or 11.15 Timothy Twomey (read the evidence) came up to vote, and being suspicioned of having a vote, quarrelling with Boultbee the evening before—at once by hands are clean—Mr. Killan, a friend of Mr. Dumble's, wished him to vote. But Mr. Twomey did not take the oath: instead he jumped through the window, upset the table and ink, assaulted Mr. Killan, "staggered" the Deputy Returning Officer, and, his friends rushing in, caused a general row, which lasted fifteen minutes, as testified by Thomas Telford, Esq. The Poll Clerk, the Reeve of the Township, afraid of his life, cleared out, and the Deputy Returning Officer swears he was afraid of being murdered, and that it was impossible afterwards to record votes in peace. Murphy particularly was furious, having a shovel handle, brandishing it round, and causing general fear and intimidation.

In this state of commotion, when Scott and Boultbee's heads had possession of the room, and had driven the peaceable electors away, Mr. Cavanagh asked the Returning Officer to open the Poll again: but Mr. Scollard swears he was afraid of his life, and knew votes could not be polled for both sides.

Up to this time—11 or 11.15— Mr. Dumble had a majority of five at that place. And this, no doubt, was the cause of the disturbance, which would not have taken place if Messieurs Boultbee and Smith had not been there, as the Electors of Ennismore are just as quiet as those of the other townships if demagogues would remain away. It is well known that the Electors of the township are almost all Roman Catholics. Is it not strange that every row occurring in that township is instigated by Protestant emissaries, or by the whiskey paid for by Protestants? Yet so is the general opinion here.

Twomey bears a good character in the township. It is to be regretted that he allowed himself to be led astray by such men as the member for North York—a renegade Reformer. There are no two opinions that if Boultbee had staid away there would have been no disturbance in Ennismore.

The disgrace of the row, and its consequences, are, therefore, now saddled on the great Liberal-Conservative Party. They commenced the row; they cleared out the Polling place; they caused people to fear least, in their anger, some one might be killed; and they have again brought the West Riding into notoriety and disgrace.

THE ENNISMORE RIOT.

THE DISTURBERS OR THE PEACE IN THE POLICE COURT.

Mr. Patrick Killan brought Timothy Twomey before James Edwards, Esq., J. P., on Saturday, on a charge of assaulting him on the 30th ult., at the polling place in Ennismore. Mr. Dumble appeared for Killan, and Mr. Dennistoun for Twomey.

Mr. Killan sworn. (To Mr. Dumble.) All had come to vote on that day, and most of the people were outside of the polling place, which was in Mr. Mahony's dwelling house. Twomey was outside and came to the window to vote; some one outside said, "swear Twomey;" Twomey answered, "The man who swears me will pay for it here or hereafter." Witness said, "swear him," when he, (Twomey), jumped in through the window and caught witness by the neck and tore his shirt, or some buttons off it. The table the poll clerk wrote on was between the window and witness; it was upset. He caught me, drove me into the corner; could not tell anything more that took place, except that Michael Costello took me by the left hand; Costello was outside at first, but had rushed into the house. Twomey seemed angry when outside; there was great uproar. I saw something over my head, but could not say what it was; (I heard it was a chair,) stooping, I got my hat and ran away. I was afraid I would be murdered, as it looked like nothing else, the way things were flying around. I did not see what became of the poll books or ink bottle; I did not see anything more as I went to O'Dowd's. I believe there was no more polling. I voted for Mr. Dumble; I was acting for Mr. Dumble. Cannot say for whom Twomey would have voted, nor do I know for whom Costello voted. Twomey grabbed me in a rage; I cannot say whether others held Twomey back from me; nor can I say how many were in the room. I don't know that Boultbee was in the room, I did not see him there; he came going round outside. Mr. Edwards was round the place, but I cannot say whether in or out.

Cross-examined by Mr. Dennistoun. The injury I received was the tearing of buttons off my shirt, or bursting of button holes. I knew Twomey would have handled me rougher if he wished, but there was a crowd around. Twomey lives about three miles from me; we have lived on friendly terms hitherto. I was acting for Mr. Dumble; I asked him to be sworn; he then attacked me. I took no part in the matter after that, as I went to O'Dowd's. I did tell Mr. Dumble of Twomey's conduct, and did come to lay information against Twomey, I left home for that purpose; I did not do so the first day as I was told the Returning Officer should do so. Twomey bears a good character in the township.

Thomas Telford, Esq., J. P., sworn. Was present at the Ennismore polling place on the 30th June. There was only one polling place in the township. I was sitting beside the Deputy Returning Officer at the time the row commenced. The table was between the window and the Dep. Ret. Officer. Mr. Twomey came outside to the window to vote. Heard Mr. Killan say, "swear him." Twomey swore by J——s, the man who would swear him would pay for it now or hereafter. Killan said, "swear him," no matter. Twomey then jumped thro' the window, upset the ink, and as the row the table was upset; saw Twomey have Killan by the breast and push him to the corner, the crowd then gathered around and I could tell no more; I stepped where I was. Every one who could, got a chair. I object to strike with if they could. Some chairs were broken, and some I saw raised in the air; it was rough for a while, pretty hot. The Dep. Ret. Officer got out some way, and the Clerk got away with the books. I saw nobody struck. Boultbee was not in at the time. Brownlee was outside, took no part. Twomey struck Killan a heavy blow on the head. Killan was not at the place when the poll was opened.

Mr. Dennistoun. It was pretty late in the day when Twomey voted. The poll opened at 9 o'clock. Twomey voted about 11 o'clock. I think. I staid till the room was empty. I could not say in the confusion who had the chairs: Twomey had none. Scollard, the Ret. Officer, ran away. After it was over, Mr. Scollard went to Boultbee as a lawyer, and asked him what was best to be done. He could give no advice, would say nothing, told him to ask Mr. Smith. Witness then came with Tierney, McGrath, and Scollard, to town. Twomey bears a good character; witness was sorry to see him going astray so far that day.

To Mr. Dumble. There was shoving, and pulling, and pushing; I saw no striking, but during the time no votes were polled. The table was upset. I saw Timothy Cavanagh going round outside.

Cornelius Scollard, sworn. Was Dep. Reg. Officer. I live in Ennismore. I saw Mr. Twomey come to window outside to vote; Mr. Killan told me to swear him. Michael Costello said to Twomey "don't swear"; Costello was the friend of Mr. Scott. I stood up to read the oath to him. He swore a fearful oath that the man who swore him would pay for it now or hereafter. He, Twomey, then jumped through the window and struck witness, and caused me to stagger back. He caught Killan by the collar as he got in. When I recovered I began to look for the books, but the table was upset and everything gone; could not see the poll clerk. Killan and Twomey got outside; I could not see them for the crowd and row through the house. The window was afterwards broken my Twomey; he kicked the table. There was such a row round the place, I was afraid it was not safe to remain there. During the row there was such a jam, and jostling, and hauling, that I could hardly tell what was a doing.

Cross-examined. I remained till the row was over; I could not tell the length of time of row; after it was over I looked at my watch and found it was half-past eleven. During the row I could not tell what was done outside. I saw Boultbee and told him I could not open the poll as the books were gone; he did not advise me what to do. Phelan did ask me to open the poll, and so did Mr. Cavanagh. I swore in no special constables; asked Mr. Telford to do so; he said he could not. I went out but could take no steps to obtain order. Mr. Merrick nor Tierney never told me to go to town; they told me nothing. Mr. Tierney said he would take me when I said I was going. Twomey always bore a good character.

To Mr. Dumble. Jas. Murphy was in the polling place; he was knocking around the house. He has the name of being a bully. Owing to the conduct of Twomey, Murphy and others of that class, I could not have fairly or legally taken votes for both sides. I saw Mr. Cavanagh at Bridgenorth; did not hear him say to Montgomery to "punch Merrick." Murphy did threaten me in the morning. He was swearing and annoying the house; I was trying to quiet him; he was in the room at time of row; he is a voter; he claimed to swear votes who came to vote for Mr. Dumble. I objected to the way he was carrying on; he then struck at me, (this was previous to the row and breaking up of the poll). He, Murphy, was for Mr. Scott. I have voted for Reformers twice, for the other side many times.

To Mr. Dennistoun: I saw Boultbee outside a little before the row; at the time I could not say where he was.

Edward Carew, sworn. Was present at time of the row referred to: saw Twomey come to vote, and heard him challenged by some one inside; Twomey swore "the man who would swear him would pay for it now or hereafter." He jumped through the window; can't say what followed. A party burst the door and rushed in; it was as rough as could be inside. Heard the glass break. Murphy came out with a long handled shovel, and swinging it around broke it over the fence near me. I am persuaded no polling could be done after that, as quiet people would not stay there. No votes could be polled there.

Patrick Crough, sworn. Was present at the row; saw Twomey go through the window and catch Killan. When he jumped through he was angry; saw him kick the table; saw the rush into the house; saw the chairs flying, but could not tell what was being done to any one. It was a rough place. This was the case.

Mr. Dennistoun urged it was a trifling case and simply disposed of, a simple fine nothing more.

Mr. Dumble urged that it was a case of no ordinary nature, a row at a polling place, where men were prevented discharging their duties, and their lives were placed in imminent danger from the conduct of Murphy and Twomey and others; and that Twomey's good character in the past should not shield him from the severest penalty the law could inflict, for getting into the company he did.

Mr. Edwards, during the trial, requested Mr. Hopkins' and Mr. A. Tully, to sit with him. They then heard another case of Wm. Mahony against D. Costello, and also against the same Tim. Twomey for assault and damage to property.

William Mahoney sworn: On the day of the polling saw Twomey and Murphy; had some words with Murphy about his conduct in my house; wanted him to get out; he would not; said he was Mr. Scott's agent. Saw Twomey jump through the window. After this row, when the people were gone, Daniel Costello came in and caught me and pulled me about; Murphy came in; also Tim Twomey and Jack Shanahan; Twomey knocked me off the table and kicked me; my wife saved me, and Mr. Scollard pulled him away from me; Costello pulled me, and Twomey kicked me, and broke the chair and table. The election was over then. This was after the row at the polling place, and breaking it up. There was one before that, earlier, with Murphy; Patrick Brink was there and saw this last row, when Costello pulled me about and Twomey kicked me.

Robert Calvert sworn: Heard them talk, but did not see the fun; saw the chair flying; could not say where it came from. The election might have taken place and witness not see it.

John Shanahan was sworn, but saw no pulling except Twomey pushing Mahoney off the table.

Here Mr. Dennistoun submitted, the assault of Twomey on Mahoney, pulling him off the table, but denied the battery. Mr. Twomey's attorney evidently tried to confuse Mr. Mahoney.

In the first case of Killan against Twomey he was fined $50 and costs; in the second case, Mahoney against Twomey, $2.50 and costs.

The fine upon Costello was dismissed.

Dr. Sangster's Pamphlet.

Through the kindness of a friend at Ottawa, we have received a copy of Dr. Sangster's defence. It consists of thirty-six pages, one-fourth of which are occupied with the letters of "Hastings," already published in the *Mail*. Six pages more are taken up with abuse of the *Globe* and other papers which oppose his candidature, and four pages are filled with opinions of the press favorable to him, or in several cases, rather, unfriendly to the *Globe's* method of attack. His own defence occupies sixteen pages.

The pamphlet places no new information before the parties to whom it is addressed, and its refutation of the charges made by the *Globe* is nothing different from what has appeared in the *Mail* over the signatures of Dr. Sangster and "Hastings."

The alleged cause of the separation is given, viz.: adultery on the part of Mrs. Sangster; but any reader will fail to find it substantiated. It is more likely to have been incompatibility of temper. She may have had a temper not congenial to the Doctor, but he may have had one not at all congenial to her. There are those living in this town who were eye witnesses of Dr. Sangster's flirtations with Miss McCausland, and these, no doubt coming to his wife's ears were not calculated to smooth asperities or make matrimonial life any happier. Nowhere in his pamphlet does he deny those flirtations or lovemakings, which were the talk of the students at the time, and were enlarged upon on their return home. His guilt is too well established to attempt a denial thereof.

That he obtained a divorce in Illinois, may perhaps be admitted, but this in no way relieves him of the charges of paying his addresses to a pupil, while living with his first wife, nor does it relieve him from being largely the cause of his own family troubles, induced by this conduct.

His excuse for not seeking a Canadian divorce is a weak one, viz., "But residing in Canada, it was probable that, after long years and great expense I might have been defeated, not from want of evidence but for the reasons already pointed out. Moreover I wished to avoid the scandal involved," &c.

If Dr. Sangster wished a separation he should have proved in a Court of Law that he was entitled to such separation. This would not have required years, if he had evidence of his wife's guilt. Then he would have had strong palliating circumstances for seeking an easy method of divorce. But the matter of the legality or the illegality of the divorce is a trifle. The question is, did he act properly in his lovemaking with Miss McCausland while living with his first wife? And if he did not act properly then, and this improper intimacy led to his family quarrels, and to separation, and eventually to his marrying his lady—love, can teachers condone this, or palliate it without giving their sanction to conduct that would be culpable and criminal in any other person; and that, if indulged in by one of themselves, would lead to dismissal, and the cancelling of his certificate for life!

This is one of the delicate questions that force themselves on the public for discussion, and when forced in this way, cannot be ignored without injury to the standard of morality in the Dominion; and the vote of the teachers on this question will be received as the index of their morality in reference to free love in Canada. Parents and Trustees, too, will be able to judge of their sentiments by this, and will form *their* own opinions.

Not a few are led away by the appeals of the Doctor for sympathy against the attacks of the *Globe*, and some look upon it as a political question, requiring their votes in order to check-mate George Brown. Neither of these views should have any weight with the teachers. The charges are true or false—the defence is convincing or the contrary. If the charges are false, Sangster should be sustained; if they are true, he should be condemned. Any married man who pays his addresses to a young lady, or to a married lady, with a view to gain her affections so as to replace his lawful wife, or with a view to estrange a woman's affection's from her husband, cannot be too severely condemned; and where there is no adequate penalty, it cannot be wondered at when men take the life of the seducer.

The teachers of Canadian youth should not be men whose moral sensibilities are so dull that they cannot perceive the evil tendencies of such conduct as is charged against Dr. Sangster. Nor should they consider this question as being Sangster *versus* Smith, or Smith *versus* Sangster, but one that concerns themselves, one that concerns the country, one that is largely to determine their own sense of moral rectitude, and which is to have an influence in the future as well as in the present. It will establish a precedent to which, when they retire, if perchance they find themselves possessed of strong affinities for some other person than their lawful wife. If the plea of incompatibility of temper, or taking "intoxicating drinks," is to be sufficient excuse to put away one wife and marry another, then good-bye to all the restraints of married life. But teachers surely will not be found to herald in ideas so repugnant to reason and morality and so much at variance with the prevailing high moral feeling of the Canadian people.

The Storm in Madoc.

The most violent thunder storm that ever visited Madoc, to the memory of the oldest settlers, passed over the village in a north-easterly direction on Saturday about 11 o'clock, a. m., carrying consternation to both man and beast.

Peal after peal followed in quick succession, and hail after hail fell to the earth, giving the village for a time a doomed appearance. Horses broke loose from their fastenings, and men hurried to their homes from their work shops and places of business to quell the fears of their affrighted families. Within an area of half a mile traces of the thunder bolts were manifest, in shattered trees and splintered telegraph poles.

During the storm a bolt struck the steeple of the M. E. Church, completely carrying away the South Side of it; descending to the body of the church, it followed another course of pipes for about the length of the church, when it left the pipes, first leaving a wire that attached to the window sashes, darting through the side of the house, carrying away the window and sashes. A portion of the floor of the church was also torn up, and the damage to the house amounted. A bolt fell in the cemetery, tearing up several posts to which chains were attached.

TOWN COUNCIL.

The following statement of the expenditure in the Town since January last, was presented at last week.

Where the sum of eighteen hundred dollars in the item for Streets and Bridges; already, Mr. Hilliard's account for lumber is about, if not over $1,800, while it has been put down at less than $600.31, an error of over $900. Mr. Edwards not being aware of the true amount when making his statement. This, with other unsettled accounts, will make Expenditure to this date $20,000.

Statement of Expenditures of the Town from January 1st to July, 1874; made by Mr. Edwards at last meeting of Council.

Assessments	$ 36 66
Charities	624 00
Commissioners	1540 00
Fire	276 18
Law Expenses	168 00
Licenses	1 50
Locks Bridge	101 50
Miscellaneous	574 61
Otonabee Bridge	1 63
Police Court	22 50
Printing & Stationery	179 20
Salaries	2780 00
Streets & Bridges (this should be $3,000 at the date of report)	2483 25
Schools	4000 35
Special grants of Council	600 00

Demand not yet paid	696 31
Total paid on account of 1874	$12271 10

REPORT OF FIRE COMMITTEE

In regard to the tanks; they have been put in thorough repair, the one near the Presbyterian Church, and also the one near the Convent for the sum of $620. With regard to the new tank proposed to be made near the residence of Miss Burnham, Esq., your committee have received the following tenders: From James Hughes for one 20 x 20 and 15 feet deep for $190, from John Henry for one 20 x 15 and 12 feet in the clear for $130, both warranted for ten years, your committee recommend that the tender of John Henry be accepted.

In regard to the Hose Tower, your committee have endeavoured to find out the best and most convenient place, and in their opinion the Lot known as Sharp's powder magazine on the east side of Brock street, is the most desirable, the Lot is 24 feet front by 80 feet deep.

Your committee also received tenders for making a four wheeled hose cart from Lockhart & Chown, $260; Douglass & Logan, $250; Fitzgerald & Sherlock, $400, and they therefore recommended the acceptance of the tenders of Messrs Douglass & Logan.

Your committee also recommend a bonus of $5, to be given to any team that shall be at a fire first to do service, and in any case of dispute, the Engineer shall decide. All of which is respectfully submitted.

(Signed,)
A. RUTHERFORD,
Chairman Fire Com.

HALL'S BRIDGE.

The Examination of the school here took place on Monday. The excellent teacher, Miss E. Beckett, had everything in the best of order. The school has been in a very progressive state ever since the Trustees were fortunate enough to secure her services.

On Monday the parents and friends in goodly number were at the school to witness the exercises and advancement of the children. Miss Beckett examined several of the classes and the answers were prompt and accurate. Miss Orr, Teacher in S. S. No. 16, Smith, also examined some of the classes, the children acquitted themselves to the general satisfaction of all present. They also gave several recitations which reflected great credit on Miss B. for the care she had taken in training them. Several appropriate pieces were sung by the whole school, showing that music which cheers and refines, and is not forgotten even out here.

Two of the Trustees were present during the whole proceedings, manifesting a lively interest in the welfare of the youths of this village. Mr. H. Graham spoke of the favorable state of the school and of the excellent system of teaching pursued by their teacher. At the close he gave the whole school a holiday, expressing a wish that both teacher and pupils might be permitted to enjoy the vacation and return invigorated to the work again.

Miss Beckett has succeeded in giving general satisfaction to the whole section, and is much esteemed by the pupils.—Com.

TWO OLD SETTLERS GONE.

On Friday last, Mr. John Darling, of the 4th line, Smith, departed this life, in the 73rd year of his age. Deceased was a native of Berwickshire, Scotland. He was born in the year 1801, and emigrated to Canada, with his wife, in the year 1831. He settled in the Township of Smith, where he resided till his decease. He saw 43 years of Canadian life—roughed it in the early settlement of this County and country, and lived long enough to see the once wilderness become a fruitful field, he having succeeded as all honest, industrious men who came to Canada then have done, in making for himself a comfortable home. Mr. Darling was a consistent and Right Spirited but, in industrious and honest citizen, and like most of his countrymen warmly attached to the Presbyterian Church, of which he was a member since its first establishment in this County. Two of his brothers, Robert and William, came out to Canada in 1831, and are among those who will mourn his decease. He had a family of four sons and nine daughters, all of whom still survive him, except one son, who died young. His remains were interred in the Little Lake Cemetery on Sunday last, followed by a very large cortege of relatives and neighbors.

Mr. John Bell, also of Smith, died suddenly on Friday. Mr. Bell had been in his usual health on the day of the nomination for this Riding and succeeded Mr. Scott's resignation. Between that and the Polling day he had been slightly unwell, but was well enough to go to the Polling and considered in that state, complaining a little but not complaining himself seriously ill. We are informed that he was in his garden, walking round about 9 o'clock, but shortly after returning to the house he became very ill and died between that and 12 o'clock, having twenty-four hours from the time family above his decease. Mr. Bell came to Smith when young, his father and family settling there about the same time. He was a man of honesty of purpose, was much respected in his neighborhood and passed away in the enjoyment of his reason to the last, and in full enjoyment of strong hope of reconciliation with through faith in the Saviour of the world. In life he was warmly attached to the Methodist Church, and one of his sons is a minister of it.

Miss Whitecombe on Dr. Sangster at the County of Perth Teachers' Association:

Miss Whitecombe remarked that it had been asked by a previous speaker, what was the Normal School before Sangster' time? and the same gentleman argued that it was never heard of! Very likely, said Miss Whitecombe, it was never heard of by the gentleman, and doubtless there were many other things he never heard of—things that lent none of their ornamentancy by his ignorance of them. But are "Robertson" and "Ormiston," names to bear such a reflection? The Normal School was more efficiently conducted, a more thorough and intellectual system was pursued, before than after Dr. Sangster's advent. It was Sangster that introduced that cramming, superficial system that is so much disapproved of by every true educator, and has done such incalculable injury to the schools of Canada. The records of the whole Dominion have been more or less influenced by those of Ontario. The opinion that Sangster is qualified for the proposed office in every respect except that of morality, has been taken up without due consideration. That opinion is chiefly based the institutes he held last year. The lectures then delivered are wholly embodied in "Currie's Lectures on Education," and he has never shown any high order of talent. A cultivated memory and an unbounded self-assurance, form his chief recommendations to favor; in judgement and common sense, he is deficient. It is the province of the Council of Public Instruction to select literature, including text books. Sangster has for many years exercised considerable influence in this important department, and never to the satisfaction of the public. His own books never rose above mediocrity, and they are now, notwithstanding all the influence of the Education Office in forcing them on the schools of the Province, cast aside, by common consent, as useless. An author's thoughts cannot rise higher than his works; they are often lower, for writings often abound in borrowed thoughts, take from Sangster his borrowed ideas and you have little left. To represent the teachers of the Province there should be the highest order of talent. Erroneous principles of religious faith have undoubtedly led to the unfortunate event in Dr. Sangster's outward history so commented on. Not long since he apparently acknowledged no God superior to nature, and Miss Whitecombe well remembered remarks of this kind uttered by him, and of his reading at the close of a term a highly wrought apostrophe giving Divine attributes to the sun, and how her heart thrilled with horror at he recommended the teachers in training to obtain and study the book he read from. Teachers should well weigh the import of their action on this occasion. Not the present generation alone, but posterity, will reap the consequences of their legislation. They must either, to the reach of the county, declare their approval or endorsement of a course of scandalous immorality, and send down their names in his history branded with a dark stigma, or by a high act of censure and condemnation, maintain unsullied their reputation, and wipe out forever from public estimation the unworthy name of him who possesses to the suffrages of the Public School Teachers of Ontario.

The New Members of the Cabinet.

The vacancies in the Cabinet have been arranged by the swearing in of Messieurs Fournier and Geoffrion to the offices respectively of Minister of Justice and Minister of Inland Revenue. The honourable Telesphore Fournier, who is thus transferred from the Department of Inland Revenue to one involving greater labor and greater responsibility, is a gentleman in every way fitted for the important portfolio which he has assumed. Although his Parliamentary experience is not very extended, he has long been identified with political affairs in the Province of Quebec, as an active and influential politician of the Liberal party; and as a member of the Ministry, and Leader of the French section of the Liberal party, he has already given proof of a ripe and matured judgment, and a high order of abilities. His qualifications for the office of Minister of Justice are higher than would attach to mere political experience. As a sound and able lawyer, he ranks at the head of the bar of his native Province, and has a reputation not inferior in Quebec to that held by Mr. Blake or Mr. Hilliard Cameron in Ontario. He was called to the Bar in 1856, and has been a Queen's Counsel since 1863. The respect and confidence reposed in him by the Bar of Quebec may be instanced by the fact that he has had the honor of being *Batonnier* of the Quebec Bar, and President of the General Council of the Bar of the same Province. As Administrator of the Department of Justice, his high talent, and extensive experience, warrant us in predicting for him an eminence in that capacity, which will make him a fit successor of the honorable Mr. Dorion and Sir John Macdonald.

Honorable Felix Geoffrion, the new Minister of Inland Revenue, will also prove a decided acquisition to the Government, while his long

The Examiner.

MR. DUNBAR'S Committee, will meet in the Committee rooms on Friday Evening at 8 o'clock, a full meeting is requested as important business will be transacted. By order of the Chairman,

GOLDWIN SMITH has returned to Toronto, where he intends to take up his permanent residence.

LORD DUFFERIN is expected in Toronto to-day. To-morrow he may go to Orillia, thence to Lake Superior.

MR. R. CUNNINGHAM, M. P., for Marquette, Manitoba, is dead. He was a Scotchman and proprietor of the *Manitoban*.

THE STORM.—The storm of Wednesday did considerable damage in the County of Hastings, to houses, churches, cattle, etc. Another storm like it is not wished for.

THE Teachers of South York have elected a Candidate to represent them. They are opposed to Dr. Sangster's candidature for the Council of Public Instruction.

THE WHISTLEWING will give moonlight excursions on Friday and Saturday evenings, to Lake Ontario, leaving English's wharf at 8 each evening and Ashburnham at 8.30 p.m.

THE Scott, Southbee, Smith spread last night was finis. Prepared for 20; 19 sat down. Did they spend the last plaster on the election? What's up? Only 19 at the supper.

CHICAGO had a second great conflagration on Tuesday. It is nearly as large in extent as the first one, but the loss to the Insurance Companies is not equal to what it was before.

THE STREETS AND SIDE WALKS.—Already over three thousand dollars have been expended this season on our streets, bridges and side walks, and over $19,000 have been paid away for all purposes since January.

NORWOOD.—At the late examination of the Norwood School for promotion to the High School three candidates passed: eleven failed. We did not learn the source of failure.—The cause of failure here was chiefly in geography.

SUICIDE.—John Brillinger, an old man of 82 years, residing on the 6th concession of Whitchurch, committed suicide last Friday by hanging himself in the smoke house while the family were absent from home.

CHANGES AND SENTIMENTS.—The Rev. Mr. Cassnelly, of the Wesleyan Methodist Church, has gone over to the Episcopal Church, and will be stationed in London, Ontario. Itinerancy does not suit him in advanced life. It did very well to commence life with.

HURON AND QUEBEC R.R.—There was a meeting yesterday evening to fix the conditions for the By-law granting $100,000 to this road. We expect they will be stringent enough to protect the Town and secure the road as soon as possible.

THE BEECHER-TILTON investigation is still going on but nothing definite has been revealed yet. Tilton it is thought is laboring under strange hallucinations. Mrs. Tilton has been before the committee and denies the statements of her husband.

EAST ELGIN.—Mr. Collin McDougall, a native of the County, has been chosen as a Reform Candidate in the place of the late Mr. Wm. Harvey. The greatest unanimity prevails in the Riding, and his election is sure. It comes off on the 25th of August.

THE TREATY.—The New York *Herald* says: "All the provisions of the Treaty of Washington are now in full force, the Legislature of Newfoundland having assented to the sections relating to the fisheries, and the President having made his proclamation to that effect. This must refer to that trade only.

NEW DOMINION MONTHLY.—The July number has been received. This deservedly popular serial ought to be in every dwelling in the Dominion. The reading matter is of a highly moral tone; the selections are always well made, and the whole tone of this excellent periodical is such as to recommend it to the heads of families.

LINDSAY.—The lightning, during the late storm at Lindsay, struck a horse in a buggy in a funeral procession, and killed the animal, without seriously affecting the two gentlemen in the buggy. The noise caused considerable confusion in the procession, but no other injury. The gentlemen must have felt the narrowness of their escape.

SCOTT'S Saw Mill, Harvey, was struck by the lightning during the late storm, no harm done save frightening the men. The Bobcaygeon *Independent* says:—"A man named McChesney was struck down by the lightning, his body twisted in all shapes, and his face distorted and disfigured—yet he recovered. The reporter must have been in a dazed state while witnessing this scene.

HORTICULTURAL.—The Horticultural Show was held yesterday in the Music Hall. The number of articles exhibited were limited. Very few appeared to take any interest in it. What was shown was very good. Some very fine light and dark Brahmas were shown by Mr. John McClelland. The other exhibitors we could not learn on going to press. If new life is not got into the membership it will soon run to the ground.

SAD AFFAIR.—On Friday last the house tenanted by Mrs. Doyle, in Shannonville, took fire from the cook stove, says an eastern exchange. At the time of the accident there was no one present but an aged blind woman, named Mrs. O'Neil, who smelled the smoke, and attempted to leave the premises by the back entrance. The flames drove her back, and she became distracted, and being unable to find her way out, was almost burned to death before she was rescued. She is still living, but is not expected to recover. The building and contents were entirely consumed. Mrs. Doyle's son lost $55 in money. No insurance.

NORTH YORK.—The Newmarket *Era*, after referring to our remarks on the late row in Hardcastle says:—"From which we learn that the member for North York played a conspicuous part in breaking up a polling booth in a sub-division where a large majority would have been polled for the reform nominee. We are more than surprised at this, especially in the light of recent events—one would have fancied he had gained sufficient notoriety without again calling public attention to himself. Mr. Rosebrugh appears to have gone over, body and soul, to the Conservative party, and we wish them joy of his company. In view of all that has recently transpired this Riding would fain rid itself of its connection a representative, and the electors long for the opportunity to mark their disapprobation of his conduct.

THE BATTLE OF THE BOYNE, or, rather, the anniversary of it, was celebrated here on [illegible] Square on Tuesday evening, the first anniversary of [illegible] since the [illegible] a mighty [illegible] thing, but when a strong fire was got up, the operator could not get near enough to apply his machines without receiving himself. The fire [illegible] when the fire is breaking out, but very few fires are seen when starting, or being started. It seem in time a pail of water might effectually extinguish most fires. In their advanced stage the extinguisher would be useless.

THE Young' Lodge.—The [illegible] for 1874 are all printed, and can be seen at the office of the Township Clerk, or obtained from the Reeves. Now is the time to have them corrected if they require correction. By application to the Judge voters can still be put on if they are entitled to be put on, or taken off, if illegally on. This should be seen to in all the Townships immediately, so that correct Lists may be secured for the general election, and let this be done without reference to Party. It is a purely legal act that the people want—not a list for a Party.

SIDNEY SMITH OF COBOURG.—This gentleman has resigned being Inspector of Registries, with a view to re-entering political life in the Ontario Government if he can get elected. If he had resigned three years ago, before [illegible] County in a [illegible] would have saved the County $1,000, as the money wanted on the new building is a dead loss, all through the stubbornness of the Inspector. $400 would have made the old office a better and more suitable building than the new one is. If the public had thought he [illegible] pay him to remain at home.

THE trustees of the infant Sir Alleyn Tichborne have asked Parliament to authorize them to mortgage the estate in order to raise the money which the Orton trials and other proceedings which began in Chancery and ended with the nonsuit of the claimant in the Court of Common Pleas. The amount of these costs are £21,000, and they will burden the estate for many long years to come. The cost of the criminal prosecution, which the Government has paid, was £55,000, so that it has cost £147,206, or $736,000 to the end of twelve months in the case which is now bearing the trade of a tailor at Millbank Prison.

THE [illegible] Chronicle says [illegible] Cannington says [illegible] following paragraph:—"The actual total cost of the loan to the Dominion of Canada equivilant to an annual charge of $4,67 32 per centum on the par value—or say, a fraction over four and a half per cent. At the time the loan was issued Canada unguaranteed Fives per Cents were quoted at 109½ or, less July dividends 107. A five per cent. loan at a premium of seven is equal to an annual interest of $4,67 per cent. Therefore, that Mr. Cartwright succeeded in floating the new loan at a charge equal to fifteen cents on every hundred dollars less than existing securities of the same class. This represents a saving on the total amount of the loan ($19,600,000) of $26,500 per annum; or on the thirty years the loan has to run of $382,000. That is the trifling sum saved to the country by a gentleman who was alleged to have destroyed Canada's credit and to be a mere bungler in finance.

THE GLENFORD SISTERS.—This Troupe gave an entertainment in the Music Hall on Tuesday evening. The House was a very good one, and the entertainment dramatic, surpassing anything appearing in Peterboro for some time. They have exhibited in the cities and towns eastward and are very highly spoken of. The Ottawa "Free Press" says—"They are just the right class for the profession, being desirous to elevate the standard of public amusements. No innovations are allowed to be introduced, no pandering to the tastes of a sordid and vulgar few." The Ottawa "Times also in reporting their appearance in that city says—"The whole melodrama was well received and well acted, the two Misses Glenford being called before the curtain. Locustin's dress, colour, and delivery evinced a complete knowledge of the character assumed, and a treat was afforded to our citizens which is seldom offered." This troupe will again appear in the Music Hall on Thursday, Friday and Saturday evenings of this week, when all who wish may be sure to have a pleasant evening.

P. T. BARNUM'S GREAT TRAVELLING WORLD'S FAIR AND INTERNATION AMUSEMENT EXPOSITION.—Although this stupendous amusement combination is to patch its name of canvas colleges for the first time in Peterboro' on Monday, July 27, its national fame has given it the most favorable of local introductions everywhere, and there are hundreds, many of our readers, who, having seen it elsewhere, are prepared to unqualifiedly indorse the assertion that it is really ahead of all other shows, and entitled to a veritable World's Fair.

When this gigantic [illegible] was first put upon the road, the managers of shows previously considered first class in proportions, jeered at it as a madman's experiment, and a crazy investment on the old-rut order of things, which could never be made to pay a little of the running expenses, and was certain to break in pieces from its unwieldy weight, and fall in ponderous, irretrievable ruin upon its projector's enterprising head. The result—even far beyond Mr. Barnum's own most sanguine anticipations—is too well known to require comment. There was a method in his madness, utterly confounding the dismal sawdust prophets. His lunacy was contagious, and upon began to set the whole world wild. Citing millions congregated from all sections to view the almost superhuman results of this crazy curiosity seeker's managerial efforts; and his gold-reaping and speculating friends [illegible] with the cultivating sentiment, [illegible] the grave—moon struck, like all the rest—unanimously pronounce [illegible] altogether too multitudinous for description. In the words of Coleridge's priest,—"Whom all the world is apt to revere than sentence to be mine;" and so, when the 1,000 men and horses, 100,000 carnival curiosities, 1,000 rare animals, birds reptiles, and superb processions of "The World's Show" [illegible] this community, and [illegible] as well calmly prepare themselves for an epidemic attack of emotional insanity, which will culminate in a visit to the vast city of twenty acres of canvas pavilions. So put your house in order before [illegible] to go crazy on the date above named over P. T. Barnum's largest and eminently successful efforts to put himself a full century ahead of all other showmen, and exhibit a veritable World's Fair.

MARRIED.

GRIMES—LAKE—On the 15th instant, at the residence of H. Butler, Esq., Dereham Centre, by the Rev. W. J. Smith, Mr. J. Grimes, of Penetanguishene, to Miss Jane, youngest daughter of Mr. Lake, of Dereham.

DEVINEY—BOYD—At the Wesleyan Parsonage, Peterboro', by the Rev. C. Fish, on the 13th inst., Mr. Samuel Devine, to Miss Martha B Boyd both of Haldimand.

[illegible]—[illegible]—At the residence of the bride's father, on the 15th inst., by the Rev. W. J. Smith, Mr. [illegible] to Miss Jane, youngest daughter of Mr. Lake, of Dereham.

DIED.

LAWLIN—At Peterborough, on the 12th inst., Lora youngest daughter of T. Lawlin.

O'CONNELL—At Chemainus on the 16th instant, Timothy O'Connell, aged 69 years.

SIMPSON—At New Westminster, B.C., on the 24th ultimo, James Simpson, youngest son of the late Mr. Wm Simpson of the township of Smith, in the 24th year of his age. Deceased went to British Columbia about 12 years ago.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgment of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportion of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results in many cases where all other remedies fail. Where your applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the smell of Oils which they may contain.

S. N. THOMAS, PERLE, N.Y.
And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.
NOTE.—*Eclectric*—Selected and Electrised.
Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Periodical Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will effect a sure when all other means have failed; and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpasses in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last supersceding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
TORONTO, Ont.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

"PSYCHOMANCY OR SOUL CHARMING."

How either sex may mamate and gain the love and affection of any person they choose, instantly. This simple means is within the reach of all, and any one, by reading it, may become fascinated themselves. Sent by mail, for 50 cents, together with a Marriage Guide, Egyptian Oracle, Dream Book, to Lovers, &c. A queer combination. 100,000 sold. Address T. WILLIAM & Co., South Eighth st. Philadelphia, Pa.
October 4, 1873 40-tf

Dr Chronic wanting disease is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism, Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of Sore and bone, Mercury in the system clear. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalizing blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. No treatment of old lingering complaints is successfully protracted, and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containing elements of the tissues, repairs diseased bone, muscle, and nerve, and restores constitutional vigor in the same manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

BEARINE

July 6 1874.

Select Poetry.

A RARE SPECIMEN.

The following is probably the most remarkable specimen of alliteration extant. Any one who has written an acrostic, and who has felt the embarrassment of being confined to particular initial letters, can appreciate the difficulty encountered by [illegible] on, where the whole [illegible] word in its line [illegible]

An Austrian army awfully arrayed,
Boldly by battle[illegible]
Cannot commandoes [illegible]
Dealing destruction's [illegible]
Every endeavor ev[illegible]
Far famed, for fortune [illegible]
Generals 'gainst [illegible] grant God,
How heaven Heavens [illegible]
Infuriate—[illegible]
Kinsmen kill [illegible]
Labor low [illegible]
Men march [illegible] and shield, 'mid mere-
dorous [illegible]
Now many numbers notice naught,
Of outward slaughter, opposing oaths,
Poor patriots, pitifully pushboard, partly prayed,
Quite quaking quickly quarter, quarter quest,
Reason returns, religion's right redounds,
Sewerrow stops, sigh, song, slowly sounds,
Treue to the Tyne patchwork to Jim Irish!
Unjust, averted, unprovided Ulrique,
Vanish vain victory, vanish victory Vim!
Why wish we warfare, whenever welcome were
Xerxes, Ximenes, Xanthrel, Xavier?
Yield, ye youth's! ye yeomen, yield your veil!
Zeno's, Zarpater's, Zoroaster's zeal,
And all attracting—against purse appeal.

ODDS AND ENDS.

Let your great motto be "Liberty or Death," and if it comes to the pinch, take the most of it in liberty.

An Indiana woman held a burglar by the whiskers until her husband came home. Burglars should shave often.

While witnessing a game of base ball out West, a boy was struck on the head, the ball coming out of his mouth.

Since the new-fangled buckles came in vogue, it is extraordinary how door-plates in the rural districts have disappeared.

Mrs. Partington will not allow Ike to play the guitar. She says he had it once when he was a child, and it nearly killed him.

A Western woman complains that since her husband joined the Patrons of Husbandry he has town nothing but wild oats.

A physician writes, asking the renewal of a note, and says: "We are in a horrible crisis—there is not a sick man in the district."

Ask a St. Louis man about Chicago and he will admit there is such a place as Illinois, but will add: "It is about all mortgaged to Boston."

Taking advantage of it. A "Royalist" advertises in the Paris papers for the loan of 3,000 francs, and offers the security of his "word of honor."

"What a delightful sensation," says Jeems, "to be cremated in the city gas works, and have your sweetheart exclaim, in turning on the gas, 'He was never brilliant before.'"

The Russians have found a lake, and all the San Francisco people are excited about it. We always knew there was gold there. The Russians got seven millions of it.

A lady reporter, on sending a report of an agricultural fair to her paper, wrote of a lot of young pigs: "They look to sweet to live a minute."

A Burlington, Iowa, man bought a light axe, because his wife was sick and could'nt chop very well with a heavy one.

Diogenes hunted in the daytime for an honest man, with a lantern. If he had lived in these times, says Josh Billing, he would have needed the head light of a locomotive.

A French lady, hearing that a tunnel cost five thousand francs a yard, importuned her husband to buy her a dress of that material.

A New York merchant absent-mindedly copied a love-letter to his "hearts idol" in the letter book of the firm before reading it.

It is good ground for divorce in St Louis if a wife finds one hundred and thirteen love-letters from a red-headed woman in her husbands pocket.

"I tell you," said a Wisconsin man to a neighbor next day after burying his wife, "when I came to get into bed and lay, there, and not hear Lucinda jawing around for an hour and a half, it just made me feel as if I'd moved into a strange country."

A Yale student has written a twelve verse poem, entitled, "We kissed each other by the sea." "Well, what of it, anyhow?" asks a Western journalist, "the seaside is no better for such practices than any other locality. In fact, we have put in some very sweet work of that kind on the tow path of a canal in our time, but did not say anything about it in print."

And could anybody, you ask, be so lost to all sense of honor as to rob a newspaper office. Well, it seems so. Here's the Pembroke "Standard's" place been plundered by burglars, who stole the cash box, containing money to the amount of eight dollars. Spell it out, and gaze upon it! Eight dollars in a printing office! They must have had a Government contract for advertising. Goodness gracious!—eight dollars!!—gracious goodness!

A fellow who was in the habit of getting drunk whenever he went to town, in returning home one day fell from his horse and was as quiet as though dead. A buzzard spied him, flew, soared and reeled, and lighting near, hopped up and picked his nose, which aroused the fellow a little. The bird stepped up and struck him again; this brought one eye open, and as he realized that the bird thought he was dead, he wreathed his lips with drunken scorn, and looking the bird square in the face, said: "You needn't be so darned smart: I am not as dead as you think I am!"

A good joke is told of Horne Tooke, whom the Tories in the English House of Commons thought to crush, by imposing upon him the humiliating task of begging the House's pardon on his knees. Tooke went on his knees, begged pardon for the offensive expression he had used, but, on rising up, he knocked the dust off his knees, and exclaimed, loud enough to be heard by the whole House, "It's a dirty house after all!" Roars of laughter followed this exclamation, and the Tories saw clearly enough that they had failed in the object which they had in view.

Mr. Charles Kerr, formerly king's printer of Scotland, was a man of somewhat [illegible] character. Finding that the king's printer of former days had been in the habit of wearing court clothes, he determined, after receiving his knighthood, to revive that fashion, and accordingly appeared in the streets of Edinburgh, very much to the surprise of his acquaintances, in a gay suit of scarlet, with the proper appendages of a dress sword, bag, cane, etc. A friend at length ventured to remonstrate with him against the [illegible] of [illegible] which exhibited the wearer in the character of a [illegible] and rendered him the wonder and ridicule of the public. "Man," said Kerr, over his shoulder, "I like to vex the public."

E. E. BOWIE.

Peterborough, April 9th, 1874. 15-tf.

DOMESTIC.

BRIGHTENING TIN-WARE.—The ashes of either anthracite or bituminous coal, sifted through muslin, or one of those small sieves which have a wire gauze, like a miller's reviner, and rubbed over the palpable powder, which, [illegible] dry with a cloth, gives a beautiful polish to tinned articles. Powdered chalk applied dry is also good. A neighbor, whose tin is always very bright, tells me she rubs it with nothing but a piece of old flannel which is thrown into the weekly wash to make it fresh for another week's burnishing. Last, and I think most convenient of all, is a piece of newspaper, which, with brisk rubbing, cleanses and polishes most admirably.

TO STIFFEN LINEN.—Such articles as collars, cuffs, etc., which require to be made very stiff, should be starched in the following way: Mix a tablespoonful of starch with enough cold water to make it smooth, then turn on enough boiling water, and boil it ten minutes; then add a bit of white wax the size of a 3-cent piece, and a teaspoonful of alcohol. The spirit is to increase the stiffness and help to retain it. The wax is to increase the March from sticking to the iron. If the flat-iron still sticks to the cloth, rub hard soap gently over the bottom of the iron. Put the collars, cuffs, etc., into a tin pan and place in a warm spot by a stove or range, to become dry before putting away.

About the Comet.

Or is it *the* Comet? Is it not two or perhaps three comets? From the recent researches of the savans among astronomical records, it now seems very doubtful whether this is Coggia's comet after all. Several astronomers writing to the morning papers declare that this must be an entirely different comet from that discovered by Professor Coggia, at Marseilles, on the 17 of April. One of them says that, from computations made of the elements of that comets motion, its must have passed its perihelion (point nearest to the sun) on the 20th instant, and that it is now rapidly receding from earth and sun. Mr. Henry Parkhurst, who is a diligent and accomplished astronomer, writes as follows:

From my own observations of June 12 and 21, I have combated its orbit anew, and have reached the following conclusions:—It will pass its perihelion about July 8, at a distance from the sun of about 60,000,000 miles. On August 3rd, when, according to the second orbit, it was to be the brightest, the moon will fortunately be out of the way; but unfortunately the sun will be on the way so that the comet cannot be seen in this hemisphere; and instead of being near Deneb[illegible], it will be in Argo Navia. But, fortunately again, it reaches its maximum brightness a fortnight earlier. On July 16th, it will be a little above Castor and Pollux, setting soon after sunset; and with the new moon above it towards the south. It will thus be about nine times as bright as at the present, computing its brightness from the position of the nucleus; but the tail will have swept around so near us that it will undoubtedly far exceed that. The comet is now easily visible in the moonlight with a small opera glass, and, after the moon sets with the naked eye. Immediately after the full moon it will be easily visible to the naked eye in the north-west, below the Dipper; and the time of its maximum brightness will be about July 16th, depending chiefly on the length of the tail at the time it sweeps by us across the ecliptic. In any event, within a few days after that, the comet and its tail will both have passed below the horizon.

Spectrum analysis has already been applied to the comet, and the lines of carbon detected. This agrees with spectroscopic observations of other comets. From these it was inferred that comets (at least their tails) are composed of some form of carbon attenuated in an inconceivable degree—so much so that one professor of astronomy declared that in his opinion the whole substance of the tail of a comet 90,000,000 of miles in length could be compressed into about ten pounds of carbon such as we know it, in the form of charcoal and coke.

The instructions for finding the comet are as follows: At about nine or ten o'clock the Dipper is seen within the handle in the direction from the horizon. The two lower stars in the bowl of the Dipper (furthest from the handle) are called the Pointers, because they point to the Pole star being called Dubhe. The comet forms nearly an equilateral triangle with Dubhe and the Pole star, being situated below them. The tail is above nucleus and inclined toward the Pole star.

Civility is a Fortune.

Civility is a fortune itself, for a courteous man always succeeds well in life, and that even when persons of ability sometimes fail. The famous Duke of Marlborough is a case in point. It was said of him by one contemporary, that his agreeable manner often converted an enemy into a friend; and by another that it was more pleasing to be denied a favor by his Grace than to receive one from other men. The gracious manner of Charles James Fox preserved him from personal dislike even at a time when he was politically the most unpopular man in the kingdom. The history of the country is full of such examples of success obtained by civility. The experience of every man furnishes, if we but recall the past, frequent instances where conciliatory manners have made the fortunes of physicians, lawyers, divines, politicians, merchants, and indeed, individuals of all pursuits. In being introduced to a stranger his affability, or the reverse, creates instantaneously a prepossession in his behalf, or awakens unconsciously a prejudice against him. To man, civility is [illegible] what beauty is to a woman; it is a general passport to favor, a letter of recommendation, written in language that every stranger understands. The best of men have often injured themselves by the irritability and consequent rudeness, as the greatest scoundrels have frequently succeeded by their pleasing manners. Of two men, equal in all other respects, the courteous one has taken the chance for fortune.

A Western preacher discovered from the text, "How old art thou?" and the next day about one-third of the women of the congregation called to tell him it was none of his business.

"One might have heard a pin fall," is a proverbial expression of of silence; but it has been eclipsed by the French phrase, "You might have heard the unbinding of a lady's cambric handkerchief."

A [illegible] preacher [illegible]: "There is but one passage in the Bible where the girls are commanded to kiss the men, and that is the golden rule, 'Whatsoever ye would that men would do unto you you, do ye even so unto them.'"

A miner's first rule is arithmetic is addition, but his heirs generally begin with division.

Racy, but not Rich.

There was never more smiling done than at the present hour, and never, perhaps, has it been done to less substantial advantage. Our people are profusely but not well read. There is less solid intelligence in the community, while there is more general and superficial information than is a previous generation.

Intelligent teachers are becoming convinced that the multiplicity of dentist letter saving text books, provided for the public schools, is really injuring rather than helping the pupil. They are wrenching the fibre of the mind and tending to produce this same incorrigible [illegible] and superficialness of character which [illegible] characteristic of the times. The few somewhat bald text books of a previous period required robust and continued study, and thus developed mental strength, doubtless with less outward ornament. The same observation has been made with apparently good grounds, in relation to the instruction given of the present time in the Sunday schools.

VINEGAR BITTERS

PURELY VEGETABLE — PLEASANT TO TAKE — FREE FROM ALCOHOL

D. WALKER'S CALIFORNIA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

PROCLAMATION.

To the [illegible] of Peterborough County [illegible]

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favourable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England,
Lecturer on the human eye and ear and their diseases, inventor and patentee of improvement in spectacles

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE $1.00.

NORTHROP & LYMAN,

General Agents fo Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this evenamed remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in the estimation, as it has become better known. Its makers therefore feel power to cure the various affections of throat and lungs, has made it known as a reliable protection against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for hopeless consumption, and the dangerous affections of the throat and lungs. As a preventive against [illegible] it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although [illegible] Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its control over the diseases of the throat and lungs, that the most obstinate of them yield to it. When nothing else could reach the case, the Cherry Pectoral does away obstacles and disappears.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are the virtues of this remedy known, that we need not publish the many forms in which we have evidence that it relieves the sufferer and cures the most dangerous cases of pulmonary disease that yield to medicine.

Ayer's Ague Cure,

Peterborough Examiner.

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper colorations.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. *Because* the never tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

FAR OFF, YET NEAR.

BY A. D. RANDOLPH.

O Blessed Lord,
Once more, as at the opening of the day,
I read thy word;
And now, in all I read, I hear Thee say
"To these I love I will be ever near."
And yet, while this I hear,
To me, O Lord, thou seemest far away!

The Sovereign One,
Greater than mightiest kings can h be fear,
Or blinding sun
Made by thy glory, so if thou art here
I cannot see thee; yet this world declares
That whose loves and hears
Thy holy name, shall have thee ever near.

I hear thy name,
That love, dear Lord, have I not long confess'd?
Thy love's the same
As when, like John, I leaned upon thy breast,
And know I loved; oh, which of has changed?
Am I from thee estranged?
O Lord, thou changest not. I know the rest.

My doubting heart
Trembles with its own weakness, and afraid
I dwell apart
From thee, on whom alone my hope is stayed:
I would, and yet I do not know thy will
And perfect love; am still
Trusting myself, to be thy self betrayed.

O Blessed Lord,
Far off, yet near, on me new grace bestow,
As in thy word
I go to meet thee; even now I know
Thou nearer art than when my quest began,
One cry, and thy feet run
To meet me! Lord, I will not let thee go!

RECIPROCITY—Before and After.

From the Monetary Times.

The proposal to renew reciprocal trade between the United States and Canada, continues to excite much attention upon the other side of the line. The bale among our neighbors promises to be warm, the proposed treaty having strong opponents as well as warm friends; throughout the Dominion, on the other hand, the question has excited far less discussion and interest than we expected. Vitally affecting our commercial interests as the proposed measure of free trade must, if adopted, it is difficult to account for the quiet reception which the publication of the Treaty has recently received at the hands of the people generally. The cause of this, we fancy, is to be found in the fact that experience has taught us that, whilst both countries would be benefitted by freer comsmercial intercourse, our Trade is not dependent on American markets, that we have prospered as never before since the Treaty of 1854 expired, and that reciprocity or no reciprocity, we are now quite able to keep with our neighbors in the race of material progress.

The policy adopted by the United States in 1866, when they placed high duties upon our productions entering their markets, was partly owing, we are willing to admit, to their financial necessities. But there can be little doubt that the main cause underlying their action was the desire to influence our political relations, and there can be still less doubt that this policy, which Consul-General Potter boldly avowed at the famous Detroit Commercial Convention, has been an ignominious failure. The leading public men of the United States now feel that they committed a blunder, that their restrictive commercial policy, has united British America from the Atlantic to the Pacific, and whilst injurious to themselves, has had no appreciable effect in retarding our prosperity.

If they consult their own trade returns, and we know our neighbors are sharp in examining who gets the best of a bargain, they cannot reach other than the foregoing conclusions. We have lately been put in possession of the United States returns bearing on the course of our international commerce, and although the figures differ from our Canadian returns, they bring out very clearly, that whilst before and during the late Treaty, our neighbors had the balance of trade in their favor since that time—and consequently since their restrictive policy came into swing—they have bought from us more, and sold us relatively less than they ever did before!

Before the late Reciprocity Treaty came into force, the total trade of the United States with all the Colonies, averaged $14,250,000 in round numbers. The year prior to the Treaty it reached $20,691,360. But during the first twelve months of the Treaty operations, our transactions rose to $33,462,754, and at the close of the last year, the annual volume of transactions had swelled to $84,070,955! These figures incontestibily prove the beneficial effect of the Treaty in promoting trade between the two countries, a trade, we may remark, more profitable than any carried on with other countries. During this time, however, the balance of trade was almost invariably in favor of the United States. According their returns the operations under the Treaty were as follows:—

United States sold Canada	$266,120,624
Canada sold United States	276,750,480
Balance in favor of U. S.	$9,454,104

Taking Canadian returns, the balance in their favor was much larger. We took from them during the Treaty articles to the value of $359,667,287, and sold them in return goods worth $263,870,268. These returns, as well as those preceding, are calculated in gold, and they show the large balance of $95,796,986 in favor of our neighbors. The discrepancy between the two balances is partly accounted for by the high prices placed upon importations from Canada (there being no duties) during the period which elapsed after the war broke out and before the Treaty was abrogated. But, taking either of these statements, it is evident that the Treaty greatly increased international trade, and that the Americans had a large balance in their favor, which we had to pay in gold or its equivalent, to square off the account.

Now, let us see what followed the repeal of the Treaty! Their trade with us fell immediately from an average of $84,000,000 per annum to $67,000,000. We are giving, the reader must remember, American returns, and in quoting them the total transactions between the two countries for the last three years after the Treaty ended, were as follows:—

1864.....	$67,909,162
1865.....	71,374,816
1866.....	84,070,955
1867.....	57,937,347
1868.....	56'624,493
1899.....	56,287,546

These figures show a marked decline in the trade between the two countries, which was a decline undoubtedly attributable to the fact that high duties had taken the place of free commercial intercourse. What the effect was upon the commerce of the United States generally, we are not in a position to determine; but so far as Canada is concerned, our trade began to turn into new channels, except when the Americans offered us, with the duties added, as good prices as we could get elsewhere. For the first two years after the Treaty there was some disturbance of trade, the total transactions of the Dominion, with Newfoundland added, amounting to $139,500,000 in round numbers per annum; but since that time the expansion in our commerce has been rapid, having reached last year (Newfoundland included) $235,301,203! So marked has been our advancement in the face of the hostile fiscal policy of our neighbors, that even our trade with them has revived, and our annual exchanges are now as great as during the Treaty, having been in round numbers seventy-one millions in 1871, seventy-three in 1872, and eighty-two millions last year. The Americans are shrewd enough to see that a country whose total trade (see figures above) has nearly doubled since 1867, cannot have suffered much from their restrictive commercial system, and is abundantly able, to use a common phrase, "to hoe its own row."

But how has the balance of trade been since the Treaty terminated. This is a point which our neighbors have always regarded as of the highest importance, and according to their statistict, with the apprgation of the late Treaty, so long and continuously in their favor, *turned sharp round against them.* The balances in favor of Canada they set down as follows during the following years:—

1866-7	$9,281,009
1867-8	4,099,949
1868-9	7,893,062
1869-90	14,240,477
1870-71	2,921,525
1871-2	6,202,362
1872 3	6,236'614
Total	$51,875,008

As for nearly half a century, their returns had, with probably half-a-dozen exceptions, shown a large balance of trade in favor of the United States, the reader may understand the important part which the above statistics have played in turning the tide of sentiment across the lines in favor of free trade relations than at present exist. But the expansion of our commerce side by side with the above figures, and it is quite evident how great a blunder and failure was the adoption of the existing fiscal policy of the United States towards Canada. The more candid and intelligent Americans now frankly admit this, and despite the opposition of class interests, are prepared to retrace their steps, and endeavor to extend and improve that system of reciprocity which experience has proved is most beneficial to the interests of both countries.

Nor should the above figures in regard to the balance of trade between the two countries, be lost upon a certain class—political economists nearer home. Here we have the fact clearly demonstrated by actual experience, that whilst under the comparative free trade of the Treaty of 1854, the balance of trade was steadily in favor of the United States, no sooner did they change their policy, and bolt and bar their markets against our production, than the balance turned in favor of Canada, and, according to their returns, has so continued ever since! In other words, whilst our markets have been as free as during the Treaty to our neighbors, and whilst theirs has been closed to us except on payment of high duties, the course of trade has been reversed, and they have bought from us relatively more and sold us less than they ever did before! The effect of the war upon prices has no doubt had something to do with this result. But it is chiefly attributable, we venture to say, to the working of the opposite systems of political economy practised in the two countries.

So far as the people of this country are concerned, the great majority believe that a renewal of Reciprocal Trade with the United States would promote the prosperity of both. But they also feel that the Dominion is developing and prospering rapidly under existing circumstances, and that if the Americans foolishly continue to drive off our trade, and throw the carrying trade of the Continent largely into our hands, they are passing a policy injurious to themselves and in some respects beneficial to us When the first Treaty terminated, many feared its effects upon our prosperity, and looked forebodingly to the future. But experience has taught us confidence and self-dependence and therefore the people take the proposals for a new Treaty quietly, willing to agree to what may be mutually beneficial, but fully aware that the prosperity of Canada is no longer dependent upon the markets of any country in particular.

TO COLOR COCHINEAL.—One pound of yarn to one of cochineal, two ounces cream of tarter, two ounces muriate of tin wet the yarn in clear water, pulverize the cochineal and sift, put in soft water also the cream of tartar; when it begins to boil put it in the muriate of tin, then the yarn, simmer one hour; air frequently, and rinse in clear water.

CEMENT.—If for glass and earthenware, the white of an egg makes a transparent and durable cement; if for iron, the white of an egg and lime mixed makes a valuable cement, as fire or water make no impression upon it. It must be used immediately after mixing as it hardens quickly.

Nothing comes home so much to a man as an unsatisfied bill.

A New York dentist gives a premium cheese for every tooth to draw.

A Buffalo paper tells personals his bad boy to stay in at nights. The choice costs him $4.00 and the patient 75 cents.

A lot of orange peel in a small house destroys life as fast as a whole garden in the open air does not. Orange peel in every house should be burned upon.

Terms of Union of the Presbyterian Bodies in Canada submitted by Professor Cavan of the Assembly Meeting.

"Resolved, that the following result be sent down to the Presbyteries in the terms of the Barrier Act, and also to sessions and congregations, with instructions to report to an adjourned meeting of the Synod to be held: The Presbyterian Church of Canada, in connection with the Church of Scotland, the Canada Presbyterian Church, the Church of the Maritime Provinces in connection with the Church of Scotland, and the Presbyterian Church of the Lower Provinces, holding the same doctrine, government and discipline, believing that it would be for the glory of God and the advancement of the cause of Christ that they should be united, and thus form one Presbyterian Church in the Dominion, independent of all other Churches and under authority to Christ alone, the Head of His Church and Head over all things to the Church, agree to unite on the following basis, to be subscribed by the Moderators of the respective Churches in their name and on their behalf:

1st. The Scriptures of the Old and New Testaments being the Word of God are the only infallible rule of faith and manners.

2nd. The Westminster Confession of Faith shall form the standard of this Church. The larger and shorter catechism shall be adopted by the Church and appointed to be used for the instruction of the people; it being distinctly understood that nothing contained in the confession or catechisms regarding the power and duty of the civil magistrate shall be held to sanction any principles or views inconsistent with full liberty of conscience in matters of religion.

3rd. The government and worship of this Church shall be in accordance with the principles and practices of Presbyterian Churches as laid down generally in the form of Presbyterian Church government, and in the directory for the public worship of God. The aforesaid churches further agree to the following resolution:—

Relations to other Churches.—1st. This Church cherishes Christian affection towards the whole Church of God, and desires to hold fraternal intercourse with it in its several branches as opportunity offers; 2nd, This Church shall, under such terms and regulations as may from time to time be agreed on, receive ministers and probationers from other churches holding the same Doctrine, government

BY-LAW No.

A BY-LAW to aid and assist the Huron and Quebec Railway Company by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the Town of Peterborough, and to authorize the issuing of such Debentures and the levying of such a rate as will be sufficient to pay the principal and interest of such Debentures.

WHEREAS, the Municipality of the Town of Peterborough is desirous of aiding and assisting the Huron and Quebec Railway Company in the construction of their proposed Railway, by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the said Municipality bearing interest at the rate of six per cent per annum and redeemable as hereinafter mentioned,

And Whereas by an Act of the Legislative Assembly of the Province of Ontario, passed in the thirty-seventh year of the reign of Her Majesty, entitled "An Act to incorporate the Huron and Quebec Railway Company," it is enacted that any Municipal Corporation which may be interested in securing the construction of the said Railway, or through any part of which, or near which, the Railway or works of the said Company shall pass or be situated, may aid the said Company by giving money or Debentures by way of Bonus, Gift, or Loan.

And whereas, a Petition duly signed by more than twenty resident freeholds being duly qualified voters of the said Municipality, has been presented to the Council of the said Municipality expressing the desire to aid the said Railway to the extent of One Hundred Thousand Dollars aforesaid as by the said Act required

And whereas, by an Act of the Parliament of the late Province of Canada, passed in the twenty-fourth year of the reign of Her Majesty entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of debentures on the security of Town Property and for other purposes," it is enacted that certain property of the said Municipality consisting of the Town Hall, the Market Block, and the land South of Townsend Street and East of Park Street is, and the same thereby became vested in the Commissioners therein named and their successors to be called "The Commissioners of the Peterborough Town Trust," and that it should be lawful for the Mayor and Town Council of the said Town of Peterborough for the time being to cause to be issued Debentures under the seal of the said Corporation to be signed by the Mayor countersigned by the Treasurer of the said Town and by the Secretary of the said Commissioners and to the amount and for the purposes and in the manner in the said recited Act designated and that it should be lawful for the said Commissioners to issue New Debentures if required from time to time upon which to raise funds to retire outstanding Debentures and that the Town Council of the said Municipality should annually upon the application of the said Commissioners strike upon and from the rateable property of the said Town of Peterborough the Interest and Sinking Fund requisite for the ultimate redemption of the said Debentures according to the said lastly recited Act.

THE Municipality of the Town of Peterborough by the Council thereof thegefore enacts as follows:

1. That it shall and may be lawful for the Municipality of the Town of Peterborough to aid and assist the Huron and Quebec Railway Company in the construction of their proposed Railway by granting by way of Bonus to the said Company Debentures of the said Municipality to the amount of One Hundred Thousand Dollars as herein provided.

2. That for the purposes aforesaid it shall and may be lawful for the Mayor and Town Council to cause to be issued Debentures of the said Municipality under the seal thereof to be signed by the Mayor and countersigned by the Treasurer of the said Town and the Secretary of the said Commissioners to the said amount of One Hundred Thousand Dollars to be payable at the office of the Treasurer of the said Town at the times following that is to say: Debentures to the amount of Twenty Thousand Dollars at the end of ten years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of fourteen years from the issue thereof. Debentures to the amount of Twenty Thousand Dollars at the end of Sixteen years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of Eighteen years from the issue thereof and Debentures to the amount of Twenty Thousand Dollars at the end of Twenty years from the issue thereof. The said Debentures to be for the sum of One Thousand Dollars each and to bear interest at the rate of six per cent per annum payable half yearly and to be issued and the interest and the sinking fund for the redemption thereof to be provided for in the manner and subject to the provisions of the hereinbefore recited Act consolidating the debt of the Town of Peterborough.

3 That the said Debentures shall be issued on and bear date of the first day of July One Thousand Eight Hundred and Seventy-five and the interest thereon at the rate aforesaid to be computed from the day of the date thereof and payable on the first days of the months of January and of July in each year at the office of the Treasurer of the said Town of Peterborough.

4. That this By-law shall cease to be of any effect and no Debenture or Debentures shall be issued thereunder until the said Company and the Ontario and Quebec Railway Company shall have amalgamated or until the said the Huron and Quebec Railway Company shall have obtained control of the said Quebec and Ontario Railway Charter or until the said Huron and Quebec Railway Company shall have entered into a good sufficient and binding contract with the said Ontario and Quebec Railway Company securing running powers over the said Ontario and Quebec Railway with such stipulations and additions as will enable the said Huron and Quebec Railway Company to carry out the stipulations and provisions of this By-law and until the said Huron and Quebec Railway Company shall have executed and delivered to the Municipality of the Town of Peterborough their collateral Bond to be approved by the Town Council of the said Town and in such a penalty as the said Town Council may deem sufficient for the maintenance in the Town of Peterborough of the Chief Workshops in connection with the maintenance of the said Road for the entire of the said Railway between Ottawa and Toronto and to have and keep constantly employed therein not less than One Hundred Men within Three years from the commencement of the operation of the said Road and conditioned also that the charges for freight upon the said Railway between the City of Montreal and the Town of Peterborough shall not any time exceed the charges for freight thereon between the City of Montreal and the City of Toronto or any point westerly of the City of Toronto and shall not exceed at any time the charge for freight on the Grand Trunk Railway between the City of Montreal and the Town of Cobourg or any point west of that and that the charges for freight between the Town of Peterborough and the City of Toronto shall not exceed at any time the charges for freight on the Grand Trunk Railway between the Town of Cobourg and the City of Toronto.

5. That the said Debentures shall be handed over to the Trustees to be appointed under the first recited Act upon and only upon and at the times and conditions following that is to say: Debentures to the amount of Twenty-five Thousand Dollars when and so soon as the grading shall have been completed on one half of that portion of the Line of the proposed Railway (such line to be the most direct route between the Town of Peterborough and the City of Ottawa) between the Town of Peterborough and the Eastern boundary of the County of Peterborough to the further sum of Twenty-five Thousand Dollars when the whole of such portion of the said proposed Railway shall have been completely graded and to the further amount of Fifty Thousand Dollars when and so soon as the said Road shall have been completed and in running order from the City of Ottawa to the City of Toronto.

Provided the same shall be so completed and in running order in three years from the First day of July One Thousand Eight Hundred and Seventy-five.

6. That interest shall not be computed on or payable by the said Town or such debentures until they shall have been handed over or aforesaid but shall commence to bear interest at the time or times at which they shall be so handed over.

7. This By-law shall be of no force or effect and no debentures shall be issued thereunder unless the construction of the said proposed Railway as to that part thereof within the County of Peterborough shall have been actually and *Bona Fide* commenced on or before the first day of July One Thousand Eight Hundred and Seventy Five, and thereupon continuously prosecuted.

8. That this By-law shall be of no force or effect and no Debenture or Debentures shall be issued thereunder unless before the day hereinbefore appointed for the issuing of said Debentures, the Municipality of the County of Peterborough shall have duly passed and confirmed a By-law granting aid by way of Bonus to the said Company for the construction of the said Railway to the amount of One Hundred and Fifty Thousand Dollars.

9. Provided that this By-law shall be of no force or effect and no Debenture or Debentures shall be thereunder issued until the same shall have been approved and made valid as all and singular the provisions and stipulations therein by an act of the Legislature of Ontario notwithstanding the provisions of the Act incorporating the said Railway Company.

10. That the votes of the Electors of the said Municipality shall be taken on this By-law on the

Fourteenth day of August next

at the polling places in each of the Four Wards of the said Town respectively appointed for the holding of the Municipal Elections in January last, That the polling places shall be open at the hour of nine o'clock in the morning and closed at the hour of five o'clock of the afternoon of the same day That Joseph Lundy shall be Returning Officer for Ward No 1 That James Edwards shall be Returning Officer for Ward No. 2 That John Irwin shall be Returning Officer for Ward No. 3 and that William Lee shall be Returning Officer for Ward No. 4 for the taking of such votes.

NOTICE.

The above is a true copy of a proposed By-law which will be taken into consideration by the Council after one month from the first Publication in the Examiner Newspaper which said publication is

The 23rd day of July Instant

And that at the hour day and places therein fixed for taking the votes of the Electors the Polls will be held.

J. EDWARDS,
Town Clerk.

Peterborough, 23rd July, 30-td.

PUBLIC NOTICE.

The Council of the Corporation of the Township of Otonabee intend, at a meeting to be held on Monday, the 22nd day of August, next, to pass a By-Law to establish the following lines of Road in said Township, viz: Commencing on the West side of the allowance for Road between the 12th and 13th Concessions of said Township, one chain Southerly from the line between Lots Nos. 12 and 13, thence westerly parallel with the Northern limit of Lot No. 12 in the 13th Concession aforesaid 51 chains and 50 links more or less to the centre thereof, thence Northerly along the line between the East and West halves thereof 1 chain and 7 links more or less to within 50 links of the line between the West halves of Lots Nos. 12 and 13 in said Concessions, thence Westerly parallel with said line 51 chains and 50 links more or less to the East side of the allowance for road between the 12th and 11th Concessions. The described line to be the south side of the Road and the road to be 66 feet wide; also commencing on the west side of the allowance for Road between the 12th and 14th Con e cessions thereof, at the distance of 3 chains and 92 links Southerly from the line between lots 13 and 14 in the 14th Concession thence Westerly 65 chains and 50 links more or less to a point on the East side of the allowance for Road between the 14th and 13th Concessions aforesaid thence Northerly from the line between lots 13 and 14 aforesaid, the described line to be the centre of the Road and the Road to be 66 feet wide; also commencing at the South East angle of Lot No. 13 in the 13th Concession thereof; thence Westerly along the line between lots Nos. 13 and 13 56 chains and 70 links more or less to the centre of the 13th Concession, the described line to be the centre of the Road and the Road to be 66 feet wide.

GEORGE REAR,
Township Clerk.

Otonabee July 10, 1874. 29-4ins

NEW ADVERTISEMENTS.

Fire Extinguisher—R. A. Brown.
Insolvency—D. W. Dumble.

Johnson's Force Pump and Fire Extinguisher.

For cheapness, durability, ease of working, and general efficiency, the above little article cannot be excelled. It can be used as a PORCHEAD FIRE EXTINGUISHER, a splendid article for washing Carriages or Windows or by changing the nozzle it can be used by a Lady or a Child to water a flower bed in the quickest and most beautiful manner. Only a bucket or tub of water required. No chemicals used. It is claimed for this Extinguisher that the stream of water thrown from it appears to be fully as efficient in the results as the acid thrown from a Babcock Extinguisher. Every house should have one. The beginning of a fire frequently occurs in such a place that it cannot be reached by water thrown from a pail or dipper, this Pump will throw a fair stream of water 45 ft. horizontally, or will drench a wall to the height of 80 ft.

ROBERT A. BROWN, Agent.

Office in rear of Mickle & Reid's Book Store, George Street, Peterborough, where this article can be seen and inspected. These machines can be seen at the stores of Thomas Lamain and Henry Best.

PRICE $9.00.

July 22nd, 1874. 30-tf.

LUMBER & SHINGLES FOR SALE

Peterborough Examiner.

PETERBORO', JULY 23rd, 1874.

SERMON PREACHED

BY THE

REV. CHARLES FISH,

IN GEORGE STREET W. M. CHURCH, ON

SABBATH, JULY 12th, 1874,

TO THE

YOUNG CANADIANS

AND

ORANGE YONUG BRITTONS,

OF PETERBOROUGH.

PSALM xxii 28—*For the kingdom is the Lord's, and He is the Governor among the nations.*

REV. xix 16—*And he hath on his vesture and on his thigh a name written—King of Kings and Lord of Lords.*

When we attempt to form a right apprehension of Jehovah, we find the subject passes immeasurably beyond our highest conceptions; we find ourselves surrounded by Infinity and Eternity, and are deeply impressed with Zophar's sublime appeal Cans't thou by searching find out God, cans't thou find out the Almighty to perfection? And yet you will observe, He has been pleased to reveal Himself to us by his name Jehovah which properly denotes "The Being" or as St. John gives it, "Him which is, and which was, and which is to come."

1. We are taught then, that Jehovah, is the self existent Being; He is the Being who is absolutely and essentially necessary, deriving his existence from none, but having it in the highest possible sense of the expression in and of Himself alone. He only hath immortality. He is the only true God.

2. He is the fountain and source of all other being communicating to all his creatures the several kinds and degrees of existence; with the several qualities and faculties which they possess, but being Himself absolutely independent and supreme. In the beginning God created the heavens and the earth. I am the Lord; that maketh all things: that stretcheth forth the heavens alone; that spreadeth abroad the earth by myself.—He made the first human pair; we also are His offsprings.

3. He is the Being who sustains all other Beings, and on whom they constant ly depend. By Him all things consist, he gave fertility to the soil, and condescendingly pledged Himself that so long as the sun or moon endure seed-time and harvest should not cease. He has established the mighty system of the Universe, appointed its ordinances and subjected it by His inscrutable wisdom to a general control. By his invisible and ever present influence He sustains and supplies, and regulates all that is: He is not far from every one of us. For in him we live and move, and have our being. God has not left himself without a witness. His marvellous works, and manifold kindnesses are ever living proofs of his eternal power and Godhead, and of his fatherly disposition toward us. The Lord he is God, it is He that made us, and not we ourselves we are His people and the sheep of his pasture. For the kingdom is the Lords, and he is the governor among themations.

4. Add to all this the astonishing fact of Redeeming love—He gave His Son—His only Son as a ransom; and bought with such a price we are not our own. To Him who laid down his life for us, God the Father has delegated his kingly power; for saving purposes, and for carrying out to its consummation the great redeeming scheme, and for the development of the Divine glory, we are now ruled by a gracious Mediator, hence of Jesus Christ it is said, upon his vesture and upon his thigh etc.

1. God has the right of universal command.

Authority goes alone with proprietorship. He is the proprietor of all things which receive their being from His power, and their support from His care. The Lord has prepared His throne in the heavens, and His kingdom extendeth over all. Earthly rule is intended to be the reflex of the Divine rule To Israel God gave specific laws; that government was unique, God claimed to be the head of it, as He has not claimed in any other case. The temple was more than the palace, the holy place more than the throne. God does not now legislate specifically for this or that nation. Where the Holy Scripture is known its pure principles are intended as the basis of government. Where the Scriptures are not circulated, there is yet a glimmering light indicating benevolence to an understanding principle of good government, and teaching at least an elementary Justice.

2. Take this Bible. In this Book God says! "Thou shalt not take my name in vain. Remember the Sabbath day to keep it holy. Honor thy Father and thy Mother. Thou shalt not steal." God instituted the marriage relation, and He guarded it by the 7th commandment. Where law takes cognizance of these points and to the extent it takes cognizance of these, there is a recognition of God's right to command. Where such laws are entirely disregarded, there is a virtual denial of God's right to command. Where the people forbid [illegible] to civilization and a premium to those who walk [illegible]

3. Christian [illegible] nations are asked, as to whether the state should enforce such a law, as that which commands the sanctification of the sabbath. It has been represented as a Jewish Institution; its rest has been construed into simply a rest from labor, but not from pleasure. The word of God, however, is quite plain. It is the duty of the State to restrain men from labor on that day, and also to abstain from offering any facilities for worldly pleasure. Beyond this the Church should step in and provide means for public worship, and literature suited for Sabbath readings. The higher and stricter sanctification of the Lord's day can only be the product of a personal fear and love of God. "By the fear of the Lord men depart from evil."

4. These governments which sanction idolatry, which throw no adequate protection around the person, property or reputation of their subjects; which legalise Sunday traffic, which offer facilities for an easy breaking of the marriage bond arrogate to themselves an irresponsibility which belongs not to them, and practically forget the fact that there is one above them, "King of kings" and "Lord of Lords."

He has not delegated His power to any ther, men are taught to know, that He whose name alone is Jehovah, is the Most High over all the earth, that he has created all things for Himself, for His glory, for the manifestation of His transcendent perfections, the communication of His goodness, and the celebration of His praise.

Eternal Wisdom! Thee we praise,
Thee the creation sings:
With thy loved name, rocks, hills, and seas,
And heaven's high palaces rings.

Thy glories blaze all nature round,
And strike the wondering sight,
Through skies, and seas, and solid ground,
With terror and delight.

Infinite strength and equal skill
Shine through thy works abroad,
Our souls with vast amazement fill,
And speak the builder God.

II. With God is the power of defence

II. Spread out before you a map of the world, especially the civilized portions of it. You see kingdoms, territorially circumscribed and with small population, lying side by side with those whose numbers are great and whose resources are well nigh limitless, and yet the small powerr in some instances at least retain their position though the greed of territory is still a vice both with kings and governments. Switzerland is still upon the Map of Europe and so is Hulland and Belgium.

2. In some other cases nations have been blotted out. Polana is no more and the last European wass have made great changes in boundaries. It would not be difficult perhaps to give explanations which to a thoughtful and devout mind would be quite satisfactory. We may touch upon this point presently, meanwhile we revert to the statement

With God is the power of defence.

This is largely illustrated in Jewish history. The deliverance from Egypt, from Moab, from Philistia, from Assyria. The sea swallowed up Pharoah and his host—God put his bridle into the mouth of the time serving Balaam, and he pronounced a blessing upon Israel, and not a curse. The Philistines were glad to send back the captured ark of the Lord's strength. The Angel of the Lord destroyed in one night the mighty Assyrian host. Through a variety of secondary causes, and some of them very singular, God appeared as the defence and Saviour of his people: "If it had not been the Lord who was on our side now may Israel say; If it had not been the Lord who was on our side, when men rose against us; then they had swallowed us up quick, when their wrath was kindled against us.

4. "Some trust in chariotes and some in horses, but we will remember the name of the Lord our God."

Our position in this Dominion is one involving exposure. Yet not so much so as that of Israel, when thrice a year the men went up to the feasts. God Himself then kept the land.

Though our beloved Country is not a sea girt Isle, though no mountain chains or intervening desert forms a material defence, God can and God does protect us. While the design of confederation is the consolidation of power, and while one effect will be to give us status, our trust must not be in the new arrangement, not in the new name, not in enlarged boundaries, but in the Lord Jehovah in whom is everlasting strength. God is our refuge and strength

Trust in God for protection does not involve the abandonment of means for self defence. When the millennium has come, and the leopard lies down with the kid, and the lion eats straw like the ox and the spirit of peace holds universal away, then even our professional soldiers may beat their swords into ploughshares, and their spears into pruning hooks, and gun metal and armour plating, may be turned to railroad or other useful purposes: moanwhile taking the world as it is, means self-defence are in accordance with the intimations of Divine Providence and with a firm trust in a higher power. Mohammed once heard a man say, I will loose my camel, and commit it to God. Friend, said he, Tie thy camel and commit it to God. There was great practical wisdom in his advice. The principle involved is sound in private matters, and in affairs of state.

III. God is the arbiter of conduct, and the dispenser of rewards and punishments.

God is judge in all the earth, God is judge of individuals as well as of nations, but there is this difference in His actions towards them. With individuals God deals in part in this life, and finally in the life to come. Nations, as such have no existence hereafter, and hence are dealt with in this world. History abounds with facts whish go to show that God is no unconcerned observer of kings and governments. The sceptre of His Kingdom is a right scepter, and the Lord loves judgement. God is evidently on the side of right, and against impiety, oppression and crime.

Where and what to-day are the Kingdoms which filled so large a space in olden time. Where is Assyria! What is Egypt! Rome, Greece! Where is Tyre, Pompei, and Carthage! How did God bring down the pride of Nebuchadnezzar! How did He punish the impiety and sacrilege of Belshazzar! What fruit have popery and the inquisition yielded to Spain! What is it that keeps Ireland poor and her sons and daughters in a state of perpetual unrest! How did the insatiate ambition of the 1st Napoleon terminate!

Is it not a noticeable fact that in the last European wars, Protestant nations ever won!

In the recent and fratricidal war in the United States, no sooner had it become a well defined question of slavery or no slavery, than victory no longer trembled in the balance. I admit there are some seeming exceptions to this rule. Victory does not always at once declare itself on Israel's side. Might does at times triumph over right. The righteous are oppressed. The Hugenots were great sufferers. The Protestants in the Spanish Netherlands were treated with barbaric cruelty by that Philip who was husband to the blood-thirsty Mary of England. "Many a time have they afflicted me, may Israel now say," but eventually God has cut asunder the cords of the wicked, and in the long run the nations which have served the Lord have prospered. It has been well with the righteous.

3. You never think of looking to heathendom for illustrations of national progress, or to papal countries, or to nations under despotic rule. The two nations which to day lead the van in material progress, civilization, benevolent enterprise, and in all that is great and good, are the two nations which pay the most deference to the word of God. There are doubtless faults of constitution and consequently many practical evils, but there is a potent leaven of christianity working in the midst of the body politic, and the influence of that leaven is seen to a greater or lesser extent in every part of the nation Take this fact on the one hand, and on the other the fact of the decadence of those nations which are irreligious, or amongst which [illegible] would [illegible] William from [illegible] finally since Oct. [illegible] and armament set sail for the East Coast; has flag displayed the arms of Ireland, quartered with those of England. The motto emblazoned in letters of light long was, "The Liberties of England, and the Protestant Religion.

From the moment that he set foot on English soil, it was manifest that the God of Israel was with him, that the Lord was on the side of William and his people. The wind had blown strong from the East while the Prince wished to sail down the channel, had turned to the South; when he wished to enter Torbay, had sunk to a calm, during disembarkation, and as soon as the disembarkation was completed had risen to a gale, and had met his pursuers right in the face and compelled them to run into Portsmouth harbour for shelter. And the Prince of Orange, once landed, conquest quickly followed upon the heel of conquest; the Lord turned the hearts of the People on the side of William who sought for the truth, so complete and so rapid was the victory he had achieved that early in Nov. 1689, he was presented with the Crown of England, amid shouts of joy from thousands who thanked God for the deliverance he had brought by his [illegible] servant William Henry Prince of Orange.

"Out of its scabbard! Never hand,
Waved sword from stain as free
Nor purer sword led braver band,
Nor braver blood for a brighter land
Nor brighter land had cause as grand,
Nor cause a chief like he!"

On receiving the crown, he said first on behalf of his wife and himself, "We thankfully accept what you have offered us." Then for himself he assured them that the laws of England which he had already vindicated should be the rules of his conduct; that it should be his study to promote the welfare of the kingdom; and that, as to the means of doing so, he should certainly revert to the advice of the Houses, and should be disposed to trust their judgment rather than his own." Then followed such shouts of joy as England has seldom if ever heard; the kettle drums struck up, the trumpets pealed, and Garter, King at Arms, in a loud voice, proclaimed the Prince and Princess of Orange King and Queen of England, and besought God who had already wrought so signal a deliverance for our Church and Nation, to bless William and Mary with a long and happy reign.

Ireland will ever be renowned in the history of the world for its noble daring in defence of the truth. For the diffusion and permanency of the truth as it is in Christ, thousands of its bravest sons and daughters have toiled, prayed, suffered and died. For generations they who in that land, and age in imminent peril, held the truth in righteousness were far from being safe in either property or person. It was no uncommon thing in those days for a man to retire at night, rich in flocks and herds, and awake in the morning a beggar; or to be roused in the night by the crackling of the timber of his own dwelling.

Nothing, it would appear, was too cruel, too dastardly, or treacherous, for men and women to do, who, influenced and urged on by their priests, (religious teachers, forsooth!) destroyed life and property to an extent far beyond the possibility of calculation.

O, Ireland! what pen can depict thy wrongs and thy sufferings, which thou hast suffered at the hands of those who professed to be thy friends?

Who can chronicle the number of thy Martyrs! They who laid down their lives in defence of the truth, and preferred death with Christ rather than allegiance to the Pope and the Mass book. Never, while the verdure clothes thy hills and beautifies thy valleys, will the terrible massacre of October 23, 1641, be forgotten! when men women and children were indiscriminately put to death. No remembrance of former kindness, no ties of kindred or of friendly connection were allowed to come between, and save the poor helpless victims of Popish rage, who were guilty of one only sin (?)—the unpardonable sin of Protestantism!

Never, we are told, was massacre more complete, unrelenting and barbarous—property wantonly destroyed, human life sacrificed like sheep in the shambles—anguish and suffering everywhere—and yet after all this bloodshed and cruelty and oppression and wrong the spirit of protestantism not only lived but triumphed. Victorious it sprang forth, like the fabled Phœnix from its own ashes to live a higher life and to ascend to a grander destiny! Verily the blood of the martyrs is the seed of the church! This was abundantly verified under Cromwell, but more especially under the benignant sway of our hero, William Henry Prince of Orange.

Tyrconnell, Lord Deputy of Ireland, called the nation to arms in defence of James the bigoted Papist Soon 100,000 men were mustered, with a great variety of war implements, for the purpose of destroying the "heretics" and rooting out the protestant religion. And such was the baneful influence of the Priests over this deluded people, that no man dared to appear at mass without his war weapon, and even the women were expected to carry a knife or skean.

Enniskillen, a small village consisting of about eighty dwellings, clustering around an ancient castle, received an intimation early in December that two companies of Popish infantry were to be quartered on them. Yet such was the bravery of these Enniskilleners, though they had not ten pounds of powder, nor twenty fire locks fit for use, that they said most emphatically "We will not have them." They at once prepared to resist these invaders of their rights. And, resist they did to the death! For no sooner did Tyrconnell's soldiers come within their reach than they sallied forth without waiting to be attacked The Officers were confounded when they witnessed the daring of these Protestants. The camp followers ran in terror and the papist soldiers of the bigoted James turned and flew and scarcely halted till they were thirty miles away from the heroic and determined Enniskilleners. Such the noble daring of the small village of Enniskillen in defence of freedom and of truth.

NOTE—Owing to a press of matter the balance of this sermon is left over till next week.—ED. EX.

TOWN COUNCIL.

SPECIAL MEETING.

Saturday July 18th, 1874.

Present the Mayor, and Messrs. Helm, Hamilton, Paterson, Denne, Robertson, Rutherford, Beal, Hopkins, Toole and Romaine.

The Mayor stated that his object in calling the Council together was that it was reported that the small pox was in town, that he had requested Dr. Kincaid to examine the cases in Mr. Cavanagh's Hotel, as to whether they were cases of small pox or not, that Dr. Kincaid declined making the examination as Dr. Burnham had attended the patients there but if Dr. Burnham wished he had no objections to accompanying him at the examinations. That the Mayor had communicated with Dr. Burnham and he had acquiesced and had agreed that they were small pox of a virulent type. It appeared by Statute respecting public health that the members of the Council were health officers and that he had by a warrant signed by a majority of the Council, appointed Drs. Kincaid and O'Sullivan authorizing them to investigate and report on the matter, and that in anticipation of the report he had called the Council together to consult and advise as to the place these patients, if necessary should be removed to.

Dr Kincaid read and submitted the following report:

We the undersigned medical practitioners have the honor to report that we have seen the small pox patients at the residence of Mr. T. Cavanagh, and that we are of opinion that owing to Mr. Cavanagh's Hotel being closed up and all communication with its inmates being cut off from the outside world there is no necessity for their removal at present. We beg also to recommend that a suitable [illegible] as may be provided for any other patients requiring treatment for this disease.

(Signed) R. KINCAID, M.D.
J. O'SULLIVAN, M.D.

Peterboro, July 18, 1874

After some discussion in which the views of the medical gentlemen who were present, and those of the Council were elicited, at the desire of the Council, they re wrote their report as follows:

We the undersigned medical practitioners have the honor to report that there are several cases of small pox in town, and we would recommend that a suitable place be provided for the care and proper treatment of these or any others that may occur. We also are of opinion that a temporary shed or building of wood would be preferable to protection under canvas. We further recommend that all the inmates of the infected houses be removed to the said building including those who are not yet taken down with the disease.

(Signed) R. KINCAID, M.D.
J. O'SULLIVAN, M.D.

On motion of Mr. Helm, seconded by Mr. Beal—The Report was received and adopted.

Mr. Toole was requested by the Council to erect the necessary buildings.

On motion of Mr. Hamilton, seconded by Mr. Romaine—Mr. Beavis was appointed health inspector in connection Mr. Geo Johnston.

The Council adjourned.

Monday, 20th July, last.

The Council met pursuant to adjournment. Present: His Worship the Mayor and Messrs. Hamilton, Helm, Romaine, Patterson, Denne, Rutherford, Cahill, Beal, and Dixon.

The Minutes of the last meeting were read over, amended, and confirmed.

Communications were read from the County Clerk, asking if a Committee had been appointed by the Town Council to act with the Committee of that Council to ascertain the amount to be paid by the Town as the share of the County debt due by those portions of the Townships lately annexed to the Town.—Referred to a Special Committee.

From Edward Tully, asking for a License to open a Butcher's shop on McDonald Street.—Granted.

From Henry Snider, asking leave to shift his butcher shop to a few doors north of London Street.—Granted.

From Richard O'Brien, asking the Town to give employment to his son on the streets, so as he may be able to assist his father who is now lying ill in his house.—Referred to Street Inspector.

Petitions were read from James Stevenson, asking the Council to enlarge a culvert across Bethune Street, near Mr. Bradburn's store house.

From Edmund Chamberlain and Walter Paterson, stating that having laid out a street between their park lots, and asking assistance from the Council to grade the street,—were all referred to the Street and Bridge Committee.

The Clerk submitted the Auditors Report and the Expenditure since last meeting.

Moved by Mr. Hamilton, seconded by Mr. Cahill,—That the communication of the County Clerk be referred to a Committee composed of Messrs. Toole, Denne, Romaine, and the mover.—Carried.

On motion of Mr. Paterson, seconded by Mr. Romaine,—The Health Inspector was instructed to furnish men as reasonably as possible to have the small pox patients removed to the sheds built for the purpose.

On motion of Mr. Hamilton, seconded by Mr. Romaine,—Drs. Kincaid and O'Sullivan were requested to attend to those patients requiring their professional services at the small pox hospital.

Mr. Hazlitt was heard before the Council in reference to occupying a portion of Dublin and Waterford Streets for piling lumber on.

On motion of Mr. Paterson, seconded by Mr. Romaine,—Mr. Hazlitt was granted the use of those streets (of Dublin Street East of Harvey Street, and a portion of Waterford Street to the river for the purpose of piling, Lumber during the pleasure of this Council.

On motion of Mr. Rutherford, seconded by Mr. Denne,—The propriety of grading and graveling Downey Street from London to Edinburgh Street,—Was referred to the Street and Bridge Committee.

Moved by Mr. Paterson, seconded by Mr. Romaine,—That as there are several crossings on George Street wanted, where there is a great deal of traffic, and pine crossings are almost useless; be it therefore resolved that there be stone and block crossings put down, and that the Street Inspector enquire as to costs, and report to the Council at its next meeting —Carried.

Mr. Rutherford was requested by the Council to erect a fence in conjunction with the Village of Ashburnham, around the ground selected for the small pox patients, As per notice of motion at last meeting.

Moved by Mr. Patterson, seconded by Mr Hopkins,—That owing to a number of men and teams wanting employment, and the Street and Bridge Committee want gravel to construct gravel sidewalks and grading streets, be it therefore resolved that the Street Inspector proceed with the grading of Brock Street east of George Street, according to the plan or diagram of said street.—Carried.—

Mr. Dixon reported recommending the employing of J. E. Belcher as Town Engineer, with a salary of five per cent of money expended on the streets,—This was laid over till next meeting.

The Council adjourned till Wednesday evening, when they take up the By-law to the Huron and Quebec Railway.

The Ontario Opposition.

(From the Cornwall Freeholder.)

The Opposition in the Ontario Legislature have been contemptible long enough. However good a Government may be, the best is all the better of being well watched. The critical watching over a Government is not simply a matter of fault-finding; a great deal depends upon the character of those who do the fault-finding. It makes all the difference in the world whether it be done by zealous politicians for the mere purpose of doing it, or whether it be done in the interest of the country and with a full sense of and capacity to bear the responsibility. The difficulty with the Ontario Opposition of late has been that it is scarcely respectable in its leadership; or, in other words, that its leadership utterly fails to inspire respect and confidence. We trust then some measure of success will attend the necessary efforts to reconstruct the party. We confess we do not know how the work is to be accomplished; the material does not appear available. The great Conservative Party [illegible] and hopelessly wrecked and [illegible] the corruption of its leader [illegible] unhappy connection of [illegible] der is quite familiar, the [illegible] appear to form a nucleus [illegible] some time to come [illegible] something [illegible] above the [illegible] Leader [illegible]

The Examiner.

THE Stewart House property was not sold on Tuesday. The highest bid was $14,000.

MESSRS OLD SETTLERS GONE.—Since our late issue Ivan O'Beirne Esq., of this town has passed away. He was a man of sterling principles, and very much respected by all who had the pleasure of his acquaintance.

MR. GEO. T. LEONARD has received the appointment of Clerk of the County Surrogate Court, etc., in the room of Mr. O'Beirne, deceased. Mr J. Carnegie has been appointed Secretary to the Town Trust Commissioners, in the room of Mr. O'Beirne.

SMALL POX.—Considerable excitement prevailed in town during the past week, on account of the appearance of small pox; but the authorities having promptly caused the erection of a suitable hospital south of the town limits, to which all those afflicted have been removed, no fears are now felt of the spread of this alarmingly contagious disease.

TRAVELLERS' INSURANCE.—Mr. Henry Maskell is doing business in insurance in Scott's Block, east of the Ontario Drug Store Mr. M. will be found ready to grant everything desirable in Life and Accidental Insurance, and his well known energy and ability will ensure for him the confidence of the public, the Company for which he is agent is considered a good one.

Mr. Jonathan Stephenson Esq., of the Township of Smith, also died on Monday, at the age of 69 years. Mr. Stephenson was a very old settler of that Township, for some time he has been indisposed, and it was thought lately that he was improving but it is difficult to rally in old age Both these gentlemen were respected citizens and leave numerous relatives and friends to lament their decease.

KILLED.—Mrs. Matthew Harkness, of the 2nd concession of Emily, received injuries from falling out of her buggy, while returning home from town on Saturday, which caused her death. It appears that Mr. and Mrs. Harkness were going home. The horse was young, and shyed at some pigs on the way: the seat of the democrat giving way, Mrs. H. fell back, and coming in contact with the wheel, received bruises on the head which proved fatal. She was never conscious after the accident till her death, which occurred on the following morning. She was 32 years of age.

PERSONAL.—Mr. Isaac Campbell, of North Monaghan, has completed his course in Knox College, Toronto, and on the 15th instant delivered his trial discourse, underwent his final examination, and was duly licensed by the Toronto Presbytery. In the report of the Clerk of the Presbytery, Mr. Campbell is spoken of in the most flattering terms, as a young man of ability and promise, of good pulpit powers, with right purpose of heart for the work he has chosen. Already, we understand, several congregations have expressed their wish to give him a call, if he should accept.

CRICKET.—On Monday, the 14th inst., a Cricket Match came off in Lindsay between the Lindsay and Peterboro Clubs, resulting in favor of the latter. Another match occurred on Saturday between the "Junior Excelsior Club," of Peterboro, and the Lakefield lads, the former winning by a handsome majority. Still another match was played, on Monday of this week, at which fine skill was displayed—between the Cobourg and Peterboro Clubs. The victory was won by Peterboro, with the fine majority of 36 and eight wickets to fall. And another match, between Port Hope and Peterboro, was played yesterday—Wednesday, Port Hope being the victors, by a majority of 77. We regret our inability, from lack of room, to give a more extended report, with the score, in this issue. Probably we may do so next week.

THE HURON & QUEBEC R R.—The By Law granting a bonus to this Railway appears this week. The Council and a committee of the citizens have arranged the conditions in the interest of the town, so as to meet the views of the most fastidious, and in such a way it is thought as to secure its passing by the people. Mr. Fowler is sanguine that such arrangements will be made with Sir Hugh Allan's Company, as will secure the commencement of the road at once, and its speedy completion. There can be no two opinions as to this being the best road for the county at large, and as Peterborough is the most important Town on the proposed line from Ottawa to Toronto or to Goderich, we would receive the largest advantages. We may be able to give more time to discuss this project next week, with a view to bringing it before the people. We want the road, and as we cannot have it without assisting it, let us not be behind in granting assistance at once.

THE total loss at the late Chicago fire is estimated at $4,025,000; insured for $2,500,000.

THE Yacht "Foam" was lately wrecked. The wreck was discovered near Grimsby; all on board are believed to be lost.

KILLED HIS WIFE.—A man named Searing, killed his wife on Friday last, in Toronto, in the most brutal manner. He has been committed for trial.

FOR HOME.—Messrs. W. E. Roxburgh, J. A. Butterfield, and J. Moore, of Norwood, have left for a trip across the Atlantic. We wish them a pleasant trip and safe return.

JOHN MITCHELL, a rebel of the United States, has returned to Ireland to become the champion of Home Rule. How foolish. It will never be granted by the English Parliament, as the wisdom of it is questioned by the people concerned. Irish troubles are not so easily settled as Mr. Mitchell would fondly hope.

DIVORCES.—The following applications for divorce are advertised in the *Official Gazette*:—Samuel Brighouse, of New Westminster, B. C., against his wife on the ground of adultery; Robt. Campbell, of Whitby, against his wife, Eliza Maria, on the ground of adultery; W. H. Peterson, of Guelph, against Emma, his wife, on the ground of adultery.

HALIBURTON "NEWS."—We have received the first copy of the Haliburton *News*, said to be published at Minden, by Robertson & Walsh. Mr. Barr, of the *Lindsay Post*, also intends publishing a paper in the same place. The *Independent* should publish a second edition back there; the people would then be supplied with facts and fiction to their satisfaction.

FIRE.—On Wednesday night or Thursday morning rather, a fire was discovered in Mr. J. B. Fowler's grocery store. It was in the cellar principally, and, fortunately was confined there. The furniture and other stuff was removed largely, and damaged somewhat by so doing. The fire had got into the floor and was easily extinguished when water was applied. The loss is covered by insurance.

FOUND DEAD.—A man named John Cassils, was found dead in his bed by Mr. Henry Boyal's boarding House, on Friday last. Cassils had been drinking hard for some time; about seven o'clock, a. m., he was in his usual state, but at 9 o'clock, a. m., was found dead. An inquest was held by Dr. Kincaid, and a verdict found of "Died of Apoplexy caused by strong drink." Cassils was a Frenchman. The verdict is an attempt to get round this kind of death.

GERMANY.—An attempt was made to assassinate Prince Bismark, on Monday, 13th inst, but happily failed. A *Times'* special from Berlin, says that Kullmann, who attempted Bismarck's life, is considered a mere tool. He confesses that he was acting in concert with others. Hanthaler, the priest, arrested for connection with the plot, belongs to the Village of Walchsee, in the Austrian Tyrol. He checked Bismarck's horses by stepping in front at a critical moment. Immediately on hearing of the affair, the King of Bavaria sent congratulations to Prince Bismarck on his fortunate escape. The Berlin press declares that the attempted assassination proves the necessity of repressing Ultramontane teachings. It has been ascertained that Kullmann was in Berlin for a fortnight at Whitsuntide, for the purpose of assassinating Bismarck.

BARNUM'S WORLD OF WONDER.—All the notable holidays of the year combined never excited as much pleasurable anticipations, nor attracted a tithe of the attention which will be upon the visit of P. T. Barnum's Great Travelling World's Fair to Peterboro', on Monday next. The famous manager himself, his wonderful talking Machine, Fiji Cannibals, stately living Giraffes, mammoth Sea Lions, hundreds of marvelous life-simulating Automatons, and the whole of thousands of rare and curious museum features and double ring circus sensations contained in his vast amusement Exposition, form the staple topic of street and home conversation, and the determination to visit the greatest of all shows extends as far as our circulation and neighborhood advices reach. Our landlords, merchants, and dealers generally, smile broadly in well-founded anticipations of a great day, while the evidences of such an influx of people as Peterboro', has never before witnessed are unmistakable. Of the multitudes sure to come we can, with unqualified certainty, say that none will go away disappointed, but, on the contrary, participants in the general opinion of both the press and public, that P. T. Barnum gives more for the money's worth than any half dozen other managers that have ever lived.

PRIZE LIST OF THE HORTICULTURAL SHOW.

PLANTS AND FLOWERS.

JUDGES—Messrs. Carver and Harris.

2nd Miss Shaw	0 50

AUDITORS' REPORT

We, the undersigned Auditors of the Town of Peterborough, beg leave to report:

1st. That they have carefully examined and audited the accounts of your Treasurer, and find them correct. In this connection we would respectfully suggest that we are of opinion that it would be more regular if all payments excepting those for which provision is made under the Statutes, or by By-Law were sanctioned by adopted Reports or Resolution of Council.

2nd. That in consequence of the protracted illness of Mr. Quigley, we were unable to audit the accounts under management of the Commissioners of the Town Trust, and for this reason we delayed closing our Report until now.

3rd. That we have prepared and herewith submit the following statements, viz.: Detailed Statement of the Receipts and Expenditures of your Treasurer for the year 1873, and an Abstract of the same. Also a Statement of the available Assets and Current Liabilities of the Town on the 31st December last.

All of which is respectfully submitted.

(Signed),

JOHN J. HALL, Auditors
EDG PEARCE,

Town Clerk's Office,
Monday, 6th July, 1874.

"TEMPLARS."

We have been requested to say that the Rev. A. Chisholm, under the auspices of the Grand Lodge of the I. O. of G. Templars, will make a tour of this County, commencing on Wednesday the 29th of July, visiting the various Temples, and will lecture on the subject of temperance whenever necessary.

The following appointments have been made, and those Templars concerned will please make a note of them:

Balsam Grove July 29th.
Nassau Temple July 30th.
Union Temple July 31st.
Bridgenorth Temple August 1st.
Selwyn Temple August 3rd.
Lakefield Temple August 4th.
Warsaw Temple August 5th.
Loyal Canadian, Mather's Corners, August 6th.
Hiawatha August 7th.

THE LATE FIRE.

On Thursday morning between 2 and 2.30 o'clock, a. m., a fire was discovered in the Grocery Store of Mr. J. B Fowler, Hunter Street. It was first discovered by Mrs. Fowler, who felt the effects of the smoke, and aroused Mr. Fowler, and Mr. Quincey, who roomed there. They made an attempt to discover the whereabouts of the fire, but finding it impossible for the smoke, they gave the alarm, and soon the steam engine was on the ground, and after discovering that it was in the cellar in a short time drowned it out. In the meantime Mrs. Fowler had removed from the dwelling over the store, and the people had removed a considerable portion of the furniture and goods, causing considerable damage and loss. The source of the fire being in the cellar an investigation was sought for, and the facts below were elicited. It is due to Mr. Fowler, also, owing to a false report that has appeared in the *Mail* and *Globe* to give the evidence of the chief witness, Mr. Fowler's boy, who was around the store from day to day.

JOHN MCGREGOR, of the Village of Ashburnham, in the County of Peterborough, being duly sworn, saith:

I lived with Mr. J. B Fowler as message boy, and I remember the fire which occurred at his shop on the morning of the 16th inst. I often went to the cellar, sometimes with a candle and other times without one. I was attending to my duty at the shop the day before the fire, and I left there about eight or half-past eight o'clock, p. m.; the shop was then closed. I was in the cellar the day before the fire, I went down with candle and had no light with me. I saw some boxes and barrels in the cellar, all piled up on the left side of the steps going into the cellar; these boxes and barrels had been always piled up in this part of the cellar. I went to the cellar for potatoes the day before fire, and I had a candle with me then; I put the candle in a bottle and stood it on the floor of the cellar near a box I usually lit the candle in the shop and took it down with me, and on this day I am not sure whether I brought it up with me or not; I went to the cellar for the potatoes about six o'clock, p. m., on the day before the fire. Mr. Tully and Mr. Edmison were in the shop. I brought the pail up out of the cellar in the morning and I now remember that it was the day before that I put it down.

This witness gave his evidence in a very intelligent manner, and was cross-examined by Mr. Scott and Mr. Edmison without eliciting any facts of importance. The Jury after hearing this evidence

Found: That the fire was caused by carelessness on the part of the boy [illegible] Dyke in the cellar.

MARRIED.

WOODHEAD—BILLINGTON—By the Rev. C. Fish, at the Wesleyan Parsonage on Tuesday, July 22nd, Mr. David Woodhead, to Miss Isabella Billington, both of Peterborough.

DIED.

HAYTER—At the residence of her son, Mr. Alfred E. Hayter, of the *Newsboy*, in Millbrook, on the 14th of July, Lucy, relict of the late Francis Hayter, Lieut. R.N., in the 80th year of her age, late of Port Hope.

"PSYCHOMANCY OR SOUL CHARMING."

How either sex may fascinate and gain the love and affection of any person they choose, instantly. This simple mental acquirement all can possess, free, by mail, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A queer exciting book. 100,000 sold. Address T. WILLIAM & Co., South Eighth st. Philadelphia, Pa. October 4 1972 49-tf

By Chronic wasting diseases is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of flesh and bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which perfects the digestion of food and creates pure, vitalizing blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. The treatment of old lingering complaints is necessarily protracted and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containg elements of the tissues, repairs diseased bone, muscle, and nerve, and renews constitutional vigor in the same manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

BEARINE

FOR THE HAIR.

Prepared from the Pure Grease of

THE CANADA BEAR.

It promotes a luxuriant growth.
It beautifies and strengthens the Hair.
It makes the Hair soft and pliant.
It imparts to the Hair a rich glossy finish.
It is perfectly harmless—not sticky or unctious.
It eradicates the roots of the Hair.
It cultivates healthy and vigorous Hair.
It prolongs vitality.

Unique and Beautiful

Select Poetry.

THAT WESTERN LAND.

The following parody, which is circulating extensively through the press, has a world of sense in it, and is respectfully dedicated to those unsatisfied persons for whom Canada is not good enough, but are continually sighing out a better country:

I hear them speak of a Western land
Where rolleth an endless prairie sea;
Father, O, where is that favored spot?
Shall we not seek it and build a cot?
Is it where the Alleghanies stand,
Whereon the honey critters already roamed?
Not there, not there, my child.

Is it where the little pigs grow great
In the fertile fields of the Buckeye State,
And eat or fat on acorns and mast
That they sell every bit of them, all but the squeal?
Where the banksters have such plenty of bags
That they don't make messages out of the dears?
Not there, not there, my child.

Or is it where they fortunes make,
Where they've got a tunnel under the lake,
Where the stores are full of wheat and corn,
And dressers are plenty as sure as your born,
Where Long John Wentworth is right on hand,
Is it there, dear father, that Western land?
Not there, not there, my child.

Is it in the domain of Brigham Young,
The most married man that is left unhung,
Where every one that likes can go
And get forty wives or more you know?
Where nakes are plenty and shock sublime—
Can that be the gay and festive clime?
Not there, not there, my child.

Is it where Colorado's mountains rise
From the boundless plains where the buffalo lies,
Where the air is pure and the waters cool,
Where fortune favors oft times the fool,
Where the rocks are full of the precious ore—
Is it there we'll find that Western shore?
Not there, not there, my child.

Eye hath not seen it, thou verdant youth,
Tongue cannot name it and speak the truth,
For, though you go to the farthest State
And stand on the rock by the Golden Gate,
They'll point out never the Western sea,
To the land whence came the Heathen Chinee,
Saying, "'Tis there, my child!"

DOMESTIC.

To Make Good Vinegar.—Mix one pound of honey with two gallons of water, and in a keg or stone jug expose to the sun, or where it will keep warm; and in a few weeks it will be a very strong vinegar, more wholesome than that which is sold.

Currant Ice.—This ice makes a very handsome as well as palatable dish. To one pint of currant juice, obtained by squeezing the berries through a piece of flannel, add one quart of water and two pounds of sugar. Beat to a froth the whites of four eggs, and stir into the juice just before it is placed in the freezer. Beat it in well with the ice cream beater, and it will freeze in a bright pink froth. Grate a cocoanut, mix it with sugar, and serve in the same saucer with the currant ice. The contrast is attractive and the taste unequalled by any other similar confection.

Valuable Hints on Fruit Canning.—A correspondent of the Albany Country Gentleman writes: "I should like to say a few words to the inexperienced on canning fruit. I remember at our State Fair a few years ago hearing a man lecture on the preservation of fruits: one thought in particular impressed me—that 'the fine flavor of any fruit, once lost could not be regained.' So when fruit is heated in open vessels, and the air is full of delicious aroma, your fruit is fast losing its best quality. This is why it is best to fill the jars with fruit before cooking. Another reason why it is best to heat in jars, you avoid crushing, and the liquor is rich and clear. In canning peaches or pears, it is very satisfactory if you have retained the small or broken pieces for present consumption, and only filled your cans with large shapely quarters. The same with grapes and berries. If you wish to realize the exquisite flavor of each fruit, do not spoil it with poor sugar. It is a good way to put what nice white sugar you wish to use through the day into the porcelain kettle in the morning, with a little water, and bring it to a boil, and skim it; then when your bottles or jars of fruit have been heated fill up with the hot syrup. For lack of anything better I take a very large copper wash boiler, place a piece of straw matting or two thickness of paper over the bottom, and then arrange the cans, as many as it will hold, and keep upright. Fill with warm water to the neck of the jars, cover them with lids, and put on the boiler cover to keep in the steam. Berries need but a few minutes of boiling heat. By this method, if you do leave them a trifle too long, they are not spoiled by boiling to pieces

---

Affecting sight—Barrels in tiers.

A spirited youth—One dead drunk.

A highly intelligent dog—The typesetter.

The working-man's favorite dish—Cavendish.

Look out for the comet—Thereby hangs a tail.

It is said that in Iowa grasshoppers wink at Paris green and smile at hot water.

Family physicians are very carefully noting the promising state of the green apple crop.

Of the adult population of San Francisco, about one-third take their meals at restaurants.

It is said that in the Paris gardens one may find every kind of rose, even including rhinoce-roses.

Dame Rumor has maliciously reported that the prettiest girl in Peterboro is a newspaper carrier. She carries them in her bustle.

That "little birds do in their nests agree" is no credit to the little birds, because it would never, never do for those timid little creatures to fall out.

Josh Billings says, with more truth than humor: "Success don't konsist in never making blunders, but in never making the same one the second time.

When your pocket-book gets empty and everybody knows it, you can put all your friends in it, and it won't "bulge out" worth a cent.

The Mayor of a Portugese city once enumerated, among the marks by which the body of a drowned man might be identified, "a marked impediment in his speech."

A Wisconsin clergyman has been found guilty by a church Council of "not always handling the truth with sufficient carefulness to meet the demands of veracity."

An Oswego paper describes a fire by saying that "the red flames danced in the heavens and flung their fiery arms about like a black funeral pall until Sam Jones got on the roof and doused them out with a pail of water."

A drunken Chinaman, feeling rich and elated at his progress in American civilization, went through the streets of San Francisco, crying, "Hoop-la, hoop-la! Me all same as 'Merican man. Hair cut short and drunk like mad!"

CARRIE'S ECONOMY.

BY MRS. ELIZA E. ANTHONY.

"Carrie Waring, do tell me how you manage to dress so stylish, on such a small sum of money? You and I have the same allowance, and yet you look as if you had three times the amount; while I always look shabby; sit down and tell me, that's a darling," cunningly said Minnie Waterbury, as she took off her friends jaunty hat and basque, and drew her down on the crimson sofa, which was drawn up before a cheerful fire.

Carrie Waring was below the medium height, all curves and dimples, with large gray eyes which could flash, as well as melt, silky brown hair, a tiny mouth and small feet and hands. She wore a blue dress, with ruffles of silver gray, a gray overskirt with blue trimmings, and a stylish cloth basque, with a velvet vest, fitted her trim form to perfection. Her hat which Minnie was admiringly examining, was of silver-grey velvet, trimmed with blue ribbon, and a long blue plume. A snowy lace frill, within a black velvet ruff encircled her white neck and was confined by a gray and blue velvet bow; and altogether she was a perfect picture of taste, elegance and neatness.

Minnie Waterbury was a complete contrast to her friend both in personal appearance and in dress, having rather a florid though dark complexion; and rarely found with jetty hair, eyes of soft blue; a large but well formed mouth, teeth like pearls, (well worn simile) with hands and feet as she said always in the way. Her dress of pale green cashmere was much too large for her and though ruffled and puffed to the extreme of fashion, was spotted here, and torn there; a lace ruffle over a plain tie completed her attire, and she cast a dissatisfied look at herself in the mirror, as she continued: "Carrie, just look at my dress; I have only worn it a month, and it is almost fit for the rag bag. I have spent all last ten dollars of my allowance, and that won't go far towards buying a new one. But, how did you manage to get that new suit, it is complete from head to foot. Ah, it was a present, was it not?"

Carrie Waring nestled down in one corner of the sofa, as she answered: "No! but listen, and I will tell you the secret of my new attire to-day. First, my dress which you admire so much, is made of two old ones; my blue dress, and my mother's grey one. I ripped and ironed them, and with the aid of my sewing machine made this suit in a short time, buying only the lining, braid and cotton. Then my basque, which I am proud of, is made out of brother Asa's broad-cloth coat, I ripped it to pieces, sponged and turned it, and now I have a handsome basque, the only expense being the pattern and buttons. My velvet vest which is so fashionable now, is made of Asa's old vest which he had thrown aside: and by raising the pile of the velvet with a hot iron, it is as good as new. I bought a tasty hat frame for mere nothing, and mother gave me a piece of velvet to cover it with; the ribbon is new, but the plume is my old black one dyed blue. Now my lace frills; I purchased some net and lace, and with a little trouble made half a dozen ruffles for the price you would have to pay for one. Pieces of my vest made the ruff, and I bought the bow. So you see how little it costs to dress well, if you wish to be economical, and are not afraid of the work. Now, Minnie, what are going to buy with the ten dollars you have left? Let us see if we cannot make it go as far as twenty ordinarily would."

Minnie Waterbury, who had listened to Carrie in open-eyed amazement answered dolefully. "I don't know, Carrie, ten dollars won't buy a dress, and if I get a new hat I will have to wear it with an old dress Tell me what to buy, please, and I will do just as you say."

'Don't promise rashly,' Carrie laughed: "But I will tell you what you can do. Rip up that green dress you are wearing, and by getting five yards of black and mingling the two colors judiciously you will have a new suit, and the cashmere will take five dollars. Then with the remaining five dollars, you can buy velvet and trimmings for a new hat, the frame of which will not cost much; lace and velvet for ruffles and frills; silk for a stylish tie; and a pair of gloves, and then you are dressed completely. Out of your old black silk dress, you can make a handsome redingote, trimmed with lace and bugles, as I have yards to spare, which you are welcome to. Now are you satisfied with my planing? Am I not economical?" smilingly asked Carrie of Minnie, who answered: "You are a regular witch; why I am so stupid I never would have thought of such a thing; but many thanks for your advice, and I will follow it. In exchange for the lace here is an embroidered set; collar, cuffs and handkerchief. Now, do not refuse it, as I have more than I need, and a fair exchange is no robbery, you know. Carrie, dear, how true it is, that if people would calculate and plan more than they do they might dress just as well, and with far less outlay of money, and I, for one, am always glad to hear of some new way to get along economically."

The New Loan.

A SPLENDID BARGAIN.

The Montreal *Gazette* is sufficiently Tory to find fault with the Mackenzie Government whenever it can, but as it has also a reputation as a commercial journal to keep it up, it is complied to be truthful in the matter of financial criticism. The new loan of Mr. Cartwright at four per cent, and unguaranteed. The *Gazette*, on the understanding that it was at four per cent, but at the same time supposing it to be supported in party by an Imperial guarantee, gave opinion that the price obtained for it 'must be held to be a tolerably fair one.' The *Gazette*, however, adds:

"If, however, as we have heard is the case, no part of this loan includes the Imperial guarantee, then the transaction is a most excellent one, better than any ever made on the London market either by the United States or Canada."

No part of the loan did include the Imperial guarantee, so that we have the authority of the leading Tory commercial journal that Mr. Cartwright has done better on the London market than ever Canada or the United States did before.

Borrowing Trouble.

We have real troubles enough, most of us, without borrowing any from the future or the past, and why not borrow joy? the skies will always be blue though clouds may overcast them at intervals; the spring will never fail to come, with its wealth of growing green, and we have the promise that while the earth remaineth, seed-time and harvest shall not cease. So will there ever be reasons for thanksgiving, cause for satisfaction, sources of joy in even the coldest, dreariest life, if so be the eyes are open to see them and the heart to feel. To illustrate: Not long ago we rode thro' a charming section of country with an intelligent and cultivated lady, whose conversation was not about the picturesque landscape we were passing over, the bewitching melody of birds that sang from every bough, the vernal airs that played about us, the wealth of blossoms that reminded us of the Garden of Eden, but of petty house keeping cares and small domestic troubles—the little fixes that spoil so many women's lives. She was borrowing trouble from the past instead of opening wide her heart to all the beauty and fragrance and melody that sought an interpreter there. Was that wisdom?

"I come to steal," as the rat observed to the trap, "And I spring to embrace you," as the trap replied to the rat.

The ruling passion strong in danger:—An alarm of fire was, the other day, given in a Lindsay hotel. "Landlord," said a guest, "is the house on fire?" "Yes, sir," "Well give us one more drink, if you please, and we'll get."

A gentleman was complimenting a pretty young lady the other day in the presence of his wife. "It's lucky I did not meet Miss Hopkins before I married you, my dear." Well, yes, it is extremely—for her," was the dry rejoinder.

Head case of kidnapping—when the baby has been cribbed.

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL

D. WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native Roots found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

OF HARTFORD, CONN.

CASH ASSETS - - - - $3,000,000.00.

Grants everything Desirable in Life and Accident Insurance

On the Most Favorable Terms.

ACCIDENT INSURANCE.

Montreal, 3rd February, 1874.

MESSRS. FOSTER, WELLS & BRINLEY:

Gentlemen.—I beg to acknowledge cheque from the Travellers' Insurance Company, for seven hundred and fifty dollars, in full of my claim for indemnity, under Policy No. 206,231; resulting from injuries received the 28th of August last. In bearing testimony to the prompt manner in which the Company have settled my claim, I consider it a duty as well as a pleasure, to recommend Accident Insurance as one of the most valuable systems of underwriting of the present day, and the Travellers as a Company deserving of the highest confidence and enjoying a reputation for solidity, promptness and liberality.

I remain, yours truly,

(Signed) H. HOGAN, Late Proprietor St. Lawrence Hall.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by *everybody* as a cathartic, but was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back and Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it probably will give the desired relief by sympathy.

As a **Dinner Pill**, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., *Practical Chemists*,
LOWELL, MASS., U. S. A.

NORTHROP & LYMAN,

Toronto,

General Agents for Ontario.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from the remarkable cures it has made, many of which are truly marvellous. Invincible cases of scrofulous disease, where the system seemed entirely subdued by the corruption, have been purified and cured by Sarsaparilla, after all other means and medicines had failed. Such cases, when aggravated by the scrofulous contamination, are sure to develop in some of the many forms of scrofulous disease, such as Ulcers, Eruptions, Tumors, Boils, Pimples, Blotches, Rose or Erysipelas, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other symptoms or visible forms of scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Uterine affections of the female and nervous system.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for its unlocking these obstinate maladies by its powerful solvent action. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Hæmorrhages, and Female Diseases*, are promptly and radically cured by its use. Minute Directions, for each case, are found in our Almanac, supplied gratis. *Rheumatism and Gout*, when caused by a accumulations of extraneous matters in the blood, yield quickly to it, as this *Sarsaparilla* is a powerful solvent of these morbid deposits. *Congestion or Inflammation of the Liver, and Jaundice*, when arising, as they often do, from the same cause in the blood. This *Sarsaparilla* is a great remedy for for the stomach and bowels. Those who are Languid and Listless, Nervous and Sleepless, and troubled with Bad Dreams, are made to feel the renovating influence of this medicine, and find immediate relief and gratifying evidence of the powerful power upon trial.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their incontestable value.
A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

ON THE CLIFF.

Half down the cliff the pathway ends,
The rocks grow deep and sheer;
Hard by a sudden stream descends;
From ledge to ledge with brooks and bends
It dashes cool and clear.

Across the bay green ripples flow
In endless falls and swells;
Clear shows the rippled sea below,
And round, dark rocks in whiteness glow
Smooth sands of crisped shells

Foam specks before the wind that glide,
The sleeping sea-gulls float,
Amid ever crimson shadows wide,
Rocked softly by the swaying tide,
Yet safe as anchored boat.

Their white and folded wings are laid
The daylight passes into shade;
Yet calm they rest, and unafraid,
Whate'er may come or go.

So safe, 'mid waves of waters wide,
Below the darkening sky,
So safe my heart and I may abide,
Calm floating on time's changeful tide,
Beneath eternity.

Chamber's Journal.

Mr. Fish's Sermon.

Concluded from last week.

This portion has been added by request of numerous persons who heard the sermon

The people of Londonderry shared the sufferings and alarm so general among the Protestants of Ireland in 1688.

Alexander Macdonnell Earl of Antrim, had received orders from the Lord Deputy to occupy Londonderry and was already on the march. The consternation in the city was extreme. Some were for closing the gates, others for opening them. This state of things existed when from the wall of the city, Antrim and his troops drew near seen on the opposite side of the Foyle. There was no bridge but a ferry. By this ferry a detachment of Antrim's regiment crossed. The Officers produced a warrant directed to the Mayor and Sheriffs, and demanded admittance and quarters for the soldiers of James the Papist. Just at this moment when the city fathers appear to have been trembling in their shoes, thirteen young apprentices flew to the guard room, armed themselves, seized the keys of the city, rushed to the Ferry gate, closed it in the face of the kings officers, and fled down the portcullis. The Officers ashamed to be thus defeated by a few apprentice boys, still stood consulting by the gate, until James Morrison from the city wall shouted,—"Bring a great gun this way."

They soon joined their companions on the other side of the river.

Antrim, afraid to risk an attack retired to Coleraine. The interim, was however, brief. The attack on Derry, as it is called, was soon renewed, and with ten-fold fury. Tyrconnell was determined at almost any cost to reduce and bring to subjection those Protestants of Ulster. A great force was ordered to move northward under Richard Hamilton. And move they did as birds of prey, or as wolves and tigers, for they left the country through which they passed almost without man or beast; in many cases wantonly destroying thousands and tens of thousands of the sheep and oxen of the Protestants, leaving their carcasses to rot on the ground, rifling houses of gold and silver plate and furniture. So complete was the ruin that a French Officer remarked, as he followed in their track; that it was like passing through the desert of Arabia

Thirty thousand Protestants of both sexes and of every age, who now crowded into Derry, the city of refuge, determined to hold the truth or die in its defence. In the camp, it was thought that Derry would fall without a blow; yet they who thought so were grievously mistaken, for there, in the city of hunger and thirst of fire and shot, of suffering and death, which no pen can describe, and no eloquence can express, the noble Derry men and women, bared their breasts to the storm, resolved to sacrifice property, friends and life, rather than freedom and truth. James, however, confident of success, had approached within a hundred yards of the southern gate. He was met with a shout of "no surrender," and with a shot from the nearest bastion, which killed an officer by his side. The king and his attendants fled in haste. On the 20th April James sent a deputation of rank to confer with the Derry men, to offer pardon for all that was past and to make great promises if they would submit to James. Murray, one of the commanders, met the deputation, and replied to them, "The men of Derry have done nothing that requires a pardon, and they own no sovereign but King William and Queen Mary," and them remarked, "It will not be safe for your lordships to stay longer, or to return on the same errand. Let me have the honour of seeing you through the lines."

Londonderry had appointed two men, Baker and Walker, as its Governors. It had seven thousand men able to bear arms. And now at the close of this last conference between the peers of Ireland and the men of Derry, warlike operations began in earnest.

Several assaults were made on the city, but such was the courage and fortitude of the Derrymen, aye, and the Derry women too, who were often seen in the thickest of the fight, that the assaults always ended with great loss to the besiegers. Having utterly failed to conquer the Derrymen by fair fighting, the enemy resolved to try the effect of hunger. All the avenues leading to the city by land were closely guarded. The river was fringed with forts and batteries, which no vessel could pass without great peril, and to make the security still more complete, a barricade was thrown across the stream by chaining beats filled with stones and by blending large pieces of firewood together so as to form a boom more than a thousand feet in length. The effect of this was complete, perhaps no besieged city ever endured more than the inhabitants of Derry endured during the months of June and July. Famine was followed more by hunger and disease than by the fire of the enemy. As early as the eighth of June the supply, even of horse flesh, was scanty, and tallow was doled out with a parsimonious hand. In July the fire of the enemy was sharper and more constant. One of the gates was beaten in and one of the bastions laid in ruins. The price of a whelp's paw was five shillings and sixpence. Nine horses remained; they were scarcely worth killing. The people perished so fast that it was impossible for the survivors to perform the rites of sepulture. There was scarcely a cellar in which there was not a corpse, and yet with famine, disease, putrefaction and death within the city, and fire and sword and blood bounds all around it, these noble and heroic defenders shouted from the batteries and blood stained walls of their besieged city, "No surrender."

History furnishes no parallel to such a defence as this, maintained for 105 days, against difficulties the most disheartening, and odds the most overwhelming. All honor to the brave men and women of that famous and goodly city of Londonderry. Their name shall be held in everlasting remembrance, for they were among the bravest of the brave.

What Marathon was to the liberties of Greece, Londonderry will continue to be to the Emeral Isle. Imperishable the renown and unfading the laurels of those valiant defenders of our civil and religious liberties. May we, the descendants of such a noble ancestry, never forget the price that was paid for the heritage which we now so richly enjoy. Deliverance to the brave little city at length came. "It was the 30th of July," says Lord Macaulry. The sun had just set—the evening sermon in the cathedral was over, and the heart broken congregation had separated when the sentinels on the tower saw three vessels coming up the Foyle. It was an hazardous attempt, but William, it seen 8, 1 a 1 sent a dispatch with positive orders, "Londonderry must be relieved."

The river was low, and both sides of the bank were lined with the besiegers. With strained eyes and beating hearts, and earnest prayers, the vessels were watched from the tower by the besieged. The "Mountjoy" commanded by Micaiah Browning, a native of Londonderry, took the lead by his own request and bore down with resistless power against the boom. Such, however, was the force with which the Mountjoy struck the boom that she rebounded, and stuck in the mud. A yell of triumph rose from the papists and they were preparing to man their boats, when a well directed fire from the "Dartmouth," commanded by captain John Leake, silenced them and threw them into confusion. In a moment the "Phoenix," commanded by Andrew Douglass, dashed at the breach, the "Mountjoy" too, soon rose with the tide, and by ten o'clock the ships loaded with blessings had reached their destination.

The guns of the Papists continued to roar all night, and all night the bells of the rescued city answered with a joyous defiance. Throughout the whole of the 31st of July the batteries of the enemy continued to play.

On the 31st of August, however, the citizens saw in the distance the long columns of pikes and standards of the Papist soldiery retreating up the left bank of the Foyle.

"So ended," says Macaulay, "this great siege, the most memorable in the British Isles." It was a contest not between engineers, not between sagacious warriors, but between bondage and freedom, between truth and error, and the God of battles gave the victory on the side of freedom and of truth.

"Ah, fearless on many a day for us,
They stood in front of the foe for us,
And held the enemy at bay for us:
Fresh hosts should fall forever o'er all
Who fell while fighting for freedom for us,
And their deeds, proud deeds shall remain for us,
And their names, dear names without stain for us,
And the glories they won shall not wane for us;
In legend and lay our heroes in grey, though dead,
Shall live o'er again for us."

It is worth while for us to remember these facts in our National History. Just now they seem to have a special value. We as a nation owe much to Providence. God has so manifestly shaped our circumstances that we have every encouragement to trust in his Providence, and to work with that Providence in our attempts at development.

Canada was a French Colony and Popish. It became British by Cession. The East remains largely Popish to this day. What a mercy that this Western part was not colonized at the same time as the Eastern. Providence kept it for a Protestant population. Protestantism is now another word for power. God led the Puritan to the shores of New England, and thus gave the U. S. the nucleus of a strongly Protestant population. Popish Spain, held territory there, but the lean kine were not suffered to eat up the fat. Thence came many of our early settlers.

Our Government is liberal, our educational system most excellent. Let us guard these in the spirit of true christian chivalary, such as animated our forefathers. Let us hold intact the faith of our ancestors and their principles of civil and religious liberty. They are the heritage of our Fathers, bequeathed to us as the price of trials, sufferings and sacrifices of which we can form no adequate conception. The blood of 10,000 of our forefathers was shed as the purchase of the freedom we enjoy to-day. Let us hold it fast as our own dearest earthly inheritance. The desire of every good man will be to see religion and morality flourish thro' the length and breadth of the land. Let us then as true British subjects set an example of sobriety and purity to the whole world. Our noble Queen, whom you all delight to honor, signified to an African Prince, that the Bible was the foundation of England's greatness. What our beloved Queen said of England, is as applicable to us as individuals as to England. We can have no true greatness apart from the Word of God. Let there be among us all a high, and solemn and practical recognition of God's Word. Let the chambers see to it that all the populations were the smartest and speediest enjoy the ordinances of religion. Let there be a steady effort to advance the intelligence of the people. Let there be a system of instruction of primary and higher grades, harmonized, peculiarly and more especially independent, free from bias on our national constitution. Let us also at commercial integrity and political honor. Let us fear God and honor our beloved Queen, and then assuredly under God we shall rise to yet more honorable rank among the nations of the earth, rich in God's blessing and always safe under His protection, for righteousness still exalteth a nation, while sin is a reproach to any people.

Unpeered as yet amongst the nations of the earth, the Empire stands to-day, as it has long stood the wonder and admiration of the world. What, we would ask, has saved her? What has saved her, while other thrones have trembled, other kings and queens have fled in terror; other nations have been blotted out; what amid so many revolutions has saved Great Britain? how comes it that she wavered not? that she knew little of the disasters, except by the spray ever and anon dashed in harmless anger on her shores, or as some poor exile sought for shelter in her homes of welcome, and of plenty. Certainly, not her courage, though we don't think anyone can find her superior; not her wealth though it seems almost boundless; not her martial genius, though she had but few equals; not her balanced power, her freedom without license, her government without tyranny her rare jurisprudence, her practical philanthropy, her noble, daring and self-sacrificing subjects, and her beneficent and virtuous Queen; not one nor the whole of these combined has saved Old England but her Christianity has saved her. Here are her bulwarks and her tower, here she trusts and she finds a sure defence. "God is in the midst of her, she shall not be moved."

"None is like Jeshurun's God,
So great, so strong, so high:
Lo! he spreads his wings abroad,
He rides upon the

PETERBORO', JULY 30th, 1874.

SMALL POX.

Considerable, and to a large extent, unnecessary excitement existed in Town this last week, owing to some persons being disc[o]vered to have the Small Pox. It appears that some time since, some shantymen from the neighborhood of Orillia, came to Town and stopped at Cavanagh's hotel, which was a great resort for those men. They having come from a section where the disease had been brought it with them, and communicated it to some of Mr. Cavanagh's servants or household. A Miss Sheehan, sister to Mrs. Cavanagh, died of it. As soon as it was rumored to be in the Town, the Mayor and Council took steps to have the patients removed to an isolated place. This operation of securing a place and erecting a building occupied Saturday and Sunday, as it was considered that they should be removed at once from any place of resort, so as to prevent extension and confine it to those who already had come in contact with those infected. During Monday and Tuesday all the patients, and those who had been found in the hotel, were taken to the hospital in an isolated place south of Ashburnham, where they are forced to remain until allowed to depart by the doctors in attendance.

Already 16 cases connected with the hotel referred to have been discovered, three of which have proved fatal. It is thought that their removal to a place away from connection with all except the physicians, no more cases will occur.

There need now be no cause for alarm in the minds of citizens or those coming to Town. The hotel is closed and will undergo a thorough cleansing and purifying with a free use of disinfectants. If any of those who had been boarding there should yet take it, they will be immediately placed with the other patients and cared for, and no one attending them will be allowed to mingle with those who are well.

As it is well known too that the disease is only communicated by coming in contact with it by touch, or receiving the virus from old clothes in which it has been permitted to remain, a little care will prevent its extension to any great extent.

The uneasiness of Saturday and Monday is already clean gone; this uneasiness was caused largely by the fact that people were permitted to go in and out of the hotel. But since it was shut up and the patients removed the fears are allayed, the only cause for fear being removed.

We hope that none of those who may have been stopping at the hotel for a time have taken any of the disease away in their clothing.

The cases reported up to the present time are as follows:

Catherine Sheehan	aged 14 fatal.
Bridget Sheehan	" 17 fatal.
Mr. Cavanagh	convalescent.
Three of his children	"
Jane Sheehan, a sister-in law	"
Rosanna Sheehan	"
Bridget Morphy, servant	"
Thos. Stewart, a boarder very ill	
William Lane, a boader	"
Harry Hughes	"
Bridget Barbineau	"
Patrick Casey	" fatal.
William Egan	lately affected

TWO YEARS AGO

There were 16 cases in Town (as many as we have yet) and it was scarcely spoken of then; by isolating them the disease did not spread, and this will be the effect again no doubt. We again give it as the decided opinion of intelligent people, that there is no more cause for alarm now, nor need people visiting town on business be afraid. The whole trouble here commenced in Cavanagh's hotel, and no one has yet taken it but those of that house, or perhaps some one who may have been there for a time. We have since learned there is one case in Ashburnham.

THE PARTY OF FRAUD.

It is not in South Wentworth alone that the Tories have entered into a conspiracy against the electoral rights of the *bona fide* voters. During the trial of some appealed assessment cases in the County of Dundas, it came out in the evidence that a thorough organization for the distribution of bogus deeds and leases were arranged by the conservatives in the country, and some fifty or sixty leases taken round by agents at $2. per day for the purpose of qualifying young men for voting in one township. The supposed number of bogus votes in the county is 200. It is to be hoped that vigorous measures will be taken to bring the perpetrators of such rascally acts to justice, and to show the Tories that the days of fraud are over. Of course it is difficult to keep Toryism out of Fraud, for their party is known by it. Now that they have none of the people's money at their disposal, the people at [illegible] are resolved on pure elections in the hand of *bona fide* voters, and no others. Hamilton *Times*.

FALSIFYING THE RECORDS.

The *Mail* of Tuesday contained an article, founded on a report of our confrere the *Review*, trying to lay the blame of the breaking up of the Reminove Polling on the friends of the Reform candidate. It is long an established fact that the *Mail* will not gape at a gnat in charging political and other crimes to any one of the Reform party; and in this case truth is lost sight of so completely that one is ready to wonder, and enquire,—by what principle are the members of the Great Liberal Conservative Party actuated!

The sworn evidence of the witnesses established the fact that Twomey and Murphy commenced the disturbance, and the Returning Officer swore that he was afraid to reopen the poll, as it "looked like murder," and that votes could not be polled for both parties afterwards. The poll clerk was afraid of his life and ran away, and other peaceable citizens of that Township left for home, afraid of their lives.

In the face of all this, how can the *Mail* accuse the Reform Party of breaking up the Poll? The truth is, that all true friends of Reform are peaceable, law abiding citizens, who value their good name too much to stay where conduct disgraceful and illegal was likely to end in broken heads, arms or legs, and in consequence left the Polling Place. When these were gone, the rowdies wanted the Poll opened, so that they might have matters all their own way. It is true they have succeeded in their object for the present, but a little wholesome advice and precaution, will to all those who have so far forgotten their own self respect and that of the Riding, that no representative of the rowdy element can retain a seat in the Local Legislature through the votes of the Electors.

EQUALIZATION.

The appeals against the County Equalization, have been decided. The Judges decision is given below:—

In the matter of the Municipality of Smith

Notice of appeal was received on the 27th June, and the 6th of July appointed to hear the matter; when the County Council were represented by the Warden's Advisory Committee, and the Township by the Deputy Reeve and Township Clerk.

It was urged on the part of the Township that the equalization rate of $10.00 an acre, placed by the County Council on real estate in Smith, was too high, relatively, compared with the rates placed on real estate in other municipalities. Every municipality in the County has an interest in the question, and it would seem right and just that they should be represented and heard (or have an opportunity of being so) before any alteration is made on the Rolls as equalized by the County Council. This would be tantamount to notifying all the members of the County Council to be present; and, after hearing all the parties that might attend, there would be no satisfactory basis to take by which to alter the Roll as now equalized by the County Council—with only the Deputy Reeve of Smith and Reeve of Belmont and Methuen dissenting. It is clear that the Assessment Rolls are utterably unreliable, and cannot be taken as an evidence of the value of the property, real or personal, liable to assessment. It is notorious that real estate is, in many cases, valued in the Assessment Rolls at one fourth or one fifth of its value and in some cases at even less; and in the matter of personal property it is even worse. For instance in the United Townships of Belmont and Methuen, the total amount of personal property returned in 1873, as assessed, is $7,760, and income $1,500; yet it appears, by the same Roll that in the municipality there are

318 horses, which, if taken at $40 each equal $12,720; 3843 cattle, at $10, equalling $13,430; 671 sheep, at $2, equal to $1,742; 453 Hogs, at $2, representing $906, gives a result of $28,798. More than three and a half times greater than the amount of personal property returned as assessable. The Reeve of Belmont draws attention to property under $100 being exempt, and remarks that in his municipality many of the settlers are so poor that their farm stock comes within the exemption. On the other hand, it is said that it is not unusual, in order to avoid assessment, for different members of a family to claim different portions of the stock, although really all owned by the head of the house. And in Ashburnham the Roll shows only twelve persons assessed for personal property—(in all, to a gross amount of $7,560)—and nine persons for income; and yet there are put down 1,301 persons as resident in families of ratepayers, and 214 ratepayers.

Such are the results of Municipal Councils allowing their Assessors to disregard the Assessment Law and their oaths. The Legislature has imposed oaths and inflicted penalties for the purpose of getting at honest assessment, and all in vain: oaths and penalties are alike disregarded. With the Assessment Rolls in the wretched state they are, it is impossible, within the time limited (the 1st of August), to make a new and fair Equalization Roll.

By the Assessors' valuation, real estate in Smith aggregates $7 20 and a fraction per acre; in Otonabee, $7.35 and a fraction; in Methuen, $9 17 and a fraction—and all are equalized at $10. While Dummer on the Assessment Roll aggregates $2.03, and is equalized at $3; and Galway is reduced from $1.33 and a fraction to $1.

I cannot see my way to alter the equalization settled by the County Council with only two members voting against it. The appeal is therefore dismissed.

ROBERT DENNISTOUN.

Dated July 16, 1874.

In the matter of the Municipality of Belmont and Methuen, etc.

Notice of appeal was received on the 29th of June, and the 6th July appointed to hear the matter; when the County Council were represented as in the case of Smith, and the appellants by their Reeve.

The remarks made in the case of Smith as to the impossibility of altering the Roll agreed to by the County Council, with only the appellants' Reeve and the Deputy Reeve of Smith dissenting, apply equally to this case, and it is sufficient to refer to them without repeating them.

It seems that the personal property was equalised by taking the statistical columns of the Rolls and putting average fixed values (those mentioned in the Smith case) on the horses, cattle, sheep and hogs, which seemed to have been the principles adopted last year. The fact of farm stock in the older and richer townships being more valuable than in the newer and poorer is overlooked; and so also is the fact that ratepayers in the older townships have a larger amount of money invested in carriages, agricultural machines and implements, and many of them have money in Savings Banks, lent at interest, and otherwise invested. All this is apparent, and the impossibility of making a new and fair Equalization Roll to equally so—there being no reliable basis to go on.

The appeal is therefore dismissed, [illegible]

ROBERT DENNISTOUN.

Dated July 16th, 1874.

[illegible]

[illegible] valuation on the assessment rolls at one-fourth or one-fifth of its value, and in some cases at even less."

But so long as assessors do not value it higher what can be done? It is high time some thing be done, to equalize [illegible] assessment rolls as a basis for taxes, but no one will assume the responsibility of forcing assessors to do their duty according to law, and no wonder, for if one should do what was right the Township would have to pay dearly for it, unless all were put upon proportions. The County Council should appoint an officer to see after the rolls, and where there might be good reason to believe an assessor had not done what would be considered just, then let such officer become a public prosecutor. This would remedy the evil complained of by Judge Dennistoun.

CHARGES IN THE DIVISION COURT TARIFF.

Parties having collections within the jurisdiction of the Division Court, will be glad to hear that by an Act of last session of the Legislature of Ontario, the fees in the shape of law stamps in connection with this Court have been done away with.—The Government not requiring the revenue from this source abolished the tax. The change took place *on the first of July*. The ordinary costs of suit now are given hereunder, and will be encouraging to persons forced to make collections through this Court:—

COSTS UPON A CLAIM OF $20.—UNDEFENDED

MENNONITE IMMIGRANTS.

In addition to a party that arrived some time ago, via New York, we see that the Allen steamer "Peruvian," which arrived at Halifax yesterday, brings a further quio of 600 Mendonite immigrants for Manitoba. We have already given some particulars concerning this interesting people, who, it will be remembered, are a sect of German Baptists that long ago removed to Russia, and whose value as settlers is of the very highest kind, and who will form a most useful addition to the population of the Prairie Province, but some statements which we find in the New York papers concerning a party of Mennonities who arrived at Castle Garden there, recently, may be acceptable, and must, of course, apply wholly to the Manitoba wing of the settlers, as well as those destined for the States. These immigrants are by no means poor. It is related that one of them had a draft for $26,000, gold; another a draft for about the same; while many others had letters of credit for from $1,000 to $2,000. Further details as to sums paid by the Steamship Company that brought them over over on drafts issued by that Company, would give an average of $300 to each immigrant. All this wealth will go to the development of the resources of the Great West, agriculturally and otherwise. If the Manitoba settlers are so rich,—and there is no reason why they should not be,—their advent will prove an inestimable boon to that Province, which at present complains somewhat loudly of scarcity of money within its borders. Doubtless the Mennonites know how to take care of their cash, but some expenditure there must be. Their dress is thus described:

"The women all wore blue calico gowns, with a blue handkerchief thrown over their heads, and no signs of ribbon, or earrings, or brooches, or even wedding rings were visible, these being all considered too wordly. The children were dressed like their mothers, with the exception that some of their caps were surmounted with a kind of topknot or ornamented tassel. The men were all dressed like ordinary German peasants."

They seem, in fact, to realise Shakespeare's idea of "homely, meane apparel;"

"Our purses shall be proud, our garments poor."

One of the party, Darius Walter, giving some account of the immigrants, spoke as follows:

"We left Simpheropol, in the Crimea, about the end of May, and travelled by rail across Europe and Hamburg. We made halts at Berlin and Hamberg. Three of our little ones had died on the road. Our forefathers have lived in the Crimea for upwards of one hundred years, and we are leaving Russia because they want to make us Greek Catholics, and liable to military service. The law ordaining this does not take effect for four years yet; but we are taking time by the forelock and leaving the country as fast as we can. It is possible that forty thousand more of our number will be here one long from Russia. We are flying from that country because they want to rob us of our religion. We have some of our number here who live in a community and have all worldly goods in common. My son is their 'Father,' and he has been elected to that office for life. The brotherhood is called the 'Hertiche Gemeinschaft.' We all work at agricultural pursuits; we don't smoke; if we drink tea much we are publicly reproved in our religious meetings. We do not use wedding rings; we have no dresses if men and wife; neighbors neither is ever allowed to military ranks. We had our own courts for [illegible] tradition in Russia, but had to go before the Russian church in matters of appeal. We have a large number of families here, some of them being as large as eight or ten children. [illegible] always some very old people [illegible] like great grand-mother [illegible] who is about eighty [illegible] years

CALIFORNIA LETTER.

Anaheim, Los-Angles Co., Cal.

July 17th, 1874.

Dear Sir:—Shortly after the date of my last letter, we were advised of the illness of our eldest daughter, who resided in the Township of Galway, and subsequently of her death. She left behind her a husband and two small children to mourn her loss; which I hope will be sufficient excuse for the delay of this letter. When I last wrote we were about commencing our harvest, the chief part of which is now cut; most of the grain had to be mowed or cut with a Reaper, yet a part of the harvesting is done with a Header, the charge being $2 per acre and found—they leaving it in stack ready for the thresher. A good Header cuts about twenty acres per day, which with the three attendant waggons soon get over a large extent of ground; there are three additional headers in the settlement this year. Threshing commenced about the first of June and a large portion yet remains undone, in this line we have one additional from last year, being one of Pitts' latest improved and made in Buffalo; the horse power is mounted on wheels and cost in the neighborhood of $1,000; it is 12 horse power and the separator is 36 inch cylinder, so that this will give some idea of the cost of such machinery here. Barley turns out pretty well, averaging about 3,000 to 3,500 lbs. to the acre. Rye, I have not heard, as little has been threshed of that yet. Corn looks well and will, seemingly, yield well; yet, unless on land overflowed last winter by the rains, certain portions of the valley land, lying immediately around the foot hills—which have an advantage of the rain fall on the hills a copious supply of water over and above the rain fall direct running to the plains, which, in winters like last, is quite an addition—the corn on other lands needs water. Water is plenty for irrigation purposes this year; moreover, about two miles from us a fine well has been put down, which flows about two inches all around a seven inch pipe. This artesian water is a fine thing for this country for irrigation purposes. About town they generally have a large tank set high up, into which the water is pumped for the use of the house, either by hand, horse power, wind mill or steam, according to the fancy of the owner. Our Irrigation Bill is a grand humbug and has been rejected by the people at large, consequently we have to wait the sitting of another Legislature, two years hence.

A great project is now on foot to build a wharf near the Anaheim Lauding, two thousand feet long, which, it is claimed, will be sufficient to enable vessels to load at the wharf, and reduce the charge on grain and other stuffs materially—no lighterage being required. It, however, remains to be seen whether it proves a success or a fizzle. It is claimed that stock to the amount of forty thousand dollars has been already subscribed, and a Board of Directors have now been elected. The place is very pretty, and will make an eligible town site, situate as it is on the side of the ocean.

Some two months ago the leader of a gang of robbers was caught here. His name, I think, is Vasques: The banditti has been infesting this part of the country for many years, and from so many of the natives acting in concert with them, it was impossible to capture any of them. It is *claimed that he has committed* murder on several occasions, as well as robbery, and, the Government being appealed to, offered a reward of $8,000 for his capture. This having the effect of starting several parties in pursuit, he was wounded, and finally captured a few miles from the City of Los Angles, where he was comfortably sojourning at a private house. After being imprisoned in the County cast, he was interviewed by a press reporter, and with an eye to business, his life was published in pamphlet form, and sold at 25 cents per copy, thus making a lion of a villain, previous to his trial, which, I am afraid, will tell its own tale; but if money can be made, no one seems to care. He was taken from this county to an adjoining one, in which the murder was committed, for trial. From all accounts, he went on the Robin Hood principle, having no funds on hand when arrested, although but a few days before he called at a house inhabited by a man and boy, bound the man and kept him so until he sent the boy to the bank, the *latter bringing* $300 to *him*, and on receipt of the money he set the man free.

Yours, etc.,

J. Hunter.

The Canoe Couch on Exhibition.

It was a happy thought of Mr. Kellar to produce before the people of Halton, yesterday, the veritable "canoe couch, damask which has formed the staple of Tory speech for the last two years. There it was in all its superlative iniquity and the monster was eagerly scanned by curious thousand. As the chief plank of the great Tory party and the great weapon of assault on the Dominion Government, it has become a grand political issue in concrete form and embodied in crimson rep and wool works. When pictured from Eykert's scrap books, or mouthed in Lauder's great swelling words or elaborated in wordy Mail editorials, this famous couch was made to appear a grave national scandal; an extravagance on the body politic a high delorsaly a piece de resistance of the surplus, an agent and imminent prelude of direct taxation; an unbearable burden the revenue; a high addition to annual expenditure; a very nightmare to taxpayers; an epitome of ruinous extravagance; a horror in the way of honest government; a canker in the heart of society a raging moral pestilence; a battering ram directed against the fundamental principles of the British Constitution and responsible government; on outrage on political morality; a breeder of abominable case and loose indulgence; a very Pandora's box of all evils and misfortune. When seen in corporeal form, as it exactly is, it was seen to be an ordinary lounge, such as may be found in almost every office—too short to be comfortable for a tall man, and rather shabby and faded in appearance. Men looked at it and smiled, and said that if all the Tory outrages are such harmless affairs as McKellar's canoe couch, Ploey must be at a premium in the Tory camp.

Storm Signal.—The new Storm Signal mast recently erected on the wharf, at the head of the new harbor, is a very creditable piece of work, and will prove itself a very valuable acquisition to our mariners. The drum will be hoisted during the day in case of a storm approaching and at night a light. After the mast was raised and properly secured Capt. James called for a toey to go up and cast off the guys as the mast bend during 12 coats, when little Billy Grayson responded, where up and promptly rendered the work; he was paid his 12 cents and asked his age. He replied only seventeen. Pretty good for a seventy one year old youth. He is one of the oldest captains belonging to this port.—*From the Port Hope Times.*

ONTARIO FINANCES.

Between ourselves in semi and political [illegible] there have been many opportunities [illegible] speeches, some of which [illegible] Like great grand-mother [illegible] who is about eighty [illegible] years

BY-LAW No.
A BY-LAW to aid and assist the Huron and Quebec Railway Company by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the Town of Peterborough, and to authorize the issuing of such Debentures and the levying of such a rate as will be sufficient to pay the principal and interest of such Debentures.
WHEREAS, the Municipality of the Town of Peterborough is desirous of aiding and assisting the Huron and Quebec Railway Company in the construction of their proposed Railway, by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the said Municipality bearing interest at the rate of six per cent per annum and redeemable as hereinafter mentioned:
And Whereas by an Act of the Legislative Assembly of the Province of Ontario, passed in the thirty-seventh year of the reign of Her Majesty, entitled "An Act to incorporate the Huron and Quebec Railway Company," it is enacted that any Municipal Corporation which may be interested in securing the construction of the said Railway, or through any part of which, or near which, the Railway or branches of the said Company shall pass, may be empowered, may and the said Company by giving money or Debentures in aid [illegible] Bonus, or Loans.
And whereas, a By-law duly passed by more than twenty resident Municipal Electors duly qualified voters of the said Municipality, has been presented to the Council of the said Municipality requesting the Banks to aid the said Railway to the extent of One Hundred Thousand Dollars as required on by the said Act required
And whereas, by [illegible] of the Parliament of the Province of Canada, passed in the [illegible] Victoria, Chapter [illegible] Intituled "An Act respecting Municipal Institutions in Upper Canada," it is enacted that the Council of every Township, Village, Town and City, shall have power to pass By-laws for the following purposes, that is to say: [illegible] Hall, the Market Block, and the lands Bounded by Townsend Street and East of Park Street, and the same thereby became vested in the Commissioners therein named and their successors to be called "The Commissioners of the Peterborough Town Trust," and that it should be lawful for the Mayor and Town Council of the said Town of Peterborough for the time being to cause to be issued Debentures under the seal of the said Corporation to be signed by the Mayor countersigned by the Treasurer of the said Town and by the Secretary of the said Commissioners and to the amount and for the purposes and in the manner in the said recited Act designated and that it should be lawful for the said Commissioners to issue New Debentures if required from time to time upon which to raise funds to retire outstanding Debentures and that the Town Council of the said Municipality should annually upon the application of the said Commissioners raise upon and from the rateable property of the said Town of Peterborough the Interest and Sinking Fund requisite for the ultimate redemption of the said Debentures according to the said lastly recited Act.
THE Municipality of the Town of Peterborough by the Council thereof therefore enacts as follows:
1. That it shall and may be lawful for the Municipality of the Town of Peterborough to aid and assist the Huron and Quebec Railway Company in the construction of their proposed Railway by granting by way of Bonus to the said Company Debentures of the said Municipality to the amount of One Hundred Thousand Dollars as herein provided.
2. That for the purposes aforesaid it shall and may be lawful for the Mayor and Town Council to cause to be issued Debentures of the said Municipality under the seal thereof to be signed by the Mayor and countersigned by the Treasurer of the said Town and the Secretary of the said Commissioners to the said amount of One Hundred Thousand Dollars to be payable at the office of the Treasurer of the said Town at the times following that is to say: Debentures to the amount of Twenty Thousand Dollars at the end of ten years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of fourteen years from the issue thereof, Debentures to the amount of Twenty Thousand Dollars at the end of Sixteen years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of Eighteen years from the issue thereof and Debentures to the amount of Twenty Thousand Dollars at the end of Twenty years from the issue thereof. The said Debentures to be for the sum of One Thousand Dollars each and to bear interest at the rate of six per cent per annum payable half yearly and to be issued and the interest and the sinking fund for the redemption thereof to be provided for in the manner and subject to the provisions of the hereinbefore recited Act consolidating the debt of the Town of Peterborough.
3. That the said Debentures shall be issued and bear date as of the first day of July One Thousand Eight Hundred and Seventy-five and the interest thereon at the rate aforesaid to be computed from the day of the date thereof and payable on the first days of the months of January and of July in each year at the office of the Treasurer of the said Town of Peterborough.
4. That this By-law shall cease to be of any effect and no Debenture or Debentures shall be issued thereunder until the said Company and the Ontario and Quebec Railway Company shall have amalgamated or until the said the Huron and Quebec Railway Company shall have obtained control of the said Quebec and Ontario Railway Charter or until the said Huron and Quebec Railway Company shall have entered into a good sufficient and binding contract with the said Ontario and Quebec Railway Company securing running powers over the said Ontario and Quebec Railway with such stipulations and additions as will enable the said Huron and Quebec Railway Company to carry out the stipulations and provisions of this By-law and until the said Huron and Quebec Railway Company shall have executed and delivered to the Municipality of the Town of Peterborough their sufficient bond to be approved by the Town Council of the said Town and in such a penalty as the said Town Council may seem meet conditioned for the maintainance in the Town of Peterborough of the Chief Workshops in connection with the maintainance of the said Road for the entire of the said Railway between Ottawa and Toronto and to have and keep constantly employed therein not less than One Hundred Men within Three years from the commencement of the operation of the said Road and conditioned also that the charges for freight upon the said Railway between the City of Montreal and the Town of Peterborough shall not any time exceed the charges for freight thereon between the City of Montreal and the City of Toronto or any point westerly of the City of Toronto and shall not exceed at any time the charge for freight on the Grand Trunk Railway between the City of Montreal and the Town of Cobourg or any point west of that and that the charges for freight between the Town of Peterborough and the City of Toronto shall not exceed at any time the charges for freight on the Grand Trunk Railway between the Towns of Cobourg and the City of Toronto.
5. That the said Debentures shall be handed over to the Trustees to be appointed under the first recited Act upon and only upon and at the times and conditions following that is to say: Debentures to the amount of Twenty-five Thousand Dollars when and so soon as the grading shall have been completed on one half of that portion of the Line of the proposed Railway (such line to be the most direct route between the Town of Peterborough and the City of Ottawa) between the Town of Peterborough and the Eastern boundary of the County of Peterborough to the further sum of Twenty-five Thousand Dollars when the whole of such portion of the said proposed Railway shall have been completely graded and to the further amount of Fifty Thousand Dollars when and so soon as the said Road shall have been completed and is running cars from the City of Ottawa to the City of Toronto.
Provided the same shall be so completed and in running order in three years from the First day of July One Thousand Eight Hundred and Seventy Four.
6. That interest shall not

EDITORIAL ITEMS.

Fine Weather.

The Hay Harvest has been very favorable so far, a good many paid fine weather to save it.

Town Council.

There was a meeting of the Town Council on Tuesday Evening, a report of which is crowded out this week.

The Tobacco Crop.

Will be a failure this year Smokers would do well to take a note of this, and provide themselves with some

The Model Farm.

Professor McCandless has been requested to resign the management of the agricultural and model farm, near Guelph, and in consequence did so last week.

Drowned.

A young man about 21 years of age, named Thomas Harmer, was drowned in the Otonabee River, on Sunday morning, while bathing. The body has not yet been found.

The Freeholder says:—

One of the stage horses belonging to Mr. Rae, McDonald & Kennedy, stage proprietors and mail carriers between Lancaster and L'Orignal, was poisoned last week by some ill-disposed person.

Lindsay.

Mr. Walters of Lindsay, has received the contract for dredging the Scugog, between Lindsay and Sturgeon Lake. The Government of Ontario has appropriated $4,000 for this purpose, and the work has been commenced.

The Crops.

The crops are reported "splendid" in every section of this county, this year. The hay is already largely saved. The fall wheat is being cut and promises a fair average The spring crops could not be easily surpassed.

Toronto Markets.

Wednesday reports Liverpool markets dull, a decline of 1d on red wheat, while at Toronto wheat is $1.20 to $1.28; barley, 74 cts.; peas, 70 cts.; butter rolls, 20 to 25 cts; potatoes, 50 to 55 cts.; hay, new, 14 to $15.00 per ton.

Changing.

The Rev. Dr. Freshman of Ingersoll, has resigned the pastorate of the W M. Church. It is rumored that he intends following Mr. Gemley into the Episcopal Church, at no distant day. So says the Ingersoll *Chronicle*.

Teachers.

Teachers should send their ballots away about the tenth or twelfth of August, so that they may be received at the Department Toronto, by the seventeenth of that month. Ballots received after the eighteenth cannot be legally taken into consideration.

Severely Scalded.

The Lindsay *Post* says: Last Monday morning a little girl seven years old age, daughter of Mr. Henry Irwin, Richardkeeper, was playing in the kitchen where clothes washing operations were in progress, and tumbled into a tub of boiling suds, the poor little thing was severely scalded.

News.

The Montreal Daily and Weekly *Witness* is now to be had Davidson & Co., Bookseller and Stationer. The price of the Daily is only 1 ct. per copy, and the Weekly 4 cts. or $1 per annum. The Port Hope and other local market reports are now being supplied to the *Witness* by telegraph.

Y. M. C. A.

Y. M. C. A.—The usual prayer meeting of the Y. M. C. A. will be held in their rooms this evening at 8 o'clock. An address will be delivered by the Rev. J. M. Roger. All are cordially invited to attend. The usual prayer meeting will also be held on Sunday morning from 9 to 10 a. m. Free to all.

Examination of Teachers.

At the examination of Teachers just held here, there were 68 candidates, seventeen of these were applicants for second class certificates, and 47 for Third class. How many have succeeded is not yet known. The examination of the papers is now workr equiring great care and exactness, so as to secure justice to all the candidates.

Lord Dufferin.

Visited Toronto on Friday last, and Newmarket on Saturday, when he assisted in laying the foundation stone of a new Church. He then proceeded to Barrie and Orillia. In each of the places he received a welcome, and addresses were presented to him, to which it is needless to say he made appropriate replies. He is on his way to Lake Superior.

Tilton and Beecher.

This now, famous scandal, we prefer not interfering with until both sides of the questions are fairly before the people At present we feel inclined to the idea that Tilton is a vile creature, whose family quarrels Beecher may have sought to allay or soften, and in doing so may have taken sides with Mrs. Tilton. Tilt who exasperated the husband and now he wishes to be avenged, and thinks his severest vengeance is to ruin Beecher's influence.

Small Pox.

One case of small pox has been found in Ashburnham, but it was removed yesterday to the general hospital. All the cases so far had their origin in Cavanagh's hotel, and the disease was brought there from Orillia. The young man Nash who who was sent here from Orillia, had been a boarder at Cavanagh's. There was a runaway here on Tuesday that W. C. Lawrason, the Fredi Tree duplex, had died in the Toronto Hospital. Will we dare not vouch for it.

Water Works.

Mr. Rossiter had the Engineers of the Stratford Water Works here last week. He went over the old ground of the pumping supply (again), and drew a report which will soon be made public. He recommends the cost of re-pumping again, $7,000 works for the Town at $14,000 to $20,000. It is difficult to say much about the new schemes until before the people. If the people want Water Works let them have them, only let us be economical, no gambling.

New Post Office Rule.

The Post Master General has issued a circular to the effect, that no accounts will be kept in future, at any post office after the first of August. The word "charge box X", can no longer do duty for the absent stamps. It will prove an inconvenience for a while but a supply of stamps will be a potent remedy against any disorder in sending letters. The next thing will be (we hope) to allow no unpaid matter to pass through the post office, send it to the dead letter office.

Manitoba.

Ex-Attorney-General Clarke, of Manitoba has decided not to enter politics again. Ill health prevents him giving that attention to duty that a public office demands. His action in having Lepine brought to trial for the murder of Scott, was the cause of his defeat, as the French and Half-breeds were all against him. His appeal to the diyaree courts of the United States to enable him to do what Canadian Law should not sanction, appear to

Hark a Hint from Sir John.

The Newfoundland Legislature appointed a commissioner to enquire whether expenditure of upwards of $30,000, during 1873, "falsified hopes" raised the previous year, largely caused by the unpopularity of fishing, which the people follow. "One witness expressed the opinion that the *Elections* largely increased the amount. To this and private debts were paid out of Public Money, and no explanations could be made, except that they were ordered by the Executive." They are apt scholars.

New District Lodge O. Y. B.

The Lindsay *Warder* says:—We understand that the Young Britons from the various parts interested made arrangements on Monday last for the organization of a District Lodge, to be composed of the Peterborough, Lindsay, Port Hope and Cobourg lodges, and to be represented at District meetings by five members from each lodge—the Master, Deputy Master, Secretary, Treasurer, and First Committeeman. The first meeting will be held at Peterborough on Friday, the 4th of September.

Ireland.

Seven English and Scotch members voted for Mr. Butt's Home Rule motions. The people of Ireland are divided on this question. A federation with a provincial Legislature as in Canada is not likely to come soon. The question of Education will prevent it. The protestant population do not desire Separate Schools, and as they fear their introduction in case of a Local Parliament, where there would be strong influences in its favour, Ireland will remain divided until a common secular system can be devised.

The Treaty.

The *Mail* and *Leader* and others of the small fry, are harping on the Treaty just now. The arguments are of the old style abuse of MacKenzie, Brown and the grits, their lowliness, of birth, unfitness for statesmanship, and the *Globe* as the grit organ. This the sum and substance of the whole noise, we hope when people have time to read it, they will not be like Mr. H. H. Smith, and the statutes, never read till they are laughed at for their want of knowledge of law. They should first read the Treaty, then discuss it.

The Lumber Trade.

The Lumber interest of the Dominion, met at Ottawa yesterday, with a view to consider the advisability of shutting down all large mills early in august, and also to regulate their business for the approaching winter. The trade is dull and may remain so another season; unless Reciprocity gives it a fresh impulse which is confidently expected. In the mean time awaiting results, the large mill owners are about to act with caution. The very large stocks now on hand, it is believed will meet the demand for a year without any large additional manufacture However advices from Ottawa this week report sawed lumber very flat, and prices giving way. From Chatham and Lake Erie ports also we hear of mills shutting down, and American demand ceasing.

Burleigh Bridge.

We are able to announce this week that the Burleigh Bridges are already open for travel. This reflects great credit on Mr. John Boyd, the contractor, when most of contracts for completing the bridges does not expire till 1st of September, and yet we find Mr. Boyd able to announce them open for travel six weeks before the time contracted for by him. Mr. Boyd's energy has secured for him the good will of our County Council and public men, and his promptness in completing in a perfect manner, all his contracts has, secured the confidence of those who secured his services. The Warden and other gentlemen, who have seen the piers, cedar, and work manship, pronounce the whole construction first class, the piers especially being considered the best cedar piers ever constructed on these waters. Mr. Boyd deserves the thanks of the County Council, and the community for his energy in hurrying the work through, so as to shorten the interruption of travel by six weeks.

Trenton Fire.

Trenton had a big fire on the 24th July The report says:—A destructive fire broke out here this morning, originating in Mr. George Dean's drug store, which is destroyed; also J. W. Hyde's boot and shoe store, and C. England's tailor shop. The buildings were all owned by G. Deane, James Marsh's grocery and liquor store, and Mrs. Cockran's block of four frame tenements. They were occupied by the following parties:—H. Nulty, dry good; Urquhart Bros. groceries and leather store; F. J. McCabe, groceries and liquor. Crossing the street the conflagration next destroyed W. T. Baker's medical hall, G. Leversen, tailor; D. Shemberg, boot and shoe store; J. W Lee, dry goods; Elvin's block, occupied by R. Green, dry goods; J. R. Young boot and shoe store; the Dominion Telegraph office; G. A. White, hardware; R. W. Bishop, late office; Mrs. Price's school, and Prince Albert Hall. The Queen's hotel was badly scorched. W. Tittle, Esquire & Whitton, and W. R. Wilkes, also J. B. Christie, post office, and Montreal Telegraph office suffered heavily by removal. The total loss in buildings and property is about $75,000.

Mr. Rykert on Himself.

Mr. Rykert addressed a meeting of the Richmond Hill Reformers on the 22nd inst. [illegible] for which he complains he was [illegible] and [illegible] or at least some of the [illegible] do not favor his proposal with regard to [illegible] fight flanking citizens, [illegible] about cost that the completion of the road [illegible] country for the proposed [illegible] Toronto, and no further to [illegible] Lake next year, what will [illegible] make their Harbor pay? unless they develope a through traffic. The delegates of the Town and Road are very closely watched, and there should not be a [illegible] between the council and the [illegible] can be avoided. It is time [illegible] parties are selfish, and people take the last cent that could be squeezed out of a corporation. But the council can make its best terms, taking into consideration the prosperity of the town in the future as well as to-day, and then say to the company, thus far, and no further. A little pennywisemess however may prove a great loss.

Personal.

Mr. Thomas Deane, who left for Manitoba in this spring, has returned in good health, and is well pleased with the great "Long Land." He speaks favorably of the country, and of the prospects of its rapid filling. Untill work among the Provinces of the Confederation of the Dominion. He intends returning in the Fall with his whole family, and taking up his abode. His report of the state of the Simcoe road, and of the miserable management of the Company having the contract this season, is very unfavorable. The number of hands to do the work is too small, and the consequence is that engagements are delayed from 15 to 20 days when it might be gone over in ten days. Men and women are allowed to suffer with fever, nothing being prepared to stay price, nor can it be obtained. This is surely not to be continued long, as it would materially lessen the number willing to risk the labor and suffering. We are glad to find that the Ottawa Government is sending provisions so as to remedy the evil complained of. If the contractors are not doing right, the Government should take the work into their own hands at once.

McKELLAR ON RYKERT.

THE MAN TORIES DELIGHT TO HONOR!

They had a field day at Wallaceburg, Wednesday *the 3rd inst.* The little *terrier*, Rykert, had been in the county previously and deported himself as was in his wont, slandering his political opponents and lying about the affairs of the country generally. Mr. Thos. Hodgins, M. P. P., had called the meeting, to answer the vile charges made against him by Rykert, and invited the latter to be present, although the Conservatives had not the manliness and sense of integrity to notify Mr. Hodgins to attend *their* meeting. Hon. Mr. McKellar was one of the speakers for the meeting, and after reviewing in a masterly manner the course of the Government of which he is a member, he turned his attention to the diminutive representative of Lincoln. The way he applied the lash to the back of the Tory leader was "a caution." "Mr. McKellar's speech, (says the St. Thomas *Home Journal*, which gives a full and excellent report of the speeches) while an able an eloquent defence of the Government of which he is a member, was a crushing reply to the statements and [illegible] Rykert. We have heard Mr. McKellar in many a platform during the past twenty years; on occasions when he acquitted himself better than he did last Friday. We have seen him by the lash on many a political culprit; but never with greater effect than last Friday, when by sheer impertinence Mr. Charles Rykert drew down a fearful castigation upon himself. Every stroke drew blood, and every stroke deserved."

Hon. Mr. McKellar.—These gentlemen are specimens of the foul and malignant charges by which this gentleman behind me and his friends have tried to hound me out of public life. (Cries of shame! shame!) They have assailed my private character in every form. You have all read no doubt again and again of my keeping canoe couches, card tables and chromo pictures in every room, which are simply covert charges for being a gambler, for keeping company with women of ill-fame, and with hanging the portrait of one of these in my bedroom. (You have heard it from Mr. Rykert's own lips to-day referred to as "the portrait of little Mrs. Somebody." They do not hesitate to assail me with these false and calumnious charges, although I have given the best years of a long life to public usefulness; and have grown both grey and poor in the service of my country. They do not hesitate to wound the feelings of a large family by traducing their father, and by associating the memory of their dead mother with the picture of a woman of bad repute. I declare to you, gentlemen, that the only portrait of a woman that I had put up in my room is that of my deceased first wife —a woman whose loss I had good reason to mourn these many years, and the memory of whose love had thrilled I desire to cherish while there's life in me. (Loud and continued cries of shame! shame!) These calumnies and lies, these false and indecent charges against my private character I have had endured for years in silence. If even those men come to the front of my constituency, and among the men who have known me for a boy-hood, to wheedle and reinstate them, I may be excused if, in turn, I go back to enquire somewhat into the record they present. Mr. Charles Rykert has charged me with having embezzled money and robbed widows, and I now, after hearing his slanders, so long in silence, claim to say a few words about his character. I make this platform charge him with having misapplied money and robbed widows, and I will give you the names of a few of them. I charge him with having, while acting as collector for Mrs. Ferris, widow of Dr. Ferris, and for Mrs. Sampson of Niagara, embezzled some of money belonging to them. (Sensation.) Furthermore, I assert that he had to be sued to recover the money, and was ordered by the court to be stripped of his gown unless it was paid.

Mr. Rykert (excitedly)—It's untrue.

Hon. Mr. McKellar—It is so. I have the documents here in my possession. Bring me before a Committee of the House or before a Court of Justice and I will prove my charges. (Cheers.) I charge him with having embezzled money belonging to the Welland Canal Company. He [illegible] to me in order to recover the money, and in this case too he had the alternative presented to him of either paying the money or being stripped of his gown. (Cheers and laughter.) He had also to be sued for the sum of $1,762 which he got into his possession while acting as Warden of the county, and a collection had to be raised by his friends in order to clear him. In another case he was put in the unpleasant position of being charged against [illegible] with having taken a bribe of $1,000 from a member to a commercial jury on behalf of his wife and family saved him from prison or the penitentiary. But I have now a charge to make against him in a matter in which the county is deeply interested. When the Canada Southern Railway Company came through the county of Middlesex, and the line had nearly reached Strathroy, Mr. Rykert opposed the Bill in the most determined manner, but when unexpectedly wheeled round and gave it an equally strong support. You will be somewhat interested to know the cause of so sudden a change. (Hear, hear.) I will tell you the true cause. When the Canada Southern Railway Company came through the village of Strathroy, a few weeks

Select Poetry.

A FATHAKER'S BALLAD

BY J. G. SAXE.

Where the little streamlet purls,
We're hoeing for the hoe-a-tu (corn),
Under our broad-brim girls
Hot mixing,
The kissing,
As we toy with their flaxen curls
Under the hats at 6p, blue the sun is gone
We come from labor, weary,
And tee by the fireside alone,—
I with my dark-eyed Mary:
I pleading,
She teasing,
Till I vow her a little fairy
When leaf and flower are twining,
And earth is bright with the golden blaze
Of old Sol merrily shining:
All raining,
Hay-making,—
Not a moment left for rhyming.

A Millbroker in Manitoba

Correspondence of the Lindsay Post

CITY OF WINNIPEG,
June 26, 1874.

According to promise, I now take the opportunity of sending you a few particulars in reference to the travel to this part of the Dominion, from Ontario. I left Millbrook on the 10th inst., stopping one and a-half days in Toronto to attend to some business; on the 12th at noon, took the cars for Collingwood, and remained board the steamer, "Prince Arthur's Landing and Duluth.

After a very pleasant passage of nearly four days, we arrived at Prince Arthur's Landing, intending to come to this place by the Dawson route, but upon finding that there were already in the latter place over 500 persons waiting their turn, and as I could not see prospect of getting started for nearly a week, I made up my mind to go on by the same steamer to Duluth, at which place we arrived on the 17th, at 9.30 a.m. At 1.30 p.m. same day I started for Moorhead, by the Northern Pacific Railway, and arrived at the latter place at 5 the next morning. This is where the railway crosses Red River, after coming through half a mile of heavy cut and about 75 hours steady sailing, when we arrived at this place, all safe and sound, having spent 14 days from Millbrook, less 9 days while half in Toronto.

Having arrived at Prince Arthur's Landing, and finding that the passengers were so much blocked up at this place, I enquired of Messrs. Carpenter & Co., (the steamboat agents), what the reason was for such a state of things, and was informed that such a heavy travel by that road was not at all anticipated, either by the Government or by themselves, as last year there was sent over that road about 2000 persons in the whole season, and that they had already sent off nearly as many up to that date of this season, and that they were of opinion that at least 10,000 people would go by that route this year, besides a large amount of luggage and freight.

Upon arriving at Duluth, which is a new city, only three years old, and of over 3,000 inhabitants, built upon the face of a mountain fronting Lake Superior, I went around to see the sights, many of which were very interesting. One feature of the place worth noticing is that I counted no less than thirteen very fine churches.

Along the line of the Northern Pacific Railway there is some of the wildest scenery in America. Moorhead, which is about 25 miles west of Duluth by the above road, is a small town of 1500 inhabitants, and has all been built up within the last two years. The buildings are small, poor affairs, put up in a hurry to serve immediate wants. The hotel accommodation is miserable. From this place to Winnipeg, by the stage road, the distance is 260 miles. The stage leaves Moorehead for Winnipeg every second day, carrying passengers at $20 each, and the Canadian and American mails travelling the whole time, and making the distance in about two and a-half days. I chanced to go by the steamer, upon which the first class fare is $10, and 50 cents extra for each meal. Owing to the crooks and bends in the Red River, and from the fact that it runs in all directions and points of the compass, the distance by this route is said to be over 750 miles to Winnipeg, and I am inclined to believe it. The Americans have a monopoly of this route, and in many cases are exceedingly disobliging; and there is urgent reasons for our Dominion Government losing no time in opening up a competing road from Thunder Bay to this place, so as to relieve travellers and emigrants from the grasp of this monopoly.

I am agreeably surprised to find that the Dominion has such a fine and prosperous country as is this Province of Manitoba, and shall proceed to give you a short account of Winnipeg—its position, growth, and present standing, which may be of interest to your numerous readers. The

CITY OF WINNIPEG

is situated on the south side of the Red River and north of the Assiniboine River, which empties into the former at this place, and to the north and west of the city limits is the open prairie. The corporate city or city limits is two miles square. It consist of one leading principal street, running nearly north and south; off this street are many cross-streets; to the east and west are others running parallel with the main street. Inside the city limits the place is all laid out into streets and lots, and in good show. The steamboat landing is about 400 yards up the Assiniboine River, and right opposite the Hudson Bay fort, known as "Fort Garry," which is on the north bank of this river, and forms the most prominent part of the south side of the city, of which it is a part. The stores and buildings of the Hudson Bay Company are situated inside of the fort or high stone walls, and inclosing about four acres. The entrance into the fort are guarded night and day by soldiers.

Three years ago this city could boast of not more than twenty buildings all told, and now the houses may be counted by hundreds. The present population of the city is about 4,000, some say more; and the prospects are that five years from now 20,000 may be under the mark. The Court House is the only public building that [illegible] considerable for it. The Dominion Government is about to put up some [illegible] buildings next year, which no doubt will make a great change for the better in the place. The Post Office, Custom House, and Land Offices, would not be used in your town as stables for horses. The Exchange Hotel, in which I am staying, is a [illegible] just opened, and is the [illegible] comfortable, well-furnished hotel in [illegible] Board $2 per day or $[illegible] There are several very respectable private boarding houses in the city, and any number of tenth-rate places. Winnipeg is full of saloons, all of which appear to be doing a large trade in selling bad whiskey and preparing as many young men as possible for the gallows and penitentiary. There are 4 churches in the city, viz., Wesleyan Methodist, Church of England, Presbyterian and Roman Catholic, the services at all of which appear to be well attended. There are quite a number of large stores and several smaller ones, all of which hold heavy stocks and are doing a good trade, principally cash, and at good profits. In the city are several wealthy men who have become rich within the last four years by the rapid increase in the value of real estate. Property in that time has increased in many cases fifty times its former value. Several new mills have been built on the banks of the river, and there are also several planing, sash and door factories, all doing a lively business. I observe that Mr. W. R. Dick, formerly of Fenelon Falls, and Mr. McAuley, of Orillia, are here, engaged in that business. The Merchants' Bank have a branch here kept in a miserable old building. There is also a private Bank here owned and managed by Mr. A. McMicken. Both banks are doing a large business. The most of the trades are represented here, and all are busy. Some grading has been done on the principal street, but that is all, and a sidewalk has been constructed the whole length of it (two miles), but only in some places on both sides.

Rents are very high. A dwelling house that would accommodate a family of about eight persons comfortably, with out-buildings attached, rents for about $50 per month; and small, miserably-built places of two or three rooms bring from $12 to $18 a month, the former being about the smallest rent charged for the poorest places. Dry lumber (common) dressed two years ago, has sold for $50; and $75 to $90 for good; but is now worth from $20 to $40; for a whole bill of lumber required to build a house, the price is $30 per 1000 all round. Stone, of which there is an unlimited supply of first-class quarry, can be had down for $20 per cord, and lime from 50 to 60 cents per bushel. Sand is plentiful. Carpenters obtain $3.50 to $3 per day; bricklayers and plasterers about the same; laborers get $2 per day. Of the latter there is an over supply here at present.

The white population seem to be sociable and friendly. On the streets are to be seen people from all quarters of the globe, except Chinese, the Indians, with the English and French half-breeds, are the greatest specimens of humanity that I have seen. They are of all colors, from dark shades of black down to the lightest shades of copper, and are dressed in very different and ridiculous styles; some of the Indians parade the streets, having their faces painted in all sorts of colors.

The mails from Ontario are received by stage from Moorehead three times a week, and are sent out in a like manner. The Montreal Telegraph Company have an office here. There are five weekly newspapers published here, some of which are got up in good style. Owners of livery stables do a brisk business at from $5 per day, for a horse and buggy, to $15 for a team and carriage. There are a few good High Schools within the city at which are taught to young ladies and gentlemen all the higher branches of education.

ETIQUETTE TOWARD THE POOR.

A circle of richly dressed young people were gathered about a stove in a ferry-house waiting rather impatiently a delayed boat. A shabbily-dressed old man, who was standing back in the cold, volunteered some civil remark in a pleasant tone, but his only reply was a cold stare and an occasional sneer at his rags from one or another of the group. Oh, how those jealous pierced through the worn coat, to the very depths of the old man's heart! More cutting than the fiercest blast of the north wind are the shafts of ridicule. The old man quickly drew back with a homeless, dejected air, shutting back the misery in his own bosom which the thoughtless, unfeeling conduct had occasioned.

A youth, sitting apart from the rest, had read, with a glance of his honest eyes, the whole story. He saw the pain which was traced on the furrowed brow, and an answering throb was awakened in his bosom. Drawing nearer, he gave him a suitable remark, and drew him into a little further conversation.

It was delightful to see the quick and glad surprise which lighted the old man's eye at this attention. The thankfulness of the moment before was forgotten, so were his age and infirmities, and he seemed to feel that he was not so wholly cut off from the sympathies of the world as he had just now assumed.

In all our books of behavior for young people, how few directions they ever get about proper etiquette toward the poor. All seems to refer to their intercourse with equals or superiors in rank or station.

Not so did our Divine Master walk among men. He laid down a very different class of directions from those which the world gives, when He gave rules for attending feasts.

He who tenderly sends his charity by the hand of another, and disdains to speak to him on whom he bestows it, will not reap the reward of him whose "prayer and almsdeeds came up for a memorial before God."

Let us teach our children from infancy respectful behavior toward the poor and the aged, and the lessons will stay by them when they have gone out from under our roof.

A FISH STORY.

The curious fate of a fish caught in the Sassafras river, in Kent county, Maryland, is thus related by a correspondent: A fish-hawk stole a very fine pickerel from the seine of some fishermen, when an eagle who had been watching the operation gave chase, and compelled the hawk to drop his prey. This was seized at once by the eagle and appropriated to his own use. William Shallcross who resides there, has been looking on, and succeeded in frightening off the eagle. As the fish was not injured, he took it home, intending it for supper. While the cook was looking another way the cat in [illegible] found captured the pickerel, and began devouring it. Just then a hound belonging to the family came along and concluded to assert his rights in the matter. He drove away the cat and ate the fish himself—which closes its history. And this is a true 'fish story.'

An Indiana woman told a burglar by the whiskers until he husband came home. Burglars should shave often.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Toronto
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deservedly the confidence of mankind, as has Ayer's Cherry Pectoral for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protection against them. While adapted to milder forms of disease and to young children, it is at the same time the surest effectual remedy that can be given for confirmed consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed to have fastened its fangs upon the victim, have been completely cured by the Cherry Pectoral. So complete is its mastery over all diseases of the Lungs and Throat, that few cases resist its use, however obstinate. Clergymen, Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally and so virtuous known that we need not publish the certificates of those here, or do more than assure the public that its qualities are fully sustained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Bilious Fever, Dumb Ague, Periodical, or Bilious Fever, &c., and indeed the whole class of diseases resulting from disturbed marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance, it is entirely harmless upon any person. The consequence and health of its users in the ague districts, are literally beyond account, and we believe every one is yearning for the discovery of Ayer's remedy. Our pride is gratified by the universal confidence and remedy of the medical corps attached to almost every army, and by the people everywhere. Ayer's Cherry Pectoral and Ague Cure, with other proprietary medicines, either combined in, or the fundamental portions, either combined in, or prepared by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Derangements and Liver Complaints, it is an excellent remedy, producing the desired effect by its gentle influence upon the Liver. Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold everywhere around the world.

PRICE, $1.00 PER BOTTLE.

THE REASONS WHY LAZARUS, MORRIS & Co's CELEBRATED Perfected spectacles, AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. *Because* the never tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

Select Poetry.

TRUE PLEASURES.

I've sought for many weary years
For joys to satisfy the heart;
But Sorrow and bedewed with tears,
Earth's transient pleasures soon depart.

I've sought for wealth at Fortune' shrine,
Who showered his gold in shining spray;
But the sparkling ores from that divine
Had wings, and quickly sped away.

I've been where Bacchus holds his court,
Where sensual lusts degraved the mind,
Though pleasures crowned the gay resort,
Yet woes and misery lurked behind.

I've admired fair Venus' queen,
And felt the power of Cupid's dart;
But often found a beauteous face,
Hid some dobdoion of the heart.

I've bowed before the sacred muse,
And yielded to Apollo's sway,
But they inspired me to amuse—
Their influence would not always stay.

Thus temporal joys were mixed with pain,
As with the rose the thorn is given—
I found them fickle false and vain,
Then turned my longing eyes to heaven.

I sought for healing from above,
To make my sin-sick spirit whole,
And found the Saviour's dying love
Completely satisfied the soul.

Though years have passed since that glad hour,
I've found the gospel promise true,
That Christ within reveals his power.
The hope of Heaven and glory too.

Ananoque, 1874.

THE BLESSINGS OF A GOOD DEED.

BY T. S. ARTHUR.

"I should like to do that every day for a year to come," said Mr. William Everett, rubbing his hands quickly in irrepressible pleasure.

Mr. Everett was a stock and money broker, and had just made an "operation" by which a clear gain of two thousand dollars was secured. He was alone in his office; or so much alone as not to feel restrained by the presence of another. And yet a pair of dark, sad eyes were fixed intently upon his self-satisfied countenance, with an expression, had he observed, that would at least have excited a moment's wonder. The owner of this pair of eyes was a slender, rather poorly-dressed lad, in his thirteenth year, whom Mr. Everett had engaged, a few weeks previously, to attend his office and run errands. He was the son of a widowed mother, now in greatly reduced circumstances. His father had been an early friend of Mr. Everett. It was this fact which led to the boy's introduction into the broker's office.

"Two thousand dollars." The broker had uttered his satisfaction; but now he communed with himself silently. "Two thousand dollars! A nice little sum that for a single day's work. I wonder what Mr. Jenkin's will say to-morrow morning when he hears of such an advance in these securities?"

From some cause, this mental reference to Mr. Jenkin's did not increase our friend's state of exhileration. Most probably there was something in the transaction by which he had gained so handsome a sum of money that in his calmer moments would not bear a close scrutiny—something that Mr. Everett would hardly like to have blazoned forth to the world. Be this as it may, a more sober mood, in time, succeeded, and although the broker was richer by two thousand dollars than when he arose in the morning, he was certainly no happier.

An hour afterwards, a business friend came into the office of Mr. Everett, and said:

"Have you heard about Cassan."

"No; what of him?"

"He's said to be off for California with twenty thousand dollars in his pockets more than are justly belonging to him."

"What!"

"Too true, I believe. His name is in the list of passengers who left New York in the steamer yesterday."

"The scoundrel!" exclaimed Mr. Everett, who, by this time, was very considerably excited.

"He owes you, does he?" said the friend.

"I lent him three thousand dollars only yesterday."

"A clear swindle."

"Yes, it is. Oh, if I could only lay my hands on him!"

Mr. Everett's countenance, as he said this, did not wear a very amiable expression.

"Don't get excited about it," said the other. "I think he has let you off quite reasonably. Was that sum all you asked to borrow of you?"

"Yes."

"I know two, at least who are poorer by a couple of thousand dollars by his absence."

But, Mr. Everett was excited. For half an hour after the individual left, who had communicated this unpleasant piece of news, the broker walked the floor of his office with compressed lips, a lowering brow, and most unhappy feelings. The two thousand dollars gain in no way balanced in his mind the three hundred lost. The pleasure created by the one had not penetrated deep enough to escape obliteration by the other.

Of all this the boy with the dark, sad eyes had taken quick cognisance. And he comprehended it all. Scarcely a moment had his glance been removed from the countenance or form of Mr. Everett, while the latter walked, with uneasy steps, the floor of his office.

As the afternoon waned the broker's mind grew calmer. The first excitement produced by the loss, passed away; but it left a sense of depression and disappointment that completely shadowed his feelings.

Intent as had been the lads observation of his employer during all this time, it is a little remarkable that Mr. Everett had not been conscious of the fact that the boy's eyes were steadily upon him. In fact, he had been, as was usually the case, too much intent on things concerning himself to notice what was peculiar to another, unless the peculiarity were one readily used to his own advantage.

"John," said Mr. Everett, turning suddenly to the boy, and encountering his large, earnest eyes, "take this note to Mr. Lagrant."

John sprang to his bidding, received the note, and was off with unusual fleetness. But the door which closed upon his form did not shut the impression of his sober face and humid glance from the vision of Mr. Everett. In fact, from some cause, tears had sprung to the eyes of the musing boy at the moment he was called upon to render a service, and quicker than usual though his motions were, he had failed to conceal them.

A new train of thought entered the broker's mind. The child of his old friend had been taken into his office from a kind of charitable feeling—though of very low vitality. He paid him a couple of dollars per week, and thought little about him or his widowed mother. He had too many important interests of his own at stake to have his mind turned aside for a trifling matter like this. But now, as the image of the sad face—for it was unusually sad at the moment when Mr. Everett looked suddenly toward the boy—lingered in his mind, growing every moment more distinct, and more touchingly beautiful, many considerations of duty and humanity were excited. He remembered his old friend, and the pleasant hours they had spent together, in years long since passed, ere generous feelings had hardened into ice, or given place to an all-pervading selfishness. He remembered, too, the beautiful girl his friend had married, and how proudly that friend had presented her to their little world as his bride. The lad had her large, spiritual eyes—only the light of joy had faded therefrom, giving place to a strange sadness.

All this was now present to the mind of Mr. Everett, and though he tried once or twice, during the boy's absence to obliterate those recollections, he was unable to do so.

"How is your mother, John?" kindly asked the broker, when the lad returned.

The question was so unexpected that it confused him.

"She's well—thank you, sir. No—not very well either—thank you, sir."

And the boy's face flushed, and his eyes suffused.

"Not very well, you say?" Mr. Everett spoke with kindness, and in a tone of interest.

"Not sick, I hope?"

"No, sir; not very sick. But—"

"But what, John?" said Mr. Everett encouragingly.

"She's in trouble," half stammered the boy, while the color deepened on his face.

"Ah, indeed? I'm sorry for that. What is the trouble, John?"

The tears, which John had been vainly striving to repress, now gushed over his face, and with a boyish shame for his weakness, he turned away and struggled for a time with his overmastering feelings.

He was no little moved by so unexpected an exhibition. He waited with a new-born consideration for the boy, not unmingled with respect, until a measure of calmness was restored,

"John," he said, "if your mother is in trouble it may be in my power to relieve her."

"Oh, sir!" exclaimed the lad, eagerly coming up to Mr. Everett, and, in the forgetfulness of the moment, laying his small hand upon that of his employer, "if you will, you can."

Hard indeed would have been the heart that could have withstood the appealing eyes lifted by John Levering to the face of Mr. Everett. But the broker had not a hard heart. Love of self and the world had encrusted it with indifference toward others, but the crust was now broken through.

"Speak freely, my good lad," said he, kindly. "Tell me of your mother. What is her trouble?"

"We are very poor, sir." Mournful and tremulous was the boy's voice. "And mother is'nt well. She does all she can; and my wages help a little. But, there are three of us children, and I am the oldest. None of the rest can earn anything. Mother could'nt help getting behind with the rent, sir, because she had not the money to pay it with. This morning the man who owns the house where we live came for some money, and when mother told him that she had none, he got, oh so angry, and frightened us all. He said if the rent was not paid by to-morrow, he'd turn us all into the street. Poor mother! She went to bed sick."

"How much does your mother owe the man?" Mr. Everett asked.

"Oh, it's a great deal, sir. I am afraid she will never be able to pay it; and I don't know what we'll do."

"How much?"

"Fourteen dollars, sir," answered the lad.

"Is that all?" and Mr. Everett thrust his hand into his pocket. "Here are twenty dollars. Run home to your mother and give them with my compliments."

The boy grasped the money eagerly, and as he did so, in an irrepressible burst of gratitude, kissed the hand from which he received it. He did not speak, for strong emotion choked all utterance; but Mr. Everett saw his heart in his large, wet eyes, and it was overflowing with thankfulness.

"Stay a moment," said the broker, as John Levering was about passing through the door. "Perhaps I had better write a note to your mother."

"I wish you would, sir," answered the boy, as he came slowly back.

A brief note was written, in which Mr. Everett not only offered present aid, but promised for the sake of old recollections, that now were crowding fast upon his mind, to be the widow's future friend.

For half an hour after the lad departed, the broker sat musing, with his eyes upon the floor. His thoughts were tranquil. He had made, on that day, the sum of two thousand dollars by a single transaction, but the thought of this large accession to his wordly goods did not give him a tithe of the pleasure he derived from the bestowal of twenty dollars. He thought, too, of the three hundred dollars he had lost by misplaced confidence: yet even as the shadow cast from that event began to fall upon his heart, the bright face of John Levering was conjured up by fancy, and all was sunny again.

Mr. Everett went home to his family on that evening a cheerful-minded man. Why? He had bestowed of his abundance and thus made suffering hearts glad; and the consciousness of this pervaded his bosom with a warming sense of delight.

Thus it is, that true benevolence carries with it, ever, a double blessing. Then it is, that in giving, more is often gained than in eager accumulation, or selfish withholding.

WHO ARE FRIENDS OF THE FARMER?

Up to quite recently the bowels of compassion of the Conservative party have yearned towards the ill-used and down-trodden farmers! The member for Centre Wellington, the self-constituted farmers' champion, in endeavoring to excuse his nonsensical buncombe resolution, declared that the banking interests, the lumber interests, the manufacturing interests, and various other interests, all had Parliamentary committees to foster and protect them; but the farmers, the toilers of the country, the parties who paid three-fourths of the taxes, were entirely neglected, and in consequence lost millions of dollars every year. And, said the Tories, George Brown and the Grits were the parties who had treated the farmers so very badly. But the new Reciprocity Treaty negotiated by Mr. Brown, when it comes into force, will alter all this; and, from the strain in which the Treaty is discussed by the Conservative organs, we are forced to doubt the sincerity of their protestations of sympathy for the farmers. The organs have, at least, transferred their sympathies from the farmers to the manufacturers. Notwithstanding all they have said in the past, they appear to think that the Treaty negotiated by Mr. Brown is entirely too favorable for farmers. It will greatly reduce the price of implements, wearing apparel, and almost every class of manufactured goods, they say, and for this reason they are opposed to it. We have no sympathy with the objection: a fair field and no favor is all that either the farmers or manufacturers of the Dominion require. While the Treaty would open our markets to American manufactures it would also open the American markets to our manufacturers. Hitherto the great cry of the Conservatives was that what Canadian manufacturers wanted most was a market; the duty imposed by the United States was so high as to exclude Canadian manufactures, and the demand in Canada was so limited that if American wares were admitted there would not be sufficient demand for Canadian made goods. The Conservatives, as a party, are strong on Parliamentary Committees, and have great faith in the results of their inquiries when directed towards the advancement of special interests. Well, during the late session the Committee on Manufactures took evidence from men engaged in various manufacturing enterprises in various parts of the country; and these men, without a single exception, testified that all that their business required to make them prosperous was a good market. Now if this be true—and we have no reason to doubt it—the treaty is just what they wanted. For business purposes it would change our population from four million to over forty-four million. Some branches of manufacture in Canada may be in such a condition that they cannot compete with the more extensive, and consequently cheaper worked, establishments across the lines. So long as they had the Canadian market to themselves, or nearly so, they did very well, but the Treaty would open the door to outside competition, which would entirely change the aspect of affairs. In this way, our Conservative friends say Canadian industries would suffer, and many important manufacturing enterprises be destroyed. We differ from them on this point also. The manner of conducting these manufactories would certainly change, but it would be a change from a small and expensive method of manufacture to an enlarged and cheaper method, nothing more or less; and instead of American competition killing out our manufactures, it would stimulate them into greater enterprise, and bring about their enlargement and improvement in whatever points they are deficient. With a lighter internal tax, cheaper labor, abundance of raw material, and unsurpassed facilities for shipping by land or water, it is contrary to human reason to think that Canada should suffer from being brought into competion with the United States. As the manufacturers themselves stated before the Parliamentary Committee, what we want is a market where large establishments can find demand for their manufactures, and the Treaty would secure this by opening direct communication with the forty million inhabitants of the United States. But farmers will now see who are their real friends, and who were only their friends by profession. An actual negotiation which will get their cattle and produce into the United States free of all duty, and enable them to purchase what they want also free of duty, is a more substantial advantage than the moving of buncombe resolutions. And every improvement which Canadian manufacturers make—even though they are forced to make them—in order to keep pace with the competition

PETERBORO', AUGUST 5th, 1874.

CHANGED HIS MIND.

Mr. Tilley. Inspector of Public Schools in the County of Durham, now repudiates Dr. Sangster's candidature. The reason he assigns for the change is, the attempt of Dr. Sangster to deceive the public by parading an opinion of Mr. J. H. Cameron, on his wife obtaining a divorce, as if it had been on his, Dr. Sangster, obtaining one. It would appear that Mrs. Sangster had applied for and obtained a divorce] after their separation—on what grounds it is not said—after obtaining this divorce she married again. The Dr then thought he would marry again, but what was he to do as he had not got a divorce. He in this predicament applied to Mr. Cameron as it would appear, to find whether the divorce would be valid in his case, and then he publishes this opinion as if applying to his own divorce which had not been obtained at all. Mr. Tilley, like an honorable man, as soon as he found the Dr. attempt, in this way, to mislead the teachers, changes his mind and repudiates the candidature. This is just as it should be. Many teachers were at first persuaded that he was innocent of the charges laid against him, and hence were conscientiously promoting his election. Now, however, they cannot but see new light; and if so, let them follow the example of Mr. Tilley. It cannot but be regretted that this discussion has been found necessary, as it might have been avoided if his friends had shown more respect for him, by not dragging him into public life

CONTEMPTIBLE.

Several of the papers of Ontario have resorted to a petty attempt to injure the character of the Hon Geo. Brown. Not being able to meet the arguments of the *Globe*, nor to palliate the corruption of their own leaders, they are mean enough to manufacture the most unblushing falsehoods and circulate them, so that they may, if possible, find company for a set of men of whom the Electors were ashamed, and whose bribery and malfeasance have become a scandal in all the land. The Hon. Mr. Brown has taken a leading position in public affairs during this long period of the troublesome and changing state of Canadian politics, when a wily knave controlled our destines, and when few were able to resist the intrigues and cunning, and money, used by the man of unclean hands. The hon. gentleman and the *Globe* however remained uncorrupted, and manly and boldly opposed the wide-spread bribery, intimidation, use of public money, contracts, and office, which John A. McDonald so adroitly knew how to apply. During the contest between right and might and money, Mr. Brown became the target for the envenomed abuse of those who lived at the public crib, or who expected to have a place there; and knew that the hope of gain is clean gone, they become desperate in their attempts to bring others to the level of the men who entailed shame and disgrace on our Young Dominion. Not satisfied with attacking his public acts, they insinuate irregularities in his private life, which are without foundation. This mode of party warfare deserves the condemnation of all right thinking men, and ought to be frowned down by all classes of politicians, for if this mode of warfare is to be established, then woe betide the man who dares enter public life.

The Conservatives *claim*, and rightly deserve the dishonor of its inauguration. The vilest trash has been rehashed from the *Mail* and *Leader* against Mr. Brown, Mr. McKellar, and others, with a view to blacken them in the eyes of the electors; and now to complete their own shame the Conservative press leaves the public arena and assails private character without regard to truth or honor. But as Mr. Brown has commenced action for libel against all who uttered or published it, this will put an end to this kind of political contests, and let us hope compel a more honorable and truthful course in newspaper warfare, and a course more in accordance with the ninth commandment.

DAWSON ROUTE.

Messrs. Carpentar & Co., publish a long letter in the *Globe* of Tuesday, explaining their position in carrying out their contract. They based their calculations on last year, as if this year would much the same. The total emigrants over the road last year was 1600; already 1400 have passed over the road this year. The boats were received in a poor leaky condition. The passengers are taking advantage of them, and taking unwieldy boxes of freight, baggage, &c.; and several of them have not money enough to pay their way yet are troublesome and annoying; other passengers would not let providence pass them to those in more need further on. It is possible that on a new road and new contracts that some miscalculations would be made. But we hope that everything is being done to remove the evils they at first had to contend with. It does seem the height of nonsense, however, to connect the present government with any part in the troubles of Emmigrants on the way. They and the contractors should settle their own troubles unless they are not acting according to their contract, when the Government should interfere. The arrangements are now so complete that no more annoyance may be expected.

SCHOOL BOARD.

The Board met on Tuesday evening. Present—the Chairman, and Messrs. Edwards, Rutherford, Davis, J. M. Smith, Cox, Robertson, Toole, and A. Smith.

The Minutes were read by Mr. Edwards, who acted as Secretary *pro tem*, and confirmed

A letter was read from the Trustees of S. S. No. 2, North Monaghan, testifying that Miss K English had taught in that section and given general satisfaction.

Applications were received from Miss Mary E. Baptie and Miss Nellie McCready, for appointments as teachers, and referred to the Committee on Appointments.

Also from Mr. B. C. Edwards and Mr. E. C. Toker, to be Secretary-Treasurer in the place of Mr. O'Beirne, deceased.

Several accounts were submitted, and referred to the Committee on Finance.

Also a communication from the Janitor asking an increase of salary.

Mr. J. M. Smith thought accounts should be submitted, first to the Committee, and then to the Board, and intended to move a resolution to that effect.

Mr. Toole, seconded by Mr. Robertson moved that Mr. C. Perry be Secretary Treasurer of the Board.

Mr. Cox moved, seconded by Mr. Davis, that Mr. B. Edwards be Secretary Treasurer of the Board.

Mr. Stratton and Mr. Toker were also proposed.

The motion that Mr. Perry be Secretary-Treasurer was carried. And in case he did not give securities to the satisfaction of the Finance Committee, then Mr. B. Edwards be Secretary-Treasurer. the securities to be to the amount of $5,000.

Mr. Edwards submitted a Report of the Estimates of the year.

On motion of Mr. A. Smith, seconded by Mr. Rutherford, the estimates were adopted, and the Secretary was instructed to request the Town Council to levy the same.

Mr. Edwards moved, seconded by Mr. Toole, that in consequence of the death, since our last meeting, of our late Secretary, Ivan O'Beirne, Esq., this Board would record on the Minutes their appreciation of the upright and conscientious discharge of his duties as Secretary for so long a period, for his painstaking labors, and the interest he continually manifested in the welfare of the educational objects of the Town. And while recording a passing tribute to his worth, this Board would sincerely sympathise with his bereaved family on the removal of a departed and worthy friend. And that a copy of this resolution be sent to his family. Carried.

Board adjourned.

SMALL POX.

All the patients at the hospital are now getting well. No new cases have been discovered since our last. The utmost precaution has been taken by the Council and Committee to have the places cleaned up and disinfected. Mr. Cavanagh and his children are getting well, as well as the other persons who were taken ill with them, except one Stewart and Patrick Casey, who have died. Mrs. Cavanagh we are glad to be able to report quite well, she not having taken the disease, although in the midst of it. Mr. Cory also, who has had the care of all the patients since they were taken ill, has not taken the disease.

Since writing the above one new case has come to our knowledge—that of a girl named Doris, some of whose family were accustomed to go to Cavanagh's before they were removed.

THE PETERBOROUGH "TIMBER FRAUDS."

A paragraph has been in circulation among our exchanges, which contains a number of mistatements calculated to reflect injuriously and unjustly on the timber trade, in respect to the Royal Commission that has been sitting in this town, to enquire into certain alleged timber frauds. The facts of the case are these: In the winter of 1871-72, a clerk who had been discharged from the employment of Mr. W. A. Scott, informed the Crown Lands Department that frauds had been practised upon the Department for a number of years, by false returns of timber and logs cut, whereby the country had lost a large amount of revenue. The Government imposed a fine of $26,000, which the estate had to pay in order to get a renewal of the timber licenses. The assignee of the estate, and brothers of Mr. W. A. Scott, felt convinced that the fine was unjust, and pressed the matter upon the attention of the Government, who granted the Royal Commission before mentioned.

We cannot, of course, anticipate the result of the Commission, but we are confident justice will be done, and if found that false information led to imposing the fine, that it will be remitted. The "closing paragraph" referred to also states that a number of lumbermen are implicated in the alleged or similar frauds. There is no foundation whatever for this charge. It is to the interest of our lumbermen to give exact accounts, and honest returns, and we believe they always do so. Nor was there connected with this matter as alleged any lumberman who became a bankrupt, and afterwards a member of Parliament. There is in fact no person in this district who answers this description. The paragraph was a tissue of misrepresentation and calculated to leave false impressions in the public mind.

THE RECIPROCITY TREATY.

The discussion of the Treaty just arranged by the Hon. Mr. Brown, and the British Ambassador at Washington, with the Republic, has been had before the people of the Dominion in detail with a view to elict the opinion of those interested or affected by it. Any one would have been ready to believe that it would have received a calm, candid, dispassionate discussion, irrespective of parties, interests or leanings, as it might be considered favorable or unfavorable to Canadian interests. Those partisan views of Canadian writers and traders are, however, dispelled by the attacks of merchants whose interests are to be affected, and by the one-sided view taken of it by the whole Conservative press, led by the Toronto *Mail*. The object of the *Mail* is political, but its views will not be received by the people of Canada to any appreciable extent.

The Treaty will be disapproved of by one class who are seeking to enrich themselves, no matter how many *may suffer*; whose views are selfish, whose arguments are frivolous, and whose gain would prove a general loss to the whole country perhaps.

In conversation with one of our largest lumber merchants, a few days ago, he gave it as his opinion that the Treaty would be a benefit to that large and important trade. It is conceded by all that the farmers of Canada will be largely benefitted by it, by opening to them a market of 40,000,000 of people for their grain, beef, mutton, woolen goods, and other articles that Canadian enterprise and skill will soon enable them to compete in successfully with our American neighbors.

There may be some branches of Canadian trade which may not be in a position to compete with more extensive and consequently more cheaply worked establishments of the American cities, but notwithstanding this, the smaller establishments may benefit in the end by a cheaper supply of what they use or require.

This competition, too, will stir up our younger enterprises, to produce better articles, to seek more remunerative labor or machinery, or to turn their attention to business better suited to the means and genius of those engaged in them.

The Treaty, however, will be largely in the interests of the farmer. If, at present, 15 to 25 per cent *is necessary for* the protection of some branches of business, a certain class of our people had to pay that 15 or 25 per cent, as the case may be. The Treaty will therefore remove may that loss and thus secure a cheaper article for the consumer, who in turn will be able to spend that amount on some other necessary luxury or improvement that he formerly had to do without. This may in its turn, and will introduce new industries to enrich the Province in the end.

The facilities for manufacturing in Canada equals, and in many instances, surpasses those of our neighbors across the lines. The Treaty will induce capitalists to take advantage of our better facilities, and ere long we will find branches of manufactures arising in our towns and villages that the inhabitants would never have dreamed of, and with these will come increase of population and wealth.

We are not foolish enough to suppose that the gain will be all on one side, there would then be no true reciprocity which implies reciprocal gains as well as reciprocal trade. But any careful student of commerce and of the advantages of extending markets for sale or for purchase, will admit the soundness of the general terms of the Treaty, and its possible advantages to the Canadian people. No man in Canada was better qualified than Mr. Brown to undertake the arrangement of the terms of the Treaty, and no one was more likely than he to watch Canadian interests, and judging from the opinion of men who have done business during reciprocity and since its abrogation, we may reasonably conclude that this Treaty will enlarge our commercial transactions, arouse the business energy of our people, create a demand for new enterprises, stimulate our cheap labor, and especially cheapen the cost of wearing apparel and agricultural implements, while it offers a better market for beef, mutton, horses, poultry, grain, &c. The only arguments against it are, George Brown was the negotiator. But the public will receive it, not because Mr. Brown, or some particular person, may have the honor of its inauguration, but be cause it is framed in the interests of the country, which may be safely asserted.

(From the Montreal Witness.)

Looking at the thing in a broader light we can see nothing but good to either country whichever way it turns out. The remembrance of the principle that a certain advantage must result from anything that is achived in the way of increasing the freedom of commerce should establish all people who are not led away by selfish interests in the faith that the treaty what ever it is, must be a good one, however much it may be possible to improve upon it and should induce every one to look forward to any postponent of it to please selfish agritators in a national calamity. That selfish agitators will spring up, and that their anchors will work diligently and with all their might during the interval through which the treaty must remain before the country, we may certainly expect. We ask the people in whose interest these agitators do not work to treat them as their short sighted selfishness deserves and to remain firm upon the principle to do better for the establishment of free and untrammelled interchange of commodities.

(From the Halifax, N. S., Citizen.)

The Reciprocity Treaty of 1854 was negotiated on the basis of a surrender of our inshore fisheries in lieu of reciprocal trade, and although the treaty was in some quarters strenously opposed at the time, the experience of the twelve years during which it was in operation were sufficient to convince the parties most interested in the matter that the arrangement was a most beneficial one. When the treaty was abrogated by "effluxion of time," the fact that we again became possessed of our own fisheries was regarded as but a poor compensation for the loss of the reciprocal trade, in lieu of which the fisheries had been given up. The absolute right to the absolute and exclusive control of the fisheries was found to be worth very little. It was discovered to be practically impossible to prevent poachers from encroaching on our valuable preserves, and when the Government invented the expedient of a license fee, it was found to be just as difficult to collect the toll as it had previously been to keep of the poachers in the absence of the license fee. The "six foot gulling schooners," of which we used to hear so much a few years ago, captured a few prizes, and the efforts of the celebrated Captain Tory led to a number of sensations, but it was pretty generally agreed upon on all hands that the system that terminated was discontinued the better, as the complications that seemed likely to arise were of such a nature as to seriously menace the peace of the Dominion. The feeling became wide spread among the people of the lower Provinces, and of Nova Scotia particularly, that we might well afford to divest ourselves of the dangerous right to the exclusive use of the fisheries, provided that by foregoing that right we could obtain those closer trade relations with the Republic, the loss of which was so seriously felt by our people. And if we mistake not, one of the strongest grounds taken in opposition to the Washington Treaty, was, that under its provisions, the fisheries of Nova Scotia were to be given up for a mere money compensation, instead of being used as a lever by which to obtain reciprocal trade. Had such an arrangement been incorporated in the Washington Treaty, that instrument would have been universally acceptable to the people of the country, and they will not feel hurt if the fishery question is again thrown open, pending a settlement similar to that of 1854.

Mr. FOWLER and the "REVIEW."

To the Editor of the Examiner.

SIR.—The *Review* is at it again, trying to blackmail as usual. It says that some fifteen years since I made a good draw in the shape of the Millbrook Branch. If I made a good draw,—which I do not deny—I think Peterboro' Town made a better one out of the Branch; and since it turned out good for both, I hope the Huron and Quebec R. R. will do as well.

The *Review* seems to be great on scheming; but I would not have thought of grading the Huron and Quebec R. R. from Keene Station to Hastings but for the *Review*, and then demand the money from Peterboro. But I think I should have to ask for it a long time before I got it on such grounds.

The *Review* has made another discovery—that Hastings Village is on the eastern boundary of the County of Peterboro. If that be the case, we may look for the sun's rising in the North. The *Review* says: "Blind must the Ratepayer be that cannot draw the rest of the picture for himself." That is just what I think, and the 14th will prove whether they are blind or not.

Now, sir, I did not intend to spend so much time over the *Review*, as I think quite as little of it as it does of me. However, I may say to the Ratepayers of Peterboro and the County that there is a difference between Mr. Romaine and my self, he having had a writ served on me for $2,000, and I having a writ served on him for $10,000, and the Courts will have to decide the cause. I think this is the reason the *Review* opposes the Huron and Quebec R. R.

I may say to the Ratepayers of Peterboro that they are not only voting on their own By-Law of $100,000, but they are also voting on the County By-Law of $150,000; because if the Town By-Law should be defeated, the County By-Law will not be submitted. On these grounds, if they follow the *Review's* advice, they may regret it when it is too late. Some of the Ratepayers have asked me where the road is going to run. Is will across the River at the Hospital Point, and from thence to Millbrook and Toronto.

Yours truly,
JOHN FOWLER.

P. S.—I may look out for another writ from Mr. Romaine, for saying "blackmail." J. F.

THE RAILWAY BY-LAW.

This matter is now fairly before the people, and it is their business to consider it carefully and act wisely. Our position on this road is well known: *we are* in favor of it, but our favor does not lead so fac as to break our necks to get it passed. Our past history in reference to railroads is known. We had fruitless years of debate and trouble trying to get a substantial road to the back country. We failed, through other interested parties opposing everything they could not get control of. The result is, Lindsay will get the road, and the trade of the back country. That portion of our county got tired looking to us, and have formed a Municipality of their own, and we are where we were, contending about personal matters. How long will this go on? How long shall we remain blind to our own advantages? When shall we forget our personal bickerings and sink them for the public good?

THE RAILWAY MEETING.

Mr. Fowler held a public meeting on Tuesday evening to discuss the Railway By Law. There was a fair number present, and no opposition to it so that Mr. Fowler had it all his own way.

He commenced by referring to the advantages of the road to the Town, as it would cause an extension of trade and a consequent outlay in the Town. He referred to the Marmora Iron Works and the annual outlay thereof, amounting to $72,600 a year. This he held would come to this town if the road were built. The work shop here would employ 100 hands daily, and these would bring an addition to the population; their wages $2 to 2.50 per day, would be an additional expenditure of $75,000 a year here, and there would be car works and other works not thought of.

The refreshment rooms would be in Peterboro, he remarked, and these alone would be strong inducements to vote for the By-Law, as the advantages would repay the Town for all the interest it would pay.

He then referred to the altered position of Stratford since the work shops of the Grand Trunk were established there. It was then a village of 300 or so, while now it contains 7,000 or 8,000 souls, and is increasing yearly. He said the vote here was not only a vote on this By-law but on all the others about to be submitted. If this one failed, the county one would never be spoken of, the Hastings by-law for $150,000 would not be submitted, and the one now published in Durham would be withdrawn as useless, and there the whole thing would remain. He therefore asked the ratepayers to consider these things, and come out and show that they are not dead to their interests and prosperity.

If they thought the By-law was not stringent enough, they could enserte more stringent clauses in the County By-law, and thus protect themselves in every possible way. He then remarked that those who now condemned the By-law should have attended the meetings called to consider it, and then have aided in framing a safe one. Mr. Romaine had not attended the meetings and hence he ill becomes him to say a word now. He referred to his and the *Review* trembling with which the public have nothing to do, until about to be tried.

At the conclusion he asked other gentlemen to address the meeting, but as there was no opposition the meeting was considered useless, and the speaking broke up.

A FIRST-CLASS EMIGRANT AGENT.

Many of our readers will remember the first visit of the Rev. J. R. McCreary, of Coatshill, Ireland, to this town, about a year ago, when he preached in the Presbyterian churches as he passed through Ontario, collecting money to build a church in the place where he is now preaching. On his return to his own country he finds American agents and interested landlords assailing Mr. *Foy*, the Emigrant Agent, and reflecting on Canada as a country to which to emigrate. The reverend gentleman's sense of fair play and justice would not permit these attacks to be made, to the injury of a people whom he found industrious, hospitable, liberal and prosperous, and the consequence was, several very able letters to the *Northern Whig*, Belfast, in which he defends Canada against the false assertions and unfounded reports against this country, emanating as he says, from anonymous and irresponsible correspondents

We give below one of those letters, written in a free, truthful, and fearless manner, striking at the root of the causes of the state of the Irish small farmer, and exposing the interests that are at work to prevent emigration to a country where honest, sober, industrious men can become independent and unframmelled by landlord influence, or the fear of the power of wealth to crush or intimidate. Such letters are calculated to do more for the cause of emigration to Ontario than months of lectures by men unknown to the people, and against whom they are prejudiced by the false reports of parties interested.

TO THE EDITOR OF THE NORTHERN WHIG.

SIR,—The fact to which I gave special prominence in my last letter was the independence that is soon attained by farmers who emigrate to Canada, in illustration of which I quoted the cases of two men—one Scotch and the other Scotch-Irish—who formerly belonged to the class of "small farmers." Before proceeding, allow me to add that the districts in which those men reside (about 200 miles distant from each other) are occupied almost exclusively by emigrants from the Highlands of Scotland and the province of Ulster. I visited many of them in their own houses, and met many more at church, market, public meetings, and social gatherings; and yet I can scarcely recall a single instant which any thing approaching an expression of dissatisfaction was uttered. On the contrary, all appeared to be prosperous, happy and contented, quite in raptures with their adopted country (although still attached to the "old sod"), and greatly amazed that so many of their struggling friends on this side of the Atlantic are so blind to their own comfort as to prefer poverty at home to plenty in Canada. I freely acknowledge that there are some men in the Dominion who have not improved their circumstances by emigration. Notwithstanding all the advantages afforded by a new, fertile, and well-governed country, there are not one whit more comfortably situated than they were in days of small farms, high rents, bad houses, and bad diet. But, whilst admitting this is true of a few steady and industrious settlers, whose lack of prosperity, instead of being charged against the country in which they live, should simply be pronounced unaccountable, I unhesitatingly affirm that it is chiefly applicable to men of a sluggish nature and thriftless manner, who are always getting behind, no matter how favorable the circumstances in which their lot is cast. And then, in order to palliate their own indolence or prodigality, they send whining letters across the Atlantic in which they pour forth pitiful complaints about the death-like loneliness of bush life, the indescribable toils and pains of chopping wood, the intolerable severity of the heat in summer, and the cold in winter, &c. I respectfully caution your readers not to be so indiscreet as to form their opinions of Canada from the dismal growls of such malcontents.

"Oh! that was very fine talk in your last letter about peasant proprietorship, independence and self-respect," replies some one of your readers, "but you must admit that the difficulties and hardships encountered by the Canadian farmers are terrible, and more than counterbalance any advantages which they may enjoy in other respects." Now, Mr. Editor, permit me to say that this part of the subject has been grossly misrepresented and exaggerated (undesignedly, I believe) in some letters that recently appeared in Belfast papers Postponing for the present the question of climate, which will come under discussion in due time, and contemplating the entire subject in its broadest light, I cannot but express my deep conviction that the trials experienced by the majority of Irish farmers are even greater than those undergone by their brethern in Canada. Let us for a moment place the two side by side with each other, and then we shall discover on which side the advantage lies. What is the history of the average farmer at home? It may be told briefly as follows.—A large purchase money for the bare Tenant-right (in many cases no small portion of the price must be borrowed at high interest) a heavy annual rent, from 30s to 50s per acre for good land, which like a crushing burden oppresses him for the remainder of his life—high taxes—frequent wet harvests—stubbing out old hedges, and enlarging and draining fields—preparing farmyard and purchasing artificial manures—weeding land—breaking lumps—paying high prices for fuel, meat, &c., not to mention the paying of interest on money that may have been borrowed to assist in putting him into the farm—running to the bank for bills to pay the rent—selling off crops at low rates to meet urgent demands and many other difficulties that will suggest themselves to the minds of your readers. And then, should he be so fortunate as not to fall into arrears, escape eviction, he leaves his children behind him to fight like cats and dogs over the "property," when the "office promptly steps in and summarily puts an end to the squabble by packing them all off to America, with the exception of one favored son, who receives the "ticket," and is thereby gazetted as the hero of the fight and the lord of the disputed possessions. And so he tries his hand at the wheel of fortune, only to repeat in his own life the scenes of hopeless druggery through which his poor father dragged himself in his day. Suppose that the same man emigrates to Canada, what his history? He purchases—that is "buys out—one hundred acres of splendid, deep, loose, and rich land, with good houses on it, for less money than he would pay for the mere Tenant-right of a thirty-acre farm in Down, Derry, or Antrim. He never pays a cent of rent. His taxes amount to £3, including school tax; in other words, by paying £3 annually in one tax he discharges all his pecuniary obligations to the Government and gets his children educated free. He does not incur the trouble and expense of preparing, carting, and spreading manures, because it is not required. I ate as good potatoes, parsnips, &c., raised without manure on farms twenty years under cultivation as are now produced in the richest gardens of Ireland. There is as much wood on his land as will supply fuel for many years, which he can cut at his own pleasure without begging permission from any person. In winter he lives, like the bees, upon his store of honey, having nothing to do but to attend to his cattle and chop a little wood. He lives well, kills his own beef, mutton, and pork, takes his own wheat to the mills and gets it ground into the best of flour—has a handy little cooking-stove, in which his wife always provided she's a good one, roasts or boils meat or fowls to perfection, and bakes magnificent plain loaves, cakes, pies, &c. Or suppose that he has not sufficient money to purchase a cleared farm, and is compelled to settle down on the free land, to shoulder his axe, and ply it hard during three or four months of winter, when the air is dry and bracing. He has not something to work for? Having no rent to pay and enjoying unselected years of taxes, he is always certain of having plenty to eat and drink, and then in a few years he will have a fine farm of 100 acres, all his own property. He is perfectly independent from the very first day of occupation, and realizes at last that he is a man free to think and act in his private business, and in the affairs of the country, according to the light that is in him provided fear of unpleasant consequences. Yes a man amongst men, and not a "helot" amongst "their betters" and "their landships," to be despised and kept at a distance as an inferior creature and treated as a mere machine for spading and hoeing, draining wet fields, and improving and beautifying however ideal land which his own money and the sweat of his own brow—lent their beloved to acquire men, whom possibly he actually fills with his hard-won earnings, to be spent, not for the good of his country, but in the interests of a metropolitan or continental aristocracy. "The Canadian farmers have had a week," you say. Granted that they have, and for the sake argument I am prepared to admit that they experience more hardships than the Irish farmers in the prosecution of their advancement. But how different are the results! No honest man will shrink from hard work, not even the hardest that will emphatically raise him above the low level of an impecunious existence, and establish himself and his children in a honorable position of independence and enviable security. It is admitted by all parties who are competent to give an opinion on the subject that no people in the world are more independent that the Canadian farmers. Can the same words be used of the Irish farmers? No; and yet they work like slaves.—Yours, &c.,

JOHN R. M'CLEARY, Presbyterian Minister.
Coatshill, July 2nd, 1874.

Important to All.

We would call the attention of our readers to the advertisement of the large well-known and enterprising firm of Clermont Daniels & Co., of Montreal, dealers in Dry Goods, Groceries, Boots & Shoes, Fancy Goods, Hardware, &c.,

This firm sells direct to consumers such goods as are constantly used in families at from fifty to one hundred and fifty per cent cheaper than the same goods can be bought for in the regular way; thus saving to consumers the profits of all middle men and retailers.

This firm imports and buys immense stocks of Goods exclusively for cash, at the lowest possible figure, taking advantage of dull times, forced sales, discounts &c., which cash buyers always enjoy over Wholesale Houses who buy and sell on time.

Their Goods are sold by Agents through out the entire Dominion, who call at your Houses with Samples, take your order for such Goods as you need in your families, which are sent to you by Express collect on delivery and not to be paid for until you see and are satisfied with them. So if the Goods are not found as represent you need not pay for them, in this way nothing could be fairer.

Their goods have been received by many in this vicinity who express themselves immensely satsfied with the goods and this firms new and popular way of doing business.

We bespeak for them a big trade from this vicinity as soon as their agents re-ap near here.

Y. M. C. A.

The weekly meeting of the above association will be held in their rooms at 8 o'clock, p. m.

"THE POLAR AND TROPHICAL WORLDS."

The following additional testimonials have been received of this popular work:

EDUCATION OFFICE,
Toronto, June 20, 1874.

J. W. Lyon, Esq., Publisher, Guelph:—

SIR,—"The Polar and Tropical Worlds, a description of man and nature in the Polar and Equatorial Regions of the Globe, two volumes in one, embracing also an account of the expeditions of all the Arctic explorers, from the discovery of Iceland, over a thousand years ago, to Hall's last expedition in the Northern World, together with the wonderful discoveries and adventures of Agassiz, Livingstone, Wallace and other distinguished travellers in the tropical countries. By Dr. G. Hartwig, author of "The Sea and its Living Wonders," and "The Harmonies of Nature," edited with additional chapters by Dr. A. H. Guernsey, the whole splendidly embellished with nearly two hundred beautiful illustrations, true to nature, furnished by artists in the regions to which they relate." Published by J. W. Lyon, Guelph, Ont.

I have quoted your title page at length, and have great pleasure in saying that the upwards of 800 pages of the book more than fulfil what is indicated by the title page; the illustrations are indeed 'true to nature' and beautiful; the mechanical execution, fine paper, and binding of the work leave nothing to be desired; the narratives are lively and entertaining, the descriptions graphic, and the style terse and elegant. I have read the contents and portions of the book, and I intend, and I may be able to command the time, to peruse the whole of it.

I had scarcely expected in my day to see so superb a work issued by a publisher in a Provincial town in Canada. I congratulate you on your enterprise and wish you complete success.

I have the honor to be, Sir,
Your obedient servant,
E. BYERSON, L.L.D., D.D.

Prof. Macoun, Professor of Botany, sent by the Government on the Canada Pacific Railway Survey, to report upon the Flora of the Nor' West, says:—

"I have carefully examined Dr. Hartwig's "Polar and Tropical Worlds," and am fully satisfied that no book yet published will be so beneficial to the pupils of public and High Schools as the above, from my knowledge of the requirements of the various schools in Ontario, I would advise all parents, who may feel able, to purchase the work. Accurate geographical knowledge, and a knowledge of the animal and vegetable productions of the Polar and Tropical regions, are essential to all, but more especially to the young, as by this means they may be aroused to a further study of nature.

JOHN MACOUN, M.A.,
Principal Union School, Belleville.

Bowmanville, June 5, 1874.

J. W. Lyon, Sir:

Having looked through the "Polar and Tropical Worlds," and carefully examined a few chapters, I have no hesitation in recommending it as a very valuable work. It contains a mine of information upon the subjects treated of, and while it will be instructive to all, it will be especially useful to Teachers.

JOHN J. TILLEY,
Inspector of Schools, Durham Co.

POLAR AND TROPICAL WORLDS DELIVERY.

Mr. Bolton, agent for the "Polar and Tropical Worlds," is delivering his large list of orders in Guelph. Mr. Burns, agent for the Township of Puslinch, is also making his delivery of over 200 copies in that Township. We understand that the work is giving good satisfaction, which is surely something new for a subscription book. The publisher informs us that over 6,000 orders have been taken in Ontario since the first of March and only a small part of the Province has yet been canvassed. It is a book that deserves the patronage of the public.—*Guelph Mercury, July 9.*

WOMEN DRUNKARDS.

From the Pamphlet by Dr. De Morence, just published by the Appletons we gather the following facts:

In New York city for the last two years 132,203 persons, of whom 96,629 were men, and 63,574 were women, were committed to the city prisons or institutions alone; according to the city inspectors report, from 1851 to 1863, there were 2,522 deaths caused by intemperance, and from that period to the 31 of December, 1869 they amounted to 3,176.

In 1862, out of 12,847 committed, there were 11,307 women and 6,220 men. Reports of the City prisons show that women are much more incorrigible than men. The Commissioners of Charities and Corrections in their report, dated January, 1867, in speaking of the workhouse, remark: "Thence th vagrant, the alcoholic, and the Drunkard by frantic haunts is hard work the folly of their past conduct. The term of service is brief rarely exceeding two months, but in a term of slavery daily, and generally loathsome, makes a wholesome dread of their condition On the female prisoners, however, this effect is not produced. They are subjected to the same rules as men, but the presence of confinement and their laborious employment have scarce effect on their habits. They are frequently released for intemperance. They are discharged at the end of their terms of service, and it is only that they may indulge their appetite for liquor, and on a few days after the termination of their sentence they are found in the station house, or in the lowest haunts of vice, in a state of beastly intoxication, and are again committed to the workhouse for a few days more."

LOST! LOST!

EDITORIAL ITEMS.

Young Canadian's L. O. L.

The regular monthly meeting of the above Lodge will be held next Tuesday evening, 11th inst., at which all the members are requested to be present.

Town Council.

There was no meeting of the Town Council, on Monday evening. No quorum.

Riel.

Is said to be in Worcester, Massachusetts, with a former missionary to the Nor'-West

Leader Politics.

Anti-George Brown and Reciprocity, and Grit Statesmen. Principles! bah! What's the use of talking about it?

North Monaghan Council.

We have been requested to state that the Council of North Monaghan will meet on Friday, the 14th inst., at one o'clock.

"Haliburton News."

This is the title of a paper now published at Minden, by *C. Sarney & Co.* It is nicely got up, and well printed, and, we trust, will be well supported. It has our best wishes.

$20 Reward.

The Council of Ashburnham have offered a reward of $20 for the conviction of the person or persons who set fire to the dwelling of the late Wm. Patterson, on Monday evening.

Tilton-Beecher.

All the dailies are publishing this Tilton Beecher scandal. Is popular taste so desirous of this mental pabulum that the newspaper caterers have to meet the demand at the expense of moral tone.

Scared.

The parties who drank out of the same bottle with Patterson while taking the small pox, were scared the other day when he began to show the pustules But pox or no pox, some men will drink.

Found.

The body of Thomas Harmer, who was drowned in the Otonabee river on Sunday, the 26th inst., was found on Friday last. Dr. Kincaid held an inquest, and a verdict of "accidental drowning" was rendered.

Smith Rolls.

Edwin Pool has given notice of 32 names appealed against, and asked that 2 not on the roll be put on; John Armour against 11 as wrongly on, and asks that 2 be put on. The Judge has appointed the 24th instant to hear the appeals.

Calling off the Dogs.

This is the last cartoon of GRIP, and represents the Kingston *News* calling off the hungry unsightly hounds from their dirty work of abusing Hon. Mr. McKellar. The *Mail* is represented as the worst fed carrion hunter of the lot. Is Grip right?

The Port Hope "Times."

Says:—"That on Tuesday last a bottle containg about half a pint of coal oil, was found in the stable of Mrs. Dr. Perks of that town, and the rear wall of the stable was pretty well scorched." The *Times* considers it an an attempt at incendiary.

Spain.

Germany and France are moving towards acknowledging the Spanish Republic. The British Mediterranean squadron is to go to Barcelona, and the garrisons in the Mediterranean are to be fully repaired and equipped with new guns, it is said.

Brantford.

Six buildings were consumed by fire in Brantford on Sunday morning—supposed to be the work of an incendiary.

They also had a balloon ascension on Tuesday. by Professor Wise. It rose 13,000 feet, and landed 9 miles off on a farm of a Mr. Millar.

A Polite M. P. P.

Mr. J. C. Rykert, M. P. P. for Lincoln, writes to the St. Catharines *News*, forwarding correspondence "which," he says, "will prove that you and your masters are a set of unscrupulous liars," and announces his intention to stand at the next election again, Mr. Rykert is improved in polite Literature.

Change of Business.

As will be seen by our advertising columns, Mr. Edgerton Walton has succeeded Dr. McCamus in the drug business, and solicits a share of public patronage. His experience in a first-class drug store will ensure him public favor, we recommend him to public favor for a share of their patronage.

Left for Auld Scotia.

Mr. James Jack, of Smith, left on Thursday last for a trip to his native heathery hills, intending to be absent about two months. He will find so many changes since he left, about 40 years ago, that he will be almost lost where once he was at home. We wish him a pleasant trip and safe return to his adopted home, where he can be happier than any Laird in his native land.

Wife Beating.

Extraordinary, is reported as occurring near Cobourg on the Port Hope road. A man named Cowling, recently from England, while under the influence of liquor, and as they proceeded homeward knocked his wife down and attempted to drown her, but was prevented by two men who saw it. He afterwards caught her, knocked her down again and dragged her nearly a hundred yards, kicked her savagely, and was about to stab her with a knife, when fortunately Mr. Neelands, dentist, passed by in time to save her life. Cowling was brought before the Police Magistrate of Cobourg, when he declared he knew nothing of what he had done after striking her the first time, he was so drunk.

Fire Extinguishers.

Mr. Robert A. Brown is agent for a neat and cheap fire extinguisher. It is called the Johnson Force Pump, and is really an invaluable article around any house as it can be used for cleaning or washing windows, watering flowers, or flower beds, and in case of fire can be used effectively to throw water on the roof of any two storey building, or of any barn stable or shed. It is cheap also, costing only $9. We advise an early application to Mr. Brown, who will kindly exhibit it.

Where Do They Come From?

An exchange says: It is surprising to notice the number of farmers that have had sheep killed or worried by dogs, and as the farmers all around deny the ownership of them, the question naturally arises, where do those canines come from? Would it not be well to provide all persons paying the dog tax with a medal to be attached to the neck of the animal? This has been tried in other localities and found to work well; all dogs not wearing the medal being destroyed at once.

ONE BY ONE THEY PASS AWAY.

In our last issue we were called upon to chronicle the decease of some of our oldest citizens, and again this week it is our painful duty to add to the list

Mr. William Kinley, so well known in Smith, died on Sunday last, after about a week's illness. He was about 65 years of age, was highly respected as a citizen, and esteemed by those with whom he was intimate.

Mr. William Preston, also of Smith, died recently of paralysis, after only a very few days' illness.

The Circus at Lindsay.

The *Post* says: "The pleasure of the performance in the evening was somewhat marred by an accident that occurred to David Costello, a lad of fourteen. He was riding bareback in splendid style when the horse suddenly stopped against the ring and threw him, awkwardly stepping on his ankle and inflicting a painful bruise, but fortunately breaking no bones Dr. Rear was called in and dressed the injured limb. The boy will be laid up for a fortnight. As the horse performed the same trick in the afternoon he was at once subjected to severe discipline which brought him to his senses."

Bowmanville.

The *Statesman* says:—What would have proved a destructive conflagration if unobserved a few moments longer, occurred at T. Brodie's hotel on Sunday morning last. A spark is supposed to have blown through an open window into a bedroom in the third story, and set fire to the clothing therein. Considerable of the clothing and bedding, with other articles in the room, and part of the partition, were destroyed; but the vigorous efforts of inmates of the house succeeded in quenching the fire before it had gained much headway. How simple the origin of a fire may be.

Prohibitory League.

The fourth annual convention of the Ontario Temperance and Prohibitory League, will be held in Toronto on Tuesand Wednesday, the first and second of September. The circular circulated among the temperance, friends a copy which we have received sets forth:—"We hope have a Convention worthy of the cause and of our Province and a true representation of the united Temperance sentiment of Ontario, and resulting I hope in such a practical organization as will enable us to carry our principles to the polls and secure the election of temperance men to positions where they can influence if not control the legislation of the country."

Mount Julian Hotel.

Stoney Lake is now open for the reception of visitors to the back waters. This is one of the best inland watering places in Canada. The hotel is commodious and under the management of responsible parties. Small boats can be obtained at all times for fishing and pleasure. The Steamer "Chippewa" makes daily trips to the place, thus making Stoney Lake one of the pleasantest summer resorts in Canada, easy of access, and having the advantages of possessing nearly all the comforts and conveniences of "home" All who have visited it this season speak in glowing terms of this new summer resort, rivalling any place on our inland waters Excursion trips by the "Chippewa" to these waters every Thursday.

To Prevent Sunstroke.

We clip the following from an exchange. If true, it goes to prove the benefit of a union of opposing colors; but how many of those represented by the two colors will make the experiment? "In view of the occurence of sunstroke during the heated weather, we give the following simple rule, which will be found to act as a certain preventative: Remove the lining out of your hat and substitute one of orange yellow and another of green; the material may be either silk or paper. The most powerful rays of the sun can then be endured without the fear of sunstroke. The injury does not, as many suppose, proceed from the rays of heat, but, as has been proved, from chemical rays. The green color will arrest the former, and the orange the latter."

Careless use of Fire-Arms.

As Mr. John McClelland, Jeweler, was crossing George Street, on his way home, a few evenings since, he heard the report of a pistol shot, and momentarily followed the whistle of the ball past him, and also the noise of its stroke against the building close by. Now, to say the least, this careless use of fire-arms should not be indulged in. In this case, there was no intention of doing injury to any one, yet how narrow the escape? The foolish habit of carrying pistols should be discountenanced in every way. No one needs such weapons except for amusement, but the amusement that endangers the life of another should seldom be engaged in. It is very strange, too, that pistols are too often carried under influences not calculated to ensure carefulness.

Ashburnham.

The Rate for this Village for the current year is 18 mills exclusive of Statute Labor. The Lieutenant-Governor has signified his acceptance of the terms of the By-law of the Village applying the share of the Municipal Loan Fund, viz. $1200 to pay off the present debt, and the balance to be applied to enlarge the school rooms. There has been but one case of small pox in the Village, that of the man Patterson, who died on Friday last. The young Lady who was recently reported to have had the small pox is convalescent. Three of the doctors declare it is typhoid fever that ails her. It is not small-pox, nor was it. The people who were inclined to pull down the hospital are now pleased it was erected, as they had to send a patient to it. How foolish some people are? But then certain influences are calculated to unhinge some constitutions at particular periods: although our almanacs does not believe in insanity or lunacy.

A Piece of Folly.

On Monday evening, some person or persons set fire to the empty dwelling of the man Patterson, who had been removed from Ashburnham to the small pox hospital. Patterson, it appears, was one of those foolishly creatures who are daring enough to go where contagious diseases are, at the risk of their lives. He, it is said, went to the hospital and got a little liquor, but on coming home, a very few days showed him the folly of what he had done. He took the disease, had to be removed to the rest, where he died in about two days. His wife was sent with him. Happily they had no children. The Council then got the place cleaned, whitewashed, and disinfected; but notwithstanding all this, some persons whose judgments were sadly at fault, took it into their heads to burn the house, and did so on Monday evening. Now if such persons had just made the case their own: A poor woman, no place to go, no one to assist her, now depending on the kindness of an unkind world—her only home destroyed—would they like to be served in the same way? But her poverty is their excuse. There was no fear of small pox, inasmuch as the place had been cleaned and disinfected. And then the spirit of burning houses—is it to be feared? Are people to be left without a home because they are compelled to leave it for a little time for the general good, to prevent the extension of disease? It cannot be tolerated in any community, and the more especially so when the poor are to suffer with little hopes of redress.

Heartrending Accident.

A child, Killed under a mowing machine. We regret to learn that on Monday while Mr. Tedford, of the Township of Douro, was mowing with a machine near his dwelling, his little child, about 2 years old, had got into the grass before the machine, and while the father was looking round on see where it was the machine came to it, and cut one foot completely off, and almost took the other one. The distracted parents hastened to get a doctor but when there he was unwilling to risk amputation alone when another doctor was obtained, they amputated the other leg, but the dear little sufferer only survived this a short time. Its only words after the act were, not to hurt its feet. The sympathy of the whole neighbourhood are with Mr. Tefford on this sad affliction, Dre Bingham of Warsaw, and O'Sullivan of Peterborough, performed the amputation very skilfully, but the shock to the nervous system of the infant was more than it could bear.

MARRIED.

SNELGROVE—HAMILTON.—At the residence of Mr. Procter, Lakefield, by Rev. A. Richard, Mr. James Snelgrove to Mrs. M. J. Hamilton. All of Douro.

KIERNAN—MUNROE.—At Blakely's hotel, Lakefield, on July 29th, Mr. E. Kiernan to Miss Annie Munroe of Smith.

DIED.

PRESTON—On the 1st instant, in the Township of Smith, Mr. Wm. Preston, aged 65 years.

HALL.—At Otonabee on the 1st of August, William David, eldest son of Mr. Hall, aged 15 years.

PROSTATION, resulting from the effects of the intense heat of the summer months, is pre-disposing cause of so many of the diseases peculiar to hot weather. The stomach partaking of the loss of vitality pervading the whole system, is unable to complete digestion the food passing undissolved through the bowels, irritates the lining membrane, and Diarrhœa, Dysentery, Cholera Morbus, and when prevailing Asiatic Cholera, may be excited. Attention to diet, moderate exercise, bathing, and regular habits must be observed. To maintain the vital forces and prevent lassitude and exhaustion. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is unquestionably reliable, as it invigorates the digestive organs, and supplies material for generating nerve force.

BY-LAW No.

A BY-LAW to aid and assist the Huron and Quebec Railway Company by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the Town of Peterborough, and to authorize the issuing of such Debentures and the levying of such a rate as will be sufficient to pay the principal and interest of such Debentures.

WHEREAS, the Municipality of the Town of Peterborough is desirous of aiding and assisting the Huron and Quebec Railway Company in the construction of their proposed Railway, by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the said Municipality bearing interest at the rate of six per cent per annum and redeemable as hereinafter mentioned.

And Whereas by an Act of the Legislative Assembly of the Province of Ontario, passed in the thirty-seventh year of the reign of Her Majesty, entitled "An Act to incorporate the Huron and Quebec Railway Company," it is enacted that any Municipal Corporation which may be interested in securing the construction of the said Railway, or through any part of which, or near which, the Railway or works of the said Company shall pass or be situated, may aid the said Company by giving money or Debentures by way of Bonus, Gift, or Loan.

And whereas, a Petition duly signed by more than twenty resident freeholds being duly qualified voters of the said Municipality, has been presented to the Council of the said Municipality expressing the desire to aid the said Railway to the extent of One Hundred Thousand Dollars aforesaid as by the said Act inspired

And whereas, by an Act of the Parliament of the late Province of Canada passed in the twenty-fourth year of the reign of Her Majesty entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of debentures on the security of Town Property and for other purposes;" it is enacted that certain property of the said Municipality consisting of the Town Hall, the Market Block, and the land South of Townsend Street and East of Park Street in, and the same thereby became vested in the Commissioners therein named and their successors to be called "The Commissioners of the Peterborough Town Trust," and that it should be lawful for the Mayor and Town Council of the said Town of Peterborough from time to time, and as often as they might Debentures under the seal of the said Corporation to be signed by the Mayor countersigned by the Treasurer of the said Town and by the Secretary of the said Commissioners and to the amount and for the purposes and in the manner in the said recited Act designated and that it should be lawful for the said Commissioners to issue New Debentures if required from time to time upon which to raise funds to retire outstanding Debentures and that the Town Council of the said Municipality should annually upon the application of the said Commissioners raise upon and from the rateable property of the said Town of Peterborough the Interest and Sinking Fund requisite for the ultimate redemption of the said Debentures according to the said lastly recited Act.

THE Municipality of the Town of Peterborough by the Council thereof therefore enacts as follows:

1. That it shall and may be lawful for the Municipality of the Town of Peterborough to aid and assist the Huron and Quebec Railway Company in the construction of their proposed Railway by granting by way of Bonus to the said Company Debentures of the said Municipality to the amount of One Hundred Thousand Dollars as herein provided.

2. That for the purposes aforesaid it shall and may be lawful for the Mayor and Town Council to cause to be issued Debentures of the said Municipality under the seal thereof to be signed by the Mayor and countersigned by the Treasurer of the said Town and the Secretary of the said Commissioners to the said amount of One Hundred Thousand Dollars to be payable at the office of the Treasurer of the said Town at the times following that is to say: Debentures to the amount of Twenty Thousand Dollars at the end of ten years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of fourteen years from the issue thereof. Debentures to the amount of Twenty Thousand Dollars at the end of Sixteen years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of Eighteen years from the issue thereof and Debentures to the amount of Twenty Thousand Dollars at the end of Twenty years from the issue thereof. The said Debentures to be for the sum of One Thousand Dollars each and to bear interest at the rate of six per cent per annum payable half yearly and to be issued and the interest and the sinking fund for the redemption thereof to be provided for in the manner and subject to the provisions of the hereinbefore recited Act consolidating the debt of the Town of Peterborough.

3 That the said Debentures shall be issued on and bear date as of the first day of July One Thousand Eight Hundred and Seventy-five and the interest thereon at the rate aforesaid to be computed from the day of the date thereof and payable on the first days of the months of January and of July in each year at the office of the Treasurer of the said Town of Peterborough.

4. That this By-law shall cease to be of any effect and no Debenture or Debentures shall be issued thereunder until the said Company and the Ontario and Quebec Railway Company shall have amalgamated or until the said the Huron and Quebec Railway Company shall have obtained control of the said Quebec and Ontario Railway Charter or until the said Huron and Quebec Railway Company shall have entered into a good sufficient and binding contract with the said Ontario and Quebec Railway Company securing running powers over the said Ontario and Quebec Railway with such stipulations and additions as will enable the said Huron and Quebec Railway Company to carry out the stipulations and provisions of this By-law and until the said Huron and Quebec Railway Company shall have executed and delivered to the Municipality of the Town of Peterborough the Town Council of the said Town and in such a penalty as the said Town Council may seem meet conditioned for the maintainance in the Town of Peterborough of the Chief Workshops in connection with the maintainance of the said Road for the entire of the said Railway between Ottawa and Toronto and to have and keep constantly employed therein not less than One Hundred Men within Three years from the commencement of the operation of the said Road and conditioned also that the charges for freight upon the said Railway between the City of Montreal and the Town of Peterborough shall not any time exceed the charges for freight between between the City of Montreal and the City of Toronto or any point westerly of the City of Toronto and shall not exceed at any time the charge for freight on the Grand Trunk Railway between the City of Montreal and the Town of Cobourg or any joint west of that and that the charges for freight between the Town of Peterborough and the City of Toronto shall not exceed at any time the charges for freight on the Grand Trunk Railway between the Town of Cobourg and the City of Toronto.

5. That the said Debentures shall be handed over to the Trustees to be appointed under the 8-st recited Act upon and only upon and at the times and conditions following that is to say: Debentures to the amount of Twenty-five Thousand Dollars when and so soon as the grading shall have been completed on one half of that portion of the Line of the proposed Railway (such line to be the most direct route between the Town of Peterborough and the City of Ottawa) between the Town of Peterborough and the Eastern boundary of the County of Peterborough to the further sum of Twenty-five Thousand Dollars when the whole of such portion of the said proposed Railway shall have been completely graded and to the further amount of Fifty Thousand Dollars when and so soon as the said Road shall have been completed and in running order from the City of Ottawa to the City of Toronto.

Provided the same shall be so completed and in running order in three years from the First day of July One Thousand Eight Hundred and Seventy Four.

6 That interest shall not be computed on or payable by the said Town or such debentures until they shall have been handed over as aforesaid but shall commence to bear interest at the time or times at which they shall be so handed over.

7. This By-law shall be of no force or effect and no debentures shall be issued thereunder unless the construction of the said proposed railway as to that part thereof within the County of Peterborough shall have been actually and *bona fide* commenced on or before the first day of July One Thousand Eight Hundred and Seventy Five, and thereupon continuously prosecuted.

8. That this By-law shall be of no force or effect and no Debenture or Debentures shall be issued thereunder unless before the day hereinbefore appointed for the issuing of said Debentures, the Municipality of the County of Peterborough shall have duly passed and confirmed a By-law granting aid by way of Bonus to the said Company for the construction of the said Railway to the amount of One Hundred and Fifty Thousand Dollars.

9. Provided that this By-law shall be of no force or effect and no Debenture or Debentures shall be thereunder issued until the same shall have been approved and made valid as all and singular the provisions and stipulations therein by an act of the Legislature of Ontario notwithstanding the provisions of the Act incorporating the said Railway Company.

10 That the votes of the Electors of the said Municipality shall be taken on this By-law on the

Fourteenth day of August next

at the polling places in each of the Four Wards of the said Town respectively appointed for the holding of the Municipal Elections in January last, That the polling places shall be open at the hour of nine o'clock in the morning and closed at the hour of five o'clock of the afternoon of the same day That Joseph Landy shall be Returning Officer for Ward No. 1 That James Edwards shall be Returning Officer for Ward No. 2 That John Irwin shall be Returning Officer for Ward No. 3 and that William Lee shall be Returning Officer for Ward No. 4 for the taking of such votes.

NOTICE.

The above is a true copy of a proposed By-law which will be taken into consideration by the Council after one month from the first Publication in the *Examiner* Newspaper which said publication is

The 23rd day of July Instant

And that at the hour day and places therein fixed for taking the votes of the Electors the Polls will be held.

J. EDWARDS,
Town Clerk.

Peterborough, 23rd July, 30-td.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times its Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but *few* preparations *of* medicine which have withstood the impartial judgement of the people of any length of time. One of these is Thomas' Eclectric Oil, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed preparations of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Prescott, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Dr. Moses' Periodical Pills.

This invaluable *medicine* is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart. Hysterics, and Whites, the pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

This simple mental acquirement all can possess, free, by mail, for 25 cents, together with a Marriage Guide, Egyptian Oracle, Dreams, Hints to Ladies, &c. A queer exciting book. 100,000 sold. Address T. WILLIAM & Co., South Eighth st. Philadelphia, Pa.;

October 4, 1873 49-tf

By Chronic wasting diseases is understood those old complaints that have run a long time and resisted all ordinary methods of treatment. They usually depend upon hereditary taint or Dyspepsia, resulting in depraved nutrition and impoverished blood. Consumption, Scrofula, Kidney Diseases, Liver Complaint, Rheumatism Neuralgia, Eruptions of the Skin, Spinal Irritation, Ulcers of flesh and bone, belong to this numerous class. Radical and permanent cure results from the use of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, which performs the digestion of food and creates pure, vitalising blood to repair the diseased organs and prevents nervous exhaustion and general debility by furnishing material to generate nerve force.

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. The treatment of old lingering complaints is necessarily protracted, and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, causing elements of the tissues, repairs diseased bone, muscle, and nerve, and renews constitutional vigor in the same manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

BEARINE FOR THE HAIR.

Prepared from the Fatty Gremie of

THE CANADA BEAR.

It promotes a luxuriant growth.
It prevents the hair from falling off.
It restores the Hair and Beard.

Choice Poetry.

I'LL THINK OF THEE.

[illegible]
Over earth to greet the day,
[illegible] of purple, gold and red
Throwing round its bright array,
When from thy dewy cup is fled,
The dark veils entirely,
Thro' the blue hall of Nature's dell
Soars high—I'll think of thee.

When sweet flowers raise their dew dropped heads
To greet the god of day,
And dancing in the morning breeze,
Toss off the pearly spray;
And when the fiery-hearted Sun
Is mirrored in the sea,
Turning to floods of molten gold
The waves, I'll think of thee.

When down yon west the golden sun
Sinks slowly to repose,
Ere yet the fragrant, lovely flowers
Their glowing petals close;
When twilight shades are coming up,
When day's last gold hangs dull,
When farthest lingers into night,
I'll fondly think of thee!

When up the Heaven's clear blue dome
Wrapped round in fleecy white,
The pale moon comes, her silv'ry touch
Shedding a clear soft light:
When gentle stars peep shyly forth,
And o'er the murmuring sea
The sapphire comes to kill the flowers,
To rest—I'll think of thee.

When spring bedecks the hills and dales
And clothes the fields with flowers,
When summer in her glory comes
To beautify earth's bowers;
When golden Autumn leaves his store,
When Winter winds sport free,
In every season day and hour,
I'll fondly think of thee.

ODDS AND ENDS.

Petite Visitors.—An extraordinarily large army of "Musketeers" are now quartered on the inhabitants of Ashburnham. Their band is a very fine one.

Sad case—A burial case.

A hot-iculturist—The sun.

A popular sight—Anthracite.

Lip Service—Tea-cups and saucers.

A Hammerous Man—A coffin maker.

A good square meal—A Soda cracker.

Dress Parade—A fashionable wedding.

Notice of a Peal—A flash of lightning.

A Serious Turn—The twist of one's neck.

An Attached couple—The shells of an oyster.

The question of the hour—What's the time?

Match Factories—The watering-place hotels.

Why is a flirtation like plate-powder?—Because it brightens up spoons.

If you wish to know how many friends you have, get into office, if you wish to know how many you haven't, run for member of Parliament.

The proposition to introduce ladies as railroad conductors is objected to in view of the fact that "their trains are always behind."

"You cruel man," cried Mrs Jellikins, "my tears have no effect on you at all." "Well, drop 'em then," said the brutal Jellikins.

A widower compares marriage to a besieged fortress. Those who are outside would like to be within, those who are inside would like to be without.

The Danbury *News* man says: There is nothing that will change a man so much as great grief, unless it is shaving off his moustache.

A good little St. Marys boy refused to spell cider, because he had signed the pledge. The excuse hadn't the requisite thickness, and the boy was sent to his seat to learn his lesson.

A photographer in town has been astonished by a young woman who came to him and asked him innocently "How long does it take you to get a photograph after you leave your measure?"

A gentleman sat a long time very attentively musing upon a cane bottom chair, At length he said. "I wonder what fellow took the trouble to find all them ar holes and put straws around em?"

The brigand compositor has got out the kansas. The editor who wrote. "A big-hearted, valient soul." was delighted the next day on seeing it in the paper, "A red-headed, malignant mule." An emicated compositor was seen leaving town in a hurrah, with an infuriated editor armed with a horse-pistol bringing up in the rear.

Better than reading the riot act or calling out the fire engines is the way Detroit has of dispersing a crowd. They simply propose taking up a collection for a poor widow. It never fails.

A man, overcome by his sensibilities fainted at the grave of his fourth spous "What shall we do with him? asked a perplexed friend of his. "Let him alone," said a bystander. "he'll soon revive."

A cynical writer says: "Take a company of boys chasing butterflies; put long tailed coats on the boys, and turn the the butterflies into dollars, and you will have a beautiful panorama of the world.

While a couple of women were discussing, the other day, the merits of a certain physician, one of them asked the other what kind of a doctor he was "Sure, I dunno," was the reply, "but I think it's an alapaca doctor they call him.

A wit being told that an old acquaintance was married, exclaimed, "I am glad to hear it." But reflecting a moment, he added in a tone of compassion and forgetfulness. "And yet I don't know why I should be—he never did me any harm.

A gentleman riding towards Edinburg, and seeing a boy on the road, shouted ont to him, "my lad am I half way to Edinburgh? "The lad looked up at the querist and said. "Hoo dae I ken, when I didna ken whaur you're come frae? Man and horse vanished.

"Would a little sprite now and then hurt me much! asked a patient of his physician. No, "said the doctor, "a little spirits now and then would not hurt you much, but if you don't take any, they won't hurt all."

Golden Rule.—Whatever I have tried to do in life, said Charles Dickens, I have tried with all my heart to do well. What I have devoted myself to I have devoted myself to completely. Never in put one hand to anything on which I would throw my whole self, and never to affect depreciation of my work, whatever it was, I find now to have been golden rules.

A Papal Synod in Ireland.—It is announced by Cardinal Cullen's organ in Dublin that the Pope has issued a mandate for the convocation of an Irish Synod. It will be conducted on the model of the Thurles Synod of a quarter of a century ago, at which Queen's Colleges were denounced. The special questions said to demand attention are the denial of the authority of Papal rescripts, the progress of secular education in the country, and the organization of the new Catholic University.

HOME HINTS.

Wet pie-crust with a little milk just before placing the pies in the oven, and they will be a nice brown color.

To make Railroad Cake take two eggs, one cup of sugar, one tablespoonful of butter, four tablespoonsful of milk, one cup of flour, one teaspoonful of cream of tartar, one half teaspoonful of saleratus, and flavor to taste.

Keep always ready for use some fine sand-paper, to clean the rust spots from the pie plates, the lamp tops, the rusty knitting or crochet needles, to smooth down the bottom of the porcelain kettles, or anything of the kind.

For a splendid dinner relish spread a layer of canned tomatoes in a pudding dish, then one of onions, sliced thin; the next of buttered bread, and so on until the dish is full. Pepper and salt to your liking; add water enough to keep from burning, and bake slowly until done. If done right it will be a delicious dish.

For cleaning glass a newspaper is one of the best articles in use. The chemical operation of some of the ingredients of printing ink gives a beautiful polish. Slightly moisten a piece of paper, roll it up and rub the glass; then take a dry soft piece and repeat the process. No lint will remain, as is the case when cloth is used.

To make plain cake without milk or eggs, use three cups of flour, one and a half coffee cups of sugar, a tablespoonful of melted butter, nutmegs and seasoning to suit the taste, currants or raisins, two and a-half teaspoonfuls of cream of tartar, one teaspoonful of saleratus, water, or milk if you choose. Do not make very thick; bake with a medium fire.

Buy a good-sized hand brush and keep it about your sink on purpose for cleaning vegetables. You will think your potatoes are not clean without its use after you have tried it. It is also the easiest possible way to clean your grater. Lay it in cold water, or at least clean water, clean with the brush and rinse and dry. You will not be troubled with lint and threads on it. Of course you must always rinse the brush thoroughly and let it drain or dry to preserve the stiffness.

Alcohol's Army of Death.

There are 140,000 saloons in the country against 128,000 schools, and only 54,000 churches. Manufacturers and sellers of strong drink, 560,000, twelve times the number of clergymen, four times the teachers, nearly double all the lawyers, physicians, teachers and ministers combined. In these saloons there are 3,600,000 daily customers, one in seven of the whole population! Of these 100,000 are annually imprisoned for crime, at an expense of $90,000,000, and 150,000 go down to the drunkard's grave, leaving 200,000 beggared orphans. Grasp the figures—An army of topers, five abreast, 100 miles in length. A rank of beggared widows and children stretching across Massachusetts. A file of men seventy-five miles in length, marching steadily down to the grave, three every minute through the year.

A Wonderful Steamship.

It is not generally known that the British Admiralty have had under consideration for some time past the scheme of a gentlemen who believes that we may, before long, be able to cross the English Channel in twenty minutes and the Atlantic in two days. The inventor is Mr. C. M. Ramus, M. A. of Trinity College, Cambridge. In a phamphlet which he has just published, his gentleman propounds his plan, which is, indeed, a very simple one, being conveyed in the title which he has adopted for the shape of his proposed steamship, "Holyspheric"—many wedged. It is a practical application of the inclined plane principles to steam navigation. The ship is to have a bottom composed of two or more parallel consecutive inclines—the slopes being from 1 in 17 to 1 in 25. Such a form of ship, the author avers, had never been subjected to mathamatical investigation before 1872, when he submitted his plans to the Admiralty, and he adds that it had never before been demonstrated the "the lift of a vessel on water depended upon the well known mechanical advantage belonging to the inclined plane in all mechanical arrangements." This new form Mr. Ramus alleges to be the only one yet discovered that can render a vessel capable, under an unsual amount of propelling power, of steadily traversing the water, with great velocity. He calculates that steam vessels constructed on this principle will not require more than three times the amount of power now used to be propelled and maintained at a speed of 60 miles an hour

Acting under the instructions of the Admiralty, Mr. Froude made some experiments on this new form of steamship at Torquay in the summer of 1872, and his report was laid on the table of the House of Commons at the end of last session, though it has not yet been printed. That report would seem to have been unfavorable but in his phamplet Mr Ramus contests the decision, and especially Mr. Froude's allegation that an exorbitant amount of power would be required for the proposed new form of construction. If we might trust Mr. Ramus, this allegation was not warranted by the result of the experiments M. Ramus with his model actually obtained a speed at the rate of 63 knots per hour: and he points out that the downward pressure of any vessel is always a force limited to its actual weight, whereas the contrary force acting upwards increases with great rapidity—in fact, as the cube of the velocity and is therefore practically unlimited. The world would gladly welcome a steamship capable of performing the wonders sketched by Mr. Ramus, or even the half of them, and when he produces the article he may depend upon receiving a reward commensurate in some degree with the greatness of the benefit which he will have conferred upon his fellow-men But he may perhaps find as so many have done before him, that theory and practice are not always in accord.

A Californian Gambling Den.

The gambling fraternity of San Francisco have been considerably perturbed by the recent disclosures attending the demolition of the Mead House, a den where the unwary have been roundly fleeced in years gone by, and whose proprietors realized the snug profit of $65,000 yearly. In of one of the rooms on the upper floor was an arrangement which enabled the player to know exactly what his opponent held. Directly over the table, in the centre of the room, was a small hole in the ceiling, through which a confederate watched the game. Wires ran along the ceiling to the door, and terminated in levers beneath the carpet, upon which the cheating gambler placed his foot. As the wires were pulled the number or traps telegraphed the course or action to pursue. The taro room was the most ingeniously contrived thing in the house. In the first place, wires ran from the door, so that a signal was given when it opened, and in an instant everything was in readiness for the drop. This was accomplished by two levers and a space beneath let into the floor. To a person the gamblers withdrew from the table, each man of course grabbing his cheques and money, and by a motion of the levers the yawning floor opened, and down went the whole "lay on." The carpet was then drawn over the spot, and when the officers bore in sight there was nothing in the shape of gamblers implements to be seen about it. In the house there were taken out no less than 850 wires, and several contrivances for suddenly hiding gambling implements.

PUBLIC NOTICE.

The Council of the Corporation of the Township of Otonabee intend, at a meeting to be held on Monday, the 23rd day of August, next, to pass a By-Law to establish the following Gravel Road in said Township, viz.: Commencing on the West side of the allowance for Road between the 12th and 13th Concessions of said Township, on the South boundary from the line between Lots Nos 12 and 13, thence easterly parallel with the Northern limit of Lot No. 12 in the 13th Concession, for the distance of 21 chains and 50 links more or less to the East side of said road, thence Northerly along the line between the East and West halves thereof 1 chain and 7 links more or less, for the distance of 50 links of the line between the West halves of Lots Nos. 12 and 13 in said Concession, thence Westerly parallel with said line 21 chains and 50 links more or less to the East side of the allowance for road between the 12th and 13th Concessions, at the distance of 1 chains and 50 links Northerly from the line between lots 12 and 13 in the 13th Concession thence Westerly 65 chains and 50 links more or less to a point on the East side of the allowance for Road between the 14th and 15th Concessions distant 50 chains Northerly from the line between lots 12 and 13 aforesaid, the described line to be the centre of the Road and the Road to be 66 feet wide; also commencing at the South East angle of Lot No. 13 in the 15th Concession, thereof; thence Westerly along the line between lots Nos 12 and 13 34 chains and 76 links more or less to the centre of the 15th Concession, the described line to be the centre of the Road and the Road to be 66 feet wide.

GEORGE READ,
Township Clerk.

Otonabee July 20, 1874. 30-4-ins

Johnson's Force Pump and Fire Extinguisher.

For cheapness, durability, ease of working, and general efficiency, the above little article cannot be surpassed, it can be used as a PORTABLE FIRE EXTINGUISHER, a splendid article for washing Carriages or Windows or by changing the nozzle it can be used by a Lady or a Child to water a flower bed in the greatest and most bountiful manner. Only a bucket or tub of water required. No chemicals used. It is claimed for this Extinguisher that the stream of water thrown from it reaches to be fully as efficient in its results as the acid thrown from a Babcock Extinguisher. Every house should have one. The beginning of a fire frequently occurs in such a place that it cannot be reached by water thrown from a pail or dipper, this Pump will throw a fair stream of water 45 ft. horizontally, or will drench a wall to the height of 35 ft.

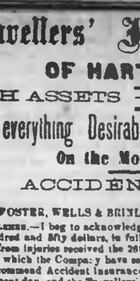
July 9 1874. 28-tf.



Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by *mineral poison* or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or cures.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal disease, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by scrofulous ophthalmia, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *LA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Tits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any remedy. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Hœmorrhages*, and *Female Weakness* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Pimples, Blotches* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Dyspepsia, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a concentrated extract from the roots of the best variety of the sarsaparilla, and is combined with *Yellow Dock, Stillingia*, and *Iodide of Potassium*, which greatly increase its alterative properties. Those who are *Languid* and *Listless, Drooping with Debility*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and constitutions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and *Loss of Appetite*, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, *Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic* and *Bilious Fevers*, a dose should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Pain in the Side, Back and Loins, they should be continued with proper perseverance, as these complaints require long and persistent efforts to eradicate them.

For Dropsy and *Dropsical Swellings* they should be taken moderately to produce the desired effect of a daily cathartic.

For Suppressed or *Painful Menstruation*, which is sometimes entirely cured by a few doses, they should be taken as directed, to produce the effect of a cathartic from one to three days, as the case requires.

As an *Alterative* or *Blood Purifier*, these *Pills* are combined with the greatest medical skill that long study, research, and experience have developed. Every disease that arises from impure blood is combated successfully by this powerful purifier. Scrofula, in all its forms, Ulcers, Eruptions, Tumors, Boils, Blotches, Tetter, Salt Rheum, Erysipelas, Scald Head, Sore Eyes, Syphilis, Mercurial Diseases, Dropsy, Liver Complaint, Dyspepsia, Heart Disease, Female Weakness, Suppressed or Painful Menstruation, Sterility, Leucorrhœa or Whites, Uterine Hœmorrhages, and all Uterine

THE REASONS WHY

LAZARUS, MORRIS & Co's

CELEBRATED

Perfected spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. *Because* they are found to possess all the qualities claimed for them.

2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found, to restore failing sight to its natural state.

3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight, from improper selections.

4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. *Because* the never tire the eyes and last many years without the necessity of change.

6th. *Because* being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

WM. H. TAVLOR, M. D.

Sole Agent for

JOHN BURNHAM, Barrister.

Peterboro, Aug. 3, 1874. 32-tf

Select Poetry.

"CURFEW MUST NOT RING TO-NIGHT."

[In the time of Cromwell, a young soldier, for some offence, was condemned to die, and and the time of his death was fixed "at the ringing of the curfew." Naturally such a doom would be fearful and bitter to one in the years of his hope and pride, but to this unhappy youth death was doubly terrible, since he was soon to have been married to a beautiful young lady whom he had long loved. The lady, who loved him ardently in return, had used her utmost efforts to avert his fate, pleading with the judges, and even with Cromwell himself, but all in vain. In her despair she tried to bribe the old sexton not to ring the bell, but she found that impossible. The hour drew near for the execution. The preparations were completed. The officers of the law brought forth the prisoner, and waited, while the sun was setting, for the signal from the distant bell-tower. To the wonder of everybody, it did not ring! Only one human being at that moment knew the reason. The poor girl, half wild with the thought of her lover's peril, had rushed unseen, up the winding stairs, and climbed the ladders into belfry left and seized the tongue of the bell. The old sexton was in his place, prompt to the fatal moment. So threw his weight upon the rope, and the bell, obedient to his practised hand, reeled and swung to fro in the tower. But the brave girl kept her hold, and no sound issued from its metallic lips. Again and again the sexton drew the rope, but with desperate strength the young heroine held on. Every moment made her position more fearful; every sway of the bell's huge weight threatened to fling her through the high tower window; but she would not let go. At last the sexton went away. Old and deaf he had not noticed that the curfew gave no peal. The brave girl descended from the belfry, wounded and trembling. She hurried from the church to the place of execution. Cromwell himself was there, and was just sending to demand why the bell was silent.]

Slowly England's sun was setting o'er the hilltops far away,
Filling all the land with beauty at the close of one sad day,
And the last rays kissed the forehead of a man and maiden fair,—
He with footsteps slow and weary, she with sunny floating hair;
He with bowed head, sad and thoughtful, she with lips all cold and white,
Struggled to keep back the murmer,—
"Curfew must not ring to night."

"Sexton," Bessie's white lips faltered, pointing to the prison old,
With its turrets tall and gloomy, with its walls dark damp and cold,
"I've a lover in that prison, doomed this very night to die,
At the ringing of the curfew, and no earthly help is nigh;
Cromwell will not come till sunset," and her lips grew strangely white
As she breathed the husky whisper.—
"Curfew must not ring to-night."

"Bessie," calmly spoke the sexton, every word pierced her young heart
Like the piercing of an arrow, like a deadly poisoned dart,
"Long, long years I've rung the Curfew from that gloomy, shadowed tower;
Every evening, just at sunset, it has told the twilight hour;
I have done my duty ever, tried to do it just and right,
Now I'm old I still must do it,
Curfew it must ring to-night."

Wild her eyes and pale her features, stern and white her thoughtful brow,
And within her secret bosom Bessie made a solemn vow.
She had listened while the judges read without a tear or sigh,
"At the ringing of the curfew, Basil Underwood must die."
And her breath came fast and faster, and her eyes grew large and bright—
In an undertone she murmured,—
"Curfew must not ring to-night."

She with quick steps bounded forward, sprung within the old church door,
Left the old man threading slowly so oft he'd trod before;
Not one moment paused the maiden, but with eye and cheek aglow,
Mounted up the gloomy tower, where the bell swung to and fro.
And she climbed the dusty ladder on which fell no ray of light,
Up and up,—her white lips saying,—
"Curfew shall not ring to-night."

She had reached the topmost ladder, o'er her hangs the great dark bell;
Awful is the gloom beneath her, like a pathway down to hell.
Lo, the ponderous tongue is swinging, 'tis the hour of curfew now,
And the sight has chilled her bosom, stopped her breath and paled her brow.
Shall she let it ring? No, never! Flash her eyes with sudden light,
And she springs and grasps it firmly—
"Curfew shall not ring to-night."

Out she swung, far out, the city resewed a speck of light below,
'Twixt heaven and earth her form suspended, as the bell swung to and fro,
And the sexton at the bell-rope, old and deaf, heard not the bell,
But he thought it still was ringing fair young Basil's funeral knell.
Still the maiden clung most firmly, and with trembling and white,
Said to hush her heart's wild beating,—
"Curfew shall not ring to-night."

It was o'er, the bell ceased swaying, and the maiden stepped once more
Firmly on the dark old ladder, where for hundred years before
Human foot had not been planted. The brave deed that she had done
Should be told long ages after, as the rays of setting sun,
Should throw the sky with beauty; aged sires with heads of white,
Long should tell the little children,
Curfew did not ring that night.

O'er the distant hills came Cromwell; Bessie met him, and her tears,
Full of hope and full of gladness, has no sanlous traces now.
At his feet she tells her story, shows her hands all trobbed and torn;
And her face so sweet and pleading, yet with mingled pale and glow
Touched his heart with sudden pity, lit his eyes with misty light;
"Go! your lover lives," said Cromwell, "Curfew shall not ring to-night."

SCOTTISH ANNECDOTES.

In a very entertaining work, entitled "Reminiscences of Scottish Life and Character," from the pen of Dean Ramsay, we find the following humorous illustrations:

"Some years ago, when it was not an uncommon thing, even in Scotland, for challenges to be given and accepted for insults, or supposed insults, an English gentleman was entertaining a party at Inverness with an account of the wonders he had seen and the deeds he had performed in India, from whence he had lately arrived. He enlarged particularly upon the size of the tigers he had met with at different times in his travels, and by way of corroborating his statements, assured the company that he had shot one himself considerably above forty feet long. A Scottish gentleman present, who thought these narratives rather exceeded a traveller's allowed privileges, coolly said that no doubt those were very remarkable tigers; but that he could assure the gentlemen there were in that northern part of the country some wonderful animals, as an example he cited the existence of a skate-fish captured off Thurso, exceeding half-an-acre in extent. The Englishman saw this was intended as a sarcasm against his own story; so he left the room in indignation, and sent his friend to demand satisfaction or an apology from the gentlemen who had, he thought, insulted him. The narrator of the story coolly replied, "Weel, sir, gin yer freend will tak a few feet aff the length o' his tiger, we'll see what can be done about the breadth o' the skate.'"

"The parishioners of a clergyman in Scotland, in expressing to him their aversion to the use of manuscript sermons, urged; 'What gars ye tak up your bit papers to the pu'pit?' He replied that it was best, for really he could not rember his sermon, and must have his paper. 'Weel, weel, minister, then dinna expect that we can remember them.'"

"A late Duke of Athol had invited a well-known character, a writer of Perth, to come up and meet him at Dunkeld for the transaction of some business. The Duke mentioned the day and hour when he should receive the man of law, who accordingly came punctually at the appointed time and place. But the Duke had forgotten the appointment, and gone to the hill, from which he could not return for some hours. A Highlander present described the Perth writer's indignation, and his mode of showing by a elaborate course of swearing. 'But whom did he swear at?' was the enquiry made of the narrator, who replied 'Oh, he did not swear at ony thin particular, but juist stood i' the middle of ta road and swoor at large.'"

"A Scotch lad came to his clergyman for examination previous to his receiving his first communion. The pastor, knowing his young friend was not very profound in his theology, and not wishing to discourage him, took the Old Testament, and asked him, in reference to the Mosaic law, how many commandments there were. After a little thought, he put his answer in the modest form of a supposition, and replied cautiously, 'Perhaps a hunner.'" The clergymen was vexed, and told him such ignorance was intolerable, that he could not proceed in the examination, and that the youth must wait and learn more; so he went away. On returning home, he met a friend on his way to the manse, and on learning that he too was going to the minister for examination, shrewdly asked him. 'Weel, what will ye say noo if the minister speers hoo many commandments there are?' 'Say, why, I shall say ten to be sure.' To which the other rejoined, with great triumph, 'Ten! Try him wi' ten! I tried him wi' a hunner, and he wasna satisfied.'"

"The old generation of Galloway lairds were a primitive and hospitable race, but their *conviviality* sometimes led to awkward occurrences. In former days, when roads were bad, and wheeled vehicles almost unknown, an old laird was returning from a supper party, with his lady mounted behind him on horseback. On crossing the Urr, at a ford at a point where it joins the sea, the old lady dropped off, but was not missed till her husband reached his door, when, of course, there was an immediate search made. The party who were despatched in quest of her arrived just in time to find her remonstrating with the advancing tide, which trickled into her mouth, in these words, 'No ae ither drap; neither het nor cauld.'"

"There was a certain 'Daft Will Speir who was a privileged haunter of Eglington Castle and ground. He was discovered by the Earl one day taking a new cut, and crossing a fence in the demesne. The Earl called out, 'Come back, sir; that's not the road.' 'Do you ken,' said will, 'whaur I'm gaun'. No, replied his lordship. Weel, hoo the deil do ye ken whether this be the road or no?'"

"It seems that a certain country girl in Scotland thought it quite possible that there might be an excess in scrupulous regard to appearances. On her marriage-day the youth to whom she was about to be united said to her, in a triumphant tone, 'Weel, Jenny, haven't I been unco ceevil,' alluding to the fact that during their whole courtship he had never even given her a kiss. Her quiet reply was, 'Ou, ay, man; senseleenly ceevil.'"

"A late well-known member of the Scottish bar, when a youth, was somewhat of a dandy, and, I suppose, somewhat short and sharp in his temper. He was going to pay a visit in the country, and was making a great fuss about his preparing and putting up his habiliments. His old aunt was much annoyed at all the bustle, and stopped him by the somewhat contemptuous question, 'What's this you're gaun, Robby, that ye mak sic a grand wark about yer claes?' The young man lost temper, and pettishly replied, 'I'm going to the deil.' 'Deed, Robby, then,' was the quit answer, 'ye needna be sae nice; he'll juist tak ye as ye are.'"

Lord Brazfield, a Scotch judge, once said to an eloquent culprit at the bar, "Ye're a clever chiel, man, but I'm thinking ye wad be nane the waur o' a hanging."

USE OF SILENCE.

A pity that so few people understand the full effect of well-timed silence! How eloquent it is in reality! Acquiescence, contradiction, difference, disdain, embarrassment, and awe, may all be expressed by saying nothing. It may be necessary to illustrate this apparent paradox by a few examples. Do you seek an assurance of your lady-love's affection? The fair one confirms her lover's fondest hopes by complaint and an assenting silence. Should you hear an assertion which you may deem false, made by some one of whose veracity politeness may hold you from declaring your doubt openly, you denote a difference of opinion by remaining silent. Are you receiving a reprimand from a superior? You mark your respect by an attentive silence. Are you compelled to listen to the frivolous conversation of a fop? You signify your opinion of him by treating his loquacity with contemptuous silence. Again, how much domestic strife might have been prevented, how often might the quarrel which by mutual aggravation has, perhaps, terminated in bloodshed, had it been checked in the commencement by a judicious silence! Those persons only who have experienced them are aware of the beneficial effects of that forbearance, which to the exasperating threat, the malicious sneer, or the unjustly imputated culpability, shall never answer a word. A soft answer turns away wrath; but sometimes erring humanity cannot give this soft answer in moments of irritation; in such cases, there stands the fortress of silence, with doors wide open, as a refuge for the tired spirit until calmer moments come. Think of this seriously, you who glory in having "the last word."

The Path of Untrue Lovers.

A rather singular case of mistaken identity occurred recently at Plantagenet. It appears there resides there a sprightly young French Canadian grass widow, whose husband left her some ten or a dozen years ago, and failed to return to her since. A man named Geroux, from Hawkesbury, being in the vicinity, and knowing the circumstances, called upon the innocent and credulous "widow," and represented himself as her long-absent husband. The fond and loving wife expressed many and serious doubts as to his being the genuine "claimant," but if he was willing to remain with her as her husband, she would throw all misgivings on the point of his identity aside, and endow him with the rights and privileges of the original "man of the house." The matter was quickly settled. Joy and gladness reigned once more in the bosom of the young widow. For a week or two all went "merry as a marriage bell." She rigged him out in a bran new suit of clothes, and furnished him with pocket money. Soon, however, the ungrateful "claimant" began to exhibit signs of preparation for a journey to "greener fields and pastures new," by his packing up all the money and valuables of his "wife." A sudden light flashed upon the widow—she saw at a glance that the fellow was a vile impostor—that instead of his being her husband he was another woman's. It was bad enough to be so shamefully deceived by his false representations, but to be plundered by

PETERBORO', AUGUST 13th, 1874.

FOUR M. D's AGAINST ONE.

A medical wag, in the last *Review*, perpetrated what he no doubt thought was a huge joke on the editor of the EXAMINER. But some things are said to go home to roost. Perhaps such will be the case with this joker.

In our last issue we gave a report of a case of illness of a young woman in Ashburnham, said by this joker to have the small pox. Not desiring to cross swords with the profession, we refrained from using names, merely giving what we had good reason to believe were facts, viz.: that the young woman had the typhoid fever, and not the small pox. This disciple of Aesculapius took offence at our report, and tried to make it appear that our opinion *was that of one not* learned in Medical Science, falsely so-called, as propounded by not a few quacks. The following letter, placed in our possession, will show who it is that is against the Dr.

Peterboro, July 31st, 1874.

We, the undersigned medical practitioners, having visited professionally Miss Brooke, daughter of Mr. John Brooke, of Ashburnham, have the honor to state that the patient is suffering from typhoid fever, and not from small pox as reported.

(Signed), GEO. BURNHAM, Sr., M. D.
E. F. BOUCHER, M. D.
R. KINCAID, M. D.

Besides these names, we have good authority for stating that a fourth doctor visited the sick girl and gave it as his decided opinion, although not in writing, that it was not small pox, and never had been; and fully agreed with the three gentlemen whose names are above.

In justice to the family which suffered from the report as to small pox, and also in justice to ourselves as to the grounds on which our report was based, we publish the above certificate of medical gentlemen, whose standing in the community entitles them to respect.

There is an opinion that some medical men would rather see a patient perish under their treatment than acknowledge their blunder or lack of judgment. Can there be any reason for this opinion?

To our sorrow, we have experienced the potency of pills when taken inwardly, but the application outwardly is of little consequence, and, neither the satire of fools, nor the fear of medical humbugs shall deter us from the discharge of what we honestly consider our duty. Nor do we fear medicinal influences so long as we are able to confine it to the *Review* newspaper.

The Town Council and the Warm Weather.

The Council exhibited a little weakness on Monday evening. Mr. Faucher petitioned to be allowed to erect a shed to hold tools while workmen would be repairing his building on Brock street. The shed, however, is up and is a kitchen for a saloon. Although within the fire limits several of the members advocated a motion to allow it to remain until Mr. Faucher could get brick to erect a building. The fact that he asked for a *shed* while it was a kitchen he wanted and really had, was enough to enable the Council to see through the sharp practice. If this building is allowed to remain, why should not other property owners in the limits have wooden kitchens? What particular favor should be shown to one man more than another? If the By-law is one that should not be enforced, let it be repealed, but while it exists the council should not interfere with it. Any attempt by the council to defeat the object of the By-law will produce its effect very soon in a total disregard for this and other By-laws. The Police Magistrate will no doubt fine parties infringing on the By-law, but the whole thing will be a farce for the fine will not be collected, as the council were told on Monday evening that there were other cases now before the Police Court awaiting the action of the meeting The query will force itself upon the people, as to what is the cause of such favor to Mr. Faucher.

An Over-Generous Committee.

The Small Pox Committee may justly be said to be generous, if not more than generous. They are now paying a medical attendant the small pox patients $3 a day. The same work was done two years for $2 a day. Dr. Kincaid, who as Town Physician, is prepared to do the work for a little over 25 cents a day or a little over 130 a year. He stated to the council that he was ready and willing to act, and make no other charge than his salary of $130 a year; yet an over-generous committee pays another doctor $3 a day. Two years ago Dr. Kincaid got $2 a day; why should any doctor now get $3 or 4 times as much? The council must take this matter up at once and remedy the glaring waste of the people's money. A saving of $21 a day for any month (account of small pox) would be this month's Town's money to another. It is all right to say that the patients have typhoid fever and cases had called, but there is no evidence in answering the query Physician whose pay is about 34 cents a day, to make place for another physician at $25 a day. Besides, Dr. Kincaid in 1872, attended 14 patients not one of whom died. This year 5 have died. We do not wish to reflect on any one particularly, but we do desire reasonable economy in public matters. This reckless expenditure of $25 a day cannot be continued while there is a Town Physician paid at a small rate, receiving about one seventy-fourth part of $25. The Mayor has tried to bring this matter before the council, but pathetic appeals have prevented its being attended to. The whole thing is so outrageous that it cannot be continued much longer.

The Small Pox.

We are glad to be able to state that the small pox is on the decline. Only one new case is reported since our last issue, that of a girl named Dorris, and she had received the virus from some relative, it is said, who had been at Mr. Cavanagh's hotel. Up to this period 21 cases have been reported; of these 5 have died, 14 are getting better, and 2 are ill about 8 days. There are also at the hospital about 8 or 9 persons as attendants or who are there waiting to see if the disease shall effect them as they were boarding at the hotel. The excitement consequent on the first alarm of the disease is quite gone, so that now there are no fears of being affected unless people go to it, which is not likely. Two years ago there were 14 or 15 cases in town, and so quietly was it managed, and so successfully was it treated by Dr. Kincaid that few people outside of the town ever heard of it. But some mismanagement at the commencement this year and undue excitement, caused an unnecessary dread of the disease, and made people think that the *town was in* danger. But this is all over, except in council meetings, and where men learned in therapeutics dilate on their own extraordinary daring, philanthropy and disinterestedness.

The By-Law.

To-morrow the vote will be taken, and on the result will depend the fate of the Huron and Ottawa Railway. Its defeat will postpone indefinitely any chance of a Trunk line this way. It's success will secure the *construction* of a line at once, almost. Do we want a through line? This will be answered in the positive by every one. Then, if we do, let all who think so vote for it. If we do not the whole thing is settled. We have lost the back country by voting against the road northward. Now the Victoria Railroad Company is at work, the road is located and we are in the cold. Shall we continue this disregard for our prosperity, and allow the trade of the country to go to suit those who are more desirous of advancing their own ends than of advancing the interests of the town. Will Mr. Fowler build the road? It makes little difference who may build it if we but get it. Mr. Fowler has *energy* enough to build it, but he may not *live* to do so. If once commenced it will be finished. It is a public necessity. Let all who believe it is for our interests vote for it. But let those who honestly think differently oppose it, and all who cannot vote honestly for or against should carefully consider the matter.

THE NEW SCHOOL HOUSE AGAIN.

To the Editor of the Examiner.

DEAR SIR,—I beg for space to reply to the article anent "The New School House," Dummer, in the Peterborough *Review* of the 31st ult.

"Oh! wad some power the giftie gie us,
To see oursels as ithers see us,
It would free many a blunder free us,
An foolish notion."

—BURNS.

1st. He retails some hearsay about the roof leaking and the door being blown open. Any damage done by both can be remedied for less than $1.

2nd. He makes the unsupported statement based on his opinion, "that if the north part of this *section were* paying a school rate equal to the south part, the school house would not have cost more than $700." In either of the following cases *his* side of the question pays less than half the taxes, though from his language you would suppose they paid nearly all. 1st. Taking all the ratepayers in favor of, and those against a Central School House. 2nd. Taking those at the meeting in favor of, and those against the present site. 3rd. Taking the petitions that were present to Council in August, 1873, for and against dividing the section, and 4th. Taking the petitions for the same purpose that were laid before Council early in this year. The above facts should console "One Who Knows." He is not burdened as heavily as he affects to believe. Will he deal more in facts and less in fancy?

3rd. He says "If Mr. Darling had said the contrariness of that majority it may have been correct,' If doing what we deem right and for the interests of the section, is contrariness, we are contrary still.

4th. At most of our meetings the majority were in favour of two school houses." I ask him to give the public a plain, honest statement of why two school houses were not built according to the wishes of the majority? The first special meeting to chose a site, and the last one were unmistakably in favour of a central school house. Next, "about two years ago Mr. Darling himself said two school houses were needed." In far less time than two years ago I took but little part on either side in this question. If the matter was represented conditionally, I may have said so; if the question was put square as to whether one school house or two was best for the section; I never said it. I have no recollection of the statement.

5th. "At a meeting in council it was asked why we in the South part of the section could have only one Trustee these last twelve years, Mr. Darling replied because you are not worthy of it." At the meeting of the Council alluded to the gentlemen has answering now, said in strong and slurring language, that it was through family connections the site was chosen for my especial benefit While I was replying to his charges, I was interrupted with the question "why can we not have two Trustees &c," I replied, "because you can't be trusted," I regret the use of the statement, and "One Who Knows" was not magnanimous enough to say that in about an hour afterwards, I voluntarily apologized for it before the same council.

Next. "He is mistaken if "One Who Knows" was not a strong advocate for a Central School House." I cheerfully acknowledge my mistake here. The real writer had not commenced to take an *interest* in the affairs of this section till shortly after the time alluded to. The gentlemen I then deemed the writer, I have reason now to believe had nothing to do with it. Had he been the writer, I would expect the question argued more on its merits, and with less of that personal bitterness that is characteristic of "One Who Knows." However, if you are attacked in the dark, you can not always identify your assailant; and, in a local affair of this kind, if a person has references to make known, and fears to relate, could he not give them over his signature?

Again. "When a short time ago Mr. Darling was asked how could children 4 miles off come to school, he replied, to the Council, who knows them? I have to inform all unqualified [illegible] and dare the writer to prove it. I will explain the reason of the [illegible] for the two last 16 years. He will find that many children under four years of age attended school; and some of them in summer pretty regularly; and I ask him (or any other person) to point out ONE child that was ever sent away by me, or prevented from attending.

Next. "While the lady says that children of five years of age must attend school Did he read this in the School Laws? Was he *credibly informed* of this fact? The law certainly extends the time two years longer before there is any compulsion.

Again, Mr. Darling has deep sympathy but I think it is for himself and his family."

I have no reason, nor have I a syllable to say about this gentleman's family, whatever he may say about myself, will he please let my family alone. In connection with this school question, this man has before done at the child for the course taken by the father. Does he do it on the principle that "Jimmy" killed the goose's chicken. It is said that two sons of the "Green Isle" were travelling as they were passing a flock of geese the Gander bit "Jimmy," and he "up wid his stick" and killed one of the goslins. His companion said "Arrah Jimmy, any why did his father bate me."

Next. "We think the reason why Mr. Darling wished to have the school house at his own door was really a selfish one."

Let the people among whom I have resided and taught for nearly 17 years be judges. I went for a central school independent of distance from myself or any connection of mine. I will try and show hereafter that "One Who Knows" is not disinterested.

Next. He tries to account for the total assessment being only $23000. Will he show how two school houses would accommodate those that left, and the amount of property that was taken off?

Who is "One Who Knows"?

No doubt the reader deems him, on his own telling, some rather important and abused person. Well, he is named Warren Taylor, and resides in an adjoining School Section within One Mile of his own School House, and the only interest he has in No. 4, is represented by an assessment of $150. He is said to have *help* but the gentlemen aiding him, I think is not actuated by any great amount of person ill will to me. Let him pass.

With a knowledge that Mr. Taylor resides in No. 5, and that his chief interests are there, the reader will wonder that he makes himself so busy with the affairs of this section, I will quote the statement he gave himself, and I will not garble his statement as he has mine. He says:— "The reason why I am so anxious about this matter is, my chief interests lie that way (i. e. from No. 5 to No 4) in Church matters, and I look that way for the education of my children, for, in fact, I don't like the associations in our own section." Any one that will read the last letter of "One Who Knows" will be thoroughly convinced that he does not like the associations of me and my "Constituents;" that he would gather up his robes and like the Levite, pass by on the other side; but in what way the inhabitants of No 5 are unfit associates for Mr. Taylor I confess I don't understand. However, he has attended several special meeting in this section, and urged hard for a site where, in a great measure, he would be independent of the associations of his own section, and also of my constituents" At the last of such meetings July 14th 1873, I made out and explained a statement showing the annual rate that would be required to support two school houses I passed under the clouds of Mr. Taylor's displeasure then and they overshadow me yet. He denounced me at the time as "Advocating what I did'nt believe," "Being very unjust etc. etc." and when he got out of doors he proceeded to make more serious effecting me as Township Clerk. For the latter charges I hold his retraction in writing, bearing date July 22nd 1873 Had I been very *selfish* I could have laid in a claim for damages, and, at least, I could have given the Lawyers some fees He acknowledged before my witness at the time, "that I was entitled to the retractions but from his insinuations about me ever since, I am satisfied he did not retract from principle but through a wholesome fear of the Law;—for he has omitted few opportunity of saying "The School was for my beneficial."" It was a question of my bread and butter etc, How much bread and butter do I get from his $150 Assessment?

Next, he has signed four petitions to Council asking for the division of the section. He appeared twice before council to advocate a division. On the first occasion August 16th 1873, he used the most skilful and well directed flattery to the members of the council and made as good special pleading as I ever heard. He did all and more than honor required to produce the wished for result. His adulations did not dazzle, his special pleadings and sophistries produced no great results for the council unanimously rejected the prayer of the petition for which he was pleading. If the matter had been necessary and just I have no doubt but the council would have divided the section without the *special efforts* of Mr. Taylor; as it was not his use of good and sometimes divine precepts accompanied by very human praise, was not sufficient to cause them to do it. They knew that the same reasons urged for a division of this section would apply with equal force to almost every section in the Township; and they did not go against their sense of justice to carve out, in accordance with the wishes of Mr. Taylor, a school section where he would like the "associations."

When the eloquent Whitefield was preaching in the United States, people used to come long distances to hear him, and in such numbers as to compel him to preach in the open air. The effects of his oratory caused many to roll on the ground. A slave hearing this, got permision from his master to go and hear the great Preacher. During the sermon the negro got down and rolled as he heard others did. After the service, one gentleman said to another. "That was a fine sermon but no doubt, a great many are disappointed because Mr. Whitefield did not come. The slave overhearing this said, "Was dat you say, was not dat Massa Whitfield dat preached." The gentleman explained that Mr. Whitfield could not come, and that another preacher had taken his place. "Well den," said the negro, "I rolled in the dirt for nuffin."

There is little doubt but Mr. Taylors dignity is somewhat injured, because *his* influences and efforts were not recognized in a more tangible manner; and he feels like finding fault generally, and attacking something or somebody. As he appears to have singled me out for that purpose; I would as soon have the honor of sustaining his attacks as not. Finally, I think the general public takes but little interest in my scribbling or his on this subject. If he desires further to elucidate the matter if he will name the time and place, and give me three days notice, I will meet him. For that purpose I am quite willing to go to any suitable place in his section, or to either of the Town Halls of Dummer In this I clearly give Mr. Taylor the advantage, of it as he can express himself fairly in public.

I am, Mr. Editor,
Yours Sincerely,
W DARLING

Dummer, August 8th, 1874.

THE Cape Breton *Times* says it is reported that Sir Hugh Allen, Cyrus Field, and others, have purchased lands at Lingonber Harbor, Guysboro County, Nova Scotia, with a view to construct a railway 50 or 60 miles in length in order to connect their Pictou coal properties with an Atlantic port.

THERE is a strong feeling throughout New Brunswick in favor of the Reciprocity Treaty, notwithstanding the adverse criticisms of inspired newspaper articles. A few interested persons in St John are working hard among manufacturers with others to create a strong opposition. This Treaty will give an impetus to shipbuilding throughout Northern New Brunswick.

HURON AND QUEBEC RAILWAY.

In a few words as possible I will state why I intend to vote for the By-law granting a bonus by way of bonus, $100,000 to the Huron and Ottawa Railway. The By-Law provides for the payment of the money in the following order, viz: $35,000 when one-half of the road through this county is graded, and then $25,000 when the road through the county is fully graded, and the balance when the whole road from Ottawa to Toronto is finished and in working order. The first question for us to determine is, whether we want this road and whether, when completed, it will be worth this money to us. I believe it is intended that the road shall run from Ottawa to Goderich, on Lake Huron, with a branch to Toronto. I suppose it will be admitted that such a road will be of great advantage to this town and county. It will be a main trunk road, giving us access in a direct line to all parts of the country, east and west, as well as to the United States, and will thus enable us to send our manufactures and our produce direct to the seaboard and to all the centres of trade; and will also enable our merchants to bring in their goods direct from the points of shipment without the expense and delays the present roundabout route. I take it, therefore, that the road will be a very desirable one and well worth the money to us. Then, will we be safe in paying our money? Let us see. I believe the distance through the county, from west to east, is about forty miles. I believe also that I am safe in assuming that the right of way and the grading of the road will cost considerably more than 6,000 a mile. But I will take $6,000 a mile. Forty miles multiplied by six thousand gives $240,000; one-half of this sum is $120,000. When, therefore, Mr. Fowler spends $120,000 we give him $25,000, and when he spends in all $240,000, we give him another $25,000, in all $50,000 upon an actual expenditure of $240,000. I think we can lose nothing here. The other $50,000 is not to be paid until the whole road from Ottawa to Toronto is finished and in working order. the cost of which will be over four millions of dollars, estimating the distance at two hundred miles at a cost of $20,000 a mile. We thus do not pay the remaining half of our bonus until there has been an actual outlay of over four millions of dollars. I think it will be admitted that we can lose nothing here. I consider therefore that the giving of this proposed bonus will be money well laid out, and therefore I intend to vote for the By Law.

But there are other considerations and reasons why we, in the Town of Peterboro', should support this By-law. We want a main trunk line of railway direct from the seaboard to the great west, direct through the Town of Peterborough, by means of which we can have direct communication with all points east and west without the delays troubles, and expense of having to go some thirty miles south before we are fairly on our way. These delays, troubles, and extra expenses are working very injuriously to our prosperity. They retard and hinder trade, and they in a large measure prevent our ever becoming a manufacturing city. Sixty miles of extra freight, from and to the front with all the extra cost and delays and trouble of transhipments bear heavily upon the traders and the manufacturers, and practically prevent manufactures and thus retard the growth and prosperity of our town.

We must bear in mind also the effect that this road will and must have upon the produce trade of the town. If we can secure the purchase of large quantities of grain here we must likewise secure the advantages which such a trade must inevitably bring us; although I suppose the present sale of grain here does not exceed 200,000 bushels annually, and perhaps not much over half that quantity—Peterborough is notoriously a bad grain market. Where the farmer sells his grain, as a natural consequence, he does a good deal of trading. A large portion of the wheat and other grain of the surrounding country goes to the front simply because, owing to the cost of shipment by rail from this point and the delays and trouble of the shipper, he does not like to undertake it. Now, if we can overcome these difficulties, which, it appears to me, this road will enable us to do, there ought to be no reason why the sales of grain should not foot up to half a million of bushels, and just for a moment consider what a large amount of money this would put into circulation among us, and how largely such a trade would increase the business and prosperity of our town. Think of the number of mills and the increased number of people which it would employ. And in the same manner would the road benefit manufactures. When we can import direct the raw material at an expense which will encourage the manufacturer, which we may by although, direct, leading trunk road, such as this road is expected to be, and when we can enable the manufacturer to ship his goods to all parts of the world by an easy, direct, and comparatively cheap route, then may we hope to see manufacturers among us spring up and flourish and not before.

Another thing for serious considerations is this, and this is a question which we have got to decide now, if we expect our town to hold her own in the rear with other towns. Do we want this grand trunk road, a road which will have the effect of placing us upon the front, with a direct and continuous line of communication from Europe through Peterborough and so on to the Western States. Or have we roads enough? Are we contented to sit down with the present branch roads to the front? Is this all we need? Will the town continue to grow and prosper by the aid of these few miles of road line: Has not the time come when we want more accommodation? Have we not reached that stage of growth when we require greater facilities in order to meet the growing wants of business and the growing wants of the town. I think we have. As we stand at present we are in the position of a man living upon fifty acres with a large family who have grown up and want more room. The small farm did well enough for the family while they were young, but now that they are grown into men and women they need more room. If you confine them to the fifty acres they can not and starve. And just so is it now with us. The present roads to the front did well enough as a beginning, but they have served their purpose; our town and our country have got too big to be forced to depend upon them alone. If we are wise we will give heed to the times and work while yet it is day. We want this proposed road and we must have the road into the back country. There is no time to lose with either. Is there enterprise and spirit enough in the town and county to accomplish these very necessary undertakings? I hope there is, and I believe there is. But we shall see.

A RATEPAYER.

On the 11th inst., Col. French and his whole force of mounted police were at at point 230 miles west of Dufferin. All reports agree in representing the force as in excellent condition, and likely to be both of discipline and physical status, capable of satisfactorily discharging its duties upon arrival at its destination.

For the last month a youth known as George has been working at the lumber pile on the Port Hope wharf, his chaws being a man named McElroy. It transpired the other day that George was a woman, and that she was the wife of McElroy, with whom she had ran away from home on account of her parents disapproving her union with him.

THE Parliamentary Committee entrusted last session with the consideration of the Prohibitory Liquor Law question, having embodied in their report a resolution recommending that steps be taken to procure fuller and more satisfactory information regarding the operation of the law in each States of the American Union as have adopted and enforced it. The Government, in pursuance of the terms of that recommendation, have appointed Mr. Frederick Davis, Barrister, and Rev. J. Manning as a Commission to make the necessary enquiries, and report. It is probable they will be in a position to report in about a month.

"THE POLAR AND TROPICAL WORLDS."

The following additional testimonials have been received of this popular work:

EDUCATION OFFICE,
Toronto, June 26, 1874.

J. W. Lyon, Esq., Publisher, Guelph,—

SIR,—"The Polar and Tropical Worlds, a description of man and nature in the Polar and Equatorial Regions of the Globe, two volumes in one, embracing also an account of the expeditions of all the Arctic explorers, from the discovery of Iceland, over a thousand years ago, to Hall's last expedition in the Northern World, together with the wonderful discoveries and adventures of Agassiz, Livingstone, Wallace and other distinguished travellers in the tropical countries. By Dr. G. Hartwig, author of "The Sea and its Living Wonders," and "The Harmonies of Nature," edited with additional chapters by Dr. A. H. Guernsey, the whole splendidly embellished with nearly two hundred beautiful illustrations, true to nature, furnished by artists in the regions to which they relate."—Published by J. W. Lyon, Guelph, Ont.

I have quoted your title page at length, and have great pleasure in saying that the upwards of 800 pages of the book are not than fulfil what is indicated by the title page; the illustrations are indeed 'true to nature' and beautiful; the mechanical execution, fine paper, and binding of the work leave nothing to be desired; the narratives are lively and entertaining, the descriptions graphic, and the style easy and elegant. I have read the contents and portions of the book, and I intend, and I may be able to command the time, to peruse the whole of it.

I had scarcely expected in my day to see so superb a work issued by a publisher in a Provincial town in Canada. I congratulate you on your enterprise and wish you complete success.

I have the honor to be, Sir,
Your obedient servant,
E. RYERSON, L.L.D., D.D.

Prof. Macoun, Professor of Botany, sent by the Government on the Canada Pacific Railway Survey, to report upon the Flora of the North West, says:—

I have carefully examined Dr. Hartwig's "Polar and Tropical Worlds," and am fully satisfied that no book yet published will be so beneficial to the pupils of public and High Schools as the above, from my knowledge of the requirements of the various schools in Ontario, I would advise all parents, who may feel able, to purchase the work. Accurate geographical knowledge, and a knowledge of the animal and vegetable productions of the Polar and Tropical regions, are essential to all, but more especially to the young, as by this means they may be aroused to a further study of nature.

JOHN MACOUN, M.A.,
Principal Union School, Belleville.

Bowmanville, June 5, 1874.

J. W. Lyon, Sir:

Having looked through the "Polar and Tropical Worlds," and carefully examined a few chapters, I have no hesitation in recommending it as a very valuable work. It contains a mine of information upon the subjects treated of, and while it will be instructive to all, it will be especially useful to Teachers.

JOHN J. TILLEY,
Inspector of Schools, Durham Co.

POLAR AND TROPICAL WORLDS DELIVERY.

Mr. Bolton, agent for the "Polar and Tropical Worlds," is delivering his large list of orders in Guelph. Mr. Burns, agent for the Township of Puslineh, is also making his delivery of over 200 copies in that Township. We understand that the work is giving good satisfaction, which is surely something new for a subscription book. The publisher informs us that over 6,000 orders have been taken in Ontario since the first of March and only a small part of the Province has yet been canvassed. It is a book that deserves the patronage of the public.—*Guelph Mercury, July 9.*

NEWSPAPERS IN AMERICA.

A striking proof of the varied nationalities settled in America is afforded by the list of newspapers published there in other languages than the English. There are French, German, Scandinavian, Spanish, Dutch, Italian, Bohemian, Portugese, Polish, Welsh, and Cherokee newspapers. According to the new volume of the "American Newspaper Directory," German journals are far the most numerous. There is only one Portuguese newspaper, the *Novo Mundo* of New York. Illinois and Missouri have each a newspaper in Polish. The Welsh of New York and Philadelphia have four, and the Indians of the Indian territory one, printed in Cherokee. The extent to which newspaper reading prevails in the United States, may be learn from the fact there are at present 7,784 newspapers published in the United States, the Dominion of canada and Newfoundland, of which 7,339 belong to the Republic, while only 445 are printed in the British possessions. The United States therefore, have 5,649 newspapers more than the United Kingdom 1,690 only appear. New York, as might be expected, stands first among its States in the number of its publications. It issues 1,055 of which 98 are daily papers, 681 weekly, 201 monthly. Florida is the only State without a daily paper. Turning to the Dominion of Canada, we find only 49 daily papers, 41 monthlies, and four quarterlies Ontario the Protestant province, has 255 papers, while Quebec, essentially Roman Catholic, can boast only of 88. In the former, the weekly publications number 212: only 41 are issued in the latter. Considering that Quebec has Montreal, the commercial metropolis, within its limit, we agree with the *New York Times* in finding it difficult to dissociate these differences from "the influence of religion up on the reading habits of the people." Exchange.

A Down East clergyman recently lost two pairs of rubbers wrapped up in a circus poster. He is careful to state that the poster was second-hand.

An unsophisticated person once declined a plate of macaroni soup with the remark that they "could'nt palm off any bilge-pipe-stems on him."

The people of Toulouse must be a hard set. A writer speaking of the city says: "It is a large village, containing 60,000 inhabitants built entirely of brick."

A Lady recently applied to a fire insurance company for a position as agent. When asked what her qualifications were, she touched her unblushing cheek.

A little boy was asked about the story of Joseph, and if he knew what wrong his brethren done in disposing of him, when he replied "I suppose they sold him too cheap."

A Delaware man arrested for murder, proved that on that night and at the hour of the murder he was at home mauling his wife, and this fact saved him. A word to the wise is, and so forth.

An interesting little boy, timid when left alone in a dark room, was overheard recently by his mother to pray in his loneliness, "Oh, Lord, don't let any one hurt me, and I'll go to church next Sunday, and give you some money."

DIED.

ROBINSON—On the 11th instant, in the Township of Smith, Mary Ann Taylor, beloved wife of Mr. Thomas Robinson, in the 42 year of her age.

IRWIN—At Lakefield on the 6th inst. Ellen Irwin, daughter of Mr. John Griffin, aged 13 months.

BROOKE—Ashburnham, on Saturday 8th instant, Lillias Jane, eldest daughter of Mr. John Brooke, aged 16 years.

Miss Brooke was only about two weeks ill, previous to her decease. She had received a severe wetting a few days previously to taking ill. This brought on chills and remittent fever, which soon assumed a Typhoid character, and which resulted in her decease on Saturday last. Taking ill at the time of Small Pox excitement, she was treated some days for that disease before the error was discovered. Every thing was done that could be done for her, but without effect. On her birthday she passed away.

CHANGE IN STYLE OF FIRM.

The subscribers beg to intimate to their customers and the general public, that the Dry Goods business carried on by them in the premises at present occupied by Mr. Hall, on and after 1st August, will be conducted under the name and style of

EDITORIAL ITEMS.

Otonabee

The Agricultural Fall Show of the Township of Otonabee, will be held this year on the 9th of October, at Keene.

Steamer "Whistlewing."

Remember the cheap excursion on the Steamer Whistlewing on Friday next. The boat will leave the wharf at 8 o'clock for Gore's Landing and Harwood: the fare is only 60 cents for round trip.

Removal

Cain & Sloman are removing to Henthorn's block, Hunter street, next door to Dr. Taylor's Drug store. They expect to open out in a few days, when they will be happy to meet all their old customers, and new ones.

Small Pox.

In our next issue we will give a full history of small pox affairs, and of the cause of its spreading so much. Dr. Burnham has been blamed; but a true account of the whole thing will tell a different tale.

Y. M. C. A.

A conversational meeting will be held in the Association rooms this evening, at 8 o'clock, at which there will be readings by members of the Association. The usual prayer meeting will be held on Sunday morning from 9 to 10 a. m., to which all are invited.

Art.

Mr. T. Workman has now on exhibition in the window of Mr. Davidson's Book Store a splendid oil painting of our fellow-citizen, Mr. W. Fairweather. The likeness is very striking, and the coloring rich and beautiful, and the painting is a fine specimen of the work of this young Canadian artist. We also noticed very recently a portrait of Judge Dennistoun, by the same artist, which was in every respect a fine specimen of portraiture. We wish Mr. Workman continued success in his profession.

Personal.

From the *B. A. Presbyterian* of August 7th instant: The Rev. Isaac Campbell, of Toronto, who was recently licensed, has received a unanimous call from the congregation of Killbride in the Presbytery of Hamilton. To a young man this is one of the most inviting charges in the Church, there being but one congregation and one service a day. There is a very handsome brick manse, with grounds and orchard attached, in a fine locality, not far from the Great Western Railway between Toronto and Hamilton.

Manitoba.

Has a Senate. It costs about $7,000 a year, or $1 per head of the whole population of the province. There is a growing desire to abolish it, but the Legislature and Senate refuse to vote the dissolution of that honorable body. The end will come, however, and not long hence. A Senate in Manitoba when the whole population does not equal that of one riding of this county, is more than wise people will tolerate. Of course it will do away with a few honorables, but what of that.

The Lumber Trade.

The prospects of this trade during the approaching winter, and season are dull, to use a common phrase. The supply is now in excess of the demand, and this together with the monetary crisis in the United States aided by high costs of producing the lumber, has forced the lumber merchants to devise means of protecting themselves against heavy losses. At the Ottawa meeting it was agreed to reduce operations this winter at least to *one half* that of last winter, and in this way equalise the supply and demand. This will have a tendency to effect the general trade of those sections where lumbering is carried on extensively, but it will afford a chance to settlers to clear up an additional portion of their lands, and in this way meet their losses from lumber source. If this crisis should produce more carefulness of timber and greater watchfulness of the market & supply, it may do more good in the end than is now anticipated. It is said that the banks are "crowding" at present; reducing operations will reduce necessity for accommodation, and relieve them from this evil.

To the Editor of the Examiner:

SIR,—The *Review*, it appears, is determined to oppose the Huron and Quebec Railroad coming to Peterborough all it possibly can. Now, Sir, should the ratepayers be so short-sighted as to vote the by-law down, the same as they did two years and a half since by being led by the *Review* on the Peterboro' and Haliburton Railroad, they will be the losers not I for I think the County Council will submit a By-law for $150,000, providing the road goes direct from Lindsay to Lakefield through Dummer and Norwood, and by that have the road through the county and no thanks to the town. This route I should prefer myself, as I think Lindsay would give $50,000 extra to have the workshops there, and then there would be 5 miles less road to build than coming from Lindsay to Peterboro; besides we should not lose any of the Peterborough business as we should get it either at Lakefield or at Mud Lake. We are getting pretty well disgusted with the *Review*, and if I have the same battle to fight with it that I had when I was building the Millbrook branch it would be better to try some other route; and if the County Council was to say that they preferred the Lakefield route, I should say pass some By-law to that effect and I will see what can be done at Lindsay. I feel quite independent both of the *Review* and of Peterboro' if it is disposed to be led by Mr. Romaine in Railway matters.

Yours truly,

JOHN FOWLER.

TOWN COUNCIL.

August 10th, 1874.

The Council met pursuant to adjournment. Present, his worship the Mayor, in the chair, and Messrs. Toole, Beal, Rutherford, Dixon, Robertson, Dunne, Paterson, Romaine, Helm, Cahill, and Hamilton.

The Minutes were read and confirmed.

Communications were read from A. Hugel, Esq., acknowledging the receipt of the complaint of the fast speed of the trains, and promising amendment; from E. Moir, Esq., Managing Director of the Auburn Woolen Company, offering terms between the Company and the Town; from Wm. Croft, asking the Council for $200, on account of watering streets—referred to the Finance Committee.

A resolution was received from the Board of School Trustees, asking for $12-314.60 for School purposes for the current year. Referred to the Committee on Finance.

A petition from Mr. W. Tierney and other, asking for a crossing on Charlotte Street was referred to the Street Inspector, with power to act.

A report from the License Inspector on the satisfactory state of the taverns was also read.

A Return of Disbursements since the last meeting was submitted, and received.

A Report from Mr. Rutherford, Chairman of the Fire Committee, was read and received.

Mr. Beal, Chairman of the Finance Committee, submitted the following, which was received and adopted:

REPORT OF FINANCE COMMITTEE.

Your Committee recommend that the following accounts be paid, Jas Stratton's account to 1st July, $33.65; Mason & Bradburn, clothing, $12.65; Mathers & Reid, stationery, $60.27; Robertson & Walsh, printing, $18.80; Jas. Stevenson, lamp post, $10.00; Geo. Stethem streets and bridges, $23.80; John Bertram, streets and bridges, $41.66; E. Romain, stationery, $50.90.

With reference to the account of Jas. Stevenson, for lamp post to replace the one broken on the corner of George and Hunter streets by a team of horses, your Committee would recommend that the Town Clerk be instructed to find out the name of the owner of the team, and take steps to collect the amount from him.

In regard to the claims of James Raven and Patrick Conway, for remuneration for sheep destroyed by dogs, your Committee do not feel competent to decide without consulting the Town Solicitor.

All of which is respectfully submitted.

W. BEAL.

A petition from Dolphus Faucher, asking leave to erect a wooden building on his lot on Brock Street, to be allowed for three months, was laid over.

On motion of Mr Helm, seconded by Mr. Romain, the request of the Secretary of the Mechanics' Institute was granted, and the Treasurer was authorized to issue his cheque for $100, the usual amount.

On motion of Mr. Paterson, seconded by Mr. Denne, Mr. Eli Feli was appointed pound keeper for the west part of the new Town limits.

On motion of Mr. Toole, seconded by Mr. Beal, the communication of E. Moir was referred to a special committee, consisting of Messrs. Romain, Hamilton, Denne, Beal, and the mover, with a request that they will carefully inquire into the matter, and report to the Council at its next meeting.

Mr. Toole, Chairman of the Street and Bridge Committee, submitted a Report, as follows, which was received and adopted:

REPORT OF STREET AND BRIDGE COMMITTEE *To the Mayor and Council of the Town of Peterboro:*

Your Committee beg to recommend the following repairs and improvements as necessary, being chiefly the result of their deliberations on matters referred to them by you

1. As to the petition of William Hamilton asking to have the water course passing his office put into a proper state of repair; and also, that that part of Reid Street between his foundry and Hunter street should be gravelled, we would recommend that the necessary work be done on the water course, provided he find the necessary cedar, and that the street be gravelled from his shop to Brock street; but would recommend the postponement of any expenditure on the bridge except the necessary repairs until next year, as it will then require to be wholly reconstructed.

2. As to the application of Jas. Webb, your Committee have directed that $5 be expended in connection therewith.

3. As to the application of J. Stevenson, asking some allowance for filling up portions of Bethune and Simcoe streets, we would recommend an allowance of one-half the cost of such an amount of stuff as the Street Inspector may deem expedient, allowance not to exceed 12½ cents per yard.

Your Committee also recommend the Corporation to allow Messrs. Chamberlain and Patterson $50 to open a new street extending west from Park street, providing they expend a like sum.

4. Your Committee have had in their possession from an early period in the year, an application from Geo. Hilliard and 165 others, asking the Corporation to take the necessary steps to secure the construction of a bridge across the Otonabee river, near Judge Dennistoun's, and beg to say that they expected the County Council would have co-operated with the Town in the expenditure; but find, on having a conference with them, that they decline to entertain our proposition. Your Committee would recommend, therefore, that the Town make the necessary preparations this coming winter for its construction during the following summer.

5. Your Committee would also recommend the Corporation to supplement such sum of money as Geo. A. Cox, Esq., may feel disposed to expend on Park street, between Brock and Simcoe streets, with an equal sum of money.

All of which is respectfully submitted.

WM. TOOLE,

Chairman of Committee.

Moved by Mr. Cahill, seconded by Mr. Hamilton, that the new side walk granted on Stewart Street be laid down at the expense of the Town, and that the expenditure on the Rink drain be abandoned in lieu thereof. Carried.

Moved by Mr. Romaine, seconded by Mr. Helm, that a sidewalk, 13 feet wide, be made from the Railway Station north to Charlotte Street, on the east side of Bethune Street, and that the Inspector be instructed to proceed with it as soon as possible, as it is now in a dangerous state. Carried.

Moved by Mr. Denne, seconded by Mr. Romain, that the Clerk be allowed two weeks leave of absence for the good of his health. Carried.

Moved by Mr. Romain, seconded by Mr. Paterson, that unless Mr. Fowler or those acting on behalf of the Huron & Quebec Railway, deposit with the Town Treasurer before Wednesday next at noon the sum of seventy-five dollars, in accordance with the fifth section of the Act incorporating the Company, the Clerk shall forthwith issue hand bills notifying the ratepayers that no such bill be taken on the By-law here before them, granting a bonus to the said Company; and also notify the Deputy Returning Officers that their services will not be required on Friday next. Carried.

Moved by Mr. Paterson, seconded by Mr. Romain, that owing to Mr. Bradburn being about to excavate for the Town Hall, which occupies a large amount of room on the Market Square, be it therefore resolved that the Street and Bridge Committee and the Inspector make the necessary platforms and accomodations for those using the Market Carried.

Moved by Mr. Toole, seconded by Mr. Beal, that Mr. Bradburn be allowed 15 cents a yard for any gravel the excavating of the new Town Hall he may deliver on Water and Charlotte streets adjoining the Market Square, under the supervision of the Street and Bridge Committee. Carried.

The Council adjourned for one week.

DUMMER COUNCIL.

April 25th, 1874.

Council met at Warsaw. Present:—D. G. Choate, Esq., Reeve, and Messrs. Smith and Wigmore; absent, Messrs. Kidd and Ritchie. Minutes of last meeting read and confirmed. Petition received from W. Leeson and 24 others,—Asking Council to divide S. S. No. 5, and Kidd, and Clerk instructed to notify Trustees of said Section. Thos. Hanbidge presented his claim for compensation for land taken as a road in 1857. The Bylaws legalizing said road was produced, and Mr. Hanbidge admitted the receipt of $5 for the land at the time; the council took no action. Clerk instructed to procure some needed blanks and stationery. The Trustees of School Section No. 4, Dummer, petitioned Council to pass a By-law to enable them to borrow $700: the Council passed a By-law in accordance with said petition. On motion of Mr. Smith, seconded by Mr. Wigmore, Geo. A. Payne and John Crow were authorized to employ a surveyor to lay out a road on north part of east half of lot 24, and to connect with road allowance between west half of lots 25 and 26 in 2nd con. Order on Treasurer: James Lynn, $1.-75; Robert McLennan (a blind man) $10. By-law passed for payment of money. Court of Revision to meet at Old Town Hall, May 9th,-1874. Council to meet at Warsaw, May 30th, 1874.

MAY 9th, 1874.

Court of Revision was not held on account of recent change in Assessment Act, and Clerk instructed to advertise for Court of Revision to meet at Warsaw, May 30th, 1874.

MAY 30th, 1874.

Court of Revision met at Warsaw, at 10 a. m. All the members present. J. J. McMillan appealed on real and personal property; and Geo. Payne, senr., on having no access to school. On motion of Mr. Smith, seconded by Mr. Kidd,—Jas. F. McMillan's real property was reduced $40. On motion of Mr. Smith, seconded by Mr. Wigmore,—The Roll was confirmed in the case of Mr. Payne. Clerk instructed to fill up road lists in accordance with Section 89 of Assessment; and to put personal property on the lots on which each resident resides or has a place of business. After a few minor charges at the request of parties, it was moved by Mr. Kidd, seconded by Mr. Smith,—That the Assessment Roll as now revised be passed by this Council, and certified to by the Clerk; and that the Court of Revision be now closed for the present year.—Carried. Council organized. Minutes of last meeting read and signed. The following applications for money to open roads:—Nelson Emery and others, for 7th Con line and side road between 12 and 13; David and John Drain, for 8th Con. line; Francis Newell, for road on lot 24, Con. 5; James Robb, for road across 9th Con. Richard Wilson and William Smith were added to the list of Pathmasters, and Geo. Preston appointed Fence-viewer in place of Warren Taylor, who refused to act. On petition of Chas. C. Rusaw and others,—W. Leeson and S. Rosebrok were empowered to procure the services of a surveyor to have a road laid out across lots 14 or 15 in the 8th Con., and have report and diagram ready for next meeting. *Report of survey of a road in 2nd Con*, by Mr. Bird, authorized April 25th last, handed in by Geo. A. Payne, and Clerk instructed to give the legal notice that it is the intention of Council, on the 22nd August next, to pass a By-law to establish road. Orders granted:—James Wason, as Assessor $60: John Elliot, $1.50; Jas. Lynn, $2; R. Romaine, blanks, $3,07. By-law to provide for payment of money read and passed. Council adjourned to the 32nd of August next, to meet at Old Town Hall.

October 4, 1873 49-ly

BY-LAW No,

A BY-LAW to aid and assist the Huron and Quebec Railway Company by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the Town of Peterborough, and to authorize the issuing of such Debentures and the levying of such a rate as will be sufficient to pay the principal and interest of such Debentures.

Whereas the Municipality of the Town of Peterborough is desirous of aiding and assisting the Huron and Quebec Railway Company in the construction of their proposed Railway, by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the said Municipality payable in the manner and at the rate of six per cent per annum and redeemable as hereinafter mentioned.

And Whereas by an Act of the Legislative Assembly of the Province of Ontario, passed in the thirty-seventh year of the reign of Her Majesty, entitled "An Act to incorporate the Huron and Quebec Railway Company," it is enacted that any Municipal Corporation which may be interested in securing the construction of the said Railway or through any part of which, or near which, the Railway or works of the said Company shall pass or be situated, may aid the said Company by giving money or Debentures by way of Bonus, Gift, or Loan.

And whereas, a Petition duly signed by more than twenty resident freeholders being duly qualified voters of the said Municipality, has been presented to the Council of the said Municipality expressing the desire to aid the said Railway to the extent of One Hundred Thousand Dollars aforesaid as by the said Act is provided.

And whereas, by an Act of the Parliament of the late Province of Canada passed in the twenty-fourth year of the reign of Her Majesty Queen Victoria, An Act to consolidate the debt of the Town of Peterborough and for the issue of Debentures on the security of the Town Property and for other purposes is enacted that certain property of the said Municipality consisting of the Town Hall, the Market Block, and the land South of Townsend Street and East of Park Street is, and the same thereby became vested in the Commissioners therein named and their successors to be called "The Commissioners of the Peterborough Town Trust," and that it should be lawful for the Mayor and Town Council of the said Town of Peterborough for the time being to cause to be issued Debentures under the Seal of the said Corporation to be signed by the Mayor countersigned by the Treasurer of the said Town and by the Secretary of the said Commissioners and to the amount and for the purposes and in the manner in the said recited Act designated and that it should be lawful for the said Commissioners to issue New Debentures if required from time to time upon which to raise funds to retire outstanding Debentures and that the Town Council of the said Municipality should annually upon the application of the said Commissioners raise upon and from the rateable property of the said Town of Peterborough the interest and Sinking Fund requisite for the liquidation or redemption of the said Debentures according to the said lastly recited Act.

THE Municipality of the Town of Peterborough by the Council thereof therefore enacts as follows:

1. That it shall and may be lawful for the Municipality of the Town of Peterborough to aid and assist the Huron and Quebec Railway Company in the construction of their proposed Railway by granting by way of Bonus to the said Company Debentures of the said Municipality to the amount of One Hundred Thousand Dollars as herein provided.

2. That for the purposes aforesaid it shall and may be lawful for the Mayor and Town Council to cause to be issued Debentures of the said Municipality under the seal thereof to be signed by the Mayor and countersigned by the Treasurer of the said Town and the Secretary of the said Commissioners to the said amount of One Hundred Thousand Dollars to be payable at the office of the Treasurer of the said Town at the times following that is to say: Debentures to the amount of Twenty Thousand Dollars at the end of ten years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of fourteen years from the issue thereof. Debentures to be to the amount of Twenty Thousand Dollars at the end of Sixteen years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of Eighteen years from the issue thereof and Debentures to the amount of Twenty Thousand Dollars at the end of Twenty years from the issue thereof. The said Debentures to be for the sum of One Thousand Dollars each and to bear interest at the rate of six per cent per annum payable half yearly and to be issued and the interest and the sinking fund for the redemption thereof to be provided for in the manner and subject to the provisions of the herein before recited Act consolidating the debt of the Town of Peterborough.

3 That the said Debentures shall be issued on and bear date as of the first day of July One Thousand Eight Hundred and Seventy-five and the interest thereon at the rate aforesaid to be computed from the day of the date thereof and payable on the first days of the months of January and of July in each year at the office of the Treasurer of the said Town of Peterborough.

4. That this By-law shall cease to be of any effect and no Debenture or Debentures shall be issued thereunder until the said Company and the Ontario and Quebec Railway Company shall have amalgamated or until the said the Huron and Quebec Railway Company shall have obtained control of the said Quebec and Ontario Railway Charter or until the said Huron and Quebec Railway Company shall have entered into a good sufficient and binding contract with the said Ontario and Quebec Railway Company securing running power over the said Ontario and Quebec Railway with such stipulations and additions as will enable the said Huron and Quebec Railway Company to carry out the stipulations and provisions of this By-law and until the said Huron and Quebec Railway Company shall have executed and delivered to the Municipality of the Town of Peterborough their sufficient Bond to be approved by the Town Council of the said Town and in such a penalty as the said Town Council may seem meet conditioned for the maintainance in the Town of Peterborough of the Chief Workshops in connection with the maintainance of the said Road for the entire of the said Railway between Ottawa and Toronto and to have and keep constantly employed therein not less than One Hundred Men within Three years from the commencement of the operation of the said Road and conditioned also that the charges for freight upon the said Railway between the City of Montreal and the Town of Peterborough shall not any time exceed the charges for freight then on between the City of Montreal and the City of Toronto or any point westerly of the City of Toronto and shall not exceed at any time the charge for freight on the Grand Trunk Railway between the City of Montreal and the Town of Cobourg or any point west of that and that the charges for freight between the Town of Peterborough and the City of Toronto shall not exceed at any time the charges for freight on the Grand Trunk Railway between the Town of Cobourg and the City of Toronto.

5. That the said Debentures shall be handed over to the Trustees to be appointed under the first recited Act respecting and upon and at the times and conditions following that is to say: Debentures to the amount of Twenty-five Thousand Dollars when and so soon as the grading shall have been completed on one half of that portion of the Line of the proposed Railway (such Line to be the most direct route between the Town of Peterborough and the City of Ottawa) between the Town of Peterborough and the Eastern boundary of the County of Peterborough, to the further sum of Twenty-five Thousand Dollars when the whole of such portion of the said proposed Railway shall have been completely graded and to the further amount of Fifty Thousand Dollars when and so soon as the said Road shall have been completed and in running order from the City of Ottawa to the City of Toronto.

Provided the same shall be so completed and in running order in three years from the First day of July One Thousand Eight Hundred and Seventy Four.

6. That interest shall not be computed on or payable by the said Town or such debentures until they shall have been handed over as aforesaid but shall commence to bear interest at the time or times at which they shall be so handed over.

7. This By-law shall be of no force or effect and no debentures shall be issued thereunder unless the construction of the said proposed railway as to that part thereof within the County of Peterborough shall have been actually and *Bona Fide* commenced on or before the first day of July One Thousand Eight Hundred and Seventy Five, and thereupon continuously prosecuted.

8. That this By-law shall be of no force or effect and no Debenture or Debentures shall be issued thereunder unless before the day hereinbefore appointed for the issuing of said Debentures, the Municipality of the County of Peterborough shall have duly passed and confirmed a By-law granting aid by way of Bonus to the said Company for the construction of the said Railway to the amount of One Hundred and Fifty Thousand Dollars.

9. Provided that this By-law shall be of no force or effect and no Debenture or Debentures shall be thereunder issued until the same shall have been approved and made valid as all and singular the provisions and stipulations therein by an act of the Legislature of Ontario notwithstanding the provisions of the Act incorporating the said Railway Company.

10. That the votes of the Electors of the said Municipality shall be taken on this By-law on the

Fourteenth day of August next

at the polling places in each of the Four Wards of the said Town respectively appointed for the holding of the Municipal Elections in January last, That the polling places shall be open at the hour of nine o'clock in the morning and close at the hour of five o'clock of the afternoon of the same day That Joseph Leonly shall be Returning Officer for Ward No. 1 That James Edwards shall be Returning Officer for Ward No. 2 That John Irwin shall be Returning Officer for Ward No. 3 and that William Lee shall be Returning Officer for Ward No. 4 for the taking of such votes.

NOTICE.

The above is a true copy of the proposed By-law which will be taken into consideration by the Council after one month from the first Publication in the *Examiner Newspaper* of this said publication is

The 23rd day of July Instant

And that at the hour day in the said Notice fixed for taking the votes of the Electors, the Polls will be held.

J. EDWARDS,
Town Clerk.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times Its Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six or some of the best Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. When ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcbol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, PERLEE, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electriged.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 4½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious choic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

For Internal and External use.

Warranted the only Sure and Perfect Cure for all kinds of Piles, Scrofula, Tetter, or Ringworm Salt Rheum, and all diseases of the skin.

One Bottle warranted to cure all cases of Piles. From 1 to 3 Bottles in cases of Humors.

This remedy has been used in some of the worst forms of Scrofula, Salt Rheum and Diseases of the Skin, with entire success. Many cases have been cured by an outward application or'y. Hundreds of letters and certificates are now in the proprietor's possession, which can be seen on application.

N. B.—The medicine is entirely vegetable it its composition.

In all cases of failure, dealers are requested to refund the money. Buy of none who do not warrant it, as all dealers receive back their money from the proprietor.

Price $1 per Bottle; Six Bottles, $5.

PERRY DAVIS & SON, General Agents Montreal.

PROSTATION, resulting from the effects of the listless heat of the summer months, is the imposing cause of so many of the diseases peculiar to hot weather. The stomach partaking of the loss of vitality pervading the whole system, is unable to complete digestion the food passing undissolved through the bowels, irritates the lining membrane, and Diarrhœa, Dysentery, Cholera Morbus, and when prevailing Asiatic Cholera, may be excited. Attention to diet, moderate exercise, bathing, and regular habits must be observed. To maintain the vital forces and prevent lassitude and exhaustion. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is unquestionably reliable, as it invigorates the digestive organs, and supplies material for generating nerve force.

Choice Poetry.

ODE TO RUM.

BY WILLIAM E. BURTON.

This ingenious parody was originally published in 1835, and has been translated into many languages. The author is still living at Cincinnati, Ohio.

"Oh thou invisible spirit of wine! if thou hast no name to be known by, let us call thee—Devil."—Shakespeare.

Hail thy direful cursed form,
Hail thy wondrous vicious arm;
Hail the worst of human Fiends that be,
O, thou hydra monster—Rum.

Pimple maker, visage blaster,
Health corrupter, idiot's taste,
Mischief breeder, vice promoter,
Credit spotter, cheek's bolt.

Almshouse builder, pauper-maker,
Trust betrayer, sorrow's source;
Foulest stupifying Sabbath breaker,
Conscience stifler, guilt's resource.

Nerve enfeebler, system shatterer,
Talent lessener, vagrant thief;
Cough promoter, tremblerum fosterer,
Mad bedauber, mock relief.

Business hinderer, spleen installer,
Woe-begetter, friendship's bane;
Anger breeder, bridewell filler,
Debt inveigler, taper's chain.

Memory drowner, honor wrecker,
Judgement warper, blue blood quench;
Feud hog cooler, rage bot'cher,
Birth enfeebler, fortune's wreck.

Summer's cooler, winter's warmer,
Blood pellicler, apetites mars;
Mob collector, man transformer,
Bond undoer, gambler's face.

Speech lets angler, headlong bringer,
Vitals burner, deadly fire;
Riot mover, firebrand flinger,
Discord kindler, misery's sire.

Slavers robbing, wrath depriver,
Strength subduer, hideous foe;
Reason thwarter, fraud contriver,
Money master, ruinous woe.

Vile seducer, joy dispeller,
Peace disturber, blackguard's guest;
Sloth implanter, liver swoller,
Brain distracter, hateful pest.

Utterances boggler, stench emitter,
Shving man spitwriter, fatal drop;
Turmoil raiser, venom spitter,
Wrath inspirer, coward's prop.

Paid inflicter, eyes inflamer,
Heart corrupter, folly's nurse;
Starch belcher, body steamer,
Thrift defeater, impftoome curse.

Wit destroyer, joy impairer,
Scandal dealer, full-mouthed source;
Senses blunter, youth cemeterer,
Crime inventor, ruin's verge.

Virtue blaster, fame deceiver,
Spite displayer, sot's delight;
Noise exciter, stomach belcher,
Falsehood spreader, scorpion's bite.

Quarrel plotter, rage discharger,
Giant conqueror, wasteful sway;
Wife carbonader, tongue enlarger,
Hatred venter, death's broad way.

Tempest scatterer, window smasher,
Death's forerunner, hell's dire brink;
Ravenous murderer, windpipe slasher,
Drunkard's lodging, meat and drink.

THE GAS QUESTION.

To the Editor of the Witness.

SIR,—The question of gas supply is one that has long agitated the consumers of Montreal; but as it is hopeless to expect reform at the Works so long as the monopoly possessed by the Gas Company yields such good fat dividends, I venture to throw together a few hints to consumers, which, if acted upon, will enable them to use the gas supplied, such as it is, to the greatest possible advantage, and in the most economical manner.

I shall not attempt to show how the gas could be improved, either in quantity or quality, nor criticise its present or past management, knowing for the reason stated before, that at present improvement is hopeless; yet I cannot help observing, *en passant*, that consumers in Montreal pay more and receive a poorer article, than almost any city in America not farther removed from the coal supply.

I quote the price of gas per thousand feet in several cities in the American Union, as well as in the Dominion, the former being in greenbacks and the latter in gold:—

UNITED STATES.		CANADA.	
Albany	$2.50	Toronto	$2.50
Boston	2.50	Montreal	2.50
Cleveland	2.50	Quebec	2.80
Manchester	2.70	Hamilton	3.00
Baltimore	2.75	London	3.00
Lowell	2.75	Kingston	3.50
New York	2.75		
Harlem	3.00		
New Orleans	3.00		
Concord	3.20		
St. Louis	3.25		
Syracuse	3.25		
Troy	3.25		
Chicago	3.37½		
Oswego	3.50		
Rochester	3.50		
Washington	3.50		

From this it will be seen that when reduced to a gold basis, and the difference in the value of labor taken into consideration, the cost of gas in the first-named thirteen or fourteen cities is less than in Montreal; and in the first-named three or four it is actually less in greenbacks than in this city in gold.

But to my object. Some portion of the blame lies at the doors of consumers themselves, from the almost childish ignorance of the majority in the use and management of gas; and it is in hopes of throwing a little light on this matter that I address myself to them through your columns.

The most common complaints made by gas consumers may be reduced to the following heads, viz:—

Meters register more gas than actually consumed.

Errors, either intentional or otherwise, are made by the inspector.

Quality of gas poor.

In some localities the pressure is too great; in others insufficient.

I will concede that a meter will occasionally be found to register more gas than actually consumed; but the wonder is that they are so accurate, and if error exists at all, it will be found oftener in favor of the consumer than against him. That meter inspectors sometimes make mistakes in their reports is also true, but very much more rarely than is generally believed.

Instances have come under my own observation where the consumption has been guessed at. In an American city I have known a residence closed up for two months whilst its owner was in Europe, yet the gas bill was about the same as usual. In Canada, a consumer, in presence of witnesses, had the gas cut off immediately on the departure of the meter inspector; yet the next quarter of the bill came in for about the usual quantity. In my experience, however, these instances have been wonderfully rare, considering the opportunity afforded by the ignorance of the consumer.

As to the pressure, it is very difficult in a city like Montreal, where the difference in elevation is so great, to equalize it; yet it is possible to a certain extent.

I should wish now to have the attention of consumers for a few minutes.

There is no part of gas apparatus of more importance, in giving good results than the burner; and there is hardly any point on which it is more difficult to convince the consumer,

Improperly constructed burners reduce the light to an almost incredible extent, and this diminution, in proportion to the gas consumed, is increased by improper regulation of the pressure.

A burner to give the best results must have the orifices from whence the gas issues perfectly regular; and I have no hesitation in stating that a large number of consumers pay almost twice as much through inattention to these particulars.

And here let me call special attention to the fact that small burners give less than half the light, in proportion to gas used, than large burners. In reality, the larger sizes of burners consuming 6 and 7 feet of gas per hour, give from 200 to 300 per cent. more light, as compared with the smallest sizes.

For instance, a bat's wing burner consuming 2 feet of gas per hour, gives the light only of 2½ candles, while a 7½ feet burner gives the light of 22 candles, the pressure being uniformly 4-10 inch of water.

Thus a consumer having eight 2 feet burners, using 16 feet of gas per hour, would hardly have as much light as with the large burner using but 7½ feet per hour.

Americans, with their usual keen perception, are not slow in availing themselves of this fact, and, accordingly, one rarely sees in use there burners consuming less than 4 feet per hour, but more frequently 5 and even 6 feet ones, and those only of the very best kinds

Argand burners give the best results, but even in these is a great difference.

A long series of experiments was made to test the qualities of various burners, and reported to the London Board of Trade. All the burners used consumed 5 feet per hour, and care was taken to have the pressure invariably the same in each test.

Sugg's Argand Burner No. 1 was taken as 100, and in comparison with all the ordinary burners ranged from 73 to 19. Just note the difference in light given between the best and the worst; each consuming the same quantity of gas, and the best yielding more than five times more light than the other.

Another important fact demands attention. A burner gives the best result when the flame reached as high as possible from the burner without undue pressure to produce unsteadiness; about five inches in the large burners being the most effective.

There is a particular point in the consumption of any class of burner, where the *maximum* of light is derived and any deviation from this entails loss.

As an example, if an argand burner consumes five feet of gas per hour, giving the light of twelve candles, be reduced so that only three fourths of that quantity is burned, then the light, instead of being equal to nine candles, the theorical proportion will be that of six candles only, being a positive loss of 33 per cent. If the reduction be continued, the proportionate loss is even greater.

The loss of light in proportion to the gas burned will be almost as large if too much presure is allowed, and the flame thereby rendered unsteady.

In my next I will show the effects of globes, glasses, &c., in reducing the value of artificial light and give a plain description of the dials on the meter with simple rules for their use.

M.

Taking Care of Fruit Trees.

An eminent farmer says: I had a very pretty plum tree in my yard last summer. It had but a few plums on it. It looked healthy, but the fruit fell off until only seven very imperfect plums remained. That fall I dug about the tree, cut away the grass, and spread coal ashes from the grates and stoves around it, for two or three feet, and trampled the ashes down. The following spring the tree leaved out nicely, was full of plums, and nearly all remained on until ripe—so full were the branches that I had to tie them up to support the weight. The fruit was quite perfect in size and shape, and I am sure the manner of treatment was the cause of the improvement. I think many fruit trees could be thus improved both in the quality and quantity of fruit they would produce.

AN IRISHMAN'S REPORT.—A gentleman dressed in the height of fashion, and who had arrived from the north at the great Northern terminus at King's cross rushed up to the luggage van, and in a peremptory manner demanded that his luggage should be given in preference to that of all other passengers. His manner was somewhat offensive, and when informed by a plainly clad but humorous looking son of the Emerald Isle that he must have patience and wait his turn, he turned upon his adviser with, 'Sir, you're an ass!' The honest Irishman gazed at him an instant, and then replied 'And you, sir, are an ape; and what a pity it is that when we two were made bastes that ye wasn't made an illefant, so that ye could have yer trunk under yer nose all the time.'

A French officer, who fought in the Crimea, related to me how an English battalion of infantry destroyed two Russian regiments: the Russians fired incessantly, and did not lose a foot of ground; but they were excited, and aimed badly. On the countrary, the English infantry avoided undue haste, took steady aim, and missed scarcely a single shot. The human being is ten times stronger when his pulse continues calm, and when judgment remains free.

A few years ago a hungry crowd sat down at the well spread supper table of a Sound steamer upon which one of the dishes contained a trout of moderate size. A serious looking individual drew this dish toward him, saying, apologetically "This is a fast day with me." His next neighbour, an Irish gentleman, immediately inserted his fork into the dish and transferred it to his own plate, remarking, "Sir, do you suppose nobody has a sowl to be saved but yourself?"

A Hartford man keeps a spade close by his kitchen door, and whenever a tramp comes along he is requested to earn it by digging four feet square in the garden, but the tramp invariably refuses to pay this price.

A good way to restore a man apparently drowned, is to first dry him thoroughly, inside and out' and then clap a speaking trumpet to his ear and inform him that his mother-in-law is dead.

"I hope this hand is not counterfeit, my dear," said a lover who was toying with his sweetheart's fingers. "The best way to find out is to ring it," was the neat reply.

"Five children at a birth! Good Heavens!" exclaimed the father, on viewing this addition to his family; "and business so dull!"

The feet that are covered with bunions may not be stylish, but they are certainly nobby.

Why do old maids wear mittens? To keep off the chaps.

The only Reliable Gift Distribution in the Country!

$50,000 00 in Valuable Gifts.

To be Distributed in

L. D. SINE'S

168th Regular Monthly

GIFT ENTERPRISE!

Johnson's Force Pump and Fire Extinguisher.

For cheapness, durability, ease of working, and general efficiency, the above little article cannot be surpassed, it can be used as a FORCIBLE FIRE &c., EXTINGUISHER, a splendid article for washing Carriages or Windows or by changing the nozzle it can be used by a Lady or a Child to water a flower bed in the gentlest and most beautiful manner. Only a bucket or tub of water required. No chemicals used. It is claimed for this Extinguisher that the stream of water thrown from it appears to be fully as effectual in the results as the acid thrown from a Babcock Extinguisher. Every house should have one. The beginning of a fire frequently occurs in such a place that it cannot be reached by water thrown from a pail or dipper, this Pump will throw a fair stream of water 45 ft. horizontally, or will drench a wall to the height of 35 ft.

ROBERT A. BROWN, Agent.

Office in rear of Mathias & Reid's Book Store, George Street, Peterborough, where this article can be seen and inspected. These machines can be seen at the stores of Thomas Lamain and Henry Best.

PRICE $9.00.

July 23rd, 1874. 30-tf.

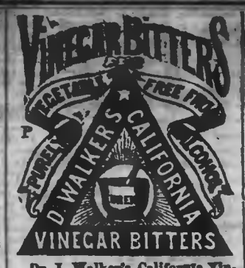
Successors to T. Donnelly & Co.

July 8 1874. 50-tf.



Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Scurfs, &c. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

tf W. P. CHASE.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE $1.00.

NORTHROP & LYMAN,

Toronto,

General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so thoroughly upon the confidence of mankind, as the extraordinary remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their consideration, as it has become better known. Its choice ingredients and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for hadpiest consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Hoarse and Pubby Speakers find great promotion from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed for the whole class of diseases which arise from malarious, miasmatic, or unwholesome

[illegible] Cure, and does not [illegible] Containing neither [illegible] Arsenic, Quinine, Mineral, [illegible] Poisonous substance [illegible] any patient. The [illegible] of the virtues in the agent [illegible] the public [illegible] of Ague [illegible] Fever [illegible] Chill [illegible] Fever [illegible] Bilious [illegible] Fever [illegible] Dumb [illegible]

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our patents are furnished with the system—sole by ourselves.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might here be given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAVLOR, M. D.

Select Poetry.

THE OLD MAN'S SOLILOQUY.

It wasn't so when I was young,—
We used plain language then;
We didn't speak of "them gallivants,"
Worn mere'n boys or men.

Worn spunkin' of the nice hand-work
Of Joe, or Tom, or Bill,
We did it plain—we didn't say,
"He slit 'em a nasty quill."

An' when we met a girl we liked,
Who never failed to please,
We called her pretty, neat an' good,
But not "about the cassos."

Well, when we met a good old friend,
We hadn't lately seen,
We greeted him, but didn't say,
"Hello, you old sardine."

The boys sometimes got mad and "fit;"
We spoke of it like as' blows;
But now they "knock him on the snoot,"
Or "paste him on the nose."

Once, when a youth was true and gay
By her he held most dear,
He walked upon his feet—but now
He "runs" a-off on his ear."

We used to dance, when I was young
An' used to call it so;
But now they don't—they only "sling
The light, fantastic toe."

Of death we spoke in long sage plain,
That no one did put plain;
But in these days one doesn't die—
He "passes in his checks."

We praised the men of common sense;
"He's judgement's good," we said;
But now they say, "Well, that old plum
Has got a level head."

It's mother and the children now
Are lost in all rich silk;
They've learnt to "rain" instead of chat,
An' "swabs" instead of walk.

To little Hannah, yesterday—
My grandchild, aged two—
I said, "You love grandpa?" Said he,
"You bet your boots I do!"

The children bowed to strangers once;
It is no longer so—
The little girls, as well as boys,
Now greet you with "Hello!"

Oh, give me back the good old days,
When both the old and young
Conversed in plain, old-fashioned words,
And slang was never "slung!"

HISTORICAS SKETCH.

THE MOSLEMS IN EUROPE.

It was a momentous issue that was decided on the last day of that seven day's battle between the Saracenic host and the army of European Christians under Charles the Hammer—so called from the way in which he smote the enemy on this occasion—which was fought on the banks of the Loire, at the spot where now stands the city of Tours, on October 10, a. d. 732.

The question at issue really was whether or not the dominion of the Saracens, who had already conquered so far and so thoroughly, should be extended to northern and western Europe, and whether Christianity should be subverted by the religion of Mahomet, whose intolerant disciples and zealous proselytizers the Arabian Saracens were. To the cries of "Death or the Koran!" "There is but one God, and Mahomet is the prophet of God!" cries which were the knell of hundreds of thousands of Christians—the Saracens burst from their desert home in Arabia, and swept in one strong tide of conquest through northern Africa, western Asia, and eastern Europe, till they paused on the Morocco shores of the Mediterranean Sea. They looked northward; they were full of energy and restlessness, and they thought to gratify their ambition and to spread the religion of their prophet by further conquests on the Continent of Europe. While in this frame of mind a renegade Christian knight, Count Julian, displeased with the treatment he had received from his master, the Gothic King of Spain, invited the strangers to invade his master's kingdom. Under the conduct of Tarik—whose name is preserved in that of the rock of Gibraltar, called by the Saracens Gibel-al-Tarik — a resolute band crossed the straits, landed in Spain, and, assisted by reinforcements of their countrymen, conquered the country, and reduced the Christians to a condition of dependence, if not of slavery. As soon as they had settled their new gain into something like order, they looked around for fresh conquests, and marching across the Pyrenees, pushed on as far as the Loire, overcoming the very slight resistance that was opposed to them. Their plan included the conquest of France, Italy, and Germany, the seizure and dismemberment of the Greek empire being reserved as a sort of *bonne-bouche* for the last. The effect of this would have been, in all human probability, to drive Christianity into the cold regions of the extreme north, where the remnants left of the European nations would have found a home, secure by virtue of its climate, from the attacks of the cold-dreading sons of Arabia. There seems, however, to be a rule of nature that the south shall not prevail over the north, but contrariwise, that in the long run the north shall be master. So it proved at the battle of Tours in 732. Though the accounts we have of the battle, and of the circumstances attendant upon it, are chiefly from Christian writers, whose record bears upon the face of it strong marks of exaggeration, especially in point of numbers, the Saracen host being computed at nearly half a million of men, we may yet gather that the contending hosts were vast, considering the populations which furnished them, and also we may believe that the Christians were in the minority. For seven days the fight lasted; scarcely was night allowed to break the continuance of the fray; the cross and the crescent struggled for the mastery, and the iron-clad warriors of the Church struck hard and thrust deep against the lighter-armed Moslems whose skill and bravery had brought so many nationalities to their feet. May we not join with the valiant and pious men who, having fought and conquered with Charles the Hammer, ascribed the victory, not to the strength of their own arms of flesh, but to the mercy of the Lord, who fought on His people's side!

Some accounts have it that 300,000 of the Saracens were slain, an almost incredible statement, when we consider that all the fighting men of the Saracens were not present at the battle, and that the Christians were not all destroyed. But however that may be, the battle was a most bloody one, and the Saracens were completely defeated. Abdalrahman, their leader, was slain, and his army fled in confusion to their camp, which was pillaged by the victorious Christians during the night. Next day the Saracens were not to be seen, and they never again attempted to penetrate into the heart of Europe.

Their decline in power, this splitting up of the unity of the empire, were the salvation for a while of the Greek empire. They were the causes, too, coupled with the establishment of the Christian kingdoms of Leon, Castile, the Asturias, and Navarre, and the continuous bearing down from the north upon the south of the large nationalities of the German and Sclavonic families, why the Saracenic wave of conquest did not sweep northwards after it was first stemmed by Charles the Hammer at Tours.

There was another and more deadly cause for the break-up of the Saracenic power, at least in the East. In the wars which the Khaliphs waged from time to time upon the barbarious people who dwelt on their north-eastern frontier, there had been captured many stalwart men, of large frame and sturdy constitution, who were allowed their freedom from labor and from the other incidents of conquest on condition of entering the military service of their captors. These men were from Turkestan, Tartars of the roughest, strongest kind. They accepted the conditions, and they formed the household troops of the Kaliph about the time when the energetic brethren of their master were establishing themselves in their newly-gained Spanish possessions.

Reinforced by large additions from Tartary, the Turks, when the last of the real Khaliphs died—at which time the Turkish soldiers seized for themselves the provinces immediately surrounding Bagdad—took some time to consolidate their power. They borrowed from the Saracens most of what was valuable in their system, adopted their religion and they imported from home certain hardy principles and practices which gave solidity and robustness to the state. Now and again they had to endure the attack of some unusually energetic Greek emperor, who led his armies from Constantinople for the purpose of winning back some of the lost ground that had been wrested from feeble governors. But not unfrequently they gained the advantage in this strife, and whether they did or not, they noted down the aggression as a thing to be paid back with interest some day. That day came when Constantinople fell before their assault; but that event did not happen for more than three centuries after the Turks had become a power in the world.

The separate kingdoms of Saracenic foundation remained in *statu quo* for long periods of years, excepting that the Sultan of Egypt assumed the lead among them, and, as it fell to pieces, absorbed such provinces of the Bagdad empire as the negligence or the impotence of the Turks suffered to drift away. It was with the Sultans of Egypt, most famous of whom was Saladin, that the Crusaders had to reckon when they endeavored to recover the Holy Land. Syria had fallen to Egypt and the Sultans of Egypt protected it, succeeding, ere they in due time fell before the westward march of the Turks, in driving the Christians out of the whole of Palestine, and in rendering barren of results all the work of the Crusades.

The kingdoms of Tunis, Tripoli, and Morocco remain to this day, though in them also the dominion has departed from the grasp of pure Arabian or Saracen hands to that of strong strangers. In Spain the Saracenic, or, as it was called from its identity of interest and from its origin, the Moorish kingdom, long remained in spite of the strenuous efforts of the Christian princes of the north to destroy it. Not until several of the small Christian states had been rolled into one, and made one in interest, one in political purpose, one as a nation, was an impression made on the kingdom of Granada, and even then the impression was, so to speak, a slight one. From indolence, incapacity, from whatever cause, the Christian princes who strove from the year 1100 downwards, with some prospect of ultimate success, to oust the Moors, proved unequal to the task. It was reserved for Ferdinand the Catholic, whose marriage with Isabella of Castile had welded into one the Christian power in Spain, to overthrow without hope of restoration the throne of the Moslem in Cordova. Many strong towns had been gradually won, the bulwarks of the kingdom had been sapped since many years, but on the 2nd of January, 1492, the Spanish king had the satisfaction of receiving

Somebody gives the following account of the unfortunate [illegible] portrait of the Prince of [illegible]: "Charles [illegible] sought to be healed of the wounds which "so bloody did yawn upon its face." Charlemagne, grandson to the Hammer, recovered from the Saracens a large portion of even their Spanish territory, and established a military colony in the acquired districts to serve as a bulwark to Christendom against further encroachments from the south.

But who were the Saracens, and whence came they? The answer involves some mention of the origin of Mahometan religion. About the year of our Lord 569 there was born at Mecca one Mahomet, the son of a Christianized Jewess and her husband, Abdallah, who was an idolater. Mahomet's parents died when he was a lad, and from the age of thirteen till he was more than forty he was engaged in trade, having been instructed and brought up by his uncles, Abu Taleb and Abd-el-Motallab. While still a young man he married Kadijah, a rich widow, old enough to be his mother, and being by the marriage placed in affluence, gave himself to contemplation and to study. Every year he retired to a cave near Mecca in order to spend a month in solitude and prayer, and he announced that during these periods the angel Gabriel appeared to him and told him hidden things. Then he related how he had been taken by the angel into the presence of God, who had told him he was to be his prophet, that prophet which should unite all men under one religion, of which the one infinite God was head. The Koran, or "Book that ought to be read," contained the revelation which the angel Gabriel, as the mouthpiece of the Almighty, was supposed to have made to Mahomet.

The first to believe in Mahomet as the prophet of God was his wife Kadijah, whose example was followed by several of Mahomet's kinsmen and acquaintance; but the people were slow to accept him, and the authorities at Mecca were so scandalised at his professions, that after a short time spent in preaching to the people he was forced to fly to Yatreb, now Medina, the city, where he had many disciples. Medina became the nucleus of the prophet's power, and thither flocked the discontented and the converted to enrol themselves under his banner. Bands of armed men belonging to his sect infested the road to Mecca, hostilities broke out, and Mahomet succeeded, after several encounters in which fortune did not always favor him, in arranging for peace, one of the conditions of which was his public entry into Mecca in his capacity of prophet. From this time Mahomet became the most powerful prince in Arabia, converts by the thousand were made to his religion, and he began to turn his thoughts towards spreading his doctrines beyond the limits of his own country. For "the people of the book"—that is to say, people who claimed to have had special revelations, as the Jews and the Christians—he allowed his followers to have toleration on payment of tribute, but for idolaters of all kinds the message brought by Mahomet contained only a choice between the alternatives, Death or the Koran. Mahomet, beyond sending a few military missionary expeditions, under enthusiastic commanders, against some of the southern provinces of the Greek empire, does not appear to have done much more than to acquire for himself and his religion a complete supremacy in Arabia. All foreign rule was abolished by him, all other religious systems were forced to yield precedence to his within the borders of Arabia, and ready to do his bidding was an army of 100,000 hardy warriors, unenervated by civilization, and entirely possessed with the belief that it was their duty and their privilege to spread the knowledge of Mahomet and his teaching.

On the 8th of June, a. d. 632, the prophet died from the effects of poison, administered, it is said, by a Jewess who wished to try whether he actually was, as he asserted himself to be, the Messiah that should come into the world. Discord sprang up among the chiefs upon the question of a successor, but the supreme command over the faithful was at length accorded to Abubeker, the father of Ayesha, Mahomets favorite wife. Abubeker crushed by force of arms the efforts of rivals to depose him, assumed the title of Khaliph, or Vicar, and proceeded forthwith to enlarge the borders of the Saracenic empire. Making wise choice of commanders, chief of whom was the mighty Khaled, "the sword of God," he invaded Syria, Babylonia, and the nearest provinces of the Greek empire, and covered the Saracen arms with the laurels of victory. Damascus and Jerusalem were both attacked, and the former, though defended by a numerous garrison, and though the Emperor Heraclius sent an army of 100,000 men to relieve it, was captured on the very day that Abubeker

AN ASSORTMENT
—OF—
MASURY'S PAINTS,
In Japan, Oil, and Distemper. Also, of his
UNFADING GREEN FOR BLINDS,
And of his Graining Colors.

UNDERHILL EDGE TOOL COMPANY'S
Framing Chisels, Sleeks, Adzes
AND BENCH AXES.

Sands, Axles, Springs, and other Carriage Trimmings

SPADES, SHOVELS, HOES
And a Large Stock of
GARDEN AND FARM TOOLS.

A Very Large Assortment of
American Mortice and Rim Locks,
Nearly 40 different kinds, from $2.25 to $45 per doz.
English White Lead, Zinc White,
AMERICAN LATH NAILS Both Sizes
And
HOUSE BUILDING HARDWARE.

BELTING, FILES, LACE LEATHER, LARD OIL, and other MILL FURNISHING HARDWARE.

At the Very Lowest Prices.

PETERBORO, AUGUST 19, 1874.

THE PACIFIC RAILWAY.

The Ottawa Government is placing the Pembina Branch of the Pacific Railway under contract. This looks like work. Every reasonable effort is being to finish the surveys, and get the whole road constructed without delay. How different is the course from that pursued by the late government, who were over two years in making arrangements for surveys, and spent nearly two millions of dollars before they were able to report on even the possibility of a route. British Columbia is now beginning to believe in the certainty of its early construction, and the people are warmly in favor of the Mackenzie Government, notwithstanding the trip to England of Mr. Walken. The contract for the Pacific Telegraph line will be awarded in a few days, and direct communication be early secured across British territory from the Atlantic to the Pacific.

THE BY-LAW CARRIED.

The By-law was carried on Friday last by a majority of 104. This is hailed with delight by the friends of the scheme, and perhaps is a cause of sorrow to its opponents. We trust that there will be no cause of sorrow or regret for its passage, but that the road may be proceeded with at once. The best that could be done to protect the interests of the town was done, and we do hope that all parties will act in good faith. The county council will soon meet to submit a County By-Law, and that body will embody all necessary provisions in their By-law for the protection of the County. The two councils should act in harmony in preparing the By-law, and then the two By-laws might be made to serve as a protection to both interests. We want the road—or no money—and the time should not be so long that, if the present enterprise should fail, a new one should be delayed.

We have confidence in the energy of Mr. Fowler, and in his desire to get the railway constructed soon, but a little care in the provisions of the By-law will not damp his energy nor prevent him hurrying the work to completion.

The Huron and Quebec Railway is, assuredly, the best line yet projected, and we trust we shall not be disappointed in its early construction.

THE CIVIC HOLIDAY.

Tuesday was kept as a holiday by the citizens of the town. A large number went to Stoney Lake by the train and the steamer Chippewa. This is now the favorite summer route for holiday trips, and for excursionists. The sail from Lakefield is delightful, and the scenery charming. The accommodation on the steamer is very much improved this season, and every reasonable effort is made to make the trip pleasant and comfortable. At the hotel there is every accommodation that could be expected, and the scenery of the lakes is the most picturesque any where to be found. This will be the favorite resort of those who desire a week's recreation, pure air and good fishing.

The steamer Whistlewing took an immense crowd of excursionists down the river. The Young Canadians and Orange Young Britons had arranged for a Union Pic-Nic and Excursion down the river; they had a very large party, the steamer and scow being crowded, and a great many were left behind being too late to get on. The steamer Clyde, however, came up and took away a number after the Whistlewing had gone. Another party took themselves to Oak Orchard, and enjoyed themselves there. All the parties arrived home in good time. Not a single accident is reported. The town was very quiet during the day and evening. The day was fine, and every thing went off as cheerful and pleasant as a marriage bell.

EXAMINATION OF TEACHERS.

The Board of Examiners for the County of Wellington, believe that a grave injustice to teachers arises out of the present arrangement for Annual instead of semi-annual examinations, and have resolved to petition for an amendment of the 116th clause of the amended School Act, on the following grounds:

1st. That as engagements are generally made by Teachers for the year, and that the Teaching year commences in January, very few vacancies occur at midsummer, and therefore Teachers who obtain Certificates at the yearly Examinations as now arranged, must, in most cases, remain six months without employment.

2nd. That as only a very small fraction of the Teachers of the country are educated at the Normal School, it is a very great injustice to those educated at other institutions, as well as those preparing by private study, that they should be obliged to wait in very many cases, from January till the May quarter Examinations, and often that six months longer, without employment.

3rd. That the present arrangement will necessarily increase and tend to perpetuate the very objectionable feature of granting Permits and Interim Certificates, which tend, in a great measure, to cancel all the advantages arising from late school legislation.

4th. That in consequence of the limited accommodation at the disposal of many Boards, very serious difficulty arises in securing proper arrangements for the increased number of candidates who come forward in consequence of the change from semi-annual to annual examinations.

The reasons urged for the amendment are deserving of consideration. The evils complained of are being felt in this County, and do tend towards inducing teachers to look to other professions rather than remain in one which secures at best, a trifling remuneration, with the annoyance and loss consequent on such evils as those of which the County of Wellington Examining Board complain.

INTELLIGENT.

A man laboring under delirium tremens hanged himself on Wednesday, in the Port Hope lock-up. Dr. Dewar saw and examined the body, and gave it as his opinion that he died from "Natural Causes," and a jury brought in a verdit to that effect.

Dr. Dewar cross-examined:—Tongue not protruded; do not believe that took place from strangulation; believe him to have died from natural causes; believe proximate cause of sun stroke.

To this the *Times* pertinently adds:—

"Without for one moment disputing with the learned doctor the cause of death, it seems strange to us that a man acting as the deceased is said to have done early in the morning, as set forth in Mr. Gamble's evidence, could have died from "natural causes," unless indeed we have arrived at that period when delirium tremens is looked upon as an ordinary, instead of an extraordinary, cause of death, and we trust we are not quite so far advanced."

The jury, as intelligent as the Dr., was as ready to pass over the true cause of the man's death, as the chief constable who was not present at the examination, and deserve the censure the *Times* bestows in the following terms:—

"We regret to say Jury was about as intelligent as we usually have at Coroner's inquests, and we trust Mr. Maxwell will in future endeavor to make an improvement in this aspect. It seems as though the men selected for such occasions are the least fitted to preform their duty—few of them being able so write their name. We are aware there is a difficult in getting suitable men to serve on Juries but that could be overcome with a little more exertion on the part of the Constable entrusted by the Coroner to serve the summons."

The truth is, drunkenness has become so common, that it is looked upon by many as a natural cause of death, while doctors and juries soften it into *Congestion of the Brain*, to save appearances.

THE BEECHER-TILTON SCANDAL.

This remarkable scandal is still the great question for newspaper discussion and reports. As the investigation proceeds, the whole thing appears more and more to be a huge blackmailing scheme of Tilton, aided by Moulton, the mutual friend of both parties, but evidently a party with Tilton to get money out of the great Preacher. There is no accounting for the control those men have been able to establish over Beecher, and he appears to be easily deceived, not given to the cunning tricks and fraud of designing men. Beecher seems too to be overworked mentally, and in consequence, having moments of depression, when his passions can be worked on, and his fears unduly excited. The expressions used by him in his letters to Moulton and Tilton indicate a thoughtlessness and indifference to the use of words not to be expected in a man so distinguished as a preacher, writer, and lecturer. And this carelessness in dialectics may account for the apparent unsoundness of his teaching in times of great national excitements or disturbances.

The leading newspapers of New York are decidedly in favor of Mr. Beecher, and begin to look upon Tilton as insane, or a scoundrel. His, (Tilton's), moral philosophy is the result of his connection with the Woodhull Free Love School. Mr. Beecher intimated that his refusal to preside at one of Mrs. Woodhull's meetings has caused the attempt to injure him. But as the matter is still under investigation, the public would do well to await a full report before acquitting or condemning either party. Our sympathies would lead to favor the one or the other perhaps, but our sympathies should not lead us not to use our reason, or set aside our judgment.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

PUBLIC MEETING.

The weekly meeting of this Association was held at the Rooms on Thursday evening, the 13th instant. Sheriff Hall in the chair.

A large number of ladies were present.

After the usual opening exercies of singing, reading the Scriptures, and prayer, the Chairman stated that the meeting, which had been previously announced as a "conversational" one, would be somewhat changed in its character, owing to the absence of the leaders of the "topics conversational." An excellent programme, literary and musical, had been provided instead. Before proceeding, however, it was thought that the strains of the brass band in the adjoining building, agreeable at any other time, was an unfortunate co incidence on this occasion. A respectful request was therefore sent to Mr. Walker, the band-master, and his confreres, that they would adjourn their practice. The result was a cheerful and ready compliance.

Mr. Edmonds was first called upon to sing, "Listen, the Master Beseecheth," —words by Rev. Mortey Punshon, and music by Mr. Philip Phillips; after which followed a reading by Mr. Arthur Allen, entitled "Treasures in Heaven."

Mr. Thomas Donelly sang "Your Mission," after which the Secretary of the Association, Mr. Collins, proceeded to give a reading from the "Dominion Monthly," "Ritualism in England." The article was unduly long, and by suggestion, the reader did not finish it. It was not, however, the length of the article, but the matter it contained, which called forth opposition from a worthy and loyal member of the Church of England, who was present. He questioned the propriety of reading such selections in an Association ostensibly formed and composed of all denominations of the Christian Church. The Rev. Mr. Fish responded, in a few earnest and sincere words. He explained that the reading of the article must not be identified as the Church of England. While every loyal churchman, he deplored the efforts and progress of Ritualism in the Church of England. He was ready to see anything done to stop the segregation or disharmony in her midst. He would be sorry to see the day when the Church of England should become a thing of the past. He understood the Church of England as Cranmer, and Ridley, and Hooper, and Latimer understood it, and not as the Ritualists understand it. The effect of these words seemed to us to be satisfactory in this extreme.

Mr. Thomas Quincey sang "The Lifeboat Rescue" in a manner very gratifying to all.

Mr. A. Clegg read "No Seats in Heaven," a piece of semi-humorous character, but withal of a certain appropriateness after the discussion which had preceded.

The chorus which followed, by the Misses Bletcher and Helm, and Messrs. Quincey, Bletcher, and Elliott, was very effective. The beautiful refrain still sounds in our hearing.

Mr. Edmonds sang "The Three Calls."

Mrs. T. Donelly presided at the melodeon in all the solos. To Mr. and Mrs. Donelly is due the success of the musical part of the programme.

God bless and prosper the Young Men's Christian Association of Peterboro.—Com.

C. P. & M. R. & M. Co.

A special general meeting of the Stockholders in the Cobourg, Peterboro and Marmora Railway and Mining Company was held in the Company's office here on Wednesday at noon. There were present —Col. Chamblise, and Messrs. Schoenberger, Boswell, Stanton, Winans, Hargraft, McCallum, Harshman, J. W. Kerr, J. V. Gravsley, W. J. Rattan, Asa. A. Burnham, J. D. Armour, W. Kerr, M.P., Geo. Stephens, D. H. Minaker.

The meeting was organised by calling upon W. Hargraft, Esq., Mayor, to take the chair, and appointing F. J. Hayden, Esq., Secretary.

Col. Chamblin said that the object of the meeting was to pass a resolution authorizing the Company to apply to Parliament for permission to increase the capital of the Company either by a new issue of preferred stock or perferential bonds. The capital of the company was now all expended and a good deal that he had borrowed besides. Nothing of consequence could be realised from the sale of ore at the present time. Markets in the States were down, and many furnaces closed; but he had no doubt that the market would revive and when it did the Company would be in a position to take advantage of it, for they were now exporting their surplus stock to Cleveland, partly because they had to make room for more ore at Cobourg, and partly because lake freights were low. The Mine was working very satisfactorily indeed, ore was good and abundant, and the system of working it was greatly improved; but owing to the cause he had just mentioned he had to obtain money to keep the Mine going, from the Stockholders on the other side. Iron could now be sold in Pittsburgh readily at present rates, and he hoped and believed that those rates would improve.

In answer to a Stockholder Col. Chamblin said that there was expended up to last year over $300,000, the main items of expenditure were:

Construction	$217,000
Rolling Stock	68,000
Iron from Cobourg	100,000

Forty thousand of the above was from the ordinary revenue of the rord, and the balance was borrowed from the Amagican stock holders.

Mr. Armour said that the resolution which he had drawn to submit to the meeting was such as had been adopted by other Railway Companies for a like purpose At present the Capital Stock stood at $600,000 and that was afterwards increased by $200,000 preferential stock.

Before the extension to Peterboro and Mud Lake the amount sanctioned by the Legislature had been raised, consequently a new act would have to be passed allowing a further issue.

In answer to Mr. Kerr, Mr. Armour said that no sum was specified in the resolution Bond holders could now convert their bonds into stock

Col. Chamblin said that there was a general knowledge on the part of the shareholders of the state of affairs, and what the money was for, a long statement from himself would therefore be unnecessary.

In answer to a stock holder Mr. Armour said that any preferential stock holder would have the right to take any amount of stock that he required.

Mr. Rattan said that it might allay some anxiety on the part of the Towns people who were deeply interested, if the resolution were made to state explicitly, that the money to be raised was for completing the road from Cobourg to Mud Lake. Mr. Armour then interlined that amendment.

Col. Chamblin said that, so far as he was concerned, there was but one object in raising money. He expected $40,000 from Peterboro, but they took advantage of a default of the Company as to time, and would not pay the money; he had, therefore, to borrow $100,000 from the American stock holders, and this money, now asked for, was to recoup them, and the balance would go to complete the road. It was to the interest of all parties, the shareholders as well as the Town, that the road to Peterboro should be completed with the learst possible delay. The Shareholders had now over $400,000 of dead capital, lying between Harwood and Mud Lake, and it was their interest to make that available.

The Solicitor would now read a resolution that he had prepared relative to the mode of raising the funds required:

Moved by Mr. Winans, seconded by Mr. Stanton. That for the purpose of carrying on the business of the Company, and COMPLETING its WORKS AND RAILWAY TO MUD LAKE, the Directors are hereby authorized to increase the Capital of the Company, either by the issue of new shares of such denomination, and with such privileges as to priority and amount of dividend, or otherwise, over the present share capital of the Company and upon such terms and conditions, and at such times and in such manner as they may deem expedient, or by the issue of preferential bonds, or bonds not preferential, as they may think proper, and to apply to the Legislative Assembly of the Province of Ontario at its next session for the necessary powers for the purpose aforesaid, and for such other powers as they may deem requisite in the interest of the Company.—*Sentinel.*

THE BERTRAM—CLUXTON ELECTION.

The last number of the "Canadian Law Journal" contains judgments in three contested Elections; North Victoria, Caldwell, and North Simcoe. In the North Victoria case, Hector Cameron, Q. C., contested the seat of James Mackenzie, Q. C., M. P. An elaborate judgment of the Chief Justice of Ontario, concurred in by Vice-Chancellor Spragg and and Chief Justice Hagarty decides the question raised in West Peterboro case, namely, that a Candidates qualification may be put in at any time before the return made by the Returning Officer. Of course in the Bertram—Cluxton election it was established by evidence that no demand of a qualification was ever made on Mr. Bertram, thus making it unnecessary for him to have put in any qualification, but allowing even that there was a demand, the position taken by Mr. Dunkle that the qualification was put in in time is now sustained by the deliberate judgement of the Courts of the Land.

INQUEST AND JURORS

The Port Hope *Guide* tells of a lad lately employed on an inquest over a body half-drowned and half killed by whiskey found in the Port Hope Lock-up. The jury had agreed that the man was dead.

The next morning somebody told him that the corpse was alive; of course he laughed at the idea. Another told him the same story; he still laughed. But when others came in, one of whom had seen him walking about, another shaken hands with him, our disbelief juror began to think that there must be some thing in it, and accordingly started for the Hall to investigate for himself the cause of these things.

This time, however, he could gain no intelligence, it being too early for the guardian of the building to be about. A second visit was better timed, and seeing the Cerberus, he rushed up to him, asking "Could I spake to the corpse." The man looked at him and asked him whether he was mad or drunk. "I'm neither." said he; "but they tell me the corpse—the one that was dead last night I mane—is alsive and walkin' about, and I want to make myself certin, as one of the jury, that I didon't sit on a kive man." He was shown the body, and returned satisfied.

SENATOR MORTON AND THE "MAIL".

The *Mail* quotes from Senator Morton's speech his remarks against Reciprocity to justify its position on the most important question. The Senator is a politician, and in addressing an Indiana crowd is at home. There is no denying the fact that with the uneducated classes in the States it is popular to speak against England. The Senator says the Reciprocity with the United States, as proposed, gives Canada all the advantages of being a State in the union without any of the disadvantages. That Canadian farmers will have the full benifit of their markets without sharing any of their burdens, and that for them to build up Canada, as long as we maintain British connection, is to strengthen England, and therefore opposed the Treaty. Senator Morton is a very clever man, and aspires to the Presidency of the United States, and is setting his sails for the nomination of the Republican party for that high position at the next election. We wonder that any sensible writer should quote his speech as a reason why Canadians should oppose Reciprocity. Canada, so situated that she will have all the advantages of being a State in the American Union, and all the advantages of British connection, without any of the disadvantages of either country, will be in a most happy position. Enjoying free acess to the two best markets in the world without any of their burdens to bear, will make Canada about the best country to emigrate to on the face of the earth.

The *Mail* puts Senator Morton forward as an authority; we admit that he is, but assert that he proves (if he anything) that Reciprocity will be a great boon to Canada.—*Oshawa Reformer.*

TRAGIC AFFAIR AT GUELPH.

TWO PERSONS SHOT BY MISTAKE.

On the 13th inst. a man named John Hazle, a shoe maker, made up his mind to shoot a wayward daughter, and left home for a place he understood she resorted to. He heard she was in the Catholic cemetery, and he went there and awaited her. In the evening a young man named D. Hurley, accompanied a young woman named Mary Calver thro' the Cemetery, home. Hazle saw them, and believing them to be his daughter and some young man, fired at the young woman. The first shot took effect in Hurley's eye, when he fell; he heard two other shots fired, which were those fired at the girl, one of which entered her left cheek, and passed out just below the ear. She did not fall, however, and Hazle discharged another shot, which lodged in her neck, when she fell, and the would-be murderer dragged her alongside the track, saying in a voice of the utmost anger,

"LIE THERE AND DIE,"

and was on the point of firing at her again when the young lady, with great presence of mind, said feebly, but fortunately so that he could hear her, "I am Mary Calver," which perfectly staggered the man, and in a voice of agony exclaimed, "My God, I've made a mistake!" He then lifted the girl up, and asking her if she was able to walk, assisted her towards her father's house, all the way expressing the utmost regret for what he had done. Mr. Hurley in the meantime had managed to reach the house and was just telling the inmates of the occurrence when the girl arrived, accompanied by Hazle, who as soon as the family put in an appearance made his escape and has not since been heard of.

Some of the family immediately drove to the residence of Dr. Herod, who promptly responded to the call, and rendered all the assistance in his power.

Hazle immediately cleared out, and has not been since heard of. The evidence goes to prove that Hazle's daughter is insane, and that the insanity is hereditary. Great sympathy is felt for the innocent persons who have suffered through Hazle's folly and madness. The lives of the injured persons are not despaired of.

LATER.

Hazle was taken at Oshawa on Monday. He feels keen regret that he shot two innocent parties.

THE SCHOOL HOUSE AGAIN.

To the Editor of the Examiner.

DEAR SIR,—Please allow me space for a word in self-defence. In your last issue, your correspondent, Mr. Darling, treats me to a tirade of abuse. He is still mistaken. I am not the writer, as he supposes. I have had nothing to do with the matter since I stood before the Council, when all present heard what I had to say. I hope the writer will please tell your readers he is still mistaken. If he—Mr. Darling—will load his muzket with small shot, and fire into the woods, he may find the person he wants.

Yours, etc.,
WARREN TAYLOR.

Warsaw, Aug. 14, 1874

A Horrible Murder.

A horrible murder was committed at Tweed on Sunday. A man named Chas. Monro shot his brother's wife. He has confessed to the deed—he says—"I confess to the murder of Mrs. Morna. I did not use a knife, but shot her once in the head, and then used the butt of the pistol. I had no hard feelings towards her previous to the murder. I am sorry for the crime. I was under the influence of liquor at the time. There was a little girl in the house at the time, and I threatened to shoot her if she did not keep away. You will find the revolver over the door in my house. It is not loaded.

MARSHALL BAZAINE.

The somewhat adventurous French officer has succeeded in making his escape from the Island of Saint Marguerite. He got away on the morning of the 11th instant, and the following are the interesting particulars of the escape:

The apartment occupied by the Marshall opened upon a terrace, which was built upon a lofty and precipitous cliff overhanging the sea. A sentry was posted at the entrance, with orders to watch every movement of the prisoner. Sunday evening the Marshall walked upon the terrace with Colonel Villitte, his aide-de-camp; at 7 o'clock he retired as usual, apparently to sleep, but before daybreak he had effected his escape. He must have crossed the terrace in the dead of night, and then eluding the sentry gained the edge of the precipice, thence by means of a knotted rope he descended to the sea. He evidently slipped during the descent, and tore his hands, as the rope was found stained with blood in several places under the cliff. In a hired boat were Bazaine's wife and cousin; they received him as he reached the water and Madame Bazaine taking the oars herself rowed directly to the strange steamer which had been lying off the island since the previous evening. They reached the vessel in safety, were taken on board, and the steamer then put to sea. It is thought that they have landed at Genoa, as the steamer proceeded in that direction. The first news of the affair came to Grasse, the nearest place on the coast, and the magistrates immediately sent officers in every direction to search for the fugitive. There was a great commotion in Marseilles when the facts became known. An investigation was opened and and Col. Villitte, who was walking with the Marshall on the evening of his escape, was discovered there, and imprisoned. The Commandant of the Fort Saint Marguerite was placed under arrest, and Gen. Lewal has gone to the island to investigate the affair.

It has been ascertained, says a later despatch, that the plan for Marshall Bazaine's escape from the Island of Saint Marguerite was arranged six weeks ago, and was entirely the work of Madame Bazaine. The Marshall refused at first to fly, but finally, owing to failure to obtain a modification of his sentence, yielded. He sailed from the island in the steam yacht, Baron Bicoinzo, belonging to an Italian company. The prisoner refused to employ French vessels. He was accompanied in his flight by his wife and brother but his place of refuge is not known. Some persons say he is in Spain. The domestics at the Fort where the Marshall was imprisoned have been arrested.

THE BRITISH PARLIAMENT.

The British Parliament has been prorogued. The address from the throne states that the empire is on friendly relations, with all foreign powers.

The Queen stated that at the Brussels conference, she had stipulated that no change in recognized rules of International law would be attempted; she referred to the reciprocity Treaty, and expressed a hope that it would lead to more close and friendly commercial relations. While lamenting the condition of Spain and desiring the restoration of peace, she had maintained non-interference as most conducive to that end. A Treaty has been arranged with the Sultan of Zanzibar, providing against slave traffic. The message expresses pleasure at the reduction of taxation and at the Factory Act; by which the health of women and children will be promoted, and also at the passage of acts referring to the religious welfare of the people, and the settlement of Public Worship regulations of the Established Church. Beyond these commonplace things there is nothing remarkable in the message.

Small Pox.

We have not been able to obtain full particulars of the first appearance of the small pox this season, as we are credibly informed that there was a case not yet reported, and which was kept secret. The history of this case as soon as made public, will place the blame on thoright person.

"THE POLAR AND TROPHICAL WORLDS."

The following additional testimonials have been received of this popular work:

EDUCATION OFFICE,
Toronto, June 20, 1874.

J. W. Lyon, Esq., Publisher, Guelph:—

SIR,—"The Polar and Tropical Worlds, a description of man and nature in the Polar and Equatorial Regions of the Globe, two volumes in one, embracing also an account of the expeditions of all the Arctic explorers, from the discovery of Iceland, over a thousand years ago, to Hall's last expedition in the Northern World, together with the wonderful discoveries and adventures of Agassiz, Livingstone, Wallace and other distinguished travellers in the tropical countries. By Dr. G. Hartwig, author of "The Sea and its Living Wonders," and "The Harmonies of Nature," edited with additional chapters by Dr. A. H. Guernsey, the whole splendidly embellished with nearly two hundred beautiful illustrations, true to nature, furnished by artists in the regions to which they relate."—Published by J. W. Lyon, Guelph, Ont.

I have quoted your title page at length, and have great pleasure in saying that the upwards of 800 pages of the book more than fulfil what is indicated by the title page; the illustrations are indeed 'true to nature' and beautiful; the mechanical execution, fine paper, and binding of the work leave nothing to be desired; the narratives are lively and entertaining, the descriptions graphic, and the style terse and elegant. I have read the contents and portions of the book, and I intend, and I may be able to command the time, to peruse the whole of it.

I had scarcely expected in my day to see so superb a work issued by a publisher in a Provincial town in Canada. I congratulate you on your enterprise and wish you complete success.

I have the honor to be, Sir,
Your obedient servant,
E. RYERSON, L.L.D., D.D.

Prof. Macoun, Professor of Botany, sent by the Government on the Canada Pacific Railway Survey, to report upon the Flora of the Nor' West, says:—

I have carefully examined Dr. Hartwig's "Polar and Trophical Worlds," and am fully satisfied that no book yet published will be so beneficial to the pupils of public and High Schools as the above, from my knowledge of the requirements of the various schools in Ontario. I would advise all parents, who may feel able, to purchase the work. Accurate geographical knowledge, and a knowledge of the animal and vegetable productions of the Polar and Tropical regions, are essential to all, but more especially to the young, as by this means they may be aroused to a further study of nature.

JOHN MACOUN, M.A.,
Principal Union School, Belleville.

Bowmanville, June 5, 1874

J. W. Lyon, Sir:

Having looked through the "Polar and Tropical Worlds," and carefully examined a few chapters, I have no hesitation in recommending it as a very valuable work. It contains a mine of information upon the subjects treated of, and while it will be instructive to all, it will be especially useful to Teachers.

JOHN J. TILLEY,
Inspector of Schools, Durham Co.

POLAR AND TROPICAL WORLDS DELIVERY.

Mr. Bolton, agent for the "Polar and Tropical Worlds," is delivering his large list of orders in Gamish. Mr. Burns, agent for the Township of Faulkash, is also making his delivery of over 200 copies in that Township. We understand that the work is giving good satisfaction, which is surely something new for a subscription book. The publisher informs us that over 6,000 copies have been taken in Ontario alone the first of March and only a small part of that Provience has been canvassed. A fine book that deserves the patronage of the public.—*Guelph Mercury, July 9.*

PETERBORO', AUGUST 19th, 1874.

Libel.

The London *Herald* has been sued by hon. Leo Brown. Damages placed at $10,000.

Quick Time.

The trotting mare Goldsmith Maid, trotted at a mile at the Rochester races in 2.14¼

The Provincial Exhibition.

Will be held on September 21st and four following days, at Toronto.

Fires in Montreal.

Montreal has had two extensive fires. The last was on the 10th inst., loss $100,000.

Mr. Bridges.

The Brockville *Recorder* condemns the appointment of Mr. Bridges as Director of the Government Railways of the Dominion. The *Recorder* is right.

North Monaghan Voter's Lists.

Judge Dunnistoun will, on Saturday, the 29th inst., at his Chambers, Peterborough, try the appeals against the North Monaghan Voter's Lists for 1874.

The Victoria Rail Road.

The Haliburton County By-Law, granting $55,000 to the Victoria Rail Road, was carried on Friday last. Men are at work all along the line, cutting, clearing, and grading.

"Grip's" Last Cartoon.

Mr. McKellar demanding an answer from Rykert to the late charges made against him. Charley appears alarmed, drops his scrap book, and tremblingly says, "I'm in a nasty little fix!"

Warm, Very.

Wednesday last was the hottest day of the season. The mercury ranged as high as 97 under trees, and 102 under the shade of verandahs. The heat was sufficient to thaw out the coldest-hearted mortal in this town.

Personal.

We had the favor of a visit to our office this week of Mr. John Crair, editor and proprietor of the *News Record*, Fergus. He is looking well, and appears to enjoy himself during his holiday trip among his old friends.

Port Hope Markets.

Fall wheat, $1.26 to $1.30; spring wheat, $1.18 to $1.20; barley, $1.10 to $1.12; oats, 35 to 40 cents; butter, in rolls, 15 to 20; butter, tub, 15 to 18 cents; mutton, 7 to 9 cents.

Ashburnham.

Mrs. Patterson, wife of the late Wm. Patterson, of Ashburnham, whose dwelling was consumed by fire about two weeks since, believes the council of the village should build her another house. The parties who fired it should replace it.

The Tory Pic-Nic.

At Orillia was not graced by the presence of Lauder or Rykert. They are finding that their labours are not favorably received by their friends. M. C. was there and made a speech—not fully reported in any of the organs.

The Teachers of Ontario.

Met in Association in Toronto, last week. No very important business was transacted. Professor Goldwin Smith delivered the annual address on Education

The Reason for Tory Scandal.

"George Brown and the *Globe* invaded Dr. Sangster's private affairs." Nothing can be farther from the question than this. Dr. Sangster's family troubles were long before the public, and were only referred to as sufficient to exclude him from certain offices in connection with our educational system.

Town Council.

There was no meeting of the Town Council on Monday evening, there being no quorum. Dr. O'Sullivan tendered his resignation as medical attendant on the small pox patients, but owing to there being no quorum no action could be taken.

The Doctor on His Dignity.

An old lady at Gravenhurst lately attended the accouchement of a young woman in that village. The resident physician became disturbed, and prosecuted the old widwife for practising medicine. The offence was proven, and the woman was fined $25 and costs was the doctor a magistrate!

The Weekly News.

This new weekly, published in Minden, comes to us this week very neatly got up and very respectable in size. The reading matter is useful and entertaining, and the local news comes up to older newspapers. We wish the publishers success.

Small Pox.

There are no new cases reported. The first patients are getting better. Except those who died as reported heretofore, about fourteen of those who were taken to the hospital have been released. Mr. Cavanagh and family are better, and he has men at work cleaning and refitting his hotel. The state of those yet in the hospital is reported favorable.

Educational.

The Stratford Board of School Trustees asks the Town Council to raise them $24,000 for school buildings this year, and they intend erecting a Central School Building next year at a cost of $25,000. That Board intends to provide School accommodation for the children of the town. The population of Stratford by last census is 4,313, or about half that of this town. The current expenses of their schools is about $7,000. Bowmanville School rate for 1874 is .0030 mills in the dollar. The Town Rate for all purposes is .016 in the dollar.

War of Races.

The whites and negroes of Arkansas are in arms against each other. Austen, the Capital, was in a state of siege at last accounts. The cause of the trouble was: About three weeks ago, a Dr. Smith, was attacked on the streets, and he fired at his assailants, but missing them shot a negro girl. The negro's took Smith to hang him. but were prevented, and the two colors are now at arms.

Cobourg.

Is agitated over the removal of the Victoria College to Hamilton, and the people are talking about raising $15,000 to present to the college in money or lands to buildon. The council should grant the sum necessary, if the citizens have not the liberality. Cobourg cannot afford to lose the college now, if it can be retained.

Imperial Parliament.

Was prerogued on Friday, the 7th inst. Her Majesty hopes that the Treaty will be consumated, and lead to a closer and increased commercial intercourse. The message further says that while the condition of Spain is deeply lamented, a policy of non-interference on the part of England is considered most conducive to the restoration of peace and order in the former country.

Taxes that Will be Taxes.

We understand that the rate, this year, will be 16 mills in the dollar, or $16 for every $1,000, yet we are told that nothing can be more economically transacted than our town affairs. We believe our Councillors try to be economical, but the difficulty is not *in trying to be*, but the ratepayers are continually asking for local improvements which proves the realization of the wishes of the Council.

The Spanish Republic.

Russia has acknowledged the Spanish Republic, and France is carefully watching the frontier, that Carlists may receive no more aid from that quarter. If this be true, Germany will follow suit of Russia, and then France. England is slow to acknowledge a Republican form of Government for Spain, but even that will come, and then a brighter day shall dawn on Spanish soil—not because Republicanism is established, but because greater freedom is established.

The Bobsaygeon Bridge.

The contract for the building of this Bridge has been awarded to Mr. John Boyd of this Town. Mr. Boyd is the right man, every contract he has undertaken he has fulfilled to the satisfaction of those employing him. For pushing work through he has no equal in these Counties, and in not a single instance has fault been found with what he has done. The Counties concerned will find that he will make a good job of this Bridge too.

Results of the Ballot.

A correspondent from St. Thomas, in a communication to the *Globe* of Saturday, alludes amusingly to the result of the ballot in that polling division. He says: "At the election in January last the Conservative candidate had a majority of 113. This time it has been reduced by 95, and speculation is rife among the Conservatives concerning the unfaithful. Leading members of the party openly brand each other with being renegades, and of course it is not in the power of any one to prove to the satisfaction of his accusers that the charge is untrue. This is one of the most humorous features of the ballot, and your readers can understand that it is heartily enjoyed by the friends of the favored candidate."

The New W. M. Church.

The brick layers are at work, and are beginning to show marked progress on the new church. The windows on the north side are in their places, and very soon the windows will be placed all round. The building is so large that the progress of the workmen is not so apparent as it would be on a common undertaking. We understand that there is to be an excursion to Stoney Lake in a few days in aid of the Building Fund. This will afford an opportunity to aid the good work, and secure a little amusement and pleasure. The Building Committee require the continued sympathy and support of the whole of the members, and also of the whole community in their work, as the church will be an ornament to the town. It is expected that not less than 600 or 700 tickets will be sold for the excursion.

British Columbia.

The Ottawa *Free Press* says: "The *Mail* is in favor of the annexation of British Columbia to the United States. It quotes approvingly the remarks of the San Francisco *Alta California* on the British Columbia trouble, which are as follows: 'British Columbia must act energetically if she wishes to have any thing done. The road will have no existence except on paper until secession is threatened; and that it would be unbecoming Americans to advise. We need make no secret that we want British Columbia to join our Union.' It then encourages the British Columbia Government in its attitude of hostility to the Dominion, and does its little best to second the efforts of the California annexation-seekers." The *Mail* and several of the organs of that ilk would sign an annexation manifesto as they did in 1843, sooner than be out of power.

Suicide at Winnipeg.

A case of suicide—that of a man known as Lord Gordon—is attracting considerable attention. Gordon was a Scotsman by birth, was a smart, active youth, determined to be wealthy, and respected as far as wealth produces respect. He succeeded in winning his way to the hearts of some individuals, in the way of extensive credit for jewelry in London England—then left for New York. He tried the same game there, and succeeding, he passed westward, and continued his old way of making money until he had to leave for Manitoba. Several attempts had been made to arrest him, but they failed to secure him and his ill-gotten gains. This time a constable from Ontario appears to have secured him on a warrant purporting to be from the Police Magistrate of Toronto; but Gordon, after being made a prisoner, asked leave to go to his room to prepare for the journey, but while the constable was close by, Gordon shot himself, thus putting an end to his career, and to his hopes of enjoying his ill-gotten wealth. The way of the transgressor is hard—the end too often to be deplored.

MARRIED.

COX—OSWIN—At the Rev. C. Fish, on the Wesley on Parsonage, on Saturday, August 22nd, Mr. Jas H. Cox, of Peterborough, to Miss Hannah Oswin, of Monaghan.

MYLES—LOVES—By the same, on Monday, August 17th, Mr. Joseph Myles, of Smith, to Miss Lavina Loves, of Smith.

BY-LAW No.

A BY-LAW to aid and assist the Huron and Quebec Railway Company by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the Town of Peterborough, and to authorize the issuing of such Debentures and the levying of such a rate as will be sufficient to pay the principal and interest of such Debentures.

WHEREAS, the Municipality of the Town of Peterborough is desirous of aiding and assisting the Huron and Quebec Railway Company in the construction of their proposed Railway, by giving by way of Bonus to the said Company the sum of One Hundred Thousand Dollars in Debentures of the said Municipality bearing interest at the rate of six per cent per annum and redeemable as hereinafter mentioned.

And Whereas by an Act of the Legislative Assembly of the Province of Ontario, passed in the thirty-seventh year of the reign of Her Majesty, entitled "An Act to incorporate the Huron and Quebec Railway Company," it is enacted that any Municipal Corporation which may be interested in securing the construction of the said Railway, or through any part of which, or near which, the Railway or works of the said Company shall pass or be situated, may aid the said Company by giving money or Debentures by way of Bonus, Gift, or Loan.

And whereas, a Petition duly signed by more than twenty resident freeholds being duly qualified voters of the said Municipality, has been presented to the Council of the said Municipality expressing the desire to aid the said Railway to the extent of One Hundred Thousand Dollars aforesaid as by the said Act required.

And whereas, by an Act of the Parliament of the late Province of Canada passed in the twenty-fourth year of the reign of Her Majesty entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of debentures on the security of Town Property and for other purposes," it is enacted that certain property of the said Municipality consisting of the Town Hall, the Market Block, and the land South of Townsend Street and East of Park Street is, and the same thereby became vested in the Commissioners therein named and their successors to be called "The Commissioners of the Peterborough Town Trust," and that it should be lawful for the Mayor and Town Council of the said Town of Peterborough for the time being to cause to be issued Debentures under the seal of the said Corporation to be signed by the Mayor countersigned by the Treasurer of the said Town and by the Secretary of the said Commissioners and to the amount and for the purposes and in the manner in the said recited Act designated and that it should be lawful for the said Commissioners to issue New Debentures if required from time to time upon which to raise funds to retire outstanding Debentures and that the Town Council of the said Municipality should annually upon the application of the said Commissioners raise upon and from the rateable property of the said Town of Peterborough the Interest and Sinking Fund requisite for the ultimate redemption of the said Debentures according to the said lastly recited Act.

THE Municipality of the Town of Peterborough by the Council thereof therefore enacts as follows:

1. That it shall and may be lawful for the Municipality of the Town of Peterborough to aid and assist the Huron and Quebec Railway Company in the construction of their proposed Railway by granting by way of Bonus to the said Company Debentures of the said Municipality to the amount of One Hundred Thousand Dollars as herein provided.

2. That for the purposes aforesaid it shall and may be lawful for the Mayor and Town Council to cause to be issued Debentures of the said Municipality under the seal thereof to be signed by the Mayor and countersigned by the Treasurer of the said Town and the Secretary of the said Commissioners to the said amount of One Hundred Thousand Dollars to be payable at the office of the Treasurer of the said Town at the times following that is to say: Debentures to the amount of Twenty Thousand Dollars at the end of ten years from the issue thereof Debentures to the amount of Twenty Thousand Dollars at the end of fourteen years from the issue thereof. Debentures to the amount of Twenty Thousand Dollars at the end of Eighteen years from the issue thereof and Debentures to the amount of Twenty Thousand Dollars at the end of Twenty years from the issue thereof. The said Debentures to be for the sum of One Thousand Dollars each and to bear interest at the rate of six per cent per annum payable half yearly and to be issued and the interest and the sinking fund for the redemption thereof to be provided for in the manner and subject to the provisions of the hereinbefore recited Act consolidating the debt of the Town of Peterborough.

3 That the said Debentures shall be issued on and bear date as of the first day of July One Thousand Eight Hundred and Seventy-five and the interest thereon at the rate aforesaid to be computed from the day of the date thereof and payable on the first days of the months of January and of July in each year at the office of the Treasurer of the said Town of Peterborough.

4. That this By-law shall cease to be of any effect and no Debenture or Debentures shall be issued thereunder until the said Company and the Ontario and Quebec Railway Company shall have amalgamated or until the said the Huron and Quebec Railway Company shall have obtained control of the said Quebec and Ontario Railway Charter or until the said Huron and Quebec Railway Company shall have entered into a good sufficient and binding contract with the said Ontario and Quebec Railway Company securing running powers over the said Ontario and Quebec Railway with such stipulations and additions as will enable the said Huron and Quebec Railway Company to carry out the stipulations and provisions of this By-law and until the said Huron and Quebec Railway Company shall have executed and delivered to the Municipality of the Town of Peterborough their sufficient Bond to be approved by the Town Council of the said Town and in such a penalty as the said Town Council may seem meet conditioned for the maintainance in the Town of Peterborough of the Chief Workshops in connection with the maintainance of the said Road for the entire of the said Railway between Ottawa and Toronto and to have and keep constantly employed therein not less than One Hundred Men within Three years from the commencement of the operation of the said Road and conditioned also that the charges for freight upon the said Railway between the City of Montreal and the Town of Peterborough shall not any time exceed the charges for freight thereon between the City of Montreal and the City of Toronto or any point westerly of the City of Toronto and shall not exceed at any time the charge for freight on the Grand Trunk Railway between the City of Montreal and the Town of Cobourg or any point west of that and that the charges for freight between the Town of Peterborough and the City of Toronto shall not exceed at any time the charges for freight on the Grand Trunk Railway between the Town of Cobourg and the City of Toronto.

5. That the said Debentures shall be handed over to the Trustees to be appointed under the first recited Act upon and only upon and at the times and conditions following that is to say: Debentures to the amount of Twenty-five Thousand Dollars when and so soon as the grading shall have been completed on one half of that portion of the Line of the proposed Railway (such line to be the most direct route between the Town of Peterborough and the City of Ottawa) between the Town of Peterborough and the Eastern boundary of the County of Peterborough to the further sum of Twenty-five Thousand Dollars when the whole of such portion of the said proposed Railway shall have been completely graded and to the further amount of Fifty Thousand Dollars when and so soon as the said Road shall have been completed and in running order from the City of Ottawa to the City of Toronto.

Provided the same shall be so completed and in running order in three years from the First day of July One Thousand Eight Hundred and Seventy Four.

6. That interest shall not be computed on or payable by the said Town or such debentures until they shall have been handed over as aforesaid but shall commence to bear interest at the time or times at which they shall be so handed over.

7. This By-law shall be of no force or effect and no debentures shall be issued thereunder unless the construction of the said proposed Railway as to that part thereof within the County of Peterborough shall have been actually and *Bona Fide* commenced on or before the first day of July One Thousand Eight Hundred and Seventy Five, and thereupon continuously prosecuted.

8. That this By-law shall be of no force or effect and no Debenture or Debentures shall be issued thereunder unless before the day hereinbefore appointed for the issuing of said Debentures, the Municipality of the County of Peterborough shall have duly passed and confirmed a By-law granting aid by way of Bonus as to the said Company for the construction of the said Railway to the amount of One Hundred and Fifty Thousand Dollars.

9. Provided that this By-law shall be of no force or effect and no Debenture or Debentures shall be thereunder issued until the same shall have been approved and made valid as all and singular the provisions and stipulations therein by an act of the Legislature of Ontario notwithstanding the provisions of the Act incorporating the said Railway Company.

10. That the votes of the Electors of the said Municipality shall be taken on this By-law on the

Fourteenth day of August next

at the polling places in each of the Four Wards of the said Town respectively appointed for the holding of the Municipal Elections in January last, That the polling places shall be open at the hour of nine o'clock in the morning and close at the hour of five o'clock of the afternoon of the same day That Joseph Lundy shall be Returning Officer for Ward No 1 That James Edwards shall be Returning Officer for Ward No. 2 That John Irwin shall be Returning Officer for Ward No. 3 and that William Lee shall be Returning Officer for Ward No. 4 for the taking of such votes.

NOTICE.

The above is a true copy of a proposed By-law which will be taken into consideration by the Council after one month from the first Publication in the *Examiner Newspaper* which said publication is

The 23rd day of July Instant

And that at the hour day and place therein fixed for taking the votes of the Electors the Polls will be held.

J. EDWARDS,
Town Clerk.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' Eclectric Oil, purely a preparation of six of some of the best Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small ci Oils which they may contain.

S. N. THOMAS, Phelps, N. Y.
And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

Note.—Eclectric—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.
Job Moses' Peridocal Pills.

This invaluble medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, joints and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious choic, cholera infantum dysentary, &c.

Price 25 cents per bottle.

This remedy has been used in some of the worst forms of Scrofula, Salt Rheum and Diseases of the Skin, with entire success. Many cases have been cured by an outward application only. Hundreds of letters and certificates are now in the proprietor's possession, which can be seen on application.

N. B.—The medicine is entirely vegetable it its composition.

In all cases of failure, dealers are requested to refund the money. Buy of none who do not warrant it, as all dealers receive back their money from the proprietor.

Price $1 per Bottle; Six Bottles, $5.

PERRY DAVIS & SON, General Agents Montreal.

PROSTATION, resulting from the effects of the intense heat of the summer months, is dr-isposing cause of so many of the diseases peculiar to hot weather. The stomach partaking of the loss of vitality pervading the whole system, is unable to complete digestion the food passing undissolved through the bowels, irritates the lining membrane, and Diarrhoea, Dysentary, Cholera Morbus, and when prevailing Asiatic Cholera, may be excited. Attention to diet, moderate exercise, bathing, and regular habits must be observed. To maintain the vital forces and prevent lassitude and exhaustion. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is unquestionably reliable, as it invigorates the digestive organs, and supplies material for generating nerve force.

The Council of the Corporation of the Township of Otonabee intend, at a meeting to be held on Monday, the 23rd day of August, next, to pass a By-Law to establish the following lines of Road in said Township, viz.: Commencing on the West side of the allowance for Road between the 12th and 13th Concessions of said Township, one chain Southerly from the line between Lots Nos. 12 and 13, thence westerly parallel with the Northern limit of Lot No. 12 in the 12th Concession aforesaid 21 chains and 50 links more or less to the centre thereof, thence Northerly along the line between the East and West halves thereof 1 chain and 7 links more or less to within 50 links of the line between the West halves of Lots Nos. 12 and 13 in said Concession, thence Westerly parallel with said line 21 chains and 50 links more or less to the East side of the allowance for road between the 12th and 13th Concessions. The described line to be the south side of the Road and the road to be 66 feet wide; also commencing on the west side of the allowance for Road between the 16th and 17th Concessions thereof, on the distance of 2 chains and 25 links Northerly from the line between lots 12 and 13 in the 16th Concession thence Westerly 21 chains and 50 links more or less to a point on the East side of the allowance for Road between the 16th and 17th Concessions distant 25 chains Northerly from the line between lots 12 and 13 aforesaid, the described line to be the centre of the Road and the Road to be 66 feet wide; also commencing at the South East angle of Lot No. 12 in the 16th Concession thence; thence Westerly along the line between lots N

Choice Poetry

MY OLD KENTUCK HOME.

The sun shines bright in our old Kentucky home;
'Tis summer, the darkies are gay;
The corn top's ripe, and the meadow's in the bloom,
While the birds make music all the day;
The young folks roll on the little cabin floor
All merry, all happy, all bright;
By'm-bye hard times comes a knocking at the door,
Then my old Kentucky home, good night!

Weep no more, my lady; O weep no more to-day!
We will sing one song for my old Kentucky home
For old Kentucky home far away.

They hunt no more for the possum and the coon
On the meadow, the hill and the shore;
They sing no more by the glimmer of the moon,
On the bench by the old cabin door;
The day goes by, like a shadow o'er the heart,
With sorrow where all was delight;
The time has come when the darkies have to part,
Then my old Kentucky home, good night!

Weep no more my lady, &c.

The head must bow, and the back will have to bend,
Wherever the darkey may go;
A few more days, and the trouble all will end,
In the field where the sugar cane grow;
A few more days to take the weary load,
No matter it will never be light;
A few more days till we totter on the road,
Then, my old Kentuck home, good night!

Weep no more my lady, &c.

Mr. MILLS, M. P. ON RECIPROCITY.

We clip the following from the St. Thomas *Home Journal's* report of a recent address of Mr. Mills in East Elgin:

Coming to the subject of Reciprocity he said we were told that it would be a very unwise thing for Canada to adopt this Treaty. We were also told that Canada had instituted the negotiations and thereby had humbled herself before the United States. He denied that the Government of this country had taken the first step, but though that were true there was nothing wrong in it. He was not aware that Canada would suffer any in reputation or prestige even if the *statement* was true; but he did know that the first advances came from Washington. They were made informally in February last by Secretary Fish to a prominent member of the Canadian Legislature, who on his return made them known to the Government; and the proposition being made only informally it did not appear in the official records. We were told that the treaty was an unfair one to this country, but that of 1854 does not contain an article that is not in the proposed treaty, while there are many things in the new one which were not in the old. He could hardly imagine a more unjustifiable thing than the op[illegible] ... for the purpose of ... with those of the United States, and why could they [illegible] furnish in this country. [illegible] in this country could suffer ... coals getting furniture ... The fact is that our manufacturers ... supply the United States ... than they do their own ... We are competing ... with those in foreign ... and this was the fear of competing with them a dozen years ago. There was a party in the country who asked us to adopt a retaliatory policy. Why should we? Under our existing system the commerce of the country has nearly doubled within the past six years, be one of the few commercial intercourse our people have enjoyed. But we ... told by Mr. Jenkins and his friends that the country would lose $4,000,000 a year of revenue on the duty on cotton and woolen goods. This was a very hard statement for any man to make. The cotton goods in the list form but a very small portion of the goods purchased in this country; while cassimeres, doeskins, broadcloths, &c., are not in the list, but tweed of wool solely. He then read from the trade and navigation returns to prove that the cotton and woolen goods on the list make up but a small fraction of the total value of those goods imported from Great Britain and the United States.

Mr. BEECHER'S FORTUNE.

Attention is naturally called to the ministerial and literary life of Mr. Beecher, and to the probable profit of his work. He came, a young man and poor, to Brooklyn more than twenty-five years ago and was glad to preach for a small salary. He made Plymouth church. It is as much his creation as any child of his brain. There was a strong congregational sentiment and feeling in Brooklyn, and this naturally gathered around the young and eloquent preacher. He "shook" creeds and forms. He condemned the trite ecclesiastical utterances which the ordinary pulpit mouthed, and he set up standards of his own. His was emphatically a "broad church." It believed more in heaven than in hell. It advocated freedom and temperance, and spread a table at which widely discordant views had equal hospitality. *So as the church grew*, and Mr. Beecher became its central figure, his [illegible] from a source he earns not less than $10,000. His ordinary literary work should bring him in $5,000 a year, and out of his valuable newspaper the *Christian Union*, he was drawing no less than $25,000. These sums aggregate $65,000, to which may be added a magazine fee and the numberless pecuniaries that fall into the lap of the popular preacher. Mr. Beecher's works are the novel of "Norwood," the "Star Papers" for many years enjoying an immense popularity, the "Lectures to Young Men," the "Yale Lectures," these volumes, "Fruits Flowers and Parables," and "The Life of Christ," of which one volume has been published and sold to the amount of 20,000 copies. It would have been sold more largely, had the second volume been sure of publication within a reasonable period. But Mr. Beecher sends his work out piece-meal and cannot be hurried. The second volume is two-thirds printed. The rest abides the event. Mr. Beecher was for years editor of the *Independent* on a large salary. He now writes books for J. B. Ford & Co., edits their paper—the *Christian Union*—and supplies them the sermons which are printed in the "Plymouth Pulpit." From all these sources—the industry of a busy life—Mr. Beecher ought to have made a fortune. But he is reported to be careless of money matters and not sharp in looking after the profits of his works, which go to the publishers. His writings are in great demand.

SHOCKING ACCIDENT.

A very sad affair took place yesterday afternoon about 20 minutes past [illegible] at the new Bishop's Cathedral [illegible] course. The masons [illegible] the tower at the south-[illegible] the edifice, and were laying the courses at a height of 80 feet above the ground, and were placing the large stones on the east side, which were laid so as to overhang the stone-work about two or three feet, the key-stone had been hoisted up, and the men above, six in number, were busily employed getting it into its final resting place, when one of them, Lamothe, a stout man, weighing 180 lbs., leaned over on the next stone and began prizing the one they were working at with a crowbar. He thought it appears [illegible] stone he leaned upon, and suddenly, to the horror of all, the stone fell out and down he went with it, rolling over and over in the air, followed by all the stone on that side of the cornice. As they left the east side of the tower, or the one against the church, they fell into the building with a loud crash. Poor Lamothe struck violently on the back of his head on a sharp rock, his fest being wedged in by the falling masonry, and was instantly killed. Mr. Perrault, the contractor, who had been aiding in the setting of the stone by holding a guy down below, seeing the accident happen, ran out from the aisle into the open space of the church, and was saved; a laborer named Seguin was with him, standing as a spectator, and when he saw what had happened, ran off in opposite direction, through an archway to the outside of the building altogether, where however, he was just in time to be crushed to death under an immense stone, the last one of the cornice which fell. His face and head were fearfully distorted. He also, of course, died instantaneously. Work was stopped at once, and Father Leblanc and others of the clergy were immediately summoned from the Palace, who, when they had arrived, said prayers over the two unfortunate men, who had, five minutes before that, been alive and well.

An inquest was held on their bodies at the scene of the accident, by the Coroner about seven o'clock. A verdict of "Accidental Death" was returned after a short deliberation. Of course no blame was attached to any one. Lamothe was a respected resident of St. Jean Baptiste village, and leaves a wife and family. Venant Seguin, the man killed by the stone falling, was a laborer, aged 24, unmarried, employed at Redpath's Sugar Refinery; but who feeling unwell yesterday had not gone to work. He had strolled up to the new church to watch the masons at work, when his life was thus suddenly snuffed out. He resided at the Tanneries. It is stated that Mr. Perrault had warned Lamothe of the careless way in which he was working, and that he would remove him from his post if he was not more careful. Lamothe replied that he was all right, and did not appear to take heed to the warning. A great number of the stones of the cornice were smashed to pieces by the fall. *Witness.*

Mr. GLADSTONE.

Mr. Gladstone has not sulked in his tent very long. He has reappeared with a new bid for popularity—and yet not precisely a new one, for it has been anticipated. On the last occasion when Mr. Gladstone lost his place, he came out with his proposal to disestablish the Protestant Church in Ireland, and thus secured at one *coup* the votes of the Roman Catholics and the Dissenters. Such a combination necessarily carried all before it and Mr. Gladstone is apparently bent on trying the tactics again. He has brought forward six resolutions in the House of Commons which, the *Times* says, would render the continued existence of the Church of England almost impossible. "There is no mincing the matter; the speech is about the most destructive ever made by a man whose words are really weapons for good or for ill. It amounts to an elaborate and impassioned argument for the repeal of the Act of Uniformity." And the *Times* (July 11) goes on to say: "Church people must take their course. They may, if they please, take Mr. Gladstone once more for their prophet and lawgiver. If they do, they can hardly be said to follow blindly, for they know whither he has led one Church, and they may guess where a policy, at present without any single positive landmark, is likely to land another. Here, then opens another phase of what Mr. Gladstone's friends call his "intellectual development," and the only question is how long will it take Mr. Gladstone to complete his growth and to announce that the "hour has come" for disestablishing the National Church! —N. Y. *Times.*

Mr. BEECHER.

Judging by the newspapers of this city Mr. Beecher's is the popular side. Among the journals here the *Tribune*, the *Express*, and the *Star* zealously and boldly advocate his innocence. The *World* does the same thing intellectually, and denounces Tilton philologically. These papers are convinced and perfectly confident that the thing will end in his complete acquittal and restoration to his former great position as a Christian teacher and preacher. The *Journal of Commerce* and the *Evening post* are silent in the case, not debating it, and awaiting the result of the investigation. The *Times* is independent, discussing with much ability the facts [illegible] as they are disclosed, and favoring neither party. The *Herald* was at first for Beecher, but is now rather an advocate of Tilton. In the country at large the newspapers are divided much as usual. Some of the most powerful are in favor of Mr. Beecher, and some, perhaps more, are against him; though even those that are for him say that his letters must be explained. But there is no question that prevailing attitude is one of hope that he may come out of the trial purified and with spotless robes.—*Sun.*

In a Southwestern town recently, a man fell into a ditch on the outskirts. A pedestrian helped him to his feet, and after the thing had been accomplished, our hero said: "All right, hic, —I'll vote for you." The stranger looked at him doubtfully, and wished to know what for. "Wha' office ye runnin, for?" "It None at all," was the answer. "Not a candidate?" "No; why?" "Why—hic—why? 'Cause I don't know as any man'd—hic—help brother as you did, 'thout bein' a candidate."

Give us the peripatetic circus manager for sensational novelties in advertising. His latest exploit of prominence has been to announce that up in Wisconsin, his mammoth, golden, Semiramisian band-waggon ran over and killed "Black Eagle, the last chief of the once powerful Iroquis tribe."

If thy enemy wrong thee, buy each of his children a drum.

LOST!

On Sunday night, the 12th of July instant, within five miles of Peterboro, on the Peterboro and Lake field road, a BLACK LEATHER TRAVELLING SATCHEL, containing a pair of hair brushes, a copy of J. S. Mills' "Political Economy," (name of owner in same) and one or two other articles. The finder will be liberally rewarded by leaving the above at the office of the owner of the book, or at the Peterboro P. O.

Peterboro, July 29, 1874. 31-tf.

HOUSE TO RENT.

This new brick dwelling house, lately occupied by me, in the Village of Ashburnham, is to rent. It is in excellent order. Possession will be given about the 1st of October. Apply to GEORGE BROWN.

Ashburnham, July 24th, 1874. 31-tf.

Johnson's Force Pump and Fire Extinguisher.

For cheapness, durability, ease of working, and general efficiency, the above lines are not excelled by surpassed. It can be used as a PORCELAIN FIRE EXTINGUISHER, a splendid article for washing Carriages or Windows and by changing the nozzle it can be used by a Lady or a Child to water a flower bed in the gentlest and most beautiful manner. Only a bucket or tub of water required. No chemicals used. It is claimed for this Extinguisher that the stream of water thrown from it appears to be fully as efficient in the results as the acid thrown from a Babcock Extinguisher. Every house should have one. The backfiring of a fire frequently occurs in such a place that it cannot be reached by water thrown from a pail or dipper. This pump will throw a fair stream of water 45 ft. horizontally, or will drench a wall to the height of 35 ft.

ROBERT A. BROWN, Agent.

Office in rear of Mathias & Reid's Book Store, George Street, Peterborough, where this article can be seen and inspected. These machines can be seen at the stores of Thomas Lacon and Benny Best.

PRICE $6.00.

SHORTLY & HASLEHURST

Successors to T. Donnelly & Co.

July 8 1874, 22-tf.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative power in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins: cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

SHINGLE

to order on Short Notice.

Car Stuff Cut to Order or by Tender.

Satisfaction in all work guaranteed equal to any Gang Lumber cut on the Otonabee Waters.

W. P. CHASE

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is more universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures their neighbors and friends, and all know that what it does cures it does always and that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and correcting wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box for the following complaints, which these *Pills* rapidly cure:

For **Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers,** they should be occasionally taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery or Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence, though unsurpassed advantageous where no serious derangement exists. One who feels dull, debility, weak, often finds that a dose of these *Pills* makes him feel decidedly different, by their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., *Practical Chemists,*
LOWELL, MASS., U. S. A.

NORTHROP & LYMAN,
Toronto,
General Agents for Ontario.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Invetterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by its use. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination in the blood they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, the unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of some fatal disease, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA, St. Anthony's Fire, Tetter or Erysipelas, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pits, Epilepsy, Neuralgia*, and the various Leucorrhœal affections of the female and nervous system.

Scrofulous Consumption, and other *Pulmonary Diseases* are combated successfully by the use of this *Sarsaparilla*, as thousands can testify. Though it will even relieve confirmed cases of Consumption, Tubercular Disease, Chronic Bronchitis, and Asthma, yet in such cases it can only be relied on to subdue the disease and strengthen the system, so that it may throw off the disease. For this purpose, a fair trial should be given.

PREPARED BY DR. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.

Sold by all Druggists and Dealers in Medicine Everywhere.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed, against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.

SEVERAL
EXCELLENT FARMS FOR SALE.
PARCEL 1.
The present homestead of the undersigned in the
TOWNSHIP OF HARVEY,
consisting of Lots 10 and 11 in the 11 concession, 313 acres. There are a comfortable Log Dwelling House, a Frame Barn 60 x 40, and other out buildings on it. The farm is one of the best for Dairy purposes. It is well watered; the soil is sandy loam, and there are 50 acres in Fall Wheat besides lasting, there is an orchard of 300 to 40 trees commencing to bear.
PARCEL 2.
No 13, 14, and 15 in the same concession, containing 450 acres. On these lots there is a large Frame barn 80 x 60. 30 acres are cleared and in meadow. The soil is sandy loam, and the uncleared part is in good standing hardwood timber, pine, and cedar. A commend passes the property daily for Bobcaygeon and Lots 7.
PARCEL 3.
West half of Lot 10 in 10th concession, and west half of East half of 12 in the same concessions, containing 200 acres. This parcel is all well timbered with Hard Wood and Cedar. The soil is good and well watered.
Also an interest in Lot 9 in the 10th concession of Harvey.
Terms Easy and Title Indisputable.
Full particulars will be given on application at Dumbleton Bros. & Bell, Solicitors, Peterboro, or to the proprietor on the premises, Gilmour's Ridge P. O.
WM. WOOD.
Harvey, April 29, 1874. 19-tf

MONEY TO LOAN,
on the security of Real Estate.
JOHN BURNHAM, Solicitor
Peterboro, Aug. 3, 1874. 32-tf

Select Poetry.

A LITTLE TALK WITH JESUS.

A little talk with Jesus, how it smoothes the angry pain,
How it seems to help me onward, when I faint beneath my load;
When my heart is crushed with sorrow, and my eyes with tears are dim,
There's nought can hold me comforted, like a little talk with Him.

I tell Him I am weary, and I fain would be at rest,
That I'm daily, hourly, longing for a home up in the heaven:
And he answers me so sweetly, in tones of tenderest love,
I am coming soon to take thee, to my happy home above.

Ah! this is what I am wanting, His lovely face to see,
And I'm not afraid to say it, I know He's wanting me;
He gave his life a ransom, to make me all His own,
And He can't forget His promise, to me His purchased one.

I know the way is dreary, to yonder far off clime,
But a little talk with Jesus, will while away the time;
And yet the more I know Him, and all his love explore,
The only sets me longing, to know Him more and more.

I cannot live without Him! nor would I if I could!
He is my daily provision, my medicine, and my food;
He's altogether lovely, none can with Him compare,
The chief among ten thousand, the fairest of the fair.

I often feel impatient, and mourn a life long delay,
I never can be satisfied, while He remains away;
But we shall not long be parted, for I know He'll quickly come,
And we shall dwell together, 'a that happy, happy, home,

So I'll wait a little longer, till His appointed time,
And glory in the knowledge that such a hope is mine;
Then in my Father's dwelling, where many mansions be,
I'll sweetly talk with Jesus, and He shall talk with me.

THE HUNGERFORD TRAGEDY.

FURTHER PARTICULARS—ARREST.

(*From the Belleville Intelligencer.*)

Yesterday, (Aug. 17), we gave a short account of a frightful tragedy which took place at the residence of Francis Maurland, on lot No. 14, in the 11th concession of Hungerford, and to-day give the full particulars of this, the most revolting crime that ever disgraced our country.

The Maurlands are one of the oldest French families in the township, and very much respected, particularly Mr. Francis Maurland and his family. The murderer, his brother Charles, however, is described by those best able to speak, as a man of a very violent temper, and has a peculiar hatred for all women; a dislike which he loses no opportunity to exhibit both in language and conduct, never having been known to utter a kind or respectful word in reference to them. In short, he is described as a regular "woman-hater." It is this feeling, no doubt, that led to the misunderstandings and difficulties that have existed between him and his sister-in-law, Mrs. Francis Maurland, with whom he lived most of the time, and which has terminated so tragically.

From the evidence taken at the inquest, and from what we heard on the spot, it appears that the deceased and Charles Maurland quarrelled about three years ago, when the deceased put him out of the house and forbad his return. He remained away for some time, but afterwards would occasionally visit the house to see his brother on business, but never became friendly with his wife, deceased. Last spring he again returned to his brothers, and has resided there since, though not on friendly terms with Mrs. Maurland; and occasionally when Charles Maurland was ill-tempered he would use profane and improper language toward her, so that she urged her husband to send him away, which was to be done after the crops were harvested. On Sunday, the 16th, he returned to the house of his brother and asked for his dinner, which Mrs. Maurland, who had laid down, rose and got for him. At this time there were in the house but two of the children, a boy fourteen years of age, and a little girl between five and six years of age. The child is very intelligent for one of her age, and told her story with a good deal of calmness and precision; she was the only one present during the tragedy, and tells the following story:

Her mother, after getting her uncles dinner ready, told her brother to go for the cows; after he had been gone a short time she left the house, as the child thought, to call back her brother, she did not know why; had heard no cross words between her mother and uncle while in the house; when her mother went out she was followed by her uncle Charley; after which she heard a gun shot, and a scream from her mother. She went out to see what was the matter, and found her mother bleeding from the forehead. Childlike she took her mother by the hand to lead her into the house, when her uncle followed them, and a tussle took place between her mother and uncle, but she did not know whether her mother was trying to put him out or not, but thought she was; her uncle got her mother on the floor and began beating her, when the child went out to call her brother.

The evidence of Dr. Hudson will give the reader a faint idea of how the poor woman was butchered by this fiend in human shape. There are many theories as to what took place, which will never be cleared up unless the murderer makes a full confession.

From the situation of the house and the appearance of the surroundings, there can be no doubt but what some words must have passed between deceased and Charles Maurland while at dinner, or immediately after, though the child may not have noticed it; and that Mrs. Maurland had gone to call her son, when the murderer had followed and shot her; and that he returned to the house, when a hand-to-hand encounter took place, and he being a strong, athletic man, would have no difficulty in knocking her down, when he must have fired a number of shots at her, as the ball to which Dr. Hudson alludes could only have come from close range through the head of the deceased, and the remainder through the body, as it entered the back of the head and passed through the body. In addition to the ball that passed through the head, there were a number of shots in the body, and the wounds, showing that although were made to stab her with a common dinner knife, round at the end and somewhat blunt, which knife was found on the floor, all bloody. Failing to run the knife into her, the brute must have attempted to cut her throat, for the neck bore marks of the cut of a dull knife, running from the wind-pipe up to the ear, which also was cut. There were also marks of the forehead having been fearfully bruised and beaten with a hard and blunt instrument, no doubt the leg of a box stove which stood near where the baby lay when found. The leg was out of the stove, and the distinct shape of the flower which ornamented it was left on the unfortunate woman's forehead by the force of the blow which had been given. A more frightful sight it has never been our lot to witness.

Another theory is that while eating he became enraged at something, and attempted to kill her with the knife—then, failing in this, he followed her out when she ran to call her son, then shot her, and beat her to death. No matter what the origin of the difficulty, the brutality of the whole thing is far beyond conception.
